Welcome to UQ

Studying at The University of Queensland can be a transformational experience.

It’s an opportunity to meet people who will become lifelong friends, exchange ideas with other bright minds, and learn from Australia’s most awarded teachers.

You will gain knowledge and skills that will help you excel, no matter where your life and career takes you in a rapidly changing world. It’s an investment in your future.

When you join us, you’ll be studying alongside like-minded students who come from all over Australia and around the world to study here. The curiosity, creativity and entrepreneurial spirit of our students are part of what makes employers seek out UQ graduates.

As a global top 50 university, UQ has championed creative thinking for more than 100 years to solve problems facing humanity. We don’t just teach the latest research: our research pioneers are industry leaders who discover the latest breakthroughs, and make a positive difference in people’s lives around the world.

UQ is passionate about enriching its entrepreneurial ecosystem and creating leaders of the future. We support entrepreneurs at every stage of their journey, working alongside staff and alumni, and connecting with a wide range of global experts.

University isn’t just about study though – you’ll also have fun here. UQ is renowned for our vibrant campus culture, our clubs and societies and our world-class sporting facilities, where you’ll truly enjoy your recreation time while making friends for life.

No matter what your reason for being here, you are sure to enjoy UQ’s long-standing traditions, while creating some new ones of your own.

I look forward to hearing about the positive impact you create in your time with us and beyond.

100% of broad research fields above world standard
Excellence in Research for Australia, 2018

280,000 graduates, from 170 countries
Pioneering change

World’s first university to be powered by 100% renewable energy

100% of our research fields are above world standard. (Excellence in Research for Australia, 2018)

Our Institute for Social Science Research analyses society’s ‘big’ issues including social disadvantage, employment, education, sustainability, social wellbeing, health and housing.

UQ researchers are named among the world’s most influential. 34 UQ researchers have been named in the prestigious 2019 Highly Cited Researchers List.

419 awards worth over $290 million
UQ is the number one recipient of Australian Research Council fellowships and Awards in Australia.

World’s first university to be powered by 100% renewable energy
Innovations for the world

We are a global research leader in biosciences, nanotechnology, engineering, sustainable development and social science. Our innovations are impacting millions of people around the world.

- **Molecular clamp technology**: UQ’s next generation vaccine technology will be critical in addressing emerging illnesses and pandemic threats in the future.
- **Gardasil® cervical cancer vaccine**: More than 270 million doses administered in 130 countries, saving an estimated 120,000 lives annually.
- **Conservation**: software developed by UQ has enhanced conservation planning globally in areas like the Great Barrier Reef and the Galapagos Islands.
- **Triple P Positive Parenting Program**: helps millions of children and families in 28 countries and 22 languages.
- **MRI machines**: UQ technology is used in the majority of the world’s MRI machines, facilitating the production of faster and more accurate images, and therefore improving diagnostic quality.
- **GroundProbe**: mine-safety technology that is used by some of the world’s largest mining companies.
- **Food security**: UQ works with the Queensland Government to enhance the drought tolerance of sorghum, an important cereal in sub-Saharan Africa.
- **Nanopatch**: a revolutionary needle-free method of delivering vaccines being developed in the UQ spin-out company, Vaxxas.
- **Latch-On**: gives the gift of literacy to people with intellectual disability in Australia and across the globe.
- **Water use**: our technology has changed practices in global water and sewerage utilities, saving hundreds of millions of dollars.

Pioneering your future

We bring the latest ideas and research into the classroom to place you at the frontier of knowledge. You will learn from world-renowned researchers. Our international reputation means we attract some of the best minds in the world to the University – including presidents, prime ministers, international authors and ground-breaking researchers – who will inspire you to break through barriers.

World-class facilities

Our eight globally recognised research institutes are home to more than 1500 specialists continuing UQ’s tradition of research leadership with the latest in equipment and instrumentation, laboratories, scientific services and training, and support. Additionally, we have research centres located throughout Queensland, taking advantage of the state’s diverse ecosystems and climate.

3MT® (Three Minute Thesis)

Founded by UQ, 3MT has been adopted by more than 800 universities in 86 countries around the world. The 3MT competition sees our research students pitching their exciting ideas to industry leaders, alumni and global leaders in three-minute presentations. Each year, winners are awarded a range of prizes including research travel grants.

Summer and Winter Research Programs

Enhance your employability, extend your knowledge of an area of interest, and develop your analytical, critical thinking and communication skills by participating in the Summer or Winter Research Program. Successful applicants are eligible for funding to support their participation in the program.
Best place to learn in Australia
We are committed to your learning and enabling you to become a creative, adaptive and innovative problem-solver in today’s workplace. In the most recent Australia-wide survey designed to assess how satisfied international students were with their university, we received above 88 per cent satisfaction in the following areas:
- Overall student satisfaction
- Good teachers
- Quality lectures
- Performance feedback
- Managing research
- Topic selection
- Program content
- Learning support
- Virtual learning
- Laboratories
- Learning spaces.
Source: International Student Barometer, 2018

Teaching for the future
Our courses are designed in consultation with learning design teams to maximise your employability when you graduate. Our lecturers incorporate student feedback into their decision-making and planning processes to ensure course material is exciting, fresh and transformative. We offer Massive Open Online Courses (MOOCs), MicroMasters®, and UQ’s first fully online master’s program on edX, one of the most reputable online course platforms in the world, so you can expand your networks, gain new skills and follow your curiosity. edx.org/school/uqx

Practical learning
You will apply knowledge in practical settings. From our marine research station at Heron Island and our veterinary science centre at Gatton to the Business School in Brisbane’s CBD and our medical centres located in hospitals throughout Queensland, we immerse you in environments where learning and making a difference meet.

Independent research
As a master’s by coursework student, you will undertake compulsory independent research and project work or practice-related learning as part of your program. Depending on what you study, this may take the form of practice-based research, literature reviews, presentations, essays, case studies, and clinical and work-based research. Independent research develops your ability to work autonomously and gives you solid grounding for pursuing a higher degree by research.
More national teaching awards than any other Australian university.

Three UQ academics in the School of Psychology received the Australian Award for University Teacher of the Year in 2020.

Other national awards received by UQ academics in 2020 included two Awards for Teaching Excellence and an Emerging Leader Award (Australian Financial Review Higher Education Awards). UQ Programs, Indigenous Health Education and Workforce Development, and the Faculty of Business Economics and Law’s Student Employability Team received national recognition.

The ‘Leading High Performing Teams / Business Leadership MicroMasters program’ led by the UQ Business School was a finalist for the 2019 edX Prize for Exceptional Contributions in Online Teaching and Learning.
As a locally and globally connected university, UQ provides many opportunities for students to apply knowledge gained in the classroom to the real world. You will have access to work-integrated learning, entrepreneurial courses, local and global internships and volunteer positions to boost your confidence, capabilities and résumé.

A wide range of free entrepreneurship programs are available to complement your studies, and to help you build a network, take on new challenges and bring your ideas to life.

**Partner to companies**
We build partnerships with leading international companies. Our teachers work on commercial challenges and bring their experiences into the classroom. As UQ’s partnerships with companies develop, so do internship and research opportunities for students and researchers.

- **Neusoft**: UQ has an agreement with the largest IT solutions and services provider in China to promote research collaboration and provide internships for students.
- **Siemens**: provided more than $500 million of software to UQ to enable students to access advanced technology, building their skills in digital and data-driven industries.
- **Leo Pharma Denmark**: UQ has an ongoing scientific collaboration with the pharmaceutical company to better understand and treat skin cancer.
- **Australian Government**: UQ helped the government to create a national compliance framework for export controls.
- **Johnson & Johnson (J&J)**: UQ researchers are collaborating with J&J immunology scientists to discover and develop a new treatment for rheumatoid arthritis.
- **Fangyuan Company (China) and CODELCO (Chile)**: the two huge copper producers are funding a five-year research professorship at UQ around copper smelting.
- **EY**: UQ researchers are collaborating with EY on the importance of innovation as a driver of organisational productivity in the oil and gas sector in Australia.
- **Great Barrier Reef Marine Park Authority**: UQ provides ongoing pioneering research to protect the Great Barrier Reef’s precious marine species such as coral reef communities and turtles.

**Workplace learning**
Internships, placements and networking will be part of your study experience at UQ through work-integrated learning. Grow your entrepreneurial mindset and employment network before you even graduate.

- **Business, Economics and Law**: our staff work with a diverse portfolio of international organisations such as KPMG, Accor, Bank of America, Colliers International, Deloitte, EY, Flight Centre, Goldman Sachs, Google, HSBC and Virgin.
• **Engineering, Architecture and IT:**
The Meet a Mentor program connects third-and-fourth-year undergraduate students, one-on-one with experienced alumni and industry professionals.

• **Health and Behavioural Sciences:**
10 clinics providing healthcare, rehabilitation and nutrition services to the general public expose our students to the latest in equipment, tools and care.

• **Humanities and Social Sciences:**
Internships, field trips and placements in Brisbane, interstate and overseas are part of course credit for humanities and social sciences students. The HASS Connect Mentoring Program brings you together with industry professionals from many diverse careers. Work with your mentor to explore your career pathways and get practical advice.

• **Medicine:**
Students undertake placements in hospitals and clinics around the world where they are trained and mentored by doctors and healthcare specialists.

• **Science:**
Our researchers work with industry partners including the peak industry councils for cotton, fisheries, horticulture and forestry, as well as Rio Tinto and BHP.

• **Extra-curricular opportunities:**
with UQ’s range of entrepreneurship programs students can access local and global internships and work experience. Through Ventures, you can build entrepreneurial capabilities and mindset, solve industry challenges and pursue business or social impact opportunities.

**UniQuest**. UQ’s commercialisation company, has helped start up more than 100 companies and raise US$32 billion in gross product sales.

**Skills Applied**
- **Introductory**
  Gain the skills and mindset to innovate like an entrepreneur.
  
  Our introductory programs will help you to get inspired, learn core entrepreneurial skills, immerse yourself in UQ’s community of entrepreneurs and give you the confidence to take your first steps in your Ventures journey.

- **Skills Applied**

    Take your entrepreneurship journey overseas with our Startup AdVentures. Our intensive global, virtual, or domestic internships with some of the world’s most vibrant startup hot spots including San Francisco, Shanghai, Shenzhen, Tel Aviv and Singapore.

    Accelerate your startup and gain equity-free funding to take your business or social enterprise to the next level with the iLab Accelerator program.
A truly global network

As an international student, you know the importance of thinking and acting globally. At UQ, so do we.

Our worldwide partner and alumni networks give you the international opportunities and connections to enhance your learning, life skills and employment prospects from the start of your degree to long after you graduate.
While you are at UQ

Our partnerships = your exchange
As a UQ student, Brisbane or Gatton is just the first stop on your overseas adventure. Grow your global network through UQ’s student exchange program by studying up to two semesters of your degree at one of our 180 partner institutions in 41 countries.
You will gain program credit while expanding your world perspective, enhancing your employability, developing your network, and maybe even learning a new language. While on exchange, tuition fees at the host university are waived as you remain enrolled at and pay fees to UQ. Please see page 110 for a full list of UQ partners.

Unlock new languages
In a global economy, the ability to communicate with a wide range of people is invaluable. Want to brush up on your language skills? Current undergraduate students can study a Diploma in Languages alongside any UQ degree. Language classes are also offered to students and the public at our Institute of Modern Languages where you can choose from more than 30 different languages.

Short-term experiences
Whilst studying at UQ, you can participate in short-term global and virtual study experiences scheduled during the semester breaks. You can immerse yourself in a new culture for 2 - 8 weeks to enhance your academic learning and employability. If you are looking at expanding your practical skill set through short-term experiences, opportunities for Domestic, Virtual, and Global Internships are available.

Incoming exchange and study abroad
Even if you are partway through a degree at a non-Australian university, with our incoming exchange and study abroad programs you can still study at UQ for one or two semesters and gain credit for your degree back home. If your university has an exchange agreement with UQ, you are eligible for the Incoming Exchange program. If your university is not partnered with UQ, you can apply to UQ as a Study Abroad student.

Global Startup AdVentures
Learn alongside a startup in some of the world’s most vibrant startup hot spots — including Shanghai, Singapore, Tel Aviv and San Francisco. AdVentures include a Full Scholarship.

Global business connections
At UQ you will join a global network of more than 286,000 graduates, many of whom are leaders in their fields, including more than 15,400 PhDs in 170 countries. You will benefit from an extensive graduate network, strong industry partnerships and many notable alumni.

Relationships changing the world
Global connectivity is at the heart of UQ’s vision to create knowledge leadership for a better world. From renewable energy technologies and sustainable mining practices, to disease control and child psychology, our international collaborations are working towards a cleaner, healthier and happier future. Explore our impact around the world.

We are members of the prestigious Group of Eight coalition in Australia and the leading global network of research universities, Universitas 21.
Dr Megan Rossi (pictured)
Doctor of Philosophy
After completing her PhD in Medical Science, Dr Megan Rossi has built a reputation as one of the most influential gut health specialists in the world. With a following of over 250,000 on Instagram (@theguthealthdoctor), Megan uses her expertise as a registered dietitian, nutritionist and research fellow at King’s College London to share evidence-based gut health information. In the final year of her PhD, Megan won UQ’s Three Minute Thesis competition and has since become a high-profile guest and contributor on many shows and publications - including cooking with Jamie Oliver. In 2019, she released her first book, Eat Yourself Healthy and launched her own evidence-based gut health product range, Bio&Me.

Fauna Ussumane Rugunato Ibramogy
Master of Agribusiness
Promoting a gender transformative approach, Fauna has made a significant impact on rural communities across Mozambique through her work as an agribusiness specialist. Fauna was elected as the National Program Officer for Economic Development at the Embassy of Switzerland in 2016. In this position, she advises on two development programs that address food security and income challenges for rural agricultural households and supports them to participate in commercial supply chains. In 2020, Fauna received the International Alumnus of the Year award as part of UQ’s Alumni Awards.

Lawrence Au
Master of Business Administration
In 1980, Lawrence Au chose to leave his journalism career in China to study his MBA at UQ. Decades later, Lawrence reflects that the two years he spent here were a ‘major turning point’ in his life. Following his graduation from UQ, Lawrence launched a career as a recognised thought leader in Asia’s financial industry. He became the Asia Pacific CEO of the securities service business at BNP Paribas and Northern Trust for 16 years. His contributions have been recognised with numerous awards, including a Lifetime Achievement Award presented by Asia Asset Management. Lawrence was the recipient of a UQ Vice-Chancellor Excellence Award in 2020.
Our free online course EMPLOY101x will help you unlock your career potential and market yourself to employers. edx.org/course/unlocking-your-employability

UQ is ranked 57th in the world for graduate employability (QS Graduate Employability Rankings, 2020).

UQ’s student employability and careers services have been recognised with multiple national and international awards.

The UQ International Student Ambassador program gives high-achieving international students the opportunity to represent the University in a range of paid roles.

Our research, teaching and connections prepare you to forge an exciting career. Outside the classroom you can access our career resources and networking events, and participate in our Employability Award to expand your capabilities and mindset. When you graduate, you will be ready for any challenge.

Game-changing graduates

Careers Service
Our award-winning Careers Service can help you plan your career, develop your capabilities and gain that competitive edge. We offer workshops in how to find work, network, write a résumé, excel in interviews, apply for a job, and leadership and presentation techniques.
employability.uq.edu.au/find-a-job

Career Portals
UQ offers an exclusive online job board for its students and graduates featuring vacation work, volunteer work, internships, and graduate employment opportunities from over 3000 employers. Our Global Grad careers search portal is just for international students with Australian and international companies posting work opportunities regularly.
studenthub.uq.edu.au (login required)
globalgrad.uq.edu.au

Student-Staff Partnerships
Enhance your employability and networks by collaborating with staff as equal partners and mutual learners. The Student-Staff Partnerships Program consists of three streams: SSP Projects, Student Representation and Student Voices. In SSP Projects you will influence real change at the University by redesigning courses, co-facilitating events, or evaluating courses or initiatives. Become a student representative and contribute to the governance and decision-making processes at UQ or have your voice heard by contributing your perspectives via a feedback forum.
employability.uq.edu.au/student-staff-partnerships

Employer Events and Expos
With multiple employers events throughout the year, you can speak with future employers from a diverse range of industries and backgrounds to find the right job for you. Most employers offer roles in graduate recruitment programs and some offer vacation work, internships, work experience, scholarships and co-op programs. We also help you to find volunteering opportunities at UQ and within the wider community to give back and boost your career prospects.

Employability Award
The Employability Award gives postgraduate students the chance to build capabilities that future employers value, such as leadership, teamwork, communication, problem solving, and cultural awareness. To qualify for the Award, you must complete 100 hours of work experience, 100 hours of volunteering, and five supplementary activities then communicate your skills and potential through an application process. It’s free to join and is awarded upon graduation.
employability.uq.edu.au/award
Brisbane, the home of UQ’s St Lucia and Herston campuses, is the capital city of Queensland and its economic and cultural hub. Young and progressive, the city is fast becoming a centre in the Asia–Pacific for business, investment, major events and education. It is also home to over 200 nationalities and 220 languages.

Entertainment
Brisbane city has a great live music scene that can be discovered in Fortitude Valley and West End. For comedy, live theatre and dance, head to the Brisbane Powerhouse and the Queensland Performing Arts Centre (QPAC). The Gallery of Modern Art (GOMA) is one of the best modern art galleries in the country, and keep an eye out for the Brisbane Writers Festival and the Brisbane Festival that attract international artists from across the globe.

Getting around
One of the best views of Brisbane is from a CityCat – a ferry service that runs along the river from UQ’s St Lucia campus to the city and the riverside suburb of Hamilton. Brisbane also has an extensive bus and train network that makes it easy to get around. A ‘go card’ will allow you to travel on all Brisbane public transport at discounted student prices.

Around Brisbane
When you want to head out of the city, there is plenty to discover. Head south for the famous golden sands of the Gold Coast and Byron Bay; north for the quiet beaches of the Sunshine Coast, the world’s oldest rainforest, and the majestic Great Barrier Reef; west for charming outback towns; or east for the spectacular Moreton Island, Stradbroke Island and Fraser Island. Sydney, Cairns and Melbourne are all short flights away. There is so much to explore on your doorstep.
GATTON

Gatton, the largest town in South-East Queensland’s Lockyer Valley, is the home of the UQ Gatton campus. Bordering by unspoilt mountain ranges and located only one hour’s drive from Brisbane, Gatton has a culturally diverse population of approximately 7000 people. UQ Gatton students enjoy a laidback, country lifestyle in a close-knit community.

Brisbane named Australia’s coolest city (Forbes, 2019)

+21° to +28°C
average maximum temperature most days of the year

Brisbane’s population is
2.4 million people

Find out more about living in Queensland
future-students.uq.edu.au/university-life/living-in-brisbane
TAKE A VIRTUAL TOUR of our campuses and facilities and learn more about life at UQ.
UQ St Lucia

Considered one of the most beautiful campuses in the world, our main campus is a vibrant mix of old sandstone buildings, modern architecture, parklands and lakes. It is a city within a city with everything you need to study, live and relax.

Food
UQ St Lucia is full of cafe and food options. From great coffee and bakery food, to healthy sandwiches and wraps, pizza, noodles, bubble tea and juice bars, you won’t go hungry or thirsty. Options include organic, vegan, vegetarian and halal food.

Entertainment
Discover UQLife to see all that awaits you on campus and online! Take part in events, experiences and programs to keep you engaged, motivated and connected. There’s something on every week.

Fitness
You’ll be spoilt for choice with a massive range of sporting, fitness and recreational opportunities on offer at our St Lucia campus. Explore Queensland’s largest multi-sport complex, featuring dedicated fitness, aquatic, tennis, and athletics centres, as well as an array of sporting fields and courts. Play your way with more than 75 sports and activities to choose from, including up to 90 weekly group fitness classes, across nearly 40 sporting clubs and social sports.

Library
We have six libraries on campus. They feature computers for students, group study and meeting rooms, height-adjustable desks, 24-hour study spaces, quiet areas, and friendly staff ready to help you find what you need. Our library also has a range of services from study help preparing for exams and assignments, accessing resources, research support, student IT and training, and special author talks, lectures and panel discussions.

Healthcare
If you need to see a doctor, visit our friendly team at the UQ Health Care clinic. There is also a pharmacy and a dental clinic on campus.

Future students can find more information about each of these services at the following links:

Travel time by free inter-campus bus between UQ St Lucia and UQ Gatton: 90 minutes (one way)

Food and retail
Food and drinks can be bought from the Coffee Pod, Dining Hall and Walkway Cafe, and you can purchase and sell books at our retail bookshop. There is an on-campus ATM, a post office, and keep an eye out for the regular events for students in the Central Walkway.

Teaching and research facilities
The campus houses production animals, horticultural fields, a plant nursery, post-harvest facilities, research laboratories and greenhouses, a wildlife facility, specialist veterinary and equine hospitals, and some of the best animal teaching facilities in the southern hemisphere.

Fitness
Whether you’re looking to boost your fitness, meet new people, or relax and unwind, UQ Sport Gatton offers an ideal opportunity to do it all in one location. There’s both gym and pool facilities – as well as tennis, basketball, netball and squash courts. There are weekly group fitness classes, sporting clubs and social sports to enjoy. uqsport.com.au

Library
UQ Gatton’s recently refurbished library provides computers, comfortable furniture and break-out spaces, individual study spaces with acoustic lining, power and USB connectors, height-adjustable desks, meeting rooms, and a 24-hour study space.

Free inter-campus bus service
UQ provides a free inter-campus bus service between UQ Gatton and UQ St Lucia for students and staff. future-students.uq.edu.au/university-life/campuses-research-sites

Our rural campus is located near the town of Gatton, 87 kilometres west of the Brisbane CBD. It offers a laid-back and friendly lifestyle with on-campus accommodation, a publicly accessible motel and a variety of sporting facilities.
UQ Herston

Just three kilometres from the Brisbane city centre, UQ Herston is the specialist campus for health and medical teaching and research.

UQ shares premises with the Royal Brisbane and Women’s Hospital and the QIMR Berghofer Medical Research Institute, which creates a connected and engaged community. The campus is home to:
- Faculty of Medicine
- School of Public Health
- School of Dentistry
- Herston Imaging Research Facility
- Oral Health Centre
- RECOVER Injury Research Centre
- UQ Centre for Clinical Research.

Library
UQ Herston’s Health Sciences library provides computers, study rooms and meeting rooms, a 24-hour study space, height-adjustable desks, and access to the Queensland Health network.

Food and retail
You can purchase something to eat or drink from Cafe Dose, the hospital cafes or Subway. There is a bank and ATMs on campus, as well as a gift shop, pharmacy, post office and newsagency, and bookshop. future-students.uq.edu.au/university-life/campuses-research-sites

Surgical, Treatment and Rehabilitation Service (STARS)
The newly constructed STARS is one of the largest tertiary specialist rehabilitation centres in the southern hemisphere. The collaborative community health precinct is home to more than 30 health facilities, research institutes and organisations, accommodating more than 13,000 staff, students and scientists.
Research institutes
UQ has a proud reputation for creating change in the world through research. In partnership with government, industry and donors, UQ has established eight globally recognised research institutes, as well as research centres at our three main campuses and other locations across Queensland.

**Australian Institute for Bioengineering and Nanotechnology (AIBN)**
AIBN seeks to deliver innovative solutions to society’s problems through sustainable materials, healthy living and translational success. AIBN’s research is underpinned by Five Pillars of Research that includes stem cell ageing and regenerative engineering, precision nanomedicine, advanced materials, agriculture nanotechnology and advanced biomanufacturing.

aibn.uq.edu.au

**Global Change Institute (GCI)**
As the global population grows, urbanisation has continued to increase, placing an unprecedented burden on the planet’s fragile ecosystems. Through an interdisciplinary approach, GCI brings researchers together to address the impacts of climate change while identifying opportunities associated with technological innovation, policy development, and industrial-scale changes that benefit the Australian and global environment. Collaborative research is conducted across strategic areas including: clean energy, food systems, and healthy oceans.

gci.uq.edu.au

**Institute for Molecular Bioscience (IMB)**
IMB is a multidisciplinary life sciences research institute where 500 scientists use world-leading infrastructure to drive discoveries from genome to drug design, disease discovery application and sustainable futures. IMB’s research is framed through centres focused on superbugs, pain, heart disease, inflammation, solar biotechnology and the genomics-disease interplay.

imb.uq.edu.au

**Institute for Social Science Research (ISSR)**
As UQ’s flagship institute for quantitative social sciences, ISSR is committed to improving economic and social wellbeing for individuals, families, communities and regions in Australia and internationally. With expertise in research methods and statistics, ISSR conducts policy and program evaluations for governmental and other agencies, and analyses society’s ‘big’ issues, including social disadvantage, individual and community development, employment, education, sustainability, social wellbeing, health and housing.

issr.uq.edu.au

**Mater Research Institute – UQ (MRI-UQ)**
MRI-UQ aims to turn scientific discovery into the best possible treatment, care and outcomes for patients and the broader community. Key focus areas include cancer biology and care; mothers’, babies and women’s health; chronic disease biology and care; neurosciences and cognitive health; optimising acute care; and implementing evidence to improve health.

materresearch.org.au

**Queensland Alliance for Agriculture and Food Innovation (QAAFI)**
QAAFI is a cutting-edge research institute, one of the world’s only scientific organisations focused on agriculture and food innovation. QAAFI delivers high-impact research on the supply chain in crops, horticulture, livestock and food, with a focus on the challenges facing food and agribusiness sectors in the tropical and subtropical systems.

qaafi.uq.edu.au

**Queensland Brain Institute (QBI)**
QBI is dedicated to understanding how the brain works, how it can be repaired and how we can harness its full potential. QBI scientists are working to develop new treatments for disorders including dementia, stroke, concussion, intellectual and learning disabilities, Parkinson’s disease, motor neuron disease, depression, anxiety and schizophrenia.

qbi.uq.edu.au

**Sustainable Minerals Institute (SMI)**
With expertise in engineering, science and the social sciences, SMI’s purpose is to develop practical solutions to the challenges of operating sustainably in the resources sector - from geology, mineral extraction, water management and minerals processing, to occupational health and safety, mine rehabilitation and community engagement. SMI is made up of six interdisciplinary centres and an international centre of excellence in Chile.

smi.uq.edu.au
At UQ, a qualification or degree is called a program. We have more than 150 subject areas on offer as well as Higher Degrees by Research (HDR). You can choose a program that enhances your existing knowledge, or a program that sets you on a new career path.

We give credit for prior studies, and if you do not meet the entry requirements for the program of your choice, you may be able to gain entry by undertaking a graduate certificate to enrol in your dream program.
Using the Programs section

1. Choose your program

Use the ‘UQ Programs Quick Reference’ table on pages 26-27 to find your program. Alternatively, you can refer to the index on page 113.

2. Check your program’s admission requirements

Entry requirements for postgraduate coursework programs can be found within each program’s description (pages 32–91).

**TIP** All programs require that you have either ‘Minimum’ or ‘Higher-than-minimum’ English language skills. You can find definitions of ‘Minimum’ and ‘Higher-than-minimum’ English on pages 92–93.

**TIP** For most programs you will need a ‘grade point average’ (GPA) (or equivalent). At UQ, we use a 7-point grading scale, where 4 is a pass and 7 is the highest grade. future-students.uq.edu.au/admissions/postgraduate-coursework

3. Apply for your UQ program

Use the step-by-step application process on page 94 as a guide for how to apply to UQ.

4. Check if you are eligible for a scholarship

There are scholarships available to postgraduate coursework students. See pages 108-109 for more detail and to check your eligibility.

**Key to symbols used in the Programs section**

- **Additional costs**
  Additional costs can include items such as equipment, clothing, field trips, placements, special registrations or other necessities and may be purchased from providers other than UQ.

- **Quota program**
  A quota program is one that has limited places available for students, and entry may be competitive.

- **External**
  If a program is external, it means it is conducted off-campus (usually online). International students who enrol in an external program are not eligible for an Australian student visa. External programs can be studied part-time.

- **Placement**
  A placement is work experience for course credit. Placements can be compulsory or optional.

You can find a description of each key term used in the programs section on the ‘UQ terminology’ page at the back of this guide (page 112).

**Higher Degrees by Research**

UQ also offers the following Higher Degrees by Research (HDRs): Master of Philosophy (MPhil), Doctor of Philosophy (PhD), and Doctor of Biotechnology (DBioTech) to equip you with specialist knowledge, enhance your employability, upgrade your qualifications, help you get promoted, or pave the way for your career in research. Detailed information on HDRs including admissions qualifications, fees and application instructions can be found on pages 96–99.

graduate-school.uq.edu.au
DURATION
The time it takes to complete a program when it is studied full-time.

Full-time: The standard study load is eight units per semester.

Part-time: Part-time study load is less than 75 per cent of the standard study load (i.e. less than six units per semester for most programs).

International students can only study part-time if they do not require a student visa or where the program is external. All international students on an international student visa must complete the program within the stated program duration.

START SEMESTER
The academic year at UQ is divided into two main semesters. Semester 1 usually starts at the end of February and Semester 2 starts at the end of July.

The majority of programs begin at the start of the semester, and some only have one start semester per year; however, some programs may have an earlier or later start date or begin in Summer semester.

INDICATIVE FEE
Tuition fees vary according to program. We have provided an indicative first year tuition fee for each program in this guide. This indicative amount is based on a standard full-time study load for one semester unless the program is part-time only.

RELEVANT/SAME/ APPROVED DISCIPLINES
For some programs, you must have studied a particular discipline / particular disciplines to obtain entry.

ENGLISH
All programs require either ‘Minimum’ or ‘Higher-than-minimum’ English language proficiency.

‘Minimum’ English language proficiency is IELTS 6.5 with a 6 in each sub-band (or equivalent).

‘Higher-than-minimum’ English language proficiency varies and is higher than ‘Minimum’ English.

See pages 92–93 for a list of programs with ‘Higher-than-minimum’ English language proficiency requirements and to view alternate ways to meet ‘Minimum’ and ‘Higher-than-minimum’ English language proficiency requirements.

GPA
GPA stands for Grade Point Average; it is a measure of academic performance based on grades received and the number of units completed. At UQ, academic performance is graded on a seven-point scale:

- 7 – High Distinction
- 6 – Distinction
- 5 – Credit
- 4 – Pass

Anything below a 4 is a fail.

YOUR CURRENT QUALIFICATION
Almost all programs require you to have completed a specific degree. Some also have additional requirements.

APPLICATION CLOSING DATES
Some programs have early application closing dates. For all other program application closing dates, see page 95.

CAMPUS
One of three UQ teaching sites located at St Lucia, Herston and Gatton where the majority of lectures are held.

Some programs may be delivered at UQ’s other teaching sites. External programs are taught online.

* This program is undertaken on an intensive basis. Please see the full program listing for more details.

** Fees are indicative only and correct at time of publication. Visit your program’s webpage on future-students.uq.edu.au for up-to-date information.
Pathways to your program

We offer pathway programs if you don’t satisfy the admission requirements for your preferred UQ program.

You can improve your English language skills at our on-campus language institute or you may be able to study a graduate certificate and progress to select master’s programs.

Pathway options to enter UQ

English language pathways

Improve your English language proficiency by studying an ICTE English language pathway course, which can lead to a UQ program (provided you have the academic qualifications for entry and achieve the required English results).

Institute of Continuing & TESOL Education (ICTE)

Each year, more than 4000 students from 50 countries and regions come to Brisbane to learn or improve their English at ICTE on UQ’s St Lucia campus. In our classes, you will be taught by highly qualified teachers, while outside class time you can access our Learning Advisors, Learning Centre and online support materials.

icte.uq.edu.au
CRICOS Provider Number 00091C

Articulate through a graduate certificate

If you do not meet the academic requirements to enter a UQ master’s program, you may be able to apply for a one-semester graduate certificate in the same program suite and progress into the higher-level graduate diploma and master’s programs.

future-students.uq.edu.au/admissions/postgraduate-coursework/consider-your-pathway-options
There are two English language pathways to UQ programs:

**Bridging English (BE)**
- **Duration**: 10 to 30 weeks, depending on your English level and UQ program entry requirements (see table opposite).
- **Weekly tuition fee**: $530*
- **Campus**: UQ St Lucia
- **Minimum admission requirements**: IELTS 5.0 overall and 5 in each sub-band (or equivalent). Higher-level programs require higher IELTS or equivalent test score for entry. See table opposite for details.

BE is ICTE’s most popular English language pathway with multiple entry points for admission into undergraduate and postgraduate programs at UQ including Study Abroad. The course will develop your proficiency in all four skills (reading, writing, listening and speaking), as well as systematically building your range of vocabulary and control of grammar.

Within the BE there are two options:
- **BE Standard**
- **BE Advantage**

The BE Advantage finishes five to six weeks before semester commences. This means that if you do not pass the BE assessment the first time, you are able to complete the four-week BE Extension and re-sit the BE assessment before the UQ semester commences. If you pass the BE assessment you have the option to enhance your academic English by completing the optional Academic Communication Skills (ACS) course.

Choose BE if:  
- you want to gain entry into a UQ program without having to sit an IELTS test at the end of your course
- you want to study with high-quality teachers in a course solely focused on helping you to gain entry into a UQ program
- you want to complete your assessment five to six weeks before the start of the UQ semester
- you would like the opportunity for one-on-one consultation sessions every five weeks to ensure you are on track with your English language progress to reach your academic goals.

For further information on this course, visit icte.uq.edu.au/study/english-courses/bridging-english or scan the QR code at right.

**English for Academic Purposes (EAP)**
- **Duration**: 5 to 30 weeks depending on your English level and UQ program entry requirements (see table opposite).
- **Weekly tuition fee**: $440*
- **Campus**: UQ St Lucia
- **Minimum admission requirements**: Successful completion of ICTE General English level 4 or IELTS 5.0 overall with minimum sub-score requirements (see table opposite). Higher level programs require higher IELTS or equivalent test score for entry. See table opposite for details.

EAP prepares you for success in academic study and the IELTS test needed for entry to your UQ program. Course materials build your English language proficiency needed to enter university and academic skills required to succeed.

Choose EAP if:  
- you want to become more familiar with and prepare for the IELTS test with three days per week of dedicated IELTS preparation
- you want to combine preparation for the IELTS test with a focus on broader academic English skills
- you do not have the IELTS score to enter BE, and you wish to study with high-quality teachers to improve your English proficiency for entry into a UQ program.

For further information on this course, visit icte.uq.edu.au/study/english-courses/academic-english or scan the QR code at right.

*2022 Fees are indicative only. Fees displayed are for 2021 and do not include costs for student services and materials.
**English language pathways to UQ**

Select the duration of your BE or EAP course based on your current IELTS Entry Score or General English level (as shown in each column).

R = Reading    W = Writing    L = Language    S = Speaking

COMMENCE UQ PROGRAM

COMMENCE UQ PROGRAM

COMMENCE UQ PROGRAM
Gayathri secured a highly sought after position within the Queensland Government’s Graduate program on the day of her graduation. She then went on to become a development horticulturist, allowing her to explore new farming practices, technologies and innovations within the agricultural industry.
Agriculture and Environment

Balance our relationship with the earth.

Agriculture and food science
Our challenge is to increase agricultural produce with the lowest possible impact on the environment. We offer first-class programs in agriculture, agribusiness and the food, plant, soil and animal sciences. We research with over 70 industry partners around the world to inform our teaching and student development. On graduation, you will be ready to influence the future of climate change, food security, biosecurity and the protection of endangered wildlife.

Environmental management
Increase your understanding of the environmental sciences with an added focus on social and economic disciplines, decision-making, problem solving and policy analysis. Our lecturers are experts in their fields, shaping policy for government, commerce and industry. Students enjoy dedicated geography and marine labs and the latest technologies, including a climate station and portable weather stations. You will apply your knowledge in field trips and industry placements to gain experience and enhance your career prospects.

Careers
With the world’s population set to increase by two billion persons by 2050, food and fibre production must increase by 70 per cent. Studying agriculture will take you beyond traditional farming practices to meet this need in industries like agribusiness, agricultural science and food science.

Environmental managers take a critical look at the causes of environmental problems and develop ways of managing and solving them. Tackle the big issues like climate change, pollution and land clearing for consultancies, mining companies, government, landcare groups and non-government organisations.

One of the most modern veterinary and animal science facilities in the Southern Hemisphere

Fieldwork locations include the Great Barrier Reef, islands along the Queensland coast, Hong Kong (SAR), Vietnam and Indonesia

TAKE A VIRTUAL TOUR of our agricultural learning facilities at UQ’s Gatton campus
MASTER OF AGRIBUSINESS

Program overview
The Master of Agribusiness will help future-proof your career, whether you are working in agribusiness and would like to upgrade your management qualifications, redirect your career into agribusiness, or are a new graduate in business or agricultural-related sciences. During this program, you will explore aspects of the supply chain to confidently work with small- and large-scale producers, processors, logistics companies, financial institutions and international retailers to deliver high-quality and affordable products to the world. You will build on your existing knowledge of the food and fibre industries, develop a deep understanding of modern agribusiness practices and investigate emerging technologies, business communication and the latest sustainability practices.

Program features
- UQ’s field of agriculture is ranked 1st in Australia and 3rd in the world (NTU Performance Ranking of Scientific Papers for World Universities, 2020).
- UQ’s field of agriculture and forestry is ranked 1st in Australia and 26th in the world (QS World University Rankings by Subject, 2021).
- Students will learn to apply Australian agricultural technology and techniques, network with industry partners and internationally experienced academics and access research topics to improve the livelihoods of smallholder farmers at home and in developing countries.
- Be exposed to the latest advances in agricultural science including precision agriculture techniques, genetic technologies and sustainable resource management.

Career opportunities
Agribusiness graduates typically enjoy excellent employment rates and above-average salaries and opportunities in agribusiness are numerous and diverse. Graduates usually work in the following sectors: environment and sustainability, development and international aid, economics, logistics, marketing and business, primary production, research, life sciences, and finance and government.

MASTER OF AGRICULTURAL SCIENCE

Program overview
The Master of Agricultural Science is an ideal program if you are seeking to expand your career prospects into a wide range of government, commercial, community or research roles in the broad fields of agriculture and environment. The program will enable you to cover integrative disciplines within the animal, plant, soil, food and social sciences. Learn to apply your leadership, research and problem-solving skills to meet the global challenges associated with feeding the world and maintaining our environments in situations of biosecurity concerns and competition for limited resources.

Fields of study
Agronomy • Horticulture • Plant Protection

Program features
- UQ’s field of agriculture is ranked 1st in Australia and 3rd in the world (NTU Performance Ranking of Scientific Papers for World Universities, 2020).
- UQ’s field of agriculture and forestry is ranked 1st in Australia and 26th in the world (QS World University Rankings by Subject, 2021).
- Be exposed to the latest advances in agricultural science, including precision agriculture techniques, genetic technologies and sustainable resource management.

Career opportunities
Graduates usually work in high-level roles as agronomists and horticulturalists; scientists in government, industry or international institutions; agricultural consultants and advisers for producers and companies; managers of national and international agricultural businesses or farms, agricultural advisers in banks and other financial institutions; agricultural economists; extension and inspection officers; land information systems officers; or research scientists, animal scientists, or soil scientists.

More information
Visit future-students.uq.edu.au or scan the QR codes below.

MASTER OF ANIMAL SCIENCE

Program overview
Are you ready to consolidate your leadership, research and problem-solving skills to meet the global challenges of animal welfare, biosecurity and competition for limited resources? The Master of Animal Science program is ideal if you are a graduate or professional seeking to expand your career prospects into a wide range of government, commercial, community or research roles in the broad fields of agriculture and environment. You will extend your knowledge of the range of government, commercial, community or international institutions; agricultural consultants and advisers for producers and companies; managers of not-for-profit sectors. Specific roles might include livestock adviser or consultant, animal nutritionist or research scientist, biosecurity or customs officer, equine nutritionist or physical therapist, government livestock extension officer, livestock enterprise manager, national parks officer, park ranger, wildlife ecologist or scientist, and zookeeper or zooologist.

Fields of study
Equine Science • Production Animal Science • Wildlife Biology

Program features
- UQ’s field of agriculture is ranked 1st in Australia and 3rd in the world (NTU Performance Ranking of Scientific Papers for World Universities, 2020).
- UQ’s field of veterinary science is ranked 26th in the world (QS World University Rankings by Subject, 2021).
- Be exposed to the latest advances in veterinary science including animal improvement, animal welfare, thermal stress in animals and agribusiness.

Career opportunities
Graduates typically work in supervisory, consulting or management roles across the public, private and...

</tbody>
</table>

Program overview
Secure your success as a conservation professional working in government, non-profit or in industry to preserve life for future generations. The Master of Conservation Biology will provide you with advanced biological knowledge in the integrative disciplines of conservation, ecology and biodiversity, while focusing on the problems of restoring and maintaining viable populations of animal and plant species, and natural and managed ecosystems. This program will equip you with a comprehensive theoretical understanding of conservation biology, as well as the practical training and skills obtained through field trips to some of the unique ecosystems of Australia.

Program features
- UQ's field of environmental sciences is ranked 1st in Australia and 17th in the world (QS World University Rankings by Subject, 2023).
- UQ's field of biological sciences is ranked 2nd in Australia and 50th in the world (QS World University Rankings by Subject, 2023).
- Participate in field trips to subtropical rainforests, our Heron Island Research Station in the Great Barrier Reef, national and nature reserves, and the Moreton Bay Research Station on Stradbroke Island.

Career opportunities
Conservation professionals typically work in government departments, universities and non-profit organisations, or in industry in various managerial, educational, research and consultancy roles. Graduates work in areas like national parks and wildlife conservation, natural resource management, policy development, mining, agriculture, education and research.

More information

Program overview
Conservation science combines the study of social science, law, environmental philosophy, economics and scientific reason in order to find ways to secure the world's biological diversity. The Master of Conservation Science is an ideal pathway if you have a degree in botany, ecology, evolution, zoology or a related field and would like to expand your career prospects with government, conservation and resource management agencies or as a researcher in conservation science. Taught by world leaders in their fields, the program will provide you with a diverse set of skills and experiences to allow you to further your career opportunities in this vital discipline. You will obtain practical training through field trips to unique ecosystems of Australia.

Program features
- UQ's field of environmental sciences is ranked 1st in Australia and 17th in the world (QS World University Rankings by Subject, 2023).
- Participate in field trips to subtropical rainforests, our Heron Island Research Station in the Great Barrier Reef, national parks and nature reserves, and the Moreton Bay Research Station on Stradbroke Island.
- Take advantage of the option to complete a major four-month research program.

Career opportunities
Conservation professionals typically work in government departments, universities and non-profit organisations, or in industry in various managerial, educational, research and consultancy roles. Graduates work in areas like national parks and wildlife conservation, natural resource management, policy development, mining, agriculture, education and research.

</tbody>
</table>

Program overview
Environmental management bridges the gap between science and management, incorporating multidisciplinary skills in environmental management, decision-making and policy. The Master of Environmental Management qualifies you as an environmental manager with a strong science background who understands sustainability and the global threats to environments. In this program, you will learn from some of the leading environmental management experts in the world. You will develop core skills in environmental management principles and approaches, problem-solving and applied research and you will graduate with the skills to address the many issues in this highly complex and rapidly changing area. Get a competitive edge by taking part in international study opportunities, research projects and industry placements.

Program features
- UQ's field of environmental sciences is ranked 1st in Australia and 17th in the world (QS World University Rankings by Subject, 2023).
- Depending on your area of study and choice of electives, you might go on field trips to locations including central and western Queensland, Far North Queensland, or Hong Kong (SAR).
- UQ's field of environment and ecology is ranked 1st in Australia and 4th in the world (NTU Performance Ranking of Scientific Papers for World Universities, 2020).

Career opportunities
Graduates typically find employment in managerial, research, administrative and educational roles within consultancy, private companies, government departments, landcare and catchment management groups, and national and international non-government organisations. Specific opportunities exist in national parks and wildlife conservation, environmental assessment and compliance; natural resource management, including coastal, river and catchment systems; policy development, government and commercial consultancies in environmental planning and management; mining; environmental tourism and environmental management.

Our programs are accredited by the Australian Institute of Architects and the Planning Institute of Australia.
Facilities
include a design studio, planning studio, collaborative lab, exhibition space and computers with creative and computer-aided design (CAD) programs

Architectural, Planning and Design

Design smart and sustainable spaces for a rapidly evolving world.

Addressing world issues
Our outlook is international. We engage with climate, geographic and social conditions in our design and planning to come up with practical solutions to common problems. We help to advance knowledge of the issues affecting our physical environment like climate change, urbanisation and natural resource management.

Helping you succeed
Our programs give you the skills and qualifications to create spaces that matter. You will be taught by a mix of internationally renowned scholars, experienced practitioners and talented architects. Courses are designed around studios where students can explore their interests in a collaborative environment. We make sure you get hands-on experience in community-based projects with real clients, so you know what it takes to succeed as a professional.

Careers
As our cities and towns become denser, we need living and working spaces that enhance our quality of life. Designers create these spaces. Make a career out of designing buildings, lead major design practices, manage property developments, build your own company, write for an architecture journal, or work as a visualiser. Quality architects and designers are always in demand.

Our urban environments need to strike a balance between design, infrastructure and lifestyle. Planners shape our cities and towns to create vibrant communities. They design cities from multiple perspectives to give you a contemporary and integrated view on how to make them better places to live and work. Work for government, consultancy firms, property developers, private companies, or community groups.

TAKE A VIRTUAL TOUR
of our Architecture, Planning and Design learning facilities
Program overview
Do you want to positively contribute to the shaping of our built environment and culture and influence the future personal and professional spaces? The Master of Architecture is the second stage of UQ’s architecture program, providing you with the necessary skills, experience and qualifications for your registration as a professional architect. You will undertake a range of courses designed to broaden your creative design skills and develop advanced technical and professional skills. This program provides opportunities to research environmental design, architectural technology, history and theory, and professional practice. UQ’s six core studio offerings span commercial, institutional and residential architecture, landscape and architecture, urban design, and adaptive re-use.

Program features
★ UQ is one of the few Australian universities to offer dedicated, always-open design studios for students.
★ This program is fully accredited by all Australian state and territory architect registration boards who are recognised around the world.

Career opportunities
To legally call yourself an architect, you have to register with a state or territory architect registration board. There are eight boards in Australia – UQ’s Master of Architecture is accredited by all of them. Graduates might work on residential buildings, commercial buildings, public infrastructure, or non-building work. Other areas include heritage and conservation, construction and project management, interior design, urban planning, research and education, and consultancy work.

CRICOS CODE 06031K

Program overview
By following a career in urban and regional planning, you will make a difference to people’s lives. You will help improve the quality of their cities and regions by integrating the environmental, economic and social aspects of development. Learn from some of the world’s best practising architects and receive an industry-guided balance of knowledge and practical experience so you will graduate confident and ready for your next promotion. Undertake an individual research project and choose from electives to specialise during your studies. You also have the option to complete an industry-based work placement or an in-house practical studio project.

Program features
★ Recognised by the Planning Institute of Australia – the leading national body for the planning profession.
★ UQ’s field of environmental sciences is ranked 1st in Australia and 17th in the world (QS World University Rankings by Subject, 2022).
★ Develop your problem-solving skills with 200 hours of workplace experience in a planning organisation in Australia or overseas.

Career opportunities
Graduates are valued by employers for their breadth of knowledge and skills and their ability to make environmentally, socially and economically sustainable decisions. The urban development sector is one of the largest employers in the Australian economy and there are diverse roles available for graduates, including roles in urban design, statutory planning, strategic planning, regional development, environmental management and monitoring, technology for planning, spatial planning, commercial and industrial development, engineering and architectural firms, heritage and conservation, land-use planning, planning law and practice, resource management, social planning, and tourism research and policy.

More information

CRICOS CODE 077535K

Program overview
Put yourself at the forefront of reimagining our urban fabric. The majority of the world’s population live in cities, and with limited resources and significant climate change, there is a growing demand for urban designers specifically trained to understand and look at cities strategically and holistically. This degree is for a new kind of designer, taught by leading academics and industry professionals and combines project-based design studios with opportunities to develop expertise in both infrastructure and resources, people and policy, or economics and strategic fields. You will study courses across a range of disciplines including architecture, civil engineering, planning, policy, economics and business leadership to ensure you have the right skills to enter this transdisciplinary field of design.

Program features
★ Benefit from a program that offers integrated online learning.
★ Be taught by international practicing architects, urban designers and leading academics who use innovative teaching methods and practical industry-based learning projects.
★ Advance your professional network by working with a cohort from diverse backgrounds in architecture, urban planning, civil engineering and landscape architecture.

Career opportunities
Wherever you are positioned in your career, you’ll look at urban development and design from a different angle and be uniquely placed to design creative solutions to make our cities more efficient, sustainable and meaningful. Graduates will be ready to take on a range of diverse roles including: urban designer, engagement consultant, landscape architect and economic development manager.

Arts, Humanities and Social Sciences

Understand what it means to be a global citizen in the 21st century.

Think differently
By studying arts, humanities and social sciences you will learn to think differently and use your understanding to shape the future you want for yourself and your world, no matter which career you pursue. Take the opportunity to indulge your interests in new and exciting fields and find your passion and purpose. By studying arts, humanities and social sciences you will gain knowledge and ways of thinking that will serve you for the rest of your life.

Award-winning research
Our award-winning research supports the ideas of stronger communities, social inclusion, sustainable development and international engagement. Over 60 courses offer on-the-job experience, including travelling to Italy and Greece to research culture, making your own film, visiting religious sites worldwide, writing a travel article and performing music for the public.

Careers
Studying arts, humanities and social sciences will equip you with the knowledge and skills required to navigate an ever-changing global environment. Arm yourself with a transferrable set of core skills and capabilities that employers are now searching for – critical thinking, problem solving, the ability to understand different perspectives, teamwork, communication and creativity.

Humanities graduates can work across disciplines and are adept at finding solutions to complex problems. You can work in a range of industries including advertising, community engagement, conservation, education, humanitarian organisations, law, marketing, museums, public policy, publishing, theatre and tourism.

Facilities
include three premier museums, archaeology laboratories and a field site, an industry-standard media studio and editing suites and one of the top UN-standard interpreter training facilities in Australia.

Alumni
include actors, authors, musicians, ambassadors, premiers and Rhodes Scholarship recipients.

TAKE A VIRTUAL TOUR of our Arts, Humanities and Social Sciences facilities

Ameya Deshmukh (India) (Master of Communication) chose UQ because it is the only Australian university to have a dedicated Centre of Communication for Social Change. “Being a part of a university in the world’s top 50 is certainly a responsibility and more importantly an opportunity of a lifetime. With the varied knowledge that I will learn in coming years, I feel a responsibility to become the best version of myself and give back to society as much as I can.”

**Program overview**

Study the Master of Applied Linguistics and equip yourself with the knowledge, tools and understanding for working in areas of second language teaching, translation, interpretation and other second language areas. Benefit from a program designed for professional development; you can choose to specialise in Applied Linguistics or Teaching of English to Speakers of Other Languages (TESOL) Studies. Graduate with a critical understanding of current approaches and developments in teaching and language learning and gain a valuable advantage in your professional field.

**Fields of study**

- Applied Linguistics • TESOL Studies

**Program features**

- UQ’s field of arts and humanities is ranked 44th in the world (U.S. News Best Global Universities Rankings, 2021).
- Graduate with the skills to enhance your career. Being part of the program allows you to develop your identity as a language professional and become part of a global network.

**Career opportunities**

Qualified linguists and teachers of English and other second languages such as Chinese and Japanese enjoy a wide range of employment opportunities. These include classroom teaching, testing and language program management, international business and linguistic research. Graduates also take up positions in business and government that draw on the understanding of languages and cultures. The Master of Applied Linguistics has a strong national and international reputation. Graduates take up, and in many cases return to, teaching and administrative positions in high schools, universities and language schools in Australia, New Zealand and other international locations.

<td>An aptitude test is waived for native Chinese (Mandarin) speakers. However, all other applicants may be required to complete an aptitude test and proficiency in spoken and written Chinese and English.</td>
<td></td>
</tr>
</tbody>
</table>

**Program overview**

The Master of Arts in Chinese Translation and Interpreting provides intensive training in translation from English into Chinese and vice versa, as well as interpreting between English and Mandarin. Undertake training in areas including society, business and trade, law, science and technology, politics and international relations. Studies in translation and interpreting equip you with the necessary knowledge, tools and foundations for future employment as a professional interpreter and/or translator.

**Program features**

- UQ’s field of arts and humanities is ranked 44th in the world (U.S. News Best Global Universities Rankings, 2021).
- Benefit from state-of-the-art facilities that include a UN-standard simultaneous interpreting booth.
- This is a program endorsed by the National Authority for Translators and Interpreters (NAATT) of Australia to train Certified Translators and Interpreters.
- You will undertake 100 hours of supervised field practice, which has been set to meet NAATT guidelines.

**Career opportunities**

Apart from working as a professional interpreter and/or translator, the language skills acquired in your studies are an advantage for careers in international business, diplomacy, law, health, education and academia. Some graduates teach translation and interpreting at universities or pursue further study towards a PhD.

</table>

**Program overview**

Develop advanced Japanese language skills through one of Australia’s leading interpreting and translation programs. This program is one of only two in Australia to be listed on the International Association of Conference Interpreters (AIIC) Schools and Programmes Directory. This program is for those with high levels of competence in the Japanese and English languages. Build the foundation for a career in translation and interpreting and develop advanced linguistic competence in both Japanese and English. Hone your skills through interlinked areas of theoretical and practical training that covers interpreting techniques, translating techniques, ancillary skills such as public speaking and job research, and professional areas such as ethics and business.

**Program features**

- UQ’s field of arts and humanities is ranked 44th in the world (U.S. News Best Global Universities Rankings, 2021).
- Benefit from state-of-the-art facilities that include an UN-standard simultaneous interpreting booth.
- This is a program endorsed by the National Authority for Translators and Interpreters (NAATT) of Australia to train Certified Translators and Interpreters.
- Our teachers are NAATT-accredited and the interpreting coordinator is a member of the International Association of Conference Interpreters.

**Career opportunities**

Graduates work around the world as freelance or in-house interpreters and translators, using their translation and interpreting skills in a wide range of fields. Others have gone onto successful careers in business and government, including the Department of Foreign Affairs and Trade, Austrade and the Department of Industry, Tourism and Resources. A number of graduates also teach interpreting and translation at tertiary level.

**Program overview**

The Master of Communication gives graduates and professionals the knowledge, creativity and communication skills to set you up for career success in a range of communication industries in Australia and overseas. With two fields of study to choose from - Communication for Social Change and Strategic Communication - our postgraduate programs bring together world-class scholars, policy practitioners and cutting-edge researchers to deliver first-class teaching and improve the quality and employability of graduates as future leaders. The emerging field of Communication for Social Change allows you to focus on social change theory and practice and explore ways communication can change attitudes and behaviour. Choosing Strategic Communication will allow you to design professional communication solutions while expanding your knowledge of stakeholder engagement, crisis planning and critical thinking.

**Fields of study**

- Communication for Social Change
- Strategic Communication

**Program features**

- UQ’s field of social sciences and humanities is ranked 15th in the world (CWTS Leiden Ranking, 2020)
- Opportunities for cross-cultural exchanges and sharing diverse experiences
- UQ is the only Australian university to offer a field of study in Communication for Social Change

**Career opportunities**

Graduates with a specialisation in Communication for Social Change work as private consultants or find communication and facilitation specialist roles in government, non-government and community-based organisations, or international research and development sectors. Graduates with a specialisation in Strategic Communication are well equipped for diverse roles in public relations and marketing communication consultancies, not-for-profit organisations and government bodies, including organisational communication, crisis management, government relations, social media management and political campaigning roles.

**Program overview**

Expand your understanding of the political, social and planning challenges facing development. Develop the practical and intellectual skills to navigate this complex landscape, to critically engage with key debates and to be part of creating sustainable alternatives for the future. You’ll learn to address key challenges in the world today: the rights of Indigenous people, inequality, gender, health, violence, alternative economies, climate justice and environmental sustainability. By completing core courses drawing from anthropology, community development, planning, political science, sociology and related fields, you’ll have a unique, multidisciplinary and practice-based learning experience. This program will teach you how to deal with the challenges faced by development practitioners across multiple levels and scales in both developed and developing countries.

**Program features**

- UQ’s field of sociology is ranked 46th in the world (QS World University Rankings by Subject, 2021)
- Benefit from a program taught and supervised by leading researchers engaged in the field through research and practice. Your studies will be inspired and informed by these professional connections across the development sector
- You will study alongside students from all over the globe, each of whom contributes rich and diverse experiences. Studying with an international and diverse group of students will broaden your horizons, both personally and professionally

**Career opportunities**

Our graduates work across government, industry and community settings in development, social services, health, planning and elsewhere, to contribute to collaborative social change. Past development graduates have worked in international development, foreign policy, multilateral development agencies, international financial institutions, The United Nations Development Programme, community development and consultancies. Other graduates use this program to further their research ambitions and proceed to enrol in a higher degree by research program.

**More Information**

Visit future-students.uq.edu.au or scan the QR codes below.
**Program overview**

Boost your policy career and gain an advanced understanding of 21st century governance and public policy. Our programs bring world-class scholars, policy practitioners and cutting-edge researchers together to deliver a first-class teaching experience. Graduates will be equipped with a transferable skill-set allowing them to meaningfully address key policy issues and improve policy outcomes in both the public or private sector. Gain a better understanding of how governments operate, as well as the major public issues confronting our society across areas such as community and international policy, governance and development, and resource management. Be exposed to leading thinkers in the public, private and community sectors on a regular basis and study with students from a range of different backgrounds and countries in a genuinely multicultural classroom, giving you a global perspective.

**Program features**

- You will interact with world-class scholars and policy practitioners and work closely with top-rated researchers in the field.
- Tailor your studies to include an optional internship or participate in the Graduate Centre Mentorship program and gain valuable experience and connections in your field.
- A series of study areas include community and international policy, governance and development and resource management.

**Career opportunities**

Our graduates can be found in ministerial and public sector leadership roles, senior public management positions, think tanks and policy research institutes, social enterprise and not-for-profit leadership roles and special adviser roles around the world.

---

**“As a leading world institution, UQ immediately caught my attention while looking for postgraduate study opportunities. The fact that UQ is home to both the globally recognised UQ Rotary Peace Centre and the Asia Pacific Centre for the Responsibility to Protect (R2P Centre) convinced me that I couldn’t study anywhere else.”**

**Akanksha Phukan, India**

Master of Peace and Conflict Studies

MASTER OF INTERNATIONAL RELATIONS

DURATION | START SEMESTER | 2022 FEE (YEAR 1) | CAMPUS | ADMISSION REQUIREMENTS
--- | --- | --- | --- | ---
2 semesters | 1 (21 Feb) 2 (25 July) | $30,976 | St Lucia | Minimum, see page 92
3 semesters | 1 (21 Feb) 2 (25 July) | $30,976 | St Lucia | Minimum, see page 92
4 semesters | 1 (21 Feb) 2 (25 July) | $30,976 | St Lucia | Minimum, see page 92

Program overview
Graduate with a globally respected qualification that will deepen your professional skill-set and make you stand out in a competitive job market. UQ’s postgraduate programs in international relations will equip you with the theoretical and practical tools to analyse and evaluate events and issues in world politics. Gain an advanced understanding of the global challenges in foreign policy, terrorism, gender, political economy, security studies and more. You will have access to world-class teachers and researchers who are in touch with industry partners and participate in regular public commentary and debate in their fields. Graduates of this program will be global citizens, intellectually open and flexible, aware of and sensitive to cultural difference and motivated to make positive change through global engagement.

Program features
- UQ’s field of social sciences and humanities is ranked 15th in the world (CWTS Leiden Ranking, 2020).
- This program is housed in the Graduate Centre in Governance and International Affairs within the School of Political Science and International Studies – one of the top schools for international relations in the country.
- You can also include an optional applied fieldwork experience or research project in your program, or participate in the Graduate Centre Mentorship Program.
- Career opportunities: Students have found careers in diverse positions such as international relations advisers, human rights advocates and policy officers, in a range of areas including government, diplomacy, international organisations, non-government organisations (NGOs) and think tanks, as well as in the private sector.

MASTER OF INTERNATIONAL RELATIONS / MASTER OF INTERNATIONAL LAW

DURATION | START SEMESTER | 2022 FEE (YEAR 1) | CAMPUS | ADMISSION REQUIREMENTS
--- | --- | --- | --- | ---
4 semesters | 1 (21 Feb) 2 (25 July) | $40,144 | St Lucia | Minimum, see page 92

Program overview
This exciting dual program offers a rare opportunity to earn two sought-after master’s qualifications in two years and supercharge your career in the fields of international relations and law. The Master of International Relations / Master of International Law allows you to delve into exciting and topical fields relevant to contemporary world politics, the impact of law on trade, international security and other political issues, and how politics and law mutually shape each other. This program provides a fascinating insight into some of the most compelling issues facing the world today in areas such as business, diplomacy, international policy, advocacy, negotiation and war. Develop your career with a range of professional opportunities including internships, mentoring programs, overseas study with our international partners, inspirational guest speakers and career planning advice.

Program features
- UQ’s field of law is ranked 43rd in the world (QS World University Rankings by Subject, 2021).
- UQ’s field of social sciences and humanities is ranked 15th in the world (CWTS Leiden Ranking, 2020).
- This program is one of only two in Australia.
- Graduate with two master’s degrees in two years.

Career opportunities
Graduates have the knowledge to work in any internationally focused career, whether in government, non-government organisations (NGOs) or international business. This dual program unlocks many diverse careers, including in government policy, foreign trade and diplomatic services, UN, World Bank and other major international NGOs; international policy and research institutes; or international business. For graduates with research aspirations, the program includes opportunities to undertake a supervised research project and write a dissertation, laying the groundwork for possible future higher degree by research study.

MASTER OF INTERNATIONAL RELATIONS / MASTER OF PEACE AND CONFLICT STUDIES

DURATION | START SEMESTER | 2022 FEE (YEAR 1) | CAMPUS | ADMISSION REQUIREMENTS
--- | --- | --- | --- | ---
4 semesters | 1 (21 Feb) 2 (25 July) | $31,976 | St Lucia | Minimum, see page 92

Program overview
Graduate with two sought-after master’s qualifications, ready to engage in the fields of conflict resolution, aid and development. This dual degree will allow you to pursue a unique program of studies, which provides an understanding of the broad structures and dynamics of the international system combined with more specialised skills and knowledge relating to peace and conflict, conflict resolution and mediation and peacebuilding. Gain an advanced understanding of key issues and challenges in contemporary world politics, international security, foreign affairs and global, international and regional governance. Build on your knowledge of the forces that generate contemporary conflict and the practices that contribute to conflict prevention, resolution and peacebuilding.

Program features
- UQ’s field of social sciences and humanities is ranked 15th in the world (CWTS Leiden Ranking, 2020).
- UQ is one of only six universities worldwide to host a prestigious Rotary Peace Centre.
- The program is delivered by the School of Political Science and International Studies, which is internationally recognised for its research and teaching excellence.
- Gain hands-on experience through applied fieldwork, giving you an opportunity to work closely with an organisation in Australia or overseas.
- Graduate with two master’s degrees in two years.

Career opportunities
Our graduates have gone on to work in areas such as diplomacy, government, think-tanks, the UN and non-governmental organisations, as well as in the media.

GRADUATE CERTIFICATE IN MEDIATION AND CONFLICT RESOLUTION

**Program overview**
The Graduate Certificate in Mediation and Conflict Resolution will develop your capacity to negotiate, mediate, manage and resolve conflicts ranging from small individual disagreements to large scale, international and multi-party disputes. Undertake detailed studies in deep-seated and cross-cultural conflict resolution and training in developing key practical skills in a range of conflict resolution processes, including dialogue and mediation. Participate in a vibrant culture and study alongside students from a range of countries, backgrounds and disciplines – including political science and international studies, law, medicine, business, social science, education and the arts – giving you a diverse classroom experience.

**Program features**
- UQ’s field of social sciences and humanities is ranked 15th in the world (CWTS Leiden Ranking, 2020).
- Students can use the program to complete the training requirements for national accreditation as mediators or to articulate into UQ’s suite of master’s programs in peace and conflict studies or international relations.

**Career opportunities**
Graduates may work directly in the field of conflict resolution, in international peacebuilding efforts, in private practice as mediators, or as mediators or conciliators for a variety of government organisations.

MASTER OF MUSEUM STUDIES

**Program overview**
Museum Studies is an interdisciplinary field of study that encompasses museum history, theory and practice. The program delivers the professional training required for those interested in pursuing careers in the museum, art gallery and cultural heritage industry. It also provides the opportunity for those already working in this sector to develop or enhance existing skills and interests. At UQ, our focus is on developing a critical awareness of the social, cultural and political issues facing those working in the sector, whilst providing the hands-on training necessary for professional practice. Engaging with the University’s world-class museums and collections together with leading professionals in the field, UQ provides a uniquely stimulating environment.

**Program features**
- UQ’s field of arts and humanities is ranked 44th in the world (U.S. News Best Global Universities Rankings, 2021).
- Gain valuable hands-on experience and professional contacts by taking on a short-term internship or placement during your studies.
- Work with campus-based museums and collections, including UQ Art Museum, UQ Anthropology Museum and the RD Milns Antiquities Museum.

**Career opportunities**
Students have conducted placements or internships at international institutions such as the American Museum of Natural History, Dallas Art Museum, Florence Nightingale Museum, Petrie Museum of Egyptian Archaeology, Tate Modern and the Vietnam Women’s Museum. The Master of Museum Studies allows further study at the higher degree by research level and pursuit of academic career options in a field growing rapidly around the world.

MASTER OF PEACE AND CONFLICT STUDIES

**Program overview**
Delivered by world-class academics and researchers, this program encourages you to develop an understanding of varied forms of conflict and resistance and ways to move from conflict to peace. Our students graduate with the knowledge and practical skills they need to engage in conflict resolution, peacekeeping and peacebuilding in the contemporary global context. Learn from experts in Indigenous politics, gender, ethics, justice, development, security and the environment, and study alongside students who come from a range of countries and backgrounds. This program is housed in the Graduate Centre in Governance and International Affairs within UQ’s School of Political Science and International Studies, recognised internationally and nationally as a leader in peace and conflict studies research and teaching.

**Program features**
- Fieldwork opportunities are available in Australia or overseas.
- Study as a dual degree with the Master of International Relations.
- UQ is one of only seven universities in the world and the only one in Australia to host a prestigious Rotary Peace Centre.

**Career opportunities**
Graduates work in a range of careers nationally and internationally including positions such as peacekeeping officials, human rights advisers and advocates, and foreign correspondents within government, business and non-government organisations.

| | | | | Approved degree in any discipline | | 4.5 | 2 years full-time relevant professional experience and a writing portfolio |

**Program overview**
The Writing, Editing and Publishing program addresses the escalating demand for specialist writing and editing in today’s workforce and provides you with the practical communication skills to succeed in traditional and new media. You’ll gain a deeper understanding of all stages of the writing process and develop practical knowledge and experience in writing and editing across a range of genres, including corporate and technical documents, creative writing, academic research, advertising and marketing and more. You’ll learn from award-winning authors and industry experts about the dynamic and continually evolving landscape of the Australian and international publishing industries and have opportunities to intern at arts organisations, literary journals, educational publishers and trade publishers. An accelerating international focus means enhanced employment prospects for graduates.

**Program features**
- UQ’s field of arts and humanities is ranked 44th in the world (U.S. News Best Global Universities Rankings, 2021).
- You will have access to world-class teachers who have extensive and current industry experience.
- You may undertake an internship with some of the leading publishing organisations in Queensland.

**Career opportunities**
The program offers graduates a wide range of opportunities to pursue either freelance or salaried careers in writing, editing and publishing. Graduates have found employment in Australia and internationally in writing and editing for social media and mainstream publications in the arts, advertising, business, education, marketing, science, technology and journalism.

Business, Economics and Law

Challenge the future.

Create your future
Our vision is to provide a world-class business, economics and law education that opens your mind and expands your possibilities for the future. We want to inspire you to create change locally and globally.

World-class teaching
Our high-achieving students are taught by academic staff who advise and consult with companies worldwide. Many of these lecturers are world-leading researchers. Our courses and programs are designed to deliver the skills, concepts and techniques that are critical for a successful career in an increasingly connected and competitive world. Our Career Services team will create opportunities for you to further develop your skills and résumé to get ahead of the competition.

Careers
Business, economics and law have improved living conditions worldwide, but inequalities remain. Graduates of UQ’s Business, Economics and Law programs balance the push to prosperity with values like fairness, equality and justice. Leaders in business, policymaking and law are in demand around the world.

As a graduate, you can work in areas such as accounting and finance for non-government organisations, consultancy firms, the Reserve Bank, the International Monetary Fund, or academia. Law graduates can work as in-house counsels in organisations or go on to become solicitors or barristers, work in negotiation and conflict resolution, or in community organisations and legal aid.

Our Employability and Careers team won the Best University–Employer Partnership Award 2019 QS Reimagine Education

Navchaa Tumurbaatar is an international student from Mongolia, studying the Master of Development Economics.

MASTER OF ADVANCED ECONOMICS

Program overview
The Master of Advanced Economics is the School of Economics' flagship master's program and offers high-level, cutting-edge training in formal techniques of economic analysis and econometrics at a level similar to the first year in a US PhD program. This program can be used as a pathway to a PhD or as a standalone advanced economics training credential appropriate for private and public sector professional economists.

Program features
- UQ’s School of Economics is ranked in the top two economics departments in Australia (RePEc, December 2020).
- UQ’s fields of business and economics are ranked 41st in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- Provides a pathway to the School of Economics PhD program.

Career opportunities
Graduates will have analytical and modelling skills that are in demand within Australia and internationally in top-tier public- and private-sector organisations, such as reserve banks, treasury and competition/regulation bodies, international monetary organisations, utility companies, and major economic consulting and forecasting companies. These skills may also enable progression towards academic careers by opening pathways to PhD programs in economics at UQ or other high-ranking universities.

MASTER OF APPLIED ECONOMETRICS

Program overview
This program will advance your ability to analyse data and interpret the results. You will build expertise in the application of statistical methods to economic data, so you can inform decision-making, predict change and provide quantitative insight into economic relationships. You will develop advanced quantitative skills and abilities in critical and analytical thinking and logic. Compulsory courses will cover core areas including microeconomics, macroeconomics, econometrics, econometric methods for macroeconomics and finance, causal inference in microeconomics, advanced microeconometrics or advanced macroeconometrics. The skills and knowledge you acquire can be applied in a wide variety of economics and finance-related fields, including macroeconomics, quantitative finance, environmental and natural resource management, health, public sector management, business and economic modelling.

Program features
- UQ’s School of Economics is ranked in the top two economics departments in Australia (RePEc, December 2020).
- UQ’s fields of business and economics are ranked 41st in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- UQ is one of only two universities in Australia to offer this program.

Career opportunities
In the private sector, graduates typically work in finance, insurance and banking, or as stockbrokers and for consulting firms, where they study trends in areas like market research, financial risk analysis, logistics and quantitative business analysis. In the public sector, they are employed in policy or treasury, or work for bodies such as the Australian Bureau of Statistics, the Australian Tax Office and the Reserve Bank of Australia. Previous School of Economics graduates have studied at Yale, Harvard, the Massachusetts Institute of Technology and the University of Oxford.

MASTER OF BUSINESS

Program overview
Designed for people aspiring to management roles, current managers seeking formal qualifications and those changing career direction, the Master of Business provides you with specialist knowledge to accelerate your career within a particular business discipline. You may choose to complete two fields of study or additional advanced electives. This may include a research component, which provides a pathway to a higher research or doctorate level. This program does not assume prior knowledge or training in the available fields of study. If you’ve studied in a related discipline, consider if each field of study will extend your expertise and support your career plans.

Program features
- UQ’s fields of business and economics are ranked 41st in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- UQ Business School was the first business school in Australia to be accredited by the pre-eminent ranking bodies AACSB International and EQUIS.
- Graduates may be eligible for membership with the Australian Marketing Institute, depending on their chosen field of study.

Career opportunities
Graduates are highly sought after in the public, private and not-for-profit sectors. Graduates can expect to find employment opportunities in a range of fields, including recruitment, education, engineering, construction, consumer goods, finance, technology, telecommunications, travel, tourism, infrastructure, retail, insurance, community services and government.

**Program overview**
Make an impact on your company and community and make change on a global scale, with an MBA that will equip you with the skills, knowledge and mind-set to succeed. This highly practical master’s qualification includes close industry and community engagement and will provide you with the sophisticated knowledge and skills required to become a successful, contemporary business leader. The UQ MBA will teach you how to overcome challenges, navigate change and create opportunities in the business world. You’ll develop your leadership and communication skills and gain a comprehensive understanding of management operations and Australian and international business issues.

**Program features**
- Ranked #1 for student quality and Top 50 worldwide (The Economist, Full-Time MBA Ranking, 2021).
- Our UQ MBA Careers and Professional Development Team will help prepare you for a globally competitive employment market and will support your career advancement and transition.
- UQ MBA students have the opportunity to complete an industry-based experiential learning project working with industry partners to solve genuine business problems.

**Career opportunities**
The globally recognised UQ MBA is a powerful differentiator, giving graduates a career advantage in the highly competitive employment market. MBA graduates enjoy high-level leadership positions such as chief financial officer (CFO), chief executive officer (CEO) and business management consultants.

**Program overview**
Designed for business professionals of the future, this innovative program encourages a new take on data. You’ll gain a unique ability to speak the language of different organisational functions to bridge gaps and transform direction through data. Drawing on business, data science and philosophy insights, you’ll gain a hybrid, holistic understanding of business analytics and their application. With a key focus on responsible use of artificial intelligence (AI), ethics and strategy, you’ll learn how to interpret analytics for social, cultural and environmental business opportunities. Featuring a cohort from diverse backgrounds, this fully online program embraces opportunities for collaboration. You’ll join an international virtual community, draw on industry case studies and enjoy tailored professional development opportunities. In your final year of study, you’ll complete a team-based project that addresses real business problems or social issues.

**Program features**
- Embrace the flexibility of a 100% online program that allows you to study around other commitments.
- UQ’s fields of business and economics are ranked 43 in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- Learn from real case study datasets informed by industry to solve problems and discover opportunities.

**Career opportunities**
Graduates will be highly sought after as data analysts, marketing data analytics managers, business intelligence analysts and data governance managers.

**Program overview**
Advanced research skills are highly valued in both academia and the commercial world to find solutions to some of the world’s most pressing business issues. The Graduate Diploma in Business Research Methods offers you the choice of a comprehensive range of elective courses that cover topics such as economics-based research in financial accounting, corporate finance theory, empirical methods in finance and capital markets research, and advanced marketing theory and research. Prepare yourself for a PhD or Master of Philosophy, or any number of outstanding career possibilities in areas of business research.

**Program features**
- UQ’s fields of business and economics are ranked 43 in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- You can choose to write a thesis on an original research topic. This will further your expertise and skills in critical thinking, communication and project management, and also open doors to a future career in research, within industry or academia.
- UQ Business School was the first business school in Australia to be accredited by the preeminent ranking bodies AACSB International and EQUIS.

**Career opportunities**
Our graduates have found employment at high levels, both in Australia and internationally, including roles at multinational companies, startups, governments, aid organisations and research institutions.

Program overview

The Master of Commerce will build your theoretical and technical knowledge of the financial services industry, so you can step into senior management or start a new career. You will develop in-depth, specialist knowledge in applied finance, information systems or professional accounting. You’ll learn in a contemporary learning environment and gain practical experience by accessing our state-of-the-art Bloomberg Trading Lab and participating in the Student Managed Investment Fund project. You can undertake two fields of study or additional research electives, which may provide a pathway to higher degrees by research.

Fields of study

- Applied Finance
- Information Systems
- Professional Accounting

Special note: This program does not assume prior knowledge or training in the available fields of study. If you’ve studied in a related discipline, consider if each field of study will extend your expertise and support your career plans. For students who have previously undertaken studies in accounting, entry to the Professional Accounting field of study will only be considered for students not accredited with CPA Australia or CAANZ associate membership.

**Program features**

- UQ’s field of accounting and finance is ranked 48th in the world (QS World University Rankings by Subject, 2021).
- UQ Business School was the first business school in Australia to be accredited by the preeminent ranking bodies AACSB International and EQUIS.
- Gain hands-on experience with the state-of-the-art Bloomberg Trading Lab.
- Be part of the vibrant Master of Commerce Student Committee, led by students. By joining the Committee, you can share your experiences and views about the program and also be part of various social and employment related events.

**Career opportunities**

Graduates can expect to work in a range of fields, including banking and finance, funds management, stockbroking, audit firms, management consulting, electronic retailing and information systems infrastructure.

Program overview

As a Master of Development Economics student, you will learn how to address one of the most critical problems facing humanity: how can we create thriving and sustainable economies to overcome poverty and inequality? You will cultivate specialist skills in economic modelling and statistical techniques, as well as knowledge of the complex forces that shape global economic growth, trade and development. You can choose to specialise in study areas including health economics, environmental economics, and international economics and politics. A range of electives are available from other study areas. Elective options may also include a research component, which can provide a pathway to higher degree by research study. No prior knowledge or training in economics is required for the four-semester program.

Program features

- UQ’s School of Economics is ranked in the top two economics departments in Australia (RePEc, December 2020).
- UQ’s fields of business and economics are ranked 41st in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- Study as a dual degree with the Master of Economics and Public Policy.

Career opportunities

Grades are in demand in Australia and internationally within private and public sectors, aid agencies, consultancies, and the areas of project management and infrastructure planning. Across sectors, graduates have secured jobs as consultants, policy advisers, project officers, economic analysts and researchers.

<td></td>
</tr>
</tbody>
</table>

Program overview

The dual Master of Development Economics and Master of Economics and Public Policy program offers students the opportunity to combine a deep understanding of economic development theory with a thorough understanding of how government policy is created and put into practice. This allows students to be fully equipped for a career in central government economic development. You will study a program with a strong emphasis on quantitative techniques in economics, benefit-cost analysis and operations research (MDeveEcon), alongside an economics-centred, multidisciplinary program (MEconPP). A range of electives are available, allowing study in fields such as health, environment, innovation and competition policy, international economics and politics, and quantitative techniques for project appraisals. This dual program allows you to complete the requirements for two master’s degrees over a two-year study period, rather than three years if the programs were taken separately.

Program features

- UQ’s fields of business and economics are ranked 41st in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- Graduate with two master’s degrees in two years.

Career opportunities

Our graduates are sought after in economic policy areas within governments at local, state and federal levels and internationally. Our graduates have secured jobs with central banks, public sector agencies, policy review and advisory boards, international organisations – including the Organisation for Economic Cooperation and Development and the International Monetary Fund – and global financial institutions, such as the World Bank.

GRADUATE CERTIFICATE IN ECONOMIC STUDIES

Program overview
Develop your analytical ability, critical thinking and logic with this four-course postgraduate certificate. This program is ideal for students without an economics background who want to explore the possibilities in this field. You’ll discover new skills in a modern economics program that’s engaging, interactive and rewarding and you’ll graduate with the prior knowledge you need to succeed in an increasingly competitive world.

Program features
- UQ’s fields of business and economics are ranked 41st in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- Graduates have the opportunity to pursue further study and enrol in the Graduate Diploma in Economics, or one of our two-year economics master’s programs.
- Career opportunities
  - Graduates possess core knowledge and skills that are valuable in a large number of workplaces.
  - Qualifications in economics have allowed a great number of our graduates to progress further in their existing professional careers, or move into new roles that involve more economic analysis. Other graduates choose to advance their studies further and enrol in a Graduate Diploma in Economics, or one of our two-year economics master’s programs.

MASTER OF ECONOMICS

Program overview
Gain the knowledge and skills expected of a professional economist and learn how to confront complex economic problems with intelligence and insight. You will develop your analytical ability, critical and logical thinking with comprehensive training in core economic principles and applications. While the four-semester program requires no prior knowledge of economics, you will have the opportunity to progress to more advanced courses in these areas after you have mastered the fundamentals. You can also choose from a range of electives in fields, including environmental economics, health economics and big data and machine learning for economics and finance. Our graduates play a vital role in public life and are respected experts across multiple fields in Australia and internationally.

Program features
- UQ’s School of Economics is ranked in the top two departments in Australia (ArWEC, December 2020).
- UQ’s fields of business and economics are ranked 41st in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- Enjoy the flexibility of a study framework that balances compulsory prerequisites with elective study areas.
- Career opportunities
  - Graduates of the Master of Economics are highly employable across private and public sectors in a wide range of areas including investment banking, senior consulting, financial analysis, government economic policy and research. Potential careers include economic policy analyst, infrastructure and investment adviser and quantitative behavioural strategist.

MASTER OF ECONOMICS AND PUBLIC POLICY

Program overview
The Master of Economics and Public Policy is an economics-focused, interdisciplinary program that examines the complex relationship between public policy, governance and economics. You will learn how governments develop policy and how their intervention affects the global economy. Drawing on knowledge from the School of Economics and the School of Political Science and International Studies, our programs cover microeconomics, macroeconomics, econometrics, political science, public policy and the contributions of economic analysis to public policy. You can choose to undertake a research component which may provide a pathway to higher degree by research study. No prior knowledge or training in economics is required for the four-semester program.

Program features
- UQ’s fields of economics, politics and international studies rank in the top 100 of the world (QS World University Rankings by Subject, 2021).
- UQ is home to the Energy Economics and Management Group, the Macroeconomics Research Group and the Asia–Pacific Centre for the Responsibility to Protect.
- The program balances compulsory prerequisites with elective study areas. You can choose to specialise in areas including health economics and the dynamics of governance.
- Study as a dual degree with the Master of Development Economics.
- Career opportunities
  - Graduates are sought after in economic policy areas within governments at local, state and federal levels and internationally. Our graduates have secured jobs with central banks, including the Reserve Bank of Australia; public sector agencies, such as the Australian Bureau of Statistics and the Australian National Audit Office; policy review and advisory boards, such as the Productivity Commission; international organisations, including the Organisation for Economic Cooperation and Development and the International Monetary Fund; and international financial institutions such as the World Bank.

CRICOS CODE 082599G
Program overview
Do you want to develop a new product, tackle a social problem or drive business growth, we can help you make a difference. Gain hands-on experience in managing the development of products and services, commercialisation and operating a lean startup model. This 18-month program is suitable for professionals from all backgrounds including corporations, startups, research organisations and the public sector.

Fields of study
- Biotechnology • Design and Information Technology •
- Corporate Innovation • Sustainable Energy
- Food Entrepreneurship • Social and Community Entrepreneurship • Sustainable Energy

Program features
- This program allows you to combine entrepreneurship and innovation studies with fields of study in science, engineering and social science.
- Work in a team on real-life projects with our industry partners or your own startup idea.
- Undertake your entrepreneurial projects and participate in a six-week entrepreneurial Ventures program that gives you access to mentoring, workshops and networking to make your ideas a reality.

Career opportunities
Graduates can expect careers in public or private organisations and research institutions both in Australia and internationally in a range of business functions, or in your own startup. Specific roles largely depend on your study fields and career ambitions, but the program offers significant flexibility to support your aspirations.

“UQ has a great business environment for startups. I really enjoy the small workshop-style classes with lots of interaction with the lecturers. The Master of Entrepreneurship and Innovation really complements my engineering background from France.”

Benjamin Faudot, France
Master of Entrepreneurship and Innovation
MASTER OF HEALTH ECONOMICS

Program overview

Master the complex economic issues in health administration and learn to find innovative solutions to global health problems, preparing you for a career in the health sector. The Master of Health Economics is a joint initiative of UQ’s School of Economics and School of Public Health. You will also learn to apply high-level economic analysis to decision-making processes in the health sector such as the allocation of resources and staff. Your strong analytical skills and respected qualification will unlock career opportunities in Australian and international health agencies and facilities. No prior knowledge or training in economics is required for the four-semester program.

Program features

- UQ’s fields of business and economics are ranked 41st in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- UQ’s field of public, environmental and occupational health is ranked 25th in the world (U.S. News Best Global Universities Subject Rankings, 2021).
- Enjoy the flexibility of a study framework that balances compulsory prerequisites in your first two semesters with elective study areas in your final semester(s).

Career opportunities

Graduates have enjoyed careers in Australian and international health agencies, pharmaceutical and health technology companies, health departments, private health facilities, health insurance companies and government and development agencies. Internationally, our graduates have secured jobs with organisations and institutions including the World Health Organization, the World Bank and the United Nations. Our graduates with previous careers in health have used their new qualifications to move into administration or senior advisory roles.

MASTER OF INTERNATIONAL COMMERCIAL LAW

Program overview

The Master of International Commercial Law is designed for students with a commercial background who want to specialise in areas of law relevant to international commercial operations. This program will consolidate your understanding of the Australian and international legal and regulatory frameworks that impact your work in these fields. Suitable for graduates of any discipline and relevant for both lawyers and non-lawyers, this program includes key courses to enhance your knowledge and understanding of fundamental legal concepts.

Program features

- UQ’s field of law is ranked 43rd in the world (QS World University Rankings by Subject, 2021).
- Our courses are taught in small groups using contemporary learning spaces in the historical Forgan Smith building.
- Study as a dual degree with the Master of Commerce.

Career opportunities

The Master of International Commercial Law provides an internationally recognised qualification relevant to a wide range of careers. Opportunities for graduates include diplomatic service and foreign affairs, international law firms, international policy and research institutes, and international finance and banking. For graduates with research aspirations, this program also includes opportunities to undertake a supervised research project and write a dissertation, laying the groundwork to enrol in an MPhil or PhD.

More information

Visit future-students.uq.edu.au or scan the QR code at right.

CRICOS CODE 096808K

MASTER OF INTERNATIONAL COMMERCIAL LAW / MASTER OF COMMERCE

Program overview

This dual master’s program allows you to integrate your commerce-related disciplinary knowledge with the theory and practice of commercial law to develop an understanding of how the law shapes international commercial interactions of all kinds. In addition to your chosen field of study in commerce, you are introduced to private and public law. You then study a range of commercially related law courses specifically developed for students interested in the world of commerce.

Fields of study

- Applied Finance • Information Systems • Professional Accounting

Special note: This program does not assume prior knowledge or training in the available fields of study.

If you’ve studied in a related discipline, consider each field of study will extend your expertise and support your career plans. For students who have previously undertaken studies in accounting, entry to the Professional Accounting field of study will only be considered for students not accredited with CPA Australia or CAANZ associate membership.

Program features

- UQ’s field of law is ranked 43rd in the world (QS World University Rankings by Subject, 2021).
- UQ’s field of accounting and finance is ranked 48th in the world (U.S. News Best Global Universities Subject Rankings, 2021).
- Graduate with two master’s degrees in two years.

Career opportunities

Graduates may find employment opportunities in the areas of accounting, banking and finance, funds management, stockbroking, auditing, electronic retailing and management consulting with an international commercial legal focus.

**Program overview**

The Master of Laws program will enhance your theoretical and practical legal expertise. It is designed for recent law graduates and established legal professionals wishing to deepen their legal knowledge or break into new fields of law. You will improve your critical thinking and research skills as you study courses driven by the needs of contemporary legal practice. These include courses in highly specialised areas, such as corporate and commercial law, maritime law, as well as international trade and law, as well as courses with an international focus in both public and private law providing you with the opportunity to look beyond domestic law.

**Program features**

- UQ's field of law is ranked 43rd in the world (QS World University Rankings by Subject, 2021).
- Master of Laws lecturers include renowned academics, legal practitioners, judges and international scholars.
- Learn from internationally recognised legal scholars and visiting practitioners who are passionate about the law and selected for their experience and expertise.

**Career opportunities**

Accelerate your career progression and deepen existing expertise with the Master of Laws (LLM). Graduates complete this program to pursue specialist accreditation, or break into a new area of practice. Gain advanced knowledge of new areas of law and be in contention for globally competitive legal careers. Those with academic aspirations may enrol in research courses during their studies to gain a foundation of advanced legal knowledge before enrolling in a Master of Philosophy or PhD program.

**Program overview**

The Master of Leadership in Service Innovation adopts a cross-disciplinary perspective aimed at developing the transformational mindset needed for leaders in a rapidly changing global business environment. It addresses critical challenges facing managers in the world of business such as digital disruption, automation, artificial intelligence (AI), socio-demographic changes and geopolitical shifts. The program blends research and best practice in business leadership, innovation, service science, service management and experience design. Through these areas, the program develops transformative organisational and leadership capabilities which will enable managers to thrive in business landscapes, both in the current climate and the future.

**Program features**

- UQ's fields of business and economics are ranked 41st in the world and 2nd in Australia (Times Higher Education World University Rankings by Subject, 2021).
- Enjoy the flexibility of a program taught online with a part-time workload.
- Engage in a program with a multi and cross-disciplinary perspective taught by industry experts and teachers who are leaders in their respective fields.

**Career opportunities**

The skills you develop throughout your degree will enable you to take on a range of business functions for public, private and not-for-profit organisations in Australia and around the world. Specific roles largely depend on career ambitions and industry experience, but the program is structured to support your aspirations.

**Program overview**

Get set for a successful managerial career in tourism, hospitality or events. You'll benefit from UQ's extensive network of industry leaders, many of whom deliver guest lectures and share their knowledge, and you'll have the opportunity to establish contacts for the future. You will study key foundation courses to gain a comprehensive understanding of the three different industries and the wider context in which they operate. The skills you develop will be relevant to many international settings and could take you anywhere in the world.

**Fields of study**

Event Management • Hotel Management • Travel and Tourism Management

**Program features**

- UQ's field of hospitality and leisure management is ranked 31st in the world (QS World University Rankings by Subject, 2021).
- UQ is the only university in Australia to offer programs with UNWTO TedQual certification.
- The United Nations World Tourism Organization (UNWTO) promotes responsible, sustainable and universally accessible tourism.
- Undertake work-integrated learning where you will apply and develop your knowledge.

**Career opportunities**

Graduates typically work in roles spanning business, the arts, sports, culture and events. Specific roles largely depend on your field of study and might be found in hotels, accommodation management, national and state sporting associations, state and local government tourism, events and sport and recreation departments, the airline and cruise industries, travel organisations and with tour operators. Graduates also work in small hospitality enterprises or take on roles in general hospitality management.

INTERNATIONAL POSTGRADUATE UG GUIDE 2022
Students complete more than 80 days of supervised teaching in the classroom with experienced teachers as part of UQ’s professional enrichment program.

Graduates of both Master of Teaching programs are eligible to apply for teacher registration with the Queensland College of Teachers.

Education
23rd in the world
QS World University Rankings by Subject, 2020
Our vision is to teach you how education has changed and prepare you for the future of learning. Study with our international award-winning lecturers who will teach you flexible and creative ways to cater for the diverse learning needs of children and young adults.

Education

Change or advance your career and make a difference, everyday.

Whether you want to begin your journey as a teacher or further develop your career in education, UQ offers programs that will forge your path to the most important and influential profession in the world – impacting the next generation.

Join the teachers of tomorrow – those passionate about inspiring students’ love of learning – by studying one of our Master of Teaching programs (Primary or Secondary); because the children we teach today will be the leaders of communities, businesses and even countries tomorrow.

Alternatively, take the next step in your education career and strengthen your leadership expertise with a Master of Educational Studies.

With seven fields of specialisation to choose from – including Behaviour Management, Guidance, Counselling and Careers, Curriculum, Leadership, Science of Learning, Supporting Diverse Learners, or Psychology Education – this diverse career will focus on building flexible and creative ways to improve education for the future.

Careers

Over 96 per cent of UQ education graduates found employment after study (QILT Graduates Outcomes Survey 2018–2019). You will graduate from an accredited program with eligibility for teacher registration in Queensland and beyond. Choose to become a primary or secondary school teacher, Head of Curriculum, distance education teacher, community education officer or educator. Alternatively, choose a diverse career focused on building flexible and creative ways to improve education for the future by studying a Master of Educational Studies. You will strengthen your leadership expertise and be well on the way to a career as a behaviour management counsellor, school counsellor, career development practitioner, school principal or guidance counsellor.

UQ has been preparing teachers for the world’s classrooms for more than 70 years. University study with practical school-based learning ensures graduates are well-equipped to meet the challenges of a career in education.

Program overview
Designed for those with an approved undergraduate degree, you can qualify as a primary school teacher in two years. Benefit from a structure that combines the latest educational research with practical school based learning, ensuring you are job-ready. Graduate from an accredited program with eligibility for teacher registration in Queensland. This program also provides the potential to work internationally. You will be taught by national and international award-winning lecturers and be thoroughly prepared for a career in education through access to the latest innovations in teaching research.

Program features
➡ UQ’s field of education is ranked 30th in the world (QS World University Rankings by Subject, 2021).
➡ Complete 70 days of supervised practicum supported by an expert team of university facilitators.
➡ The Master of Teaching (Primary) is offered to students without a teaching degree.

Career opportunities
Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT), as well as other authorities, to teach in schools around Australia and some worldwide. Once registered, you can work as a primary school teacher in state or independent schools in Queensland, interstate or overseas, or undertake further study to qualify as a principal, mentor, curriculum adviser, guidance or career officer, or head of department.

Placement
**MASTER OF TEACHING (SECONDARY)**

**Program overview**
This program allows you to build on your experience and previous degree to qualify as a secondary school teacher in two years. You'll participate in practical, school-based learning that draws from the latest research and develop powerful teaching strategies and effective learning activities under the guidance of UQ academics. Our lecturers and tutors are award-winning educators and researchers who are experts in their field. They provide regular educational policy and practice consultancy services for government departments and private organisations. This means our teaching (and your learning) is informed by the latest knowledge.

**Program features**
- UQ’s field of education is ranked 30th in the world (QS World University Rankings by Subject, 2021).
- You will complete 75 days of supervised professional experience placements throughout the program.

**Career opportunities**
Graduates are eligible to apply for registration as a teacher in Queensland and to work as a secondary school teacher in state and independent schools in Australia and worldwide. With further study and experience, this program can lead to roles as a head of department, principal, guidance officer, learning support teacher or student adviser. If you choose to undertake a specialisation in music or a language other than English (Chinese, French, German, Japanese or Spanish), there is also the opportunity to work in primary school education.

QS World University Rankings by Subject, 2021

U.S. News Best Global Universities Rankings, 2021
The world needs creative problem solvers.

**Solving problems**
For us, it starts with the spark. That craving you have to solve problems. It could be anything – protecting the planet, reimagining urban infrastructure, improving cyber security, or creating uncomplicated human-centred digital products. As long as it’s there, we’ll help you explore it – by encouraging your intellectual boldness, honing your skills and bringing out your capacity to lead others towards positive and impactful change.

**Innovation**
You will be taught by a mix of internationally renowned lecturers, industry professionals and leading researchers. Our programs focus on developing your understanding of the business environment so you can make better decisions in class and in your professional career. By the time you graduate, you’ll possess a distinct blend of creative and practical abilities, where every decision you make is ingrained in sustainability – and benefits people and communities all over the world.

**Careers**
The world needs structural solutions for our expanding cities and we need computer systems to enhance the efficiency of our organisations, companies and lives.

You can find work in research, development, design, manufacturing and operations within engineering firms, IT corporations, government, companies, consultants and non-government organisations. Or you can come up with your own entrepreneurial idea and use the resources available through UQ Ventures to start your own business.

12 national teaching awards in the last 10 years

Ranked above world standard for Engineering, and Information and Computing Sciences

Excellence in Research for Australia assessment, 2018

Dr Yuxiang Hu, from UQ’s School of Chemical Engineering and the Australian Institute of Bioengineering and Nanotechnology, tests a flexible printed battery. These emerging engineering technologies are changing the way we create human-centred products, monitor our health and even treat diseases.

TAKE A VIRTUAL TOUR of our Engineering and Computing learning facilities
MASTER OF COMPUTER SCIENCE

**Program overview**
Change is the only constant in the world of computing. If you’re a computing professional looking to upgrade, update or deepen your knowledge of rapidly evolving technologies – this program is for you. Whether you want to move into a leadership position or undertake an advanced research project, this program will boost your skills and enable you to gain expertise in a specialised area such as advanced computer science, software engineering, information systems, communication systems, interaction design, research and more.

**Program features**
- UQ’s field of computer science is ranked 71st in the world (U.S. News Best Global Universities Rankings, 2021).
- Choose from nearly 50 courses.
- Benefit from a flexible study plan with a large number of courses to choose from. Tailor your courses to suit your interests, your industry, or your career goals.

**Career opportunities**
- Graduates of the Master of Computer Science (Management) are typically interested in becoming managers or entrepreneurs in the technology sector. Graduates work across a variety of fields and disciplines.
- Many graduate pursue business roles in areas including strategy, digital marketing, product management, or consulting. Other graduates work in industry – as analysts, engineers, administrators, developers, project managers and in specialist roles – with an increasing number of graduates employed in banking, finance and insurance.

**Admission requirements**
- English: Your current qualification GPA: 5
- Computer science, information technology, or approved alternative.
- Disciplines: 5

MASTER OF COMPUTER SCIENCE (MANAGEMENT)

**Program overview**
This program will expand and deepen your knowledge and sharpen your business acumen so you can better create and manage great ideas. The job market is changing, the combination of technical and management skills is now a crucial requirement for candidates seeking high-level employment in the computing industry. In this program you will have the flexibility to either upgrade general computing skills, or focus on a specific area of interest such as computer science, software engineering, information systems, communication systems and interaction design. You will also undertake an advanced research project that addresses a specific topic or problem from the broad fields of electrical, computer systems or software engineering.

**Program features**
- UQ’s field of computer science is ranked 71st in the world (U.S. News Best Global Universities Rankings, 2021).
- Choose from nearly 50 courses.

MASTER OF CYBER SECURITY

**Program overview**
To get ahead in cyber security you need more than just technical skills. This program will develop your broader strategic cyber security insight while deepening specialist skills and experience – preparing you to lead at a technological, organisational or policy level. Study specialised topics such as cryptography, cyber criminology, cyber defence and leadership to develop an understanding of the global cyber security landscape, informed by industry and government experts. You will undertake an integrated learning experience with an increasing number of graduates employed in banking, finance and insurance.

**Program features**
- This program is aligned to the National Institute of Standards and Technology’s internationally recognised NICE Cybersecurity Workforce Framework – the gold-standard around the world for cyber security education and job alignment.
- This is the first program to genuinely address the interdisciplinary nature of the field – bringing together technology, business, mathematics, social science and law to offer an integrated learning experience while also meeting the need for deep technical specialisation in one of four selected discipline areas.
- Access UQ’s state-of-the-art facilities, which include more than 740 Windows, Unix and Apple workstations, 16 specialist computer labs (including 10 with 24-hour access) and a university-wide 802.11ac wi-fi network.

**Career opportunities**
- Cyber security jobs are fast becoming the highest-paying jobs in the IT sector. This program aims to create specialists with a deep understanding of cyber security’s impact on every aspect of modern life and to empower cyber security leaders for a resilient, more productive digital future. You can expect to find employment in cyber defence as a vulnerability and penetration tester, incident responder, intelligence analyst or security analyst; leadership as a CISO, CISO, policy advisor, consultant; cyber security tester or security architect; cyber criminology as a policy advisor, criminal justice, intelligence analyst or in law enforcement, or cryptography as a crypto-analyst, crypto software developer or cryptography researcher.

**Admission requirements**
- English: Your current qualification GPA: 5
- Leadership field: A relevant degree and a minimum of 2 years of supervisory / management experience Cyber defence: degree in computer science, information technology, computer engineering, mechatronic engineering, electrical and electronic engineering, mathematics or software engineering. Cyber criminology: degree in sociology, criminology, criminal justice or crime science. Cryptography: degree in mathematics, statistics, computer science, physics, actuarial science or information technology. Leadership: degree in commerce, management, business, accounting, information technology, computer science, leadership.

Program overview
The Master of Data Science is one of the most in-demand professions globally. UQ has a growing network of industry partners who will ensure you receive hands-on training and experience to be job-ready and well-aligned with industry demands and expectations.

Career opportunities
Master of Data Science graduates will be expertly prepared to work in Australia or overseas across a large range of industry sectors, government agencies and technology companies, as well as in consulting and market-research firms.

Program overview
The 21st century engineer is now someone with a truly global outlook who addresses increasingly complex and interdisciplinary challenges. UQ’s Master of Engineering gives you greater specialisation opportunities and specialist skills development to tackle current and future issues facing society. The program will allow you to advance your engineering knowledge and skills in one of a range of specialisation fields and demonstrate your learning through practice-focused and advanced technical courses, experiential learning experiences and research projects.

Fields of study
Bioengineering • Chemical Engineering • Civil Engineering • Electrical Engineering • Materials and Manufacturing Engineering • Mechanical Engineering • Renewable Energy Engineering • Software Engineering • Urban Water Engineering

Program features
★ UQ’s field of mineral and mining engineering is ranked 3rd in the world (QS World University Rankings, 2022).
★ UQ’s field of civil and structural engineering is ranked 30th in the world (QS World University Rankings, 2022).
★ UQ’s field of electrical and electronic engineering is ranked 3rd in the world (QS World University Rankings, 2022).
★ UQ’s Master of Engineering has been designed to include business and innovation courses so graduating students are better prepared to take on more senior, leadership roles.
★ All students complete a two-semester research project or industry placement as part of this program.
★ Across each field, students will develop technical and business expertise in their discipline through specialised advanced and master’s level courses.

Career opportunities
Graduates of the Master of Engineering are equipped with the specialist knowledge, technical skills and business acumen needed for leadership roles within their chosen engineering discipline. The program is a pathway to becoming an accredited engineer and opens doors to an array of industries, from consulting firms to forensic investigation companies, or working in areas such as chemical, civil, electrical, mechanical, mining, renewable energy and software.

Program overview
Interested in strengthening your capacity to design, develop and implement complex systems and engineering projects? This program offers advanced study in a range of engineering disciplines so you can develop your expertise. The Master of Engineering Science will build on your knowledge and transform you into an engineer who can lead your company and industry into the future. You will benefit from a program that offers a flexible study plan and a large number of fields and courses to choose from, so you can tailor your studies to suit your interests, industry or career goals.

Fields of study
Bioengineering • Chemical Engineering • Civil Engineering • Electrical Engineering • Fire Safety Engineering • Materials and Manufacturing Engineering • Mechanical Engineering • Software Engineering • Urban Water Engineering

Program features
★ UQ’s field of mineral and mining engineering is ranked 3rd in the world (QS World University Rankings, 2022).
★ UQ’s field of civil and structural engineering is ranked 30th in the world (QS World University Rankings, 2022).
★ UQ’s field of electrical and electronic engineering is ranked 3rd in the world (QS World University Rankings, 2022).
★ UQ’s field of mechanical engineering is ranked 7th in the world (QS World University Rankings, 2022).
★ UQ’s field of manufacturing engineering is ranked 3rd in the world (QS World University Rankings, 2022).
★ UQ’s field of mining engineering is ranked 3rd in the world (QS World University Rankings, 2022).
★ Our engineering academics scored above world standard in the most recent Excellence in Research for Australia assessment, which means our research is world class.

Career opportunities
Graduates of the Master of Engineering Science have developed the advanced knowledge needed to cross disciplinary boundaries and undertake sophisticated and complex engineering work. Graduates not only have technical expertise, but also have a combination of business, problem-solving and interpersonal skills to understand markets and develop productive relationships with customers, suppliers, business partners and colleagues.

More information

CRICOS CODE 076003B
MASTER OF ENGINEERING SCIENCE (MANAGEMENT)

Program overview
How can management evolve along with the global challenges that need to be addressed by engineering? Learn how with the Master of Engineering Science (Management), which combines postgraduate studies in engineering with business, economics and management, and is designed for students wanting to progress into managerial positions within the engineering industry. This program has been developed for engineering graduates without prior management background and provides you with opportunities to develop business management skills, while also extending your engineering knowledge, research experience or technical expertise.

Fields of study
Bioengineering • Chemical Engineering • Civil Engineering • Electrical Engineering • Materials and Manufacturing Engineering • Mechanical Engineering • Mechatronic Engineering • Software Engineering

Career opportunities
Graduates typically work across the public and private sectors. Employers include technology companies, banking and financial services, digital agencies, media companies, government agencies and health providers. Because the program has a strong emphasis on research and research skills, other students work in research or advisory positions, or choose to enrol in a Master of Philosophy or PhD program.

CRICOS CODE 075740K

MASTER OF INFORMATION TECHNOLOGY

Program overview
Do you want to build your knowledge of current and emerging IT concepts and techniques? This program will advance your skills in web and software development, information systems and research, along with other aspects of IT. The Master of Information Technology is designed for students who do not have a previous IT degree and want to enhance their current discipline areas through specialist IT knowledge. Core courses are combined with design computing team projects and a capstone research project. Both introductory and advanced electives are available in areas including programming, information systems, networks, user-centred design and more.

Fields of study
Bioengineering • Chemical Engineering • Civil Engineering • Electrical Engineering • Materials and Manufacturing Engineering • Mechanical Engineering • Mechatronic Engineering • Software Engineering

Career opportunities
Graduates are typically employed in areas as diverse as e-commerce, information systems, technology management, health, records management, geographic information systems and client services. Many of our graduates use their qualifications as a way of moving ahead with their careers – whatever industry they work in – or use the Master of Information Technology to further their research ambitions.

CRICOS CODE 080723B

MASTER OF INTERACTION DESIGN

Program overview
Interaction with electronic devices through computer-based technology, networks and telecommunication, is a major part of our daily lives and will become increasingly important in the future. The emerging challenges in this radically evolving field are not solely with the nature of new technologies, but with their design. Postgraduate studies in Interaction Design at UQ will train you to understand contexts of technology use and solve usability problems. You will explore design issues related to physical and digital environments that support interaction between people and technology across multiple disciplines and specialist areas.

Fields of study
Bioengineering • Chemical Engineering • Civil Engineering • Electrical Engineering • Materials and Manufacturing Engineering • Mechanical Engineering • Mechatronic Engineering • Software Engineering

Career opportunities
Graduates have developed the advanced knowledge needed to cross disciplinary boundaries and undertake sophisticated and complex engineering work. Graduates not only have technical expertise, but also have a combination of business, problem-solving and interpersonal skills to understand markets and develop productive relationships with customers, suppliers, business partners and colleagues.

CRICOS CODE 080726K
Program overview
The Master of Sustainable Energy aims to equip the next generation of energy leaders, managers and decision-makers with the skills and knowledge to address global energy challenges and embrace new opportunities as the world shifts to a low-carbon energy future. As one of the few programs in the world to offer you a cross-disciplinary education with direct industry contact and practical experience, you will gain a deeper understanding and appreciation of the complex nature of energy generation, distribution and supply and the challenges of transitioning to a sustainable energy future.

Program features
| ★ UQ’s field of environmental sciences is ranked 1st in Australia and 17th in the world (QS World University Rankings by Subject, 2021). |
| ★ Some courses involve site visits to let you see first-hand the changing landscape of energy and power generation in Australia. |
| ★ All coursework in this program is taught in five-day intensive blocks at our St Lucia campus. Some courses also require online discussions and field trips. |

Career opportunities
Graduates of the Master of Sustainable Energy typically work in and move across a large number of industries and sectors, where they develop innovative solutions for energy problems. Many graduates study the program for professional development reasons and proceed to leadership or management positions in industry, consultancy, government, or in non-government organisations and international agencies.

CRICOS CODE 094112C

MASTER OF SUSTAINABLE ENERGY (MANAGEMENT)

Program overview
The Master of Sustainable Energy (Management) is designed to equip students to develop transition pathways that provide affordable, reliable and sustainable energy. The program provides students with the knowledge and skills to become future leaders with a deep understanding of energy systems, responsible business practice and ways to address threats of climate change impacts. You will undertake management courses from your first semester, which focus on enhanced management and provide you with research and communication skills. You will be working towards creating a better energy future, learning directly from leading academics, researchers and industry representatives.

Program features
| ★ UQ’s field of environmental sciences is ranked 1st in Australia and 17th in the world (QS World University Rankings by Subject, 2021). |
| ★ Some courses involve site visits for you to experience first-hand the changing landscape of energy and power generation in Australia. |
| ★ All coursework in this program is taught in five-day intensive blocks at our St Lucia campus. Some courses also require online discussions and field trips. |

Career opportunities
As a graduate of the Master of Sustainable Energy (Management) you will understand the complex nature of energy generation, distribution and supply; the crucial roles of finance and technology for project management and business; and the critical importance of social license for assessing the energy landscape.

QS World University Rankings by Subject, 2021
Lead the world to better health.

**Commitment to health**
At UQ, we’re committed to health in a big way. From the molecular to the macro, from the laboratory bench to the bedside and from biomedical to behavioural sciences, we seek to advance understanding, build better health services and make you a leader and innovator of the future.

**Pathway to an exciting career**
We offer one of the widest range of health study areas in Australia. A hands-on approach and cutting-edge research are built into our teaching, to prepare you for all types of care situations. We maintain close partnerships with major healthcare providers to inform our teaching, research and clinical engagement. Placements are important steps in your study program to expand your professional network, decide on your specialty and prepare for an exciting career.

**Careers**
As life expectancy increases, the need for quality healthcare professionals is also rising. The global health sector is seeking alternative models of care, making it an exciting time for a career in health.
You can become an audiologist, biomedical scientist, dentist, doctor, dietitian, physiotherapist, public health worker, nurse, speech pathologist, social worker, pharmacist or psychologist. Work in local public hospitals or private practices, or travel the world doing what you love.

**Global partnerships**
with World Health Organization, the World Bank, Médecins Sans Frontières, University of Oxford, Ochsner Health System (USA) and tropEd

Program overview
Both experienced practitioners and those new to the field will leave this program equipped with the knowledge and skills to make a real difference to the global burden of alcohol, tobacco and other drugs. Individuals, families and communities experience adverse social harms arising from specific patterns of intoxication, modes of drug use and illicit drug markets. The Alcohol, Tobacco and Other Drug Studies program will give you a comprehensive understanding of the political, social, economic and scientific factors that influence the development of alcohol and drug-related policies, services, treatment and prevention.

Program features
★ UQ’s field of public health is ranked 2nd in Australia and 27th in the world (Academic Ranking of World Universities, 2020).
★ UQ’s broad field of life sciences and medicine is ranked 38th in the world (QS World University Rankings by Subject, 2021).
★ Make the most of a program that is fully delivered online.

Career opportunities
The Graduate Certificate in Alcohol, Tobacco and Other Drug Studies is usually undertaken for professional development reasons, such as career specialisation or advancing clinical or counselling practice. Graduates work in diverse roles across the public, private and not-for-profit sectors, including nursing (including mental health nursing), pharmacy, school guidance and counselling, social work, school nursing, medicine, community services, sporting teams and sporting organisations, health promotion and public health, alcohol and drug support services, not-for-profit and crisis support organisations.

Program overview
Audiologists play an essential role in improving hearing health and well-being in adults and children. Audiologists make a difference to the lives of others and are in high demand due to their specialist skills in helping people with hearing difficulties. The program integrates the theoretical foundations of audiology with practical clinical skills in preparation for a career as a clinical audiologist. You will also gain the ability to contribute to the development of clinical audiology by completing your own research.

Program features
★ UQ has a dedicated Audiology Clinic where you will develop your clinical skills during your studies. You will be placed in clinics in Brisbane, Queensland and around Australia and it may also be possible to complete placements overseas.
★ UQ is globally recognised for the quality of its audiology graduates, the commitment of its teaching staff and its strong research focus.
★ Be in demand and job-ready for employment in the high-growth audiology and speech pathology sector.

Career opportunities
Graduates of the Master of Audiology Studies work across the private, public and not-for-profit sectors. They might work in government-funded hearing services, public and private hospitals, community health centres and agencies, rehabilitation units, preschools, kindergartens and child care centres, aged-care/high-care facilities, private practice, and government and non-government institutions and organisations.

Program overview
If you like maths and quantitative problems and want to contribute to the advancement of research and evidence-based practice, you will be well suited to the study of biostatistics. Biostatistics is the specialised application of statistics, involving study design, data collection, data analysis and interpretation, to measure, understand and solve medical problems. The Biostatistics program is ideal if you’re interested in advancing knowledge in biomedicine, public health, or the life sciences. In this program, you will develop critical analysis expertise and interpretation skills, and the ability to apply relevant research findings.

Program features
★ UQ’s field of public health is ranked 2nd in Australia and 27th in the world (Academic Ranking of World Universities, 2020).
★ UQ’s broad field of life sciences and medicine is ranked 38th in the world (QS World University Rankings by Subject, 2021).
★ Make the most of a program that is fully delivered online.
★ There is an ongoing shortage of biostatisticians, both in Australia and internationally.

Career opportunities
Our graduates contribute to all fields of medical research and healthcare. If you enjoy collecting and studying information to forecast and draw conclusions, biostatistics could be your perfect health career. As there is an ongoing shortage of skilled biostatisticians in Australia and around the world, our graduates are in high demand in the public health sector, medical research and the pharmaceutical industry. With postgraduate biostatistics qualifications, our graduates have contributed to positive change in a variety of global roles including a longitudinal study on Australian women’s health, studying air quality near a bus tunnel in Seattle, and monitoring and evaluating data on infectious diseases in hospitals in the United Kingdom.

The Clinical Pharmacy program gives you the knowledge, skills and resources needed to advance your professional practice as a clinical pharmacist. You will learn in the purpose-built $138 million UQ Oral Health Centre. With more than 150 dental chairs in 11 clinics, it is the largest and most advanced tertiary oral health facility in Australia. Fields of study: Dento-Maxillofacial Radiology, Endodontics, Oral Medicine, Orthodontics, Periodontics, Prosthodontics, Special Needs Dentistry.

**Fields of study**
- Dento-Maxillofacial Radiology
- Endodontics
- Oral Medicine
- Orthodontics
- Periodontics
- Prosthodontics
- Special Needs Dentistry

**Program overview**
The Master of Business Psychology is designed to give students the skills required to become a consultant, specialising in the use of psychology to enhance the productivity and effectiveness of individuals, teams and organisations, and to improve quality of working life. The program provides practical skills in areas such as selection, training and development; leadership and talent management; change management; work redesign; and human factors and safety. The program is designed for people working as internal and external consultants in both the public and private sector.

**DOCTOR OF CLINICAL DENTISTRY**

**DURATION**
- 6 semesters

**START SEMESTER**
- 1(17 Jan)

**2022 FEE (YEAR 1)**
- $74,672

**CAMPUS**
- Herston

**ADMISSION REQUIREMENTS**
- English: Higher-than-minimum, see page 93
- Your Current Qualification: An approved degree in dentistry (or equivalent)

**ADDITIONAL REQUIREMENTS**
- 2 years graduate clinical experience (full-time) and registration with the Dental Board of Australia. A personal statement and supporting documentation must be submitted with your application. A request for referee reports will be emailed to your nominated referees (two required) if you are shortlisted for further consideration. Shortlisted applicants will be required to undertake a Clinical Assessment Program in Brisbane.

**Program features**
- UQ’s field of psychology is ranked 30th in the world (QS World University Rankings, 2021).
- UQ’s School of Psychology is one of the largest psychology schools in Australia.

**Career opportunities**
Employees with a background in business psychology are sought after for their analytical and practical skill set, along with their theoretical understanding. Graduates can work in a range of roles, such as organisational development and management consultants, customer service training managers, change management specialists and human factors specialists.

**Program overview**
The Doctor of Clinical Dentistry degree is designed for dental graduates to train in a specialty. The content of your program will vary depending on the field of study related to your chosen specialisation. The program will provide you with advanced understanding, diagnostic skills and clinical competence in your chosen field. You will develop an understanding of scientific methodology and the role of research in knowledge and clinical practice. You will undertake practical experience at the public dental clinics located at the purpose-built Oral Health Centre (OHC), hospitals and external healthcare facilities. The OHC is the nation’s largest and most advanced tertiary oral health facility and features state-of-the-art facilities and technology.

**Fields of study**
- Dento-Maxillofacial Radiology
- Endodontics
- Oral Medicine
- Orthodontics
- Periodontics
- Prosthodontics
- Special Needs Dentistry

**Program overview**
The clinical pharmacy program gives you the knowledge, skills and resources needed to advance your professional practice as a clinical pharmacist. Learn how to individualise, review and monitor a patient’s medication regimen; demonstrate effective communication skills in clinical and non-clinical scenarios; critically appraise medical and pharmaceutical literature; and recognise and describe social issues relating to medicine use. You will gain insight into contemporary management strategies for pharmacy and health care, as well as explore the research and evaluation of pharmacy services and practice. This program is also available as a Graduate Certificate.

MASTER OF CLINICAL PSYCHOLOGY

Program overview
Clinical psychologists promote optimal levels of psychological functioning to decrease levels of psychological distress. They have expertise in the assessment, diagnosis, treatment and prevention of a broad range of emotional and behavioural problems, including anxiety, depression, stress, substance addiction and abuse, adjustment to physical illness, relationship difficulties and learning disabilities. This program provides you with the knowledge and professional skills in the area of clinical psychology through a combination of coursework, supervised practice and research. You will gain a foundation in the scientific bases and practice of clinical psychology and receive training in clinical practice that employs evidence-based best practice models in health and mental health settings.

Program features
⭐ UQ’s field of psychology is ranked 30th in the world (QS World University Rankings by Subject, 2021).
⭐ Be confident and job-ready after you spend 1000 hours on supervised placements both in the UQ Psychology Clinics and in different healthcare settings in the community.

Career opportunities
Graduates of the Master of Clinical Psychology can apply for general registration as a psychologist in Australia and are eligible to apply for the Registrar Program through the Psychology Board of Australia. Graduates typically work in healthcare settings, such as hospitals, community and support groups, private practice, government services and health departments, mental health organisations and health clinics.

Pre-placement requirements

CRICOS CODE 026000G

MASTER OF COUNSELLING

Program overview
Become an accredited counsellor with the in-depth knowledge and practical skills to help people who are struggling. Taught in collaboration with UQ’s School of Psychology, this program is one of the largest in Australia and has a strong focus on counselling and applied psychotherapy strategies to enhance outcomes for clients struggling with a range of challenges. You will develop knowledge, skills and competencies for professional practice in counselling and be able to competently support individuals, couples, families and groups in the community. You will learn from leaders in the field of counselling and psychotherapy. The program adopts an integrative theoretical and practical focus. While on placement you will undertake a major project, providing an opportunity to apply counselling theory, knowledge and skills to clients.

Program features
⭐ UQ’s field of psychology is ranked 30th in the world (QS World University Rankings by Subject, 2021).
⭐ You will be confident and job-ready with more than 360 hours of supervised clinical placements.
⭐ The program focuses on integrating theory with practical, hands-on skill development. You’ll learn flexible ways to adapt your practice to the uniqueness of your specific clients.

Career opportunities
Graduates typically work in human-service settings such as health, welfare, community services, human resources and personnel management, and private practice. Graduates work with individuals, families, groups and communities in a number of different settings in order to address issues like loss and grief, mental health and well-being, violence, sexual abuse, drug and alcohol problems, relationship issues, crisis, working with children, medical diagnoses and health challenges.

Pre-placement requirements
Visit future-students.uq.edu.au or scan the QR code at right.

“I really enjoy the sense of community that being a part of UQ offers. There are so many opportunities to meet people, campus events and societies. In addition, the opportunities to further your university experience have been exceptional, whether in research, career opportunities, employment, volunteering or academic challenges. The lecturers and tutors are extremely approachable, supportive and knowledgeable which has made my experience of UQ really enjoyable.”

Georgina de Mello Kenyon, United Kingdom

**Program overview**
To meet growing industry demand for health practitioners with specialist qualifications in the core public health discipline of epidemiology, the Master of Epidemiology has been designed to give you advanced skills in epidemiology, biostatistics and health research methods. You will gain strong methodological skills and enjoy the flexibility to tailor your learning to best reflect your own interests and professional aspirations. The program offers the choice of one field of study from either Clinical Epidemiology or Standard Epidemiology. Clinical Epidemiology applies to clinical practice, patient care and health settings. The Standard field focuses on epidemiology and a range of different population groups. If you are curious, enjoy maths and science and want a career where you can make a difference, a degree in Epidemiology may be for you.

**Program features**
- UQ’s field of infectious diseases is ranked 20th in the world (U.S. News Best Global Universities Subject Rankings, 2021).
- UQ’s field of public health is ranked 2nd in Australia and 27th in the world (Academic Ranking of World Universities, 2020).
- UQ’s School of Public Health lecturers work on major public health projects with partners like the Wellcome Trust, the Bill & Melinda Gates Foundation, the Institute for Health Metrics and Evaluation, Harvard University, and the Swiss Tropical and Public Health Institute.

**Career opportunities**
The Master of Epidemiology is usually undertaken for professional development reasons – career progression, updating knowledge, or broadening areas of expertise. Graduates typically work across the public, private and not-for-profit sectors, both in Australia and internationally. They may work in areas including education, medicine, health, public health, government, or clinical research.

**Program overview**
The Doctor of Medicine (MD) is a postgraduate-entry program that is internationally renowned for our outstanding people, the diversity of our student intake and the excellence of our education. Graduates are recognised for their social accountability, critical scientific thinking and global leadership in health care. Years 1 and 2 of the program combine biomedical sciences, public health, medical ethics and clinical skills training in a case-based learning context and a series of patient-centred cases, each designed to help you learn principles of basic and clinical science of health and disease within a relevant clinical context. Early patient contact and opportunities for clinical reasoning and research are embedded to help you develop advanced critical thinking and clinical reasoning and skills that are required for safe, high quality clinical practice.

Years 3 and 4 are organised around core medical disciplines and across clinical schools comprising hospitals, clinics and general practices in Queensland and the United States. Our students may also enhance their learning by conducting research through a higher degree or executive leadership training opportunities.

**Program features**
- UQ’s field of life sciences and medicine is ranked 38th in the world (QS World University Rankings by Subject, 2021).
- Internationally recognised, enabling graduates to practice in many countries around the world.
- You will benefit from early patient contact and training in clinical reasoning and research.
- We are committed to incorporating research into your medical degree.

**Career opportunities**
Graduates are ready to embark on a variety of career pathways. For example, you may work in patient care, public health, clinical academia and education, research or work for aid organisations, the defence forces or set up your own private practice.

**Program overview**
Develop the practical experience, knowledge, skills and attitude you’ll need to thrive as a contemporary mental health professional. The Master of Mental Health provides systematic training designed to develop knowledge, skills and attitudes that will prepare you for contemporary mental health practice. You will receive advanced training in a variety of evidence-based interventions and the theoretical principles that underpin them. You have the opportunity to undertake both structured and independent learning assignments and study in a flexible environment.

**Fields of study**
Art Therapy • Psychotherapy

**Program features**
- UQ’s field of psychology is ranked 30th in the world (QS World University Rankings by Subject, 2021).
- This program’s flexible learning activities may consist of online readings, online discussions or intensive workshops (eight days per semester), so you can still meet your other commitments.
- For the Art Therapy field of study you will complete 800 hours of clinical placement throughout the program and receive a high degree of professional supervision.

**Career opportunities**
As a graduate, you will have advanced skills and understanding in mental health for roles such as senior clinical, management, policy and planning mental health positions in both clinical and non-clinical settings.

**HEALTH, BEHAVIOURAL SCIENCES AND MEDICINE**

---

---
Program overview

Develop the skills to succeed in contemporary mental health nursing practice and prepare for a rewarding career making a positive difference to the lives of patients, families and carers. The Master of Mental Health Nursing is designed to provide students with an advanced understanding of the theories, legislation, policies and standards that underpin mental health nursing. It will develop a student’s knowledge, skills and attitudes relevant to contemporary mental health nursing practice. Students will develop practical skills that promote safe nursing practice and management of risk in a clinical setting.

Program features

- UQ’s field of nursing is ranked 4th in the world (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).
- Coursework is delivered in online study modules and discussions and you can complete practical placements at your current place of work.
- Graduate job-ready; mental health nurses are in high demand in a variety of fields within the mental health sector.

Career opportunities

As a registered nurse who has completed the program, you will have diverse career opportunities. These include community, inpatient, consultation liaison, acute care, forensic mental health and leadership roles.

More information

Placement

*This program may require students to attend workshops on campus. Contact labs@enquire.uq.edu.au for further information.

GRADUATE CERTIFICATE IN NURSING

Program overview

Boost your clinical skills, knowledge and experience, and advance your nursing practice. If you are a registered nurse who does not currently hold a Bachelor of Nursing, this program could be the perfect next step to advance your career. With a focus on deep knowledge of professional best practice, this program suits anyone seeking flexible online learning with direct application to the workplace. Gain an understanding of the requirements for postgraduate study before committing to a master’s degree, with the option to exit the master’s program after one semester of study (full-time equivalent) with a qualification.

Program features

- UQ’s field of nursing is ranked 4th in the world (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).
- Learn from experienced nursing practitioners and researchers who are leaders in their field, both nationally and internationally.
- The Graduate Certificate in Nursing program offers a flexible, external method of study suited to working professionals, with the option to continue on to the more comprehensive Master of Advanced Nursing.

Career opportunities

Many of our graduates use this program to further their nursing career. The need for registered nurses with a postgraduate qualification is growing for senior roles (Grade 7 or above in Australia) particularly for advanced or specialised nursing roles. This postgraduate qualification can support your career development in a range of environments such as care centres, community centres, GP clinics, public or private hospitals, schools and specialist clinics.

More information

Visit future-students.uq.edu.au or scan the QR code at right.

*Semester 1: half-year full-time (or part-time equivalent), Semester 2: one year part-time only.

MASTER OF ADVANCED NURSING

Program overview

Become a healthcare leader with advanced critical thinking, people management and research skills. The need for registered nurses with a postgraduate qualification is growing for senior roles, particularly for advanced or specialised nursing roles. UQ’s Master of Advanced Nursing is specifically designed for bachelor of nursing graduates who want to advance their careers and extend their nursing knowledge and skills. The program offers a choice of courses to enable you to develop specialist knowledge in paediatric, family, aged care, chronic disease, primary healthcare, or rural and remote clinical practice.

Program features

- UQ’s field of nursing is ranked 4th in the world (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).
- The Master of Advanced Nursing program offers a flexible, external method of study suited to working professionals.

Career opportunities

This postgraduate qualification can support your career development in a range of environments such as public or private hospitals, GP clinics, community centres, schools, specialist clinics and care centres.

Program overview
The Master of Nursing Studies has been specifically designed to prepare you for work as a registered nurse within two years of study. In this program, you will apply clinical-reasoning skills in your nursing practice, be able to work effectively in interprofessional teams to promote quality health outcomes for clients in your care and provide high-quality client-centred care through safe and effective nursing practice developed to meet Nursing and Midwifery Board of Australia’s Registered Nurse Standards for Practice. You’ll learn the most relevant theories and the latest skills from health and nursing professionals, and you’ll benefit from a program that takes a problem-based approach to learning and integrates classroom-based study with clinical practice. All problem-based learning tutorials, clinical simulation and clinical placement will take place at partner sites.

Program features
★ UQ’s field of nursing is ranked 4th in the world (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).
★ Be confident and job-ready when you spend 880 hours on clinical practice during your program.
★ During your first year you will undertake morning and evening shifts at one of Brisbane’s major teaching hospitals.

Career opportunities
As a registered nurse, you will be qualified to work in a variety of public or private healthcare settings, academia and teaching, research, aid organisations and the defence force. Careers and specialties include aged care, cardiac or critical care, day surgery or domiciliary, drug and alcohol, Indigenous health, infectious disease, medical/surgical, oncology, and paediatrics and child health.

“"I have thoroughly enjoyed the placement opportunities and practical experiences available to me throughout this course. The program structure and class sizes have been fantastic for my personal learning. I enjoy the tightness of the student group and the professors have amazing insight and abilities for educating within the program as well. I have big plans to continue my education into physiotherapy, to eventually own and run a dual practice for both OT and physiotherapy. Within OT specifically however, I am most keen (at this point) to work with youth in the mental health and wellbeing space.”

Rebecca Rollings, Canada
Master of Occupational Therapy Studies
MASTER OF OCCUPATIONAL THERAPY STUDIES

Program overview
Occupational therapists help people of all ages improve their quality of life and overcome factors which affect their everyday activities. You will learn to use assessment and treatments to develop, recover or maintain the daily living and work skills of people affected by injury or illness, psychological or emotional difficulties, development delays or ageing. As an occupational therapist, you will work with clients to identify and eliminate environmental barriers to independence and participation in daily activities. You will do this through a range of treatment strategies designed to enhance the client's ability, such as modifying the task or environment, skill development and/or education. You will receive an overview of how environmental factors in our society – such as legislation, public and private policies and programs, and attitudes – contribute to people's experiences of inclusion and discrimination.

Program features
★ UQ's field of anatomy and physiology is ranked 29th in the world (QS World University Rankings by Subject, 2021).
★ UQ has a dedicated occupational therapy clinic and simulated hospital ward where you will develop practical skills during your studies (as well as in hospitals, schools or private practices during placements).
★ Build on your undergraduate degree and qualify as an accredited Occupational Therapist in just 2.5 years.

Career opportunities
Graduates of the Master of Occupational Therapy Studies typically work across the public, private and not-for-profit sectors, both in Australia and internationally. They may work in public and private hospitals, community health services, rehabilitation units (medical, psychiatric and vocational), primary and secondary schools, private practice, industry and government institutions, residential aged care, mental health services, services providing development and training for persons with a social, intellectual or physical disability, tertiary education and research institutions.

MASTER OF ORGANISATIONAL PSYCHOLOGY

Program overview
In this program, we focus on current issues confronting and changing the way work is managed, organised and conducted, and the theoretical and practical approaches that organisational psychologists can use to enhance quality of work life for employees and improve organisational effectiveness. The Master of Organisational Psychology will develop your professional skills within a broad range of strategic and functional areas, including personnel selection, training and development, work design, leadership, and organisational development and change. You can expect to be involved in a diverse range of projects, such as large-scale cultural-change projects, the design and implementation of psychometric screening and assessing processes for employment purposes, high-volume recruitment and selection for large recruitment firms, and training design and delivery.

Program features
★ UQ’s field of psychology is ranked 30th in the world (QS World University Rankings by Subject, 2021).
★ During your studies, you will complete four practicum courses where you will get to apply and develop your knowledge, skills and professional ethics and attributes.
★ Join the largest school for psychology in Australia, globally recognised as a centre of excellence for business and organisational psychology.

Career opportunities
As a graduate you can work in varied and challenging roles in business, the public sector and the community. The main areas for employment include academic teaching and research, job design, ergonomics, measurement and evaluation; organisational development and change; recruitment and selection; and training and development. For more information about employment opportunities see the Australian Psychological Society at psychology.org.au.

CRICOS CODE 002042G

MASTER OF PHARMACEUTICAL INDUSTRY PRACTICE

Program overview
In this program, you’ll learn the stages of drug or device development and the lifecycle management process, from understanding how new drugs drive the discovery process, through pre-clinical development to post-registration surveillance. Learn about associated disciplines like pharmacovigilance, health economics, regulatory, quality assurance, quality control and biometrics, as well as commercialisation, intellectual property, and project and finance management. Undertake placements in Australia or overseas in your second year. Choose an independent project working alongside one of our world-class UQ Pharmacy researchers, in state-of-the-art laboratories at the $100 million Pharmacy Australia Centre of Excellence (PACE). This program is also available as a Graduate Certificate.

Program features
★ UQ’s field of pharmacy and pharmacology is ranked 31st in the world (QS World University Rankings by Subject, 2021).
★ Undertake one (mandatory) or two full-time placements in areas such as: pre-clinical, clinical, medical affairs, pharmacovigilance, manufacturing and packaging, regulatory, marketing, health economics and government.
★ UQ alumni hold leading positions in pharmaceutical companies and in pharmaceutical and health care related positions in government and industry.
★ Be taught by award-winning lecturers and internationally-renowned researchers and get to meet and network with current leaders in the pharmaceutical industry.

Career opportunities
Careers in the pharmaceutical and medical device industries and government are diverse and include pre-clinical research, drug discovery and formulation, clinical trials coordination and project management, medical affairs/medical science liaison, medical writing, regulatory affairs, manufacturing, marketing, health economics, drug and device safety assessment, pharmacovigilance, data management and biostatistics.

Pre-placement requirements

INTERNATIONAL POSTGRADUATE UQ GUIDE 2022
GRADUATE CERTIFICATE IN PHARMACY PRACTICE

Program overview
Deepen your understanding of contemporary pharmacy practice and gain specialised skills to enhance your career opportunities. This industry relevant program provides intern pharmacists with specialised training and skills in pharmacy practice. The program combines academic excellence with pharmacy practice to provide intern pharmacists the opportunity to gain a formal postgraduate qualification. The program has been developed not only to address the competence required by the Pharmacy Board of Australia standards, but with a focus on a program that is relevant to contemporary pharmacy practice.

Program features
- UQ’s field of pharmacy and pharmacology is ranked 31st in the world (QS World University Rankings by Subject, 2021).
- This program is developed, delivered and supported by a team of community and hospital pharmacists with extensive practice experience, which allows interns to leverage the expertise of a wide range of pharmacist practitioners.
- Career opportunities: A formal postgraduate qualification makes sure graduates are well placed to find work in an increasingly competitive market. This program provides graduates with credit towards postgraduate clinical pharmacy programs at UQ.

MASTER OF PHYSIOTHERAPY

Program overview
The Master of Physiotherapy is designed for physiotherapists wanting to gain advanced skills in musculoskeletal physiotherapy or sports physiotherapy. In this program, you’ll gain a deep understanding of evidence-based practice, biological and medical sciences, pain and disability, and therapeutic exercise. You’ll develop in-depth knowledge and advanced clinical skills which will enable you to critically evaluate and contribute to research in your clinical specialisation. You’ll also have the option to obtain a second master’s degree in the alternate field of study through an additional semester of full-time coursework. Both specialisations have an extensive clinical placement component where you’ll practice under the supervision of dedicated specialist clinical educators.

Fields of study
Musculoskeletal Physiotherapy • Sports Physiotherapy

Program features
- UQ’s field of anatomy and physiology is ranked 29th in the world (QS World University Rankings by Subject, 2021).
- Enjoy a flexible program that offers multiple delivery options including part-time, on campus and online courses. You’ll finish your final four courses on-campus in just one semester (full-time) or across two semesters (part-time).
- Upskill and specialise by gaining extra qualifications to broaden your knowledge and career – specialise in musculoskeletal or sports physiotherapy, or extend your study to obtain qualifications in both.
- Learn from award-winning physiotherapy educators and researchers.
- Develop your clinical expertise through supervised placements at UQ’s musculoskeletal and sports physiotherapy clinics.

Career opportunities
The Master of Physiotherapy is usually undertaken for professional development reasons – for career progression or advancing clinical practice. Depending on which field you choose, you could be on your way to a career as a musculoskeletal physiotherapist or sports physiotherapist.

 Placement
 Additional costs

“I wanted the opportunity to study abroad and UQ has a really good reputation. I liked how the classes are smaller, have a lower student to professor ratio and the courses all have a practical component. In the upper limb course, they brought in hand specialists and they taught us how to make splints, which was pretty cool. I’ve always been interested in a career in health care and I liked how physiotherapy is very hands on. I really enjoy anatomy and biomechanics and being able to interact with others so it seemed like a good fit.”

Julia Peng, Canada
Master of Physiotherapy Studies
DOCTOR OF PSYCHOLOGY

Program overview
This program is intended for those students who aspire to excellence and leadership in the profession of clinical psychology. The program includes professionally-oriented coursework and specialist placements through which you can develop advanced knowledge and skills in clinical psychology. The program also involves a substantial empirical research thesis, which provides an opportunity for you to develop advanced skills in clinical psychology research and evaluation. You can choose to develop skills as a generalist clinical psychologist or specialise in particular areas of clinical practice.

Fields of study
Clinical Neuropsychology and Clinical Psychology • Clinical Psychology • Clinical Psychology and Clinical Geropsychology

Program features
★ UQ's field of psychology is ranked 30th in the world (QS World University Rankings by Subject, 2021).

Research opportunities
Graduates of the Master of Psychology Studies typically work in private practice; public and private hospitals; community health centres and agencies; rehabilitation units; schools; and sporting organisations. Other graduates choose to undertake further study and go on to specialise in a specific area of psychology (e.g. sports, musculoskeletal, paediatrics, women’s and men’s health, orthopaedics); or undertake research.

UQ Guide 2022 79

INTERNATIONAL POSTGRADUATE UQ GUIDE 2022 79
MASTER OF PUBLIC HEALTH

Program overview
Public health focuses on preventing disease, prolonging life and promoting healthy lifestyles and offers a rewarding career that suits health professionals from a range of backgrounds. Our Public Health program will prepare you with knowledge and skills to define, critically assess and resolve public health problems. You’ll learn how to act on contemporary health concerns such as COVID-19, diabetes, obesity, HIV/AIDS and injury prevention, as well as traditional concerns such as under-nutrition and communicable diseases. If you are curious, enjoy solving problems and have a desire to make an impact on the health of communities and populations, a degree in public health may be for you.

Fields of study
- Alcohol, Tobacco and Other Drugs
- Global Health
- Health Promotion and Disease Prevention
- Indigenous Health
- Nutrition
- Standard

Program features
- UQ’s field of public health is ranked 2nd in Australia and 27th in the world (Academic Ranking of World Universities, 2020).
- UQ’s field of life sciences and medicine is ranked 38th in the world (QS World University Rankings by Subject, 2023).
- This program is the first in the Asia-Pacific region to achieve Curriculum Validation from the Agency for Public Health Education Accreditation, which confirms the curriculum adheres to European standards and contains the structure and core content expected from a comprehensive Master of Public Health.

Career opportunities
This program is usually completed by health professionals who want to move into public health, mid-career health professionals who want to advance their careers, or clinicians who want to broaden their range of expertise with a population-level focus on health and management. Careers in public health are diverse and graduates work across the public, private and not-for-profit sectors. Roles might include medical and health services manager, health promotion officer, community health worker, public health analyst, program support officer, environmental health officer, policy analyst, health administrator, or researcher.

Heads, Behavioural Sciences and Medicine

MASTER OF SOCIAL WORK STUDIES

Program overview
Social work is an exciting and rewarding career for those interested in working with people and addressing social and community issues and problems. The program will provide you with a professional qualification as a social worker, so that you can play a key role in contributing to a society based on social justice and in alleviating disadvantage. Through this program, you will learn how to stimulate action and intervene to change the social circumstances of individuals, families, groups and communities who are socially excluded. You will also work to reduce personal pain and distress and provide direction for individual development and control over life situations for your clients.

Fields of study
- Alcohol, Tobacco and Other Drugs
- Global Health
- Health Promotion and Disease Prevention
- Indigenous Health
- Nutrition
- Standard

Program features
- UQ’s field of social sciences and public health is ranked 26th in the world (U.S. News Best Global Universities Subject Rankings, 2021).

Career opportunities
Graduates work across the public, private and not-for-profit sectors. Employment opportunities are diverse and graduates may find themselves working in any number of areas, including family support, disability services, Aboriginal and Torres Strait Islander agencies and community development, correctional services, health services, drug and alcohol clinics, mental health, private practice, migrant and refugee services, child protection, youth work and youth justice.

MASTER OF SPEECH PATHOLOGY STUDIES

**DURATION** | **START SEMESTER** | **2022 FEE (YEAR 1)** | **CAMPUS** | **ADMISSION REQUIREMENTS** | **ADDITIONAL REQUIREMENTS** | **RELEVANT DISCIPLINES** | **APPLICATION CLOSING DATE**
---|---|---|---|---|---|---|---
2 years full-time | 1 (21 Feb) | $35,504 | Online | B1: English (see page 92) | Approved bachelor’s (honours) degree (in the same discipline) | Speech/coaching, exercise, and sport sciences | Sem 1: 31 Jan the year of commencement
1.5 years full-time | 1 (21 Feb) | $35,504 | Online | B1: English (see page 92) | Approved degree in the same discipline | Speech/coaching, exercise, and sport sciences | Sem 2: 30 Jun the year of commencement
2 years full-time (or part-time equivalent) (1) | 1 (21 Feb) | $35,504 | Online | B1: English (see page 92) | A bachelor’s degree and current coaching qualifications endorsed by a recognised sporting body (e.g. a national sporting organisation or equivalent and one year's coaching experience; OR a current coaching qualification endorsed by a recognised sporting body (e.g. a national sporting organisation) or equivalent, and five years coaching/high performance sporting experience | Speech/coaching, exercise, and sport sciences | 32 unit

**Program overview**
There is high demand for innovative and well-informed sports coaches with widely recognised qualifications in all sectors of domestic and international sport. Elite coaches, expert academics and world-leading researchers have combined their knowledge and skills in forging this unique and engaging program that offers the latest and most innovative theory and practice in sport coaching. You will engage in tailored learning experiences, applied across biophysical (e.g. recovery, program management, rate limiters) and socio-cultural (e.g. quality coaching practices, emotional regulation and cultures of excellence) aspects of coaching. This program provides coaching coaches with the opportunity to enhance and develop their professional practice and support their performance in the world of sport coaching. This program is also available as a Graduate Certificate.

**Program features**
- **UQ’s field of anatomy and physiology is ranked 29th in the world (QS World University Rankings by Subject, 2021).**
- You will participate in clinical experiences from your very first semester of study, including simulated learning experiences and a range of clinical placements in metropolitan, regional and rural settings.
- **UQ has its own Sport Pathology Clinic where you will develop your professional competency during your studies.**
- Career opportunities
  - There are many career opportunities in Australia and internationally for qualified speech pathologists, including work in community health centres and agencies; rehabilitation units; public and private hospitals in generalist, paediatric, geriatric, trauma and oncology-related roles; preschools, kindergartens and child care centres, including treating hearing impairment and/or intellectual disabilities; aged care/ high-care facilities; private practice; and government and non-government institutions and organisations.

MASTER OF SPORTS COACHING

**DURATION** | **START SEMESTER** | **2022 FEE (YEAR 1)** | **CAMPUS** | **ADMISSION REQUIREMENTS** | **ADDITIONAL REQUIREMENTS** | **RELEVANT DISCIPLINES** | **APPLICATION CLOSING DATE**
---|---|---|---|---|---|---|---
2 years part-time | 1 (21 Feb) | $41,536 | Online | Minimum, see page 92 | Approved degree in medicine | Sports coaching, exercise, and sport sciences | Sem 1: 31 Jan the year of commencement
1.5 years full-time | 1 (21 Feb) | $35,504 | Online | Minimum, see page 92 | Approved degree in medicine | Sports coaching, exercise, and sport sciences | Sem 2: 30 Jun the year of commencement
2 years full-time (or part-time equivalent) | 1 (21 Feb) | $35,504 | Online | Minimum, see page 92 | Approved degree in medicine | Sports coaching, exercise, and sport sciences | 32 unit

**Program overview**
This program provides graduate entry students with the theoretical knowledge, professional attributes and clinical and research skills necessary for professional careers in sport coaching. You will learn more about the communication skills of young children and adults across the lifespan. You’ll learn how to interview, assess, diagnose and treat a variety of clients with communication issues, ranging from speech impairments to problems with voice control, language, fluency, swallowing and eating.

**Program features**
- **UQ’s field of anatomy and physiology is ranked 2nd in the world (QS World University Rankings by Subject, 2021).**

**DURATION** | **START SEMESTER** | **2022 FEE (YEAR 1)** | **CAMPUS** | **ADMISSION REQUIREMENTS** | **ADDITIONAL REQUIREMENTS** | **RELEVANT DISCIPLINES** | **APPLICATION CLOSING DATE**
---|---|---|---|---|---|---|---
1 year full-time | 1 (21 Feb) | $41,536 | Online | Minimum, see page 92 | Approved degree in medicine | Sports coaching, exercise, and sport sciences | Sem 1: 31 Jan the year of commencement

**Program overview**
The Master of Sports Medicine has been created specifically for general practitioners who want to develop or advance their knowledge and skills in sports medicine. The program provides a comprehensive and interdisciplinary approach to prevention, treatment and management of sports injuries. Students will develop the clinical knowledge, research and practical skills for evidence-based practice in sports medicine. Students will be well placed to treat different types of injuries and may find employment in rehabilitation clinics and hospitals, healthcare clinics, sports medicine practices, acute care facilities, specialist and general practices, private practice, health and fitness centres, state and local government departments; professional associations and not-for-profit organisations; and sporting associations and professional teams.

**Program features**
- **UQ’s field of sports-related subjects is ranked 2nd in the world (QS World University Rankings by Subject, 2021).**

**Career opportunities**
Graduates are well placed to treat different types of people and different types of injuries and may find employment in rehabilitation clinics and hospitals, sports medicine clinics, and not-for-profit organisations; and sporting associations and professional teams.

Prior to commencing her studies at UQ, Harsha from India was working in a pharmaceutical company. Completing her Master of Biotechnology allowed her to diversify her knowledge and apply it to marine agriculture, plant and broader allied sciences.
Science and Mathematics

Discover new worlds, big and small.

World class
UQ has one of the largest science faculties in Australia with some of the world’s leading scientists, teachers, science programs and commercial outcomes. We focus on groundbreaking projects like the molecular characterisation of drug-resistant bacteria and finding better treatments for illness, to solving conservation problems using mathematics and improving hydrogen bonding.

Student focused
You will have the opportunity to interact with research teams, use our world-class laboratories and contribute to our international research efforts. You will network with industry partners and work for organisations and companies during professional placements or internships. This hands-on approach is why UQ graduates enjoy high employability rates and attractive starting salaries.

Careers
As a scientist, you can become a chemist, biochemist, ecologist, geneticist or statistician in areas such as climate change, biosecurity, food, sustainable energy, disease eradication and the management of natural resources. Mathematicians and physicists are using the latest computer technology to optimise financial portfolios, predict weather patterns and build quantum systems.

UQ has developed the cervical cancer vaccine, the highly innovative Nanopatch and chip technology in MRI machines

Access more than 2300 laboratories, including specialist teaching and research labs
10 research centres in mathematics and physics

TAKE A VIRTUAL TOUR of our Science and Mathematics learning facilities
MASTER OF BIOINFORMATICS

Program overview
Bioinformatics is changing the way we make scientific discoveries and interpret scientific data. With a worldwide shortage of bioinformaticians, the career opportunities for skilled bioinformaticians graduates are extensive. Choose UQ’s Master of Bioinformatics to increase your technical and research skills in core areas of bioinformatics and update your qualifications in recent technologies and methodologies. Learn how to analyse genes and their molecular products and model the systems they make. Compare genetic material between species, monitor the expression of molecules in different cells and discover abnormalities that cause disease. Throughout your studies you will gain extensive practical laboratory experience and develop your computational skills through immersion in a research laboratory.

Program features
☆ UQ is ranked 7th in the world and 1st in Australia for biotechnology (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).
☆ You will have access to more than 2300 teaching and research labs.
☆ Some courses within this program offer a practical placement.

Career opportunities
Graduates typically work for pharmaceutical, pathology and biotechnology companies, research organisations, government departments, universities, or in research laboratories. Roles include bioinformatician, data scientist or analyst, biomedical computer scientist, biostatistician, clinical data manager, geneticist, medical/technical writer, research scientist, or software/database programmer.

MASTER OF BIOINFORMATICS RESEARCH EXTENSIVE

Program overview
As industries are moving more deeply into genetic technologies, the demand for bioinformaticians with expertise in computational statistics, software engineering, data mining and genome informatics is expanding. This interdisciplinary Master of Bioinformatics Research Extensive program allows you to combine your research interests in mathematics, computing and biological sciences. Update your knowledge of recent technologies and methodologies, while enhancing your practical laboratory and computational skills as part of an advanced research project. Upon graduation, you will be able to demonstrate you can effectively use world-class bioinformatics practice to solve complex scientific problems. This program provides a strong preparation for entry into a higher degree by research program.

Program features
☆ UQ is ranked 7th in the world and 1st in Australia for biotechnology (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).
☆ You will have access to more than 2300 teaching and research labs.
☆ Take advantage of links to industry, government and academic institutions in Australia and overseas.

Career opportunities
Graduates typically work for pharmaceutical, pathology and biotechnology companies, research organisations, government departments, universities, or in research laboratories. Roles include bioinformatician, data scientist or analyst, biomedical computer scientist, biostatistician, clinical data manager, geneticist, medical/technical writer, research scientist, or software/database programmer.
Program overview
Equip yourself with advanced scientific skills and the business, legal and regulatory understanding needed to translate discoveries from the laboratory to real life. Through a perfect mix of science and business, this program will build on your expertise with core courses in business planning, quality management systems, regulatory issues and intellectual property, coupled with a large suite of electives in science that underpin new biotechnologies. You will gain a thorough understanding of a broad range of modern biotechnologies, the commercialisation of products, marketing and the business environment, including business planning and project management. Put your learning into practice through internships, placements and international study options that focus on research and development, commercialisation, marketing and the business of science. Choose to specialise in agricultural biotechnology, or take electives in molecular genetics, food microbiology, entrepreneurship and strategy, intellectual property, drug discovery and development, immunology and infectious diseases, and more.

Field of study
Agricultural Biotechnology

Program features
⭐ UQ is ranked 7th in the world and 1st in Australia and for biotechnology (Shanghai Ranking’s Global Ranking of Academic Subjects, 2020).
⭐ Choose from a wide variety of globally renowned laboratories (academic or industrial) to complete your research.
⭐ Internationally accredited by the US Council of Graduate Schools (Washington DC) as a Professional Science Master’s program.
⭐ Learn from entrepreneurial scientists who have successfully commercialised their scientific discoveries.

Career opportunities
Biotechnology is a rapidly expanding field driving our current and future economy. Graduates work in industry, venture capital, pharmaceutical companies, research institutes and government agencies in a wide range of roles including new product design and development, regulatory affairs, quality assurance, clinical trial operations management, consulting, commercialisation officer, technology analysts and business plan analysts.

“UQ offers so many opportunities to help students gain vital hands-on experience in their prospective industry outside of the classroom. Now I am able to apply the skills I learned throughout my internship, such as good manufacturing practices and good laboratory practices, to contribute to the scientific community.”

Tiffany Shar, USA
Master of Biotechnology
MASTER OF BIOTECHNOLOGY RESEARCH EXTENSIVE

Program overview
The Master of Biotechnology Research Extensive program is designed for scientists who wish to increase their technical and research skills in core areas of biotechnology, and to obtain greater laboratory immersion while simultaneously developing business and workplace skills. Students will look at how biotechnology can be used to advance medicines, vaccines and food production while minimising the ecological footprint of human activity. Through advanced lectures, projects and directed study, you will gain a comprehensive knowledge of the disciplines that underpin the biotechnology industry. You will also develop your research methodology skills and receive training in the special requirements needed to undertake research in the biotechnology industry, before undertaking your own research project. The extended program also provides strong preparation for entry into a PhD program.

Program features
- UQ is ranked 7th in the world and 1st in Australia for biotechnology (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).
- Internationally accredited by the US Council of Graduate Schools (Washington DC) as a Professional Science Master’s program.
- Choose from a wide variety of globally renowned laboratories (academic and/or industrial) and research labs to complete your research.
- Learn from entrepreneurial scientists who have successfully commercialised their scientific discoveries.

Career opportunities
Graduates work in industry, venture capital, pharmaceutical companies, research institutes and government agencies in a wide range of roles including new product design and development, regulatory affairs, quality assurance, clinical trial operations management, consulting, commercialisation officer, technology analysts and business plan analysts. With more than 400 biotechnology companies and over 600 medical device companies in Australia alone, our graduates are highly sought after.

MASTER OF FINANCIAL MATHEMATICS

Program overview
With global trade and financial risk management becoming more quantitative and computationally sophisticated, financial mathematics graduates are in high demand. The Master of Financial Mathematics will help qualify you for your next promotion in banking, insurance, investment, utilities, mining, or any other industry in which aspects of contemporary financial markets – such as international exchange rates, futures contracts and options – play a significant role. The program is tailored to build upon your background in mathematics, commerce or economics/ econometrics, while developing your essential skills in quantitative and computational analysis, mathematical modelling and stochastic processes. Graduate with a thorough understanding of the financial mathematics field, possessing the skills required to manage investment portfolios, develop financial products and price, and analyse business risk.

Program features
- UQ’s field of accounting and finance is ranked 48th in the world (QS World University Rankings, 2021).
- Experience financial markets with an industry placement project in sectors such as banking, energy trading or superannuation.
- Our researchers in the School of Mathematics and Physics have been awarded numerous ARC Fellowships, including Laureate Fellowships, Australian Professorial Fellowships, Discovery Outstanding Researcher Awards and QEII Fellowships.

Career opportunities
Graduates of the Master of Financial Mathematics typically work as quantitative analysts, market risk analysts, data scientists, risk managers and energy traders in areas such as funds management, hedge funds and superannuation; investment banking; retail banking; insurance and actuarial; energy providers and utilities; and risk management.

Program overview
Make your mark in the world’s largest industry, equipped with the latest knowledge in food safety and quality management, food preservation, processing, chemistry and microbiology. Build on your existing knowledge and practical skills and acquire a detailed understanding of industry operations and gain valuable professional skills. Tailor your studies to your career goals with specialised electives and apply the knowledge you develop to a research project or industry placement. As a graduate, you will use your leadership, analytical and problem-solving skills to respond to global consumer demand for desirable, safe and nutritious food.

Program features
- UQ’s field of food science and technology is ranked 1st in Australia and 20th in the world (Academic Ranking of World Universities, 2020).

Program overview
If you are a nuclear medicine technologist, diagnostic radiographer, or professional in a similar field this program may be for you. Medical imaging is developing at a rapid pace and hybrid medical imaging systems are becoming more commonplace. With the blend of high-resolution magnetic resonance imaging (MRI) and the physiological data of positron emission tomography (PET), magnetic resonance and positron emission tomography (MR-PET) is making quite an impression in medical diagnosis. This program will equip you with the skills required to operate this new hybrid system by encouraging your understanding of both the MRI and PET stand-alone technologies.

Program features
- UQ’s field of life sciences and medicine is ranked 38th in the world (QS World University Rankings by Subject, 2021).
- You will attend a one-week on-campus practical immersion where you will operate MRI scanners and practice scanning on human volunteers.
- Our Magnetic Resonance Technology programs are offered through the Centre for Advanced Imaging, which is one of the best imaging research centres in Australia. More than 75 per cent of the MRI scanners in the world use technology based on UQ research.
- Organise your study around professional and personal commitments, with all courses in this program able to be completed online.

Career opportunities
Our graduates use this qualification as a way of advancing their careers. This program is primarily designed for nuclear medicine technologists and diagnostic radiographers, wanting to upskill in this emerging specialisation. It may also be of interest to researchers using this exciting technology.

Program overview
Gain the geospatial data skills to advance your career in ecology, exploration, health, planning, maths, cartography, surveying, geography or environmental science. With the rapid growth of geographic data and products, employers are increasingly demanding high-quality graduates with technical and research skills in advanced areas of geographic information science. The program provides you with knowledge of ecology, business, geography, environmental management, environmental informatics, marine and earth sciences, natural resource management, sustainability, geography, urban planning and transportation.

Program features
- UQ’s field of geography is ranked 10th in the world (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).

**Program overview**

As one of the most powerful diagnostic tools for organs and tissues inside the body, magnetic resonance imaging (MRI) demands technologists with expert scientific and technical expertise. The Master of Magnetic Resonance Technology teaches you the physics of magnetic resonance and image formation, the components of modern MRI scanners and the specialist practical skills essential for a dynamic career in this field. Upon graduating, you will be able to embark on projects that make innovative use of magnetic resonance, such as assessing the needs of a radiography practice and the capability of equipment from various manufacturers to meet these needs.

**Program features**

- UQ’s field of life sciences and medicine is ranked 38th in the world (QS World University Rankings by Subject, 2022).
- Our Magnetic Resonance Technology programs are offered through the Centre for Advanced Imaging, which is one of the best imaging research centres in Australia. More than 75 per cent of the MRI scanners in the world use technology based on UQ research.
- Learn from a multidisciplinary team of expert radiographers, clinicians, physicists, chemists and engineers.
- Apply your knowledge and skills during a one-week on-campus practical immersion, or undertake a three-week full-time clinical placement through an elective course.
- Organise your study around professional and personal commitments, with all courses in this program able to be completed online.

**Career opportunities**

MRI physicists, MR technologists, image processors, engineers and biomedical engineers are in demand within Australia and internationally. UQ graduates have found employment in leadership positions in hospitals, private practice and research facilities and organisations.

**Program overview**

Advances in molecular biology have transformed biological research and driven the extensive growth of the biotechnology industry, with rapid increases in biological research and driven the extensive growth of the biotechnology industry, with rapid increases in molecular medicine and technology creating a high demand for skilled molecular biologists around the world. The Master of Molecular Biology exposes you to the laboratory and teaches you about bioinformatics and genomics, biomolecular structure and function, and immunology and infectious diseases. You will receive theoretical and practical training through lectures, workshops, projects and directed study. You will also gain training in research methodology in molecular biology and have the opportunity to undertake individual research.

**Program features**

- UQ is ranked 7th in the world and 1st in Australia for biotechnology (ShanghaiRanking’s Global Ranking of Academic Subjects, 2020).
- Opportunity to complete significantly more in-lab research than most other molecular biology programs.
- Undertake a research-focused internship or project with our industry partners.
- Learn from scientists who have contributed to breakthroughs in safer vaccines, antibiotic resistance, viral infections and early breast cancer detection.

**Career opportunities**

Graduates of the Master of Molecular Biology are equipped with high-level knowledge and skills relevant to modern molecular biology. Opportunities for molecular biology graduates exist across the public, private and not-for-profit sectors in areas including health, agriculture, diagnostics, the environment, food, pharmaceuticals, biotechnology, pathology and research.

**Program overview**
Get a head start in molecular biology research. UQ's Master of Molecular Biology Research Extensive program gives scientists more advanced technical and research skills in core areas of molecular biology, protein technology and bioinformatics. You will gain extended research laboratory experience within university laboratories or on placement in a company, government department, or other suitable organisation. Before your scientific communication skills and present your research findings in a manuscript suitable for publication in a relevant scientific journal. This program provides you with strong preparation for entry into a higher degree by research program (such as a PhD).

**Program features**
- UQ’s field of biological sciences is ranked 2nd in Australia and 44th in the world (QS World University Rankings by Subject, 2020).
- Gain extensive in-lab research experience by completing a supervised project over two or three semesters.
- Learn from scientists who have contributed to breakthroughs in safer vaccines, antibiotic resistance, viral infections and early breast cancer detection.

**Career opportunities**
Graduates are equipped with high-level knowledge, advanced technical and research skills relevant to modern molecular biology. Opportunities for molecular biology graduates exist across the public, private and not-for-profit sectors in areas including health, agriculture, diagnostics, the environment, food, pharmaceuticals, biotechnology, pathology and research.

**Program overview**
Molecular imaging is a form of biomedical imaging, which is rapidly growing in importance in the applied life sciences and contributes in the advancement of biomedicine. This unique program is designed for graduates with a background in chemistry, biology, physics, computer science, engineering, radiography and nuclear medicine technology who wish to gain knowledge of molecular imaging. Learn about molecular imaging probes, contrast agents and radio-pharmaceuticals for nuclear medicine, plus the importance of quality control. You will gain practical experience with a two-week residential component and a semester-long molecular imaging research project under the guidance of an academic supervisor.

**Program features**
- UQ’s field of life sciences and medicine is ranked 38th in the world (QS World University Rankings by Subject, 2021).
- Our molecular imaging programs are offered through the Centre for Advanced Imaging, one of the best imaging research centres in Australia.
- More than 75 per cent of the MRI scanners in the world use technology based on UQ research.
- Learn from a multidisciplinary team of expert radiographers, clinicians, physicists, chemists and engineers.

**Career opportunities**
You will graduate well-equipped to drive advances in disease diagnostics, molecular characterisation and drug discovery. Graduates typically work as radiopharmacists, physicists or engineers in the biotechnology sector; clinical imaging technologists; specialist chemists or radiochemists; medical physicists; and radio-pharmacologists or radio-physicists.

**Program overview**
When biology meets big data. Study life and living organisms and gain the tools and techniques to organise and analyse biological data with statistics, mathematics and computation. Study programming, stochastic modelling, optimisation and computational methods in biology. Learn how to manage and organise detailed data sets, perform sophisticated statistical analysis, model natural processes and create testable theories. Gain a thorough introduction to programming languages, High-Performing Computing (HPC) platforms, interactive Shiny apps and spatial tools such as remote sensing.

**Program features**
- Graduate with a unique qualification, the first of its kind in Australia.
- UQ’s field of environmental sciences is ranked 1st in Australia and 37th in the world (QS World University Rankings by Subject, 2021).
- Take advantage of intensive mode teaching to complete the equivalent of 18-months of study in just 12 months, with approved prior study.
- Gain practical experience working with large data sets in your final semester by completing a research proposal and a project under the supervision of a partner from industry, government, or a UQ academic.

**Career opportunities**
Demand for graduates with programming and analytical skills is high within biological fields as well as in emerging jobs markets such as personalised medicine, biotechnology and agribusiness. Graduates can expect diverse career options including data-based roles in the corporate, government, conservation, environmental and medical sectors, and in research organisations globally.

**INTERNATIONAL POSTGRADUATE UG GUIDE 2022**

89
MASTER OF QUANTUM TECHNOLOGY

Program overview
The Master of Quantum Technology provides advanced theoretical knowledge and practical skills in the specialised scientific fields of quantum technologies, physics and statistics. Use this program to extend your knowledge in a particular field or choose a new specialisation to expand your skills across these disciplines. This program will equip you with the qualification you need to demonstrate you can solve problems in government and industry and support other disciplines such as agriculture, biology, chemistry, engineering and medicine. This program also provides a pathway to PhD study.

Program features
- UQ is a global leader in quantum science, hosting the Australian Centre of Excellence for Engineered Quantum Systems (EQuS) and a node of the Centre for Quantum Computation and Communications Technology (CQC2T).
- UQ is home to leading experimental and theoretical research in quantum technologies and boasts high-performance fabrication and measurement facilities in optical, superconducting, opto-mechanical and ultra-cold atomic systems.
- Undertake three semester-long research projects that immerse you within leading quantum science research laboratories.

Career opportunities
Become highly sought after in an industry with a worldwide graduate shortage and high earning potential. Your skills will be desirable in industries including quantum information technology, optical communications, quantum metrology, quantum computing, data analysis, software development, computer programming, materials engineering, computational chemistry and machine learning, research, and civil, aerospace, and mining engineering.

MASTERS OF SCIENCE

Program overview
The Master of Science provides advanced theoretical and practical skills in a chosen discipline. It is a highly flexible program that offers a strong foundation for further study or entry into the job market. This program is usually undertaken for professional development reasons – updating knowledge and skills, career progression, or broadening areas of expertise. Graduates typically work in a variety of areas connected with veterinary medicine and pathology, including diagnostic laboratories, research institutions (including universities), industry (pharmaceutical, biotechnology, chemical), private practice, or government agencies that manage animal disease control.

Program features
- UQ’s fields of statistics and operational research are ranked in the top 100 of the world (QS World University Rankings by Subject, 2021).
- You will have the opportunity to attend the Maths Colloquium Series – a regular seminar series for students and academic staff who are working in pure and applied mathematics and statistics.
- Apply your gained knowledge through a range of collaborations, including research projects externally and within our research centres, commercialisation ventures and industry placements or internships.

Career opportunities
Many of our Mathematics graduates study higher degrees and go on to research positions at universities and other major research institutions. The number of mathematicians employed in banking, finance, insurance and risk-management is also on the rise. Our Physics graduates are highly valued by employers in education, finance, engineering, computing and management. Many graduates are employed in research and management positions, universities, health and nuclear physics. Our Statistics graduates are in high demand in business, industry, research and government, where they are employed in areas such as quality control, product development, asset and liability management, and determining risks and returns of investments.

MASTER OF VETERINARY SCIENCE

Program overview
Are you interested in building your knowledge of veterinary diagnostic techniques, pathology and the modern field of infectious disease diagnosis? Veterinary Science at UQ attracts some of the highest-achieving students from around the world. During this program, you will complete a significant research project, learn about the pathogenesis of diseases and improve your research skills and diagnostic techniques for the purposes of disease diagnosis, investigation, control and prevention, and the promotion of public health.

Field of study
Veterinary Diagnostic Pathology

Program features
- UQ’s field of veterinary science is ranked 26th in the world (QS World University Rankings by Subject, 2021).
- The School offers the latest research laboratories, teaching spaces and facilities, including veterinary laboratory services, a small animal hospital, an equine specialist hospital and an animal genetics laboratory.
- Increase your technical and research skills through a two-semester research project in veterinary pathology and infectious disease.

Career opportunities
This program is usually undertaken for professional development reasons – updating knowledge and skills, career progression, or broadening areas of expertise. Graduates typically work in a variety of areas connected with veterinary medicine and pathology, including diagnostic laboratories, research institutions (including universities), industry (pharmaceutical, biotechnology, chemical), private practice, or government agencies that manage animal disease control.

INFORMATION POSTGRADUATE UQ GUIDE 2022

90
Learning comes in all shapes, sizes and textures at UQ’s Gatton campus. From fangs to feathers, scales to skin – staff and students at the UQ VETS Small Animal Hospital never know what patient will come through the door next.
All students need appropriate English language skills for admission to UQ.

There are different ways you can meet our English requirements. The three most common ways are:
- a recognised qualification
- previous secondary schooling or post-secondary study, or
- English language tests.

UQ programs have either ‘Minimum’ or ‘Higher-than-minimum’ English language requirements. These are stated within each program entry under ‘English’ on pages 32–91.

## ‘Minimum’ English programs

**Recognised qualification:** If you have obtained a recognised qualification, score or test (and satisfied relevant conditions) listed in the following table, you will likely meet UQ’s English language proficiency requirements:

<table>
<thead>
<tr>
<th>LOCATION</th>
<th>QUALIFICATION</th>
<th>CONDITIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td><em>International</em></td>
<td>General Certificate of Education (GCE)/General Certificate of Secondary Education (GCSE) O level</td>
<td>A grade C or better in English Language, English Literature, or English as a Second Language</td>
</tr>
<tr>
<td></td>
<td>International GCSE (IGCSE) (must be endorsed by CIE, OCR, Edexcel, AQA or other UK authority: independent and school-assessed A Levels are not sufficient)</td>
<td>A grade C or better in English Language, English Literature, or English as a Second Language</td>
</tr>
<tr>
<td></td>
<td>General Certificate of Education (GCE) A or AS Level (must be endorsed by CIE, OCR, Edexcel, AQA or other UK authority: independent and school-assessed A Levels are not sufficient)</td>
<td>A grade C or better in an English Language or English Literature subject or (AS Level) General Paper/General Studies</td>
</tr>
<tr>
<td></td>
<td>International Baccalaureate Diploma</td>
<td>A grade of 4 or better in Language A: Literature or Language A: Language and Literature (previously English A1 and English A2) at HL or SL</td>
</tr>
<tr>
<td><em>Australia</em></td>
<td>Group of B (GoB) Foundation programs</td>
<td>A grade in Academic English (or equivalent) accepted for entry by the institution that offers the foundation program</td>
</tr>
<tr>
<td><em>Austria</em></td>
<td>UQ/IES Foundation Year</td>
<td>A grade of 5 in Academic English</td>
</tr>
<tr>
<td><em>Canada</em></td>
<td>British Columbia Senior Secondary School Graduation Diploma</td>
<td>A grade of satisfactory (befriedigend) or better in English</td>
</tr>
<tr>
<td></td>
<td>Ontario Secondary School Diploma</td>
<td>A grade of 60% or higher in English in the final year</td>
</tr>
<tr>
<td><em>Denmark</em></td>
<td>Studentereksamen (Upper Secondary School Leaving Examination) or Hojere Forberedelseseksamen (HF) (Higher than minimum Preparatory Examination Certificate)</td>
<td>A grade of 4 or better in English A or a grade of 7 or better in English Level B</td>
</tr>
<tr>
<td><em>Germany</em></td>
<td>Abitur</td>
<td>A grade of 3 (or ‘Satisfactory’) or better in English</td>
</tr>
<tr>
<td><em>Hong Kong (SAR)</em></td>
<td>Hong Kong Examination Authority Advanced Level (HKALE)</td>
<td>A grade of C or better in ‘Use of English’</td>
</tr>
<tr>
<td><em>India</em></td>
<td>All India Senior School Certificate (AISSCE) issued by CBSE</td>
<td>A grade of 65 per cent or better in English</td>
</tr>
<tr>
<td></td>
<td>Senior Secondary School Certificate issued by the State Boards of Gujarat, West Bengal, Maharashtra and Karnataka</td>
<td>A grade of 65 per cent or better in English</td>
</tr>
<tr>

</table>

Results are valid for five years from the date of the qualification being granted to the commencement date at UQ, except for locations marked with “~”.

- *Provincially examined acceptable if completed prior to 2020.
- Comprehensive information about UQ’s English language proficiency requirements is available online in the UQ Policy and Procedures Library: ppl.app.uq.edu.au/content/3.40.14-english-language-proficiency-admission
- NOTE: It is assumed that the applicant will have completed the entire school qualification, where applicable.
Proof that you have substantial paid work and/or voluntary work experience in a primarily English-speaking professional environment

IELTS* English test score listed below, or an equivalent test score** where this is accepted:

**Previous secondary schooling or post-secondary study:** If you have completed senior secondary schooling from a designated location where the medium of instruction is English, or have successfully undertaken at least one year of full-time (or part-time equivalent) post-secondary study (at diploma level or higher) in a designated location from an accredited university or institution where the medium of instruction and assessment was English, you may meet UQ’s English language proficiency requirements:

**DESIGNATED LOCATIONS**

American Samoa, Australia, Bahamas, Barbados, Botswana, Bermuda, Canada, Cook Islands, Falkland Islands, Fiji, Gibraltar, Ghana, Grenada, Guyana, Ireland, Jamaica, Kenya, Lesotho, Liberia, Nauru, New Zealand, Nigeria, Papua New Guinea, Samoa, Singapore, Solomon Islands, South Africa, Trinidad and Tobago, UK, USA, Zambia, Zimbabwe

**English language tests:** You can undertake one of the following English language tests to determine if you satisfy UQ’s English language proficiency requirements:

<table>
<thead>
<tr>
<th>IELTS</th>
<th>TOEFL (INTERNET-BASED)</th>
<th>TOEFL (PAPER-BASED)</th>
<th>PEARSON</th>
<th>CAMBRIDGE ENGLISH SCALE</th>
<th>BRIDGING ENGLISH (BE)*</th>
</tr>

</tr>
</tbody>
</table>

**Other qualifications:** You can also meet UQ’s English language proficiency requirements if you can demonstrate one of the following:

- Proof that you have either successfully completed a bachelor’s or master’s degree program, or at least two years full-time (or part-time equivalent) post-secondary study (at diploma level or higher), at an accredited university or institution that is recognised by UQ as one where:
  - English was the medium of instruction, and
  - English was the medium of assessment, and the final year of study has been undertaken during the five years immediately prior to the commencement of study at the University, OR

- Proof that you have substantial paid work and/or voluntary work experience in a primarily English-speaking professional environment that has been undertaken for a period of at least three years immediately before the start of study at the University.

**‘Higher-than-minimum’ English programs**

**English language tests:** To gain entry into UQ programs requiring ‘Higher-than-minimum’ English, you will need either the IELTS* English test score listed below, or an equivalent test score** where this is accepted:

<table>

</table>

This section is only to be used as a guide and does not guarantee that you will meet UQ’s English language proficiency requirements. Each application is assessed on an individual basis. For more information about UQ’s English language proficiency requirements visit: future-students.uq.edu.au/admissions/english-language-requirements

If you meet your preferred program’s academic requirements but NOT the English language proficiency requirements, you may apply for an ICTE English language pathway course. For more information see pages 28–31.
How to apply

STEP 1
Choose your program

- Find the program you wish to study in the Programs section on pages 32–91.
- Check you meet (or will meet) all entry and English language proficiency requirements.
- Check the application deadline has not passed.

STEP 2
Create an account

- Go to UQ’s online application portal and create an account: apply.uq.edu.au.

STEP 3
Complete your application

- Complete all details requested in the online application detailing all courses you have taken and qualifications you have been awarded from institutions other than UQ, even if you think they are not relevant to your application.
  **TIP: You can save an incomplete form and return later.**
- Attach all required documentation as per the program entry requirements and any additional information requests. You must provide complete academic transcripts and/or testamurs of your previous tertiary studies (if you have not yet completed your studies please provide a current transcript). A copy of your passport (in colour if possible) and official evidence of any name differences on your transcripts / awards is also necessary.
- If you want to apply for an English language pathway package, you can indicate this during the application process.
- In addition, you may be asked to complete and submit a Genuine Temporary Entrant (GTE) Assessment and provide a GTE Agent Checklist (if working with an agent).

STEP 4
Submit your application

- **Online:** a non-refundable A$100 application fee will be charged when submitting your application online. After submission, you can check the status of your application through your account.
- **In person or by mail:** if you are unable to email your application, you can submit it in person or by mail to: Future Students, Level 2, JD Story Building, St Lucia, The University of Queensland Brisbane, Queensland 4072 Australia. A non-refundable A$150 fee applies for applications that are not submitted online.
- Your application will be assessed by UQ International Admissions. They will inform you of the outcome.
International student definition

You are an international student if you are:
• not a citizen of Australia or New Zealand
• not an Australian Permanent Resident, or
• a Temporary Resident (visa status) of Australia.

You are not an international student if you are:
• an Australian citizen (living in Australia or as a resident overseas)
• an Australian Permanent Resident (visa status)
• a New Zealand citizen, or
• a holder of an Australian permanent humanitarian visa.

Permanent residency

If you have been offered a postgraduate place as an international student and become an Australian permanent resident before starting your first semester of study, you will not be able to retain your place as an international student and you must apply for enrolment as a domestic fee-paying student. Please apply to change your fee status as soon as you receive written confirmation about your new residency, visa or citizenship status.

my.uq.edu.au/information-and-services/manage-my-program/financial-matters/fees-international-students/changes-residency-visa-or-citizenship-status

Credit transfer and exemption for previous studies

Credit transfer for previous studies

If you have completed study elsewhere and have taken courses that are the same, or similar (in terms of level, standard and content) to courses in your UQ program, you may be eligible for credit transfer. In some instances, this will reduce the amount of time it will take to complete your UQ program. UQ recognises formal studies and recognised prior learning. You can see if your prior studies qualify through our database.
creditprecedents.app.uq.edu.au

Exemption for previous studies

If you have undertaken some prior formal or informal learning you may not have to complete some courses in your program. You will still have to complete a total number of units to graduate.
future-students.uq.edu.au/admissions/postgraduate-coursework/check-credit-eligibility

Visas

All international students applying to study in Australia must have a student visa unless they have an alternative visa that enables them to study. If you are granted a student visa, you must comply with all student visa conditions. For all visa enquiries and applications, please contact your local Australian Embassy, High Commission or Diplomatic Mission.

future-students.uq.edu.au/international/visa-information
www.homeaffairs.gov.au

Applications

Closing dates

It is recommended that you submit your application no later than the dates below to ensure you have enough time to apply for a student visa. Please note that some UQ programs have earlier closing dates. See program listing for details.

Semester 1 30 November of previous year
Semester 2 31 May of same year

Assessment

Applications are assessed on a case-by-case basis against the established entry requirements for the program concerned. For some quota programs, meeting the minimum entry requirements does not guarantee acceptance. Applicants who do not meet the academic entry requirements may wish to consider a pathway course (see page 29).

Your application status

If you have applied online, you can view the status of your application through your online application portal.

Documentation required

Academic

When you apply to UQ, please ensure that you submit certified copies of up-to-date transcripts and award certificates with your application. Grading scales will also be needed for any tertiary studies you have undertaken. Certified official translations are required for all documents in languages other than English.

English

To demonstrate your English language proficiency, you must attach copies of all relevant academic transcripts and award certificates to your application. Specific arrangements apply to IELTS, TOEFL and the Pearson Test of English (PTE) Academic.

future-students.uq.edu.au/admissions/english-language-requirements

Waiting on documents?

If you are waiting for transcripts or final results, you may still submit an application and, where possible, we will consider making a conditional offer to you. Submit your evidence of English language proficiency (unless you intend to sit a test), and any results you have so far with your application. Please upload any outstanding documents to your online application portal as soon as you receive them.

Deferrals, suspensions and cancellations

If you have a UQ offer to start in a certain semester and you wish to defer (i.e. delay commencing to a future semester), please contact the International Admissions office as soon as possible before the commencement date given on your offer. If you have already received your UQ Confirmation of Enrolment (CoE), a deferral will only be permitted if there are ‘compassionate or compelling grounds’. If a deferral is not approved, you may still delay commencing, but your CoE will be cancelled. This may impact your student visa or student visa application. The University can suspend or cancel your enrolment for a number of reasons including misbehaviour, poor academic standing and unsatisfactory academic progress. Please note that any deferrals, suspensions or cancellations may affect a student visa or visa application.
my.uq.edu.au/information-and-services/manage-my-program/withdraw-defer-or-return-study/defer-studies
UQ PhD alumni Dr Paula Kuo from Taiwan conducted research on the immunity in HPV induced cervical cancer with Professor Ian Frazer. She is now a Postdoctoral Researcher at the University of Cambridge in the United Kingdom.
Higher Degrees by Research

Completing a Higher Degree by Research can advance your career opportunities, satisfy your intellectual curiosity and position you as an expert in your field, while providing you with opportunities to travel, network and explore.

Why do a Higher Degree by Research (HDR)?
Undertaking a research degree will advance your career opportunities and satisfy your intellectual curiosity. Graduates from HDR programs typically secure academic or research careers within tertiary institutions or a broad range of professional and leadership roles within industry and government.

What are UQ’s Higher Degrees by Research?

Doctor of Philosophy (PhD)
A PhD is one of the highest degrees that can be awarded. It is seen as a requirement for the majority of academic and research positions in a wide range of fields and industries. The aim of a PhD is to foster the development of independent research skills.

Master of Philosophy (MPhil)
The MPhil is an internationally recognised research degree that involves undertaking a significant research project. It provides candidates with an opportunity to develop and enhance analytical and research skills through independent investigation in a specific field.

Doctor of Biotechnology (DBiotech)
The DBiotech program is designed to train scientists to develop an understanding of management issues for research enterprises and technology ventures, and the integration of specialist training in the area of biotechnology and research.

The doctorate includes one semester of advanced coursework in an area such as intellectual property management, regulatory and legal issues, innovation and entrepreneurship and biotechnology venture management. The program also includes a one-semester professional placement in industry and a two-year research project and thesis, which generally focuses on the technology transfer, legal, regulatory, quality or production aspects of biotechnology.

</tr>
</tbody>
</table>

*International students whose first language is not English must demonstrate that they meet the University’s English language proficiency requirements (see pages 92–93).

Reach your research and professional goals

Technology is changing our world on a global scale, affecting the way in which we live and work. To deal with these changes it will become increasingly important for HDR graduates to combine disciplinary expertise with a broader range of capabilities. Such knowledge workers, who have the ability to source information, critically assess its validity and apply it in novel and innovative ways, can make a significant contribution and develop outstanding careers in a variety of industries.

UQ’s Career Development Framework (CDF) was developed in consultation with students and industry to provide the skills and personal development HDR graduates need to meet these industry changes. Training covers topics including: research integrity, networking, communication skills and inter-cultural communication, writing skills, teamwork, CV writing, entrepreneurship, business acumen, resilience and emotional intelligence.

Training sessions are run throughout the year which provides you with the flexibility to decide which training is right for you and when.

cdf.graduate-school.uq.edu.au

Dr Vincent Wheatley (far right) with PhD student Will Landsberg (far left) and School of Mechanical and Mining Engineering senior lecturer Dr Anand Veeraragavan (middle).
How to apply:
(Higher Degrees by Research)

**STEP 1**
Check your eligibility by reviewing the entry requirements for UQ's Higher Degrees by Research.

**STEP 2**
Search for a supervisor

UQ is home to over 2000 research experts and a growing community of internationally renowned scholars and scientists. Visit researchers.uq.edu.au to search for and contact potential advisors directly through the UQ Researchers database or view available supervision and projects. Some projects also have attached scholarships.

**STEP 3**
Prepare your documentation

When applying you must submit documents to support your application, such as a research proposal, academic CV, academic transcript, award certificates, proof of English language proficiency and two referee reports. If you do not upload all suggested documents, your application may be delayed or rejected.

**STEP 4**
Apply online

You can submit your application online. If you wish to be considered for a competitive, merit-based scholarship, simply indicate this on the application form. There is no need to fill out a separate application form.

future-students.uq.edu.au/admissions/higher-degree-research

---

Research quarters
International HDR candidates at UQ enjoy a significant advantage over students at most other tertiary institutions with annual tuition fees divided into quarters instead of semesters. This reduces the pressure to submit research prematurely due to financial considerations. Research quarters are designed to match HDR student enrolment and work patterns, as well as scholarship rounds. You are required to commence your program within the first two weeks of a research quarter: January, April, July or October.

Life at UQ

UQ will be your home away from home. We offer sporting, cultural and recreational activities, we help you find accommodation, and we anticipate your unique needs from arrival to departure.

Whether you require help with learning, someone to talk to, or a lift from the airport the first time you touch down in Australia, we have you covered.
Accommodation

We have accommodation options to suit your lifestyle and make you feel at home. Live in a college on one of the best campuses in the world, go to the inner city for off-campus student accommodation, or find your own home in the private housing market.

On-campus accommodation
Do you want an immersive university experience? If you are studying at one of UQ’s Brisbane campuses you can live in one of the ten colleges at UQ St Lucia or our new purpose built on-campus student residence. If you are studying at UQ Gatton, you can live at the Gatton Halls of Residence. You can walk to class, enjoy services like academic support and social and sporting activities, and your meals are provided. Plus, you will make friendships for a lifetime. Apply before you arrive to secure a room.

my.uq.edu.au/student-support/accommodation/on-campus-accommodation

UQ Student Residence
More than just a room, UQ has developed a brand new flagship student residence. With a vibrant community located on campus you will live in a home away from home and a place where you can belong, thrive and call your own. All rooms include unlimited high speed internet, a private bathroom and all utilities included.

residences.uq.edu.au

Off-campus student accommodation
Do you want to cook your own meals but still live in a student community in the inner city of Brisbane? Choose from one of our recommended student accommodation providers. A variety of studio, single bedroom apartments and twin share options are available. You can pre-book a room before you arrive.

my.uq.edu.au/student-support/accommodation/approved-providers
Private housing
Are you the more independent type? You might like to share a house or apartment with other people. Brisbane’s rental market features everything from low-cost share houses to high-rise apartments, while Gatton’s rental market features a range of affordable share houses. To find a room, apartment or house, first check our UQ Rentals database. There are also private rental accommodation websites and you can rent directly from real estate agents. At the start of a lease you typically pay two weeks rent in advance and a bond (four weeks rent). You should get the bond back at the end of your lease if you maintain the property well. Make sure you inspect a property in person before paying money or signing anything. Arrive around one month before classes start to get organised, arrange inspections and lodge your rental application. Make sure you arrange temporary accommodation for when you land, if needed.
rental.uq.edu.au/Accommodation
UQ Accommodation team
Our UQ Accommodation team can help you find your new home. If you are new to the housing market, attend a free information session two weeks before classes start. The team can also give you advice, check documentation for you, and direct you to useful material online.
my.uq.edu.au/student-support/accommodation
Airport pick up
If you are a new international student to UQ, we’ll provide you with free transportation from Brisbane’s domestic or international airports. Just make sure you book three business days in advance.
my.uq.edu.au/information-and-services/student-support/accommodation/about-accommodation/airport-pickups
Guaranteed accommodation
When you apply through UQ Guaranteed Accommodation, you are able to secure your accommodation prior to arriving in Brisbane and commencing studies at UQ. The UQ residential colleges (on-campus) and UQ approved providers (off-campus) set aside a guaranteed number of rooms so you are able to compare, choose and secure the most appropriate accommodation easily.
my.uq.edu.au/guaranteed-accommodation
International student support

UQ has services and activities to help you settle in, make new friends, expand your skills and network, and enjoy student life right up until graduation.
SETTLING IN

Getting started
Make your transition to UQ a smooth one by attending one of our Getting Started sessions either when you arrive or during O-Week. Attendance is compulsory for all international students. In the session, you find out: how to enrol, register for classes, get your student ID card and key UQ dates and terminology. We also tell you about what services and facilities are on campus, how to register for public transport student discounts, and what your best options are for getting to and from UQ.

my.uq.edu.au/information-and-services/student-support/settling-in

Transition to UQ life with ease by registering for the Jumpstart uni preparation program, held before semester starts.

my.uq.edu.au/information-and-services/student-support/study-skills/jumpstart-uni-preparation-program

O-Week and your first weeks
O-Week is a great introduction to life at UQ and is held one week before semester starts. It is a great introduction to life at UQ. You can browse clubs and societies, listen to live music, meet new and interesting people at events, pick up free stuff, and most importantly, attend your program’s welcome session.

orientation.uq.edu.au

UQ mentoring
UQ offers loads of mentoring opportunities for you to get connected, get involved and have fun! Connect to peers, groups or industry partners; there’s something for everyone. As a new student transitioning to uni life we recommend you check out the Get Set program to help you navigate your first weeks at UQ. For more information on all of the mentoring opportunities available, visit the Mentoring website.

my.uq.edu.au/mentoring

Clubs and societies
Are you up for expanding your social network and diving into a hobby or passion? Join one of our 220 clubs and societies. From anime to yoga, medievalism to table tennis, and hockey to dancing, you are certain to find like-minded people. If you don’t, you can always start your own club.

uq.com.au/clubs-societies

uqsport.com.au/clubs

Safety on campus
Our campuses are safe places for students and staff. St Lucia and Gatton campuses have 24-hour security teams. St Lucia also offers a safety escort service if you would like someone to accompany you to public transport or your car, and a Safety Bus that runs from 6pm onwards around the campus. Plus, students can download the free UQ SafeZone app, which connects students directly with security officers or emergency services.

Spiritual practice
Our Multi-Faith Chaplaincy at UQ St Lucia caters to all religions. It is a great place to meet people from different cultures and faiths.

my.uq.edu.au/information-and-services/student-support/religion

UQ Mates
Your one place to gain access to the social scene through UQ’s free social network! Meet new friends and connect with like-minded students that share your interests through chat groups and facilitated on- and off-campus meet-ups. Whether you are into food, drinks, arts, culture, fitness, games or study – find your circle at UQ Mates.

ACADEMIC AND LIFE SUPPORT

Student Centres
If you need help navigating university administration, visit UQ Knowledge Base online or head to one of our Student Centres for help with forms, fees, health insurance enrolments, scholarships, exams and visas. support.future-students.uq.edu.au/app/answers/list

my.uq.edu.au/contact/student-centre

Academic workshops
Gain new skills and prepare for exams by attending free workshops held by our Student Services team. There are workshops on writing assignments, improving your memory, thesis writing, presentation skills, time management, academic language and grammar, and more.

my.uq.edu.au/information-and-services/student-support/workshops

International student advisers
There are advisers specifically for international students to help you overcome some of the challenges of studying in a foreign country. The Student Advice Team, located in Student Services, can help with a range of common questions and queries from making friends, planning finances, living in Australia and preparing for study to bringing your family, student visa information and academic and English support. The student advisers offer support in a free and confidential space and if you need to make an appointment with a Student Adviser or a Counsellor, you can do this in private by contacting Student Services.

my.uq.edu.au/information-and-services/student-support/international-interstate-students

The Students’ Union (UQU) can also help you with legal or migration support.

uqu.com.au

Peer Assisted Study Sessions (PASS)
Learn more about studying at UQ from second- and third-year students who have achieved top grades in your course. They can provide advice on coursework and content, and suggest effective study habits that will help you make the most of your time. Ask your faculty for more information.

English language support during your study
Develop and refine your English language skills needed for study at UQ. Take Academic Communication Skills (ACS) pre-semester to improve your academic skills, or join our free English for Academic Communication (EAC) course offered in-semester by ICTE (Institute of Continuing & TESOL Education). A range of academic English study options are available to meet your needs. Check the website for more information.

icte.uq.edu.au/study/english-language-support-university-qld-students-and-community

Ally Network is our award-winning program for the LGBTIAQ+ community.

staff.uq.edu.au/information-and-services/human-resources/diversity/sexuality/ally-network

UQ provides free support, services and facilities for students with a disability, illness, injury or mental health condition at UQ. You can contact Diversity, Disability and Inclusion Adviser to ensure your transition to study is as smooth as possible.

my.uq.edu.au/information-and-services/student-support/diversity-disability-inclusion
Cost of living

Brisbane is an affordable city offering a lower cost of living than Sydney, Melbourne, Perth and Canberra*.

To make the most of your time in Australia, we recommend you plan and budget for your study and holiday time.

*studentcities.com.au

Yearly costs
How much it will cost you to live in Brisbane will depend partly on your lifestyle preferences. For example, if you live in a share house off-campus, your yearly budget will be in the range of $12,960 – $33,060.

In addition to this amount, you will also need to consider establishment costs such as buying furniture, paying a rental bond and setting up electricity, gas and mobile phone accounts, as well as other expenses such as visa and medical fees, tuition fees, return airfares, and Overseas Student Health Cover (OSHC). Remember that exchange rate variations may also affect your budget.

Monthly expenses
The table below estimates monthly expenses for studying at UQ. These estimates are a guide only and prices vary according to your lifestyle. UQ tuition fees, textbooks and study materials, clothing, entertainment, printing, and healthcare costs are in addition to the figures below.

Working while studying
If you have a student visa you can work up to 40 hours per fortnight (two-week period) during university semesters, and full-time hours during holidays. In general, students shouldn’t expect to cover tuition fees or living expenses with a casual job.

If you are studying at UQ on a scholarship, you should contact your scholarship provider about how many hours you are permitted to work each week.

immi.homeaffairs.gov.au/visas/already-have-a-visa/check-visa-details-and-conditions/see-your-visa-conditions?product=500

Student concessions
As a student, you can use your student ID to receive concession prices for public transport, the cinema, museums, software, technology and much more.

my.uq.edu.au/starting-at-uq/student-finances/budgeting

Visa information
When applying for a student visa, you must meet the Genuine Temporary Entrant criteria (immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing/student-500/genuine-temporary-entrant) and have sufficient funds to pay your tuition fees, living costs (including the living costs of any dependants, if applicable) for the duration of your studies.

Bringing your family
To apply for a student visa in Australia, you need to declare that you have access to sufficient funds to pay your tuition fees and to support yourself and any dependants who are coming with you. This declaration is part of the UQ acceptance process. For children, you will also have to factor in school fees and childcare costs.

eqi.com.au/study-options/fees

If you are bringing a spouse and/or children, they will need dependant visas.

</tr>
</tbody>
</table>

*On-campus and off-campus accommodation costs are usually lower in Gatton. The monthly cost for a standard resident room in the Halls of Residence in Gatton is approximately $1190.

**Many student accommodation providers include electricity, gas and internet costs in rent; however, check with your provider to be sure.

***These costs are based on the assumption that the dependent child is not of school age and does not factor in child care costs. For more information on fees for school aged dependants visit: eqi.com.au/study-options/fees

This table should be taken as a guide only. For the most accurate costs of living, visit: future-students.uq.edu.au/university-life/living-in-brisbane/cost-living
Fees and expenses

As an international student, you will pay tuition and non-tuition fees. Some programs have additional costs; see individual program listings for details.

Tuition fees
Tuition fees vary according to program. We have provided the 2022 first year tuition fee and the indicative total fee for each program on pages 26–27 as a guide. These amounts are based on a standard full-time study load, unless otherwise indicated.

UQ has program-based tuition fees for coursework award programs, meaning that all courses within a program are charged at the same tuition fee rate per unit for a given academic year. Some programs also have additional costs. Tuition fees are reviewed annually.

Visit your program’s web page on future-students.uq.edu.au for the latest information about tuition fees.

Non-tuition fees
Non-tuition fees paid to the University may include the student services and amenities fee, books and equipment, health insurance, administration, accommodation, and assistance to apply for or hold a student visa.

future-students.uq.edu.au/admissions/postgraduate-coursework/review-fees-and-financial-support

Student Services and Amenities Fee (SSAF)
The SSAF is charged each study period for the provision of non-academic services. In 2021 the annual SSAF was capped at $313.

Scholarships
The University of Queensland offers competitive scholarships to help high-achieving students fund their tertiary education. For more information, see pages 108–109.

Health insurance
If you will be coming to Australia on a student visa, you will need to purchase and maintain Overseas Student Health Cover (OSHC) as one of the conditions of your visa. This is an insurance policy that covers you for basic medical and hospital care and is required from the day you arrive in Australia until you leave. UQ’s preferred OSHC provider is Allianz Global Assistance. UQ can organise your OSHC with Allianz when you accept your UQ offer and pay your tuition fee deposit. Alternatively, you can obtain your own OSHC from a government-approved OSHC provider.

Financial aid
We can help students from North America, as well as some countries in Europe and Latin America, apply for student loan programs that are offered in their home countries. These loans can help you cover a portion of your educational expenses while studying full-time at UQ.

future-students.uq.edu.au/admissions/financial-aid-international-students

Refunds
If you cancel your enrolment before census date fees can be refunded in full, unless you are a commencing student. For commencing students an administrative charge applies for late cancellation of enrolment. After census date, refunds are only made in limited circumstances. See the Student Fees Policy and Student Refund procedures for details.

Insider Guides provides a helpful online Cost of Living Calculator to estimate your weekly, monthly and yearly living costs in greater detail.

insiderguides.com.au/cost-of-living-calculator
Scholarship recipient Luluk Widyawati, from Indonesia, studied a Master of Business (Advanced) where she became passionate about the idea of sustainability. She returned to UQ to study her PhD, with a focus on “ethical investment”, which she completed in 2020. Luluk hopes to translate her skills into tangible contributions to sustainable development in Indonesia that maintain its rich biodiversity. She is currently a lecturer at the University of Indonesia.

Read more of Luluk’s story.
You may be eligible for a scholarship to study at UQ. The Australian Government provides international students with a range of scholarship options, and the University also offers competitive scholarships to help high achieving students fund their tertiary education.

scholarships.uq.edu.au

UQ HDR scholarships
UQ provides almost A$40 million in scholarship funding support each year for living and tuition expenses of Higher Degree by Research (HDR) candidates.

UQ Graduate School Scholarship (UQGSS)
The UQ Graduate School Scholarship (UQGSS) is awarded from Research Training Program (Australian Government) funding and UQ funding via a competitive scholarship round twice per year. The UQGSS provides a living allowance and a tuition fee offset. For international applicants who will study in Australia on a student visa, the UQGSS also includes an allowance for single overseas student health cover.

scholarships.uq.edu.au/scholarship/graduate-school-scholarships-uqgss-%E2%80%93-includes-rtp

Other scholarships for HDR candidates
In addition to the UQGSS, a wide range of scholarships for HDR candidates is available. These can be found on UQ's Scholarships website. New opportunities are frequently added, so prospective HDR candidates are advised to check the website regularly.

Australian Government scholarships
Australia Awards
Australia Awards are prestigious international scholarships and fellowships funded by the Australian Government. They are administered by the Department of Foreign Affairs and Trade and offer the next generation of global leaders an opportunity to undertake study, research and professional development in Australia. The

opportunities provided by Australia Awards Scholarships help participants develop the skills and knowledge to drive change and contribute to the development outcomes of their country. Benefits of the scholarship include payment of an establishment allowance, full tuition fees, return airfares, living allowance and Overseas Student Health Cover (OSHC). UQ has hosted Australian Awards-sponsored students for more than 50 years.

australiaawards.gov.au

Destination Australia
The Department of Education awards $15,000 scholarships per student, per year for programs undertaken at UQ Gatton campus.

Students must commence the degree in 2022 and study full-time in a course that can be fully delivered at the Gatton campus. Students must also maintain ongoing residency in the regional area for the duration of each study period, and maintain a student visa for the duration of the scholarship.

The scholarship is renewable for each year of the program, and may be available for bachelor’s, bachelor’s (honours), master’s or doctorate degrees.

future-students.uq.edu.au/destination-australia

Australian Centre for International Agricultural Research (ACIAR) Fellowships
ACIAR is Australia’s specialist international agricultural research for development agency. Building capacity of individuals and agricultural research institutes in partner countries is one of ACIAR’s key priorities. ACIAR administers two fellowships under the Australia Awards: the John Allwright Fellowship and the John Dillon Fellowship.

The John Allwright Fellowship provides the opportunity for partner country scientists involved in ACIAR-supported collaborative research projects to obtain postgraduate qualifications at Australian tertiary institutions. The John Dillon Fellowship provides career and leadership development opportunities for outstanding agricultural scientists or economists from ACIAR partner countries who are involved in a current or recently completed ACIAR project.

Up to 10 fellowships are offered annually.

aciar.gov.au

Other scholarship opportunities
Many international students at UQ are funded by scholarships from their home governments or other funding bodies. For more information on these scholarships, you should contact the Ministry of Education or another appropriate government agency in your home country. Some multinational aid organisations and other large corporations also provide scholarship funding for international students. If you wish to apply for assistance, contact the organisation directly.

UQ partners

UQ has links worldwide and is also a proud member of the prestigious Group of Eight and Universitas 21 networks.

UQ’s partnership network
UQ has a strategic partnership network across more than 50 international locations, which includes leading organisations and institutions across higher education, research, industry, government, sponsorship and philanthropy.

As a key component of UQ’s broader Global Strategy, UQ seeks to ensure a cohesive and coordinated approach to collaboration with international partners. UQ partners for global impact by building meaningful relationships worldwide and leveraging our strategic global presence. UQ’s global connectedness has a multitude of beneficiaries, leading to research outcomes, products and services that have real impacts on people around the world.

Through our partnerships, UQ students can study in more than 40 international locations to develop and broaden their perspectives, build international networks and prepare for global careers. Almost a quarter of UQ’s undergraduate students engage in an international experience of some kind during their studies.

UQ is also a member of a number of global networks that enhance the opportunities for collaboration for our staff and students, including: Universitas 21, a select international network of comprehensive, research-intensive universities; edX, the world’s leading consortium of Massive Open Online Courses (MOOCs); and the McDonnell International Scholars Academy, a select group of research universities that aims to develop future leaders and promote global awareness and social responsibility.

UQ also has a number of arrangements with international institutions to facilitate the progression of students from those institutions to UQ through credit transfer.

- Tecnológico de Monterrey

New Zealand
- The University of Auckland

People’s Republic of China
- Fudan University
- Shanghai Jiao Tong University

Republic of Korea
- Korea University

Singapore
- National University of Singapore

South Africa
- University of Johannesburg

Sweden
- Lund University

Switzerland
- University of Zurich

The Netherlands
- University of Amsterdam

United Kingdom
- University of Birmingham
- University of Edinburgh
- University of Glasgow
- University of Nottingham

United States of America
- University of Connecticut
- University of Maryland
- University of California, Davis (UC Davis)

Group of Eight
The Group of Eight (Go8) is a coalition of leading Australian research-intensive universities that work together to improve outcomes for all.

Queensland
- The University of Queensland

ACT
- The Australian National University

New South Wales
- UNSW Sydney
- The University of Sydney

South Australia
- The University of Adelaide

Victoria
- Monash University
- The University of Melbourne

Western Australia
- The University of Western Australia
In turn, students from these institutions can study overseas for one or two semesters. UQ has exchange agreements with the following institutions, supporting students to study abroad. If your university is not a UQ exchange partner, you can apply as a Study Abroad student (see page 11).

UQ terminology

Alumni
All UQ graduates are considered UQ alumni.

Assessment
Assessment is completed as part of your course. It can come in the form of assignments, examinations, oral reports, debates, projects, research summaries and laboratory practicals.

Bachelor’s degree
A qualification awarded for the first level of study undertaken at university, typically requiring three to five years of study.

Blue card
An identification card issued under the Commission for Children and Young People and Child Guardian Act 2000 that you need in order to work with children in Queensland, whether as a paid employee or volunteer. You can apply for one through the UQ School administering your program. Blue card applicants undergo a complete national criminal history check.

Campus
The location where a program is delivered. Some programs are taught at locations other than UQ St Lucia or at more than one campus.

Census date
The last date to cancel enrolment in a course without incurring financial liability. Census dates are 31 March for Semester 1, 31 August for Semester 2 and 18 December for Summer Semester (although this may change). Intensive study periods have individual census dates that change each year according to the start date of the study period.

Comprehensive courses
Courses that must be studied to complete the requirements of a program.

Confirmation of Enrolment (CoE)
A CoE is issued when you accept a place at the University and pay your deposit and Overseas Student Health Cover (OSHC), if applicable, and you need to apply for a student visa. A CoE will only be issued for a quota program if there is still a place available at the time you accept and pay your deposit / OSHC.

Course
A discrete component of study within a program for which a grade is given.

Course profile
A course profile gives you key information about a course, including the course aims and learning objectives, topics, textbooks, learning activities, assessment information and due dates, and other important information.

Coursework program
A program where the assessable content by research represents less than two-thirds of the total assessable content for the program. Bachelor’s degrees, associate degrees and postgraduate coursework programs are all categorised as coursework programs.

Commencement
Semester 1 in Australia generally begins in late February, and Semester 2 in late July. Some programs may start earlier. Check each program for details.

Credit
1. Students receive credit towards a degree when they pass a course that is part of the program requirements.
2. Students changing programs within UQ or from another university may apply for credit (a value assigned for study completed in another program) towards the new program. See Credit transfer.

Credit transfer (or transfer credit)
Credit transfer may be granted when students change programs for Overseas Students (CRICOS) code indicates a registered program offered to international students studying in Australia on a student visa.

Domestic student
A student who is an Australian citizen or Australian permanent resident, or a New Zealand citizen.

Dual program
Two UQ degree programs undertaken at the same time, under a single set of program requirements. The duration of a dual degree is shorter than taking each degree one after the other.

Duration
The length of time taken to complete a program, expressed in terms of a standard full-time study load.

Elective
A course that you may choose from a set of options.

Entry score
The entry requirement for a particular undergraduate program from a specific high school qualification.

External student
External students study online and do not attend any on-campus classes, although attendance at residential schools may be required in some programs. Material is dispatched by mail or via the web. International students can only study external programs offshore.

Faculty
The major organisational units within UQ, with responsibility for academic programs. Faculties may have a number of sub-faculty academic units called ‘schools’. There are six faculties: Business, Economics and Law; Engineering; Architecture and Information Technology; Health and Behavioural Sciences; Humanities and Social Sciences; Medicine; and Science.

Field of study
A field of study is a prescribed combination of courses in a postgraduate coursework program having a value of at least eight units or in a one-year bachelor’s (honours) program having a value of at least 24 units.

Full-time (F/T)
75 per cent or more (six units) of the standard full-time study load (eight units) per semester for most programs. As an international student in Australia, you must complete your program within the specified duration. To do this, you would need to enrol in eight units per semester.

Grade point average (GPA)
A statistic calculated on grades received and the number of units completed, indicating your performance in your studies.

Higher degree by research (HDR)
A postgraduate program where the assessable content by research represents more than two-thirds of the total assessable content. At UQ, HDR programs include the Doctor of Philosophy (PhD), Master of Philosophy (MPHil) and professional doctorates.

Honours
At UQ, honours may be awarded as an additional one-year of study following completion of a bachelor’s degree or as a four-year bachelor’s (honours) degree. Some undergraduate programs allow eligible students to transfer to a bachelor’s (honours) degree at a defined point in the bachelor’s degree.

IELTS
International English Language Testing System.

Immunisation
For some Health, Behavioural Sciences and Medicine programs, you must provide proof of immunisation against certain diseases, including Hepatitis B. See health.uq.edu.au/registration/placements/immunisations.

Intensive
A flexible delivery study mode where you attend on campus for short periods only (typically 1-2 weeks).

Internal student
A student who attends classes (lectures, tutorials and practicals) on-campus during semester.

International applicant / student
An international applicant / student is not an Australian citizen or Australian permanent resident, nor a New Zealand citizen, and is intending to enrol (applicants) / is enrolled (student) with a higher education provider in Australia.

Orientation (O-Week)
A compulsory on-campus week of activities and information sessions to introduce new students to the University and to assist the transition to tertiary study.

Part-time (P/T)
Part-time study is less than 75 per cent of the standard full-time study load (i.e. less than six units per semester for most programs).

Placement
Also called work placement, internship, industry study, clinical practice, practicum, fieldwork, clinical placement, practical work, teaching practice or industry experience. This is a period of practical, work-related experience designed to enable you to practise professional skills in a real-life setting, usually at an organisation external to the University.

Postgraduate coursework programs
Postgraduate coursework programs involve at least two-thirds of coursework. Study options include a graduate certificate, graduate diploma, coursework master’s, and professional doctorate.

Prerequisites
Prerequisites are minimum entry requirements for admission to a program. They are intended to ensure that everyone entering a program has studied and achieved an appropriate level of knowledge in subject areas necessary to undertake the program successfully. Applicants who satisfy the prerequisites are then eligible to compete for places on the basis of the selection rank allocated to their qualifications.

Program
A sequence of study leading to the award of a qualification such as a degree, diploma, certificate or higher degree by research.

Quota program
Some programs have limited places available. The quota is the number of places that are available. For international students, the issuing of a Confirmation of Enrolment (CoE) for a quota program confirms that you have a place in that program.

School
At UQ, a school is a sub-division of a faculty – in other words, a faculty is a collection of schools. The school that teaches a course is listed on each course’s electronic course profile (ECP) as the ‘Coordinating Unit’.

Semester
The University teaching year is divided into three semesters: Semester 1, Semester 2 and Summer Semester. Most programs only require you to be enrolled in Semesters 1 and 2 each year.

Specialisation
A specialisation is at least 32 units of a prescribed combination of courses with a particular disciplinary focus, in an undergraduate program.

Study areas
Discipline-focused sets of courses that can be studied within a degree program and may include majors, minors and specialisations.

Teaching methods
At UQ we use a range of teaching methods, including lectures, tutorials, laboratory practicals, fieldwork, group discussions, and online modules and workshops. You will be required to complete assignments and examinations, and undertake independent study. Debate in classrooms is strongly encouraged.

Teaching spaces
Ranging from large, tiered lecture theatres to small tutorial rooms and specialised laboratories, we offer flexible spaces for group work, teaching and printing. All UQ lecture theatres and most tutorial rooms have Echo 360 installed so that teaching sessions can be recorded and accessed online.

Tertiary pathway
If you are not offered a place in your preferred program, you can accept an offer in a program with lower entry requirements, improve your entry score after completing your first year of full-time study, and then apply to change into your preferred program.

Units
Units (#) represent the value of individual courses that contribute to the total unit requirement of an academic program. Most courses at UQ are worth two units and a standard study load is eight units per semester.
Index

Programs are listed in bold. Fields of study are italicised.

Academic workshops 105
Accommodation 102–103, 106
Advanced Economics 50
Advanced Nursing 75

INTERNATIONAL POSTGRADUATE UQ GUIDE 2022
Important dates 2022

**January**
- New Year’s Day
- January 3–4: Orientation Week
- January 22: Census date (Semester 2)
- January 26: Research Quarter 2 starts
- January 31: Mid-semester break
- February 1–2: Revision period

**February**
- February 9: Semester 2 starts
- February 21–25: Mid-year Examination period
- February 26: Semester 2 mid-year break
- February 27: Research Quarter 2 ends
- March 6: Semester 2 summer semester starts
- March 21: Mid-year Orientation Week
- March 25: Summer Semester ends**
- April 10: Semester 2 Christmas Day holiday
- April 11: Summer Semester starts**

**March**
- March 21: Census date (Semester 3)
- March 28: Research Quarter 3 starts
- March 30: July graduations**
- April 11: Mid-year Orientation Week
- April 15–17: Easter Monday

**April**
- April 1: Census date (Semester 3)
- April 4: Revision period
- April 5: Semester 3 mid-year break
- April 6: Research Quarter 3 ends
- April 13: Semester 3 summer semester starts
- April 17: Mid-year Examination period
- April 26: Research Quarter 3 Christmas Day holiday
- May 3: Semester 3 Christmas Day holiday

**May**
- May 9: Census date (Semester 3)
- May 16: Semester 3 summer semester starts
- May 17: Mid-year Examination period
- May 23: Research Quarter 3 ends
- May 30: July graduations**
- June 3: Mid-year Orientation Week

**June**
- June 10: Semester 3 Christmas Day holiday
- June 11: Summer Semester starts**
- June 28: Research Quarter 3 Christmas Day holiday
- July 5: Semester 3 Christmas Day holiday

**July**
- July 11: Census date (Semester 3)
- July 18: Semester 3 summer semester starts
- July 19: Mid-year Examination period
- July 25: Research Quarter 3 ends
- August 1: Semester 3 summer semester starts
- August 7: Mid-year Orientation Week

**August**
- August 14: Census date (Semester 4)
- August 21: Mid-year Examination period
- August 28: Research Quarter 4 starts
- September 4: Semester 4 Christmas Day holiday
- September 11: Semester 4 summer semester starts
- September 18: Mid-year Orientation Week
- September 25: Research Quarter 4 ends
- October 2: Semester 4 Christmas Day holiday

**September**
- September 29: Census date (Semester 4)
- October 6: Semester 4 summer semester starts
- October 13: Mid-year Examination period
- October 20: Research Quarter 4 ends
- October 27: Semester 4 Christmas Day holiday
- November 3: Semester 4 summer semester starts
- November 10: Mid-year Orientation Week

**November**
- November 17: Census date (Semester 4)
- November 24: Semester 4 Christmas Day holiday
- December 1: Semester 4 summer semester starts
- December 8: Mid-year Examination period
- December 15: Research Quarter 4 ends
- December 22: Semester 4 Christmas Day holiday
- December 29: Census date (Semester 5)

**December**
- December 30: Semester 5 Christmas Day holiday
- January 1: Semester 5 summer semester starts
