UQ is located in the leafy suburb of St Lucia, one of Brisbane’s most charming and energetic suburbs.

The University of Queensland was established in 1909 and was originally located in Old Government House with just 83 students.

Today the St Lucia campus covers 114 hectares and is comprised of historic architecture, museums, galleries, lecture theatres, and first class sporting and social facilities. It is also bustling with restaurants, shops and one of a kind student experiences.

Only seven kilometres from Brisbane’s city centre and easily accessible by public transport, UQ St Lucia offers a wide range of programs, a beautiful campus environment and world-class facilities.

UQ has attracted generations of scholars, intellectuals and researchers and remains a haven for knowledge learning and innovation.

We have created a self-guided tour for you to discover the campus and ensure you see some of its key locations. So let’s get started to see what the UQ student experience is all about!

As you can see it’s a beautiful campus with much to offer, so feel free to jump on and off the route to visit other sites whenever you like.

Your start and finish point is the Student Centre front entrance, JD Story Building (61), Ground Floor.

Keep your smart phone close by – QR Codes have been provided on your map numbered in order. Simply scan to read interesting information about significant sites while following the tour route.

It’s great to have you here, enjoy your tour and thanks for visiting The University of Queensland!

Public transport and parking information

Getting to the UQ St Lucia campus has never been easier!

To reduce parking and traffic pressures, the University encourages the use of public transport, walking and cycling as alternatives to driving to UQ.

Translink: Download the app or use the website to access the Journey Planner to get to UQ St Lucia quickly and conveniently via bus, train or ferry.

How to connect to free Wifi

Once you are on the St Lucia campus simply go to settings, followed by Wifi, then look for the network called ‘Visitor-UQConnect’ on your device.

How to read a QR code?

A QR code is used as a short cut to link content online using your phones camera. Newer versions of smart phones allow you to hover your camera over the QR code symbol to access informative content.

QR code readers are available via the App Store or Google Play Store.
