About future-students.uq.edu.au
Welcome to UQ

Starting university is an exciting time. You’ll meet people who will become lifelong friends, exchange ideas with other bright minds, and develop knowledge that will help you excel, no matter where life takes you.

At UQ, we are here to support, guide and inspire you as you join us on this next step towards your future success.

When you join us, you’ll be surrounded by like-minded students, who come from Australia and around the world to study here. The curiosity, creativity and resilience of our students are part of what makes employers seek out UQ graduates – a global network you will one day join, who reinforce the value of a UQ degree through their achievements and successes.

As a global top 50 university, UQ has championed creative thinking for more than 100 years to solve problems facing humanity. We don’t just teach the latest research – our research pioneers are industry leaders who discover the latest breakthroughs, and make a positive difference in people’s lives around the world.

You’ll study at one of our beautiful campuses in South East Queensland – whether in seminars, small tutorials, laboratories, or by partnering with our passionate educators to change how courses are taught.

University isn’t just about study though – you’ll also have fun here. UQ is renowned for our vibrant campus culture, our clubs and societies, and our sporting communities, where you’ll truly enjoy your recreation time while making friends for life.

No matter what your reason for being here, you are sure to enjoy UQ’s long-standing traditions, while creating some new ones of your own.

100% of research fields above world standard
Excellence in Research for Australia, 2018
In 2018, UQ received $396.4 million in research income, including over $70 million in competitive grants from the Australian Research Council.

100% of our research fields are above world standard.
(Excellence in Research for Australia, 2018)

Our Institute for Social Science Research analyses society’s ‘big’ issues including social disadvantage, employment, education, sustainability, social wellbeing, health and housing.

Heron Island Research Station, located on the Great Barrier Reef, is internationally renowned for coral reef research and student training in marine sciences.

94% of international students at UQ are satisfied with UQ’s expert lecturers, learning environments and technology.
(International Student Barometer, 2018)

UQ researchers are named among the world’s most influential. 28 UQ researchers have been named in the prestigious 2019 Highly Cited Researchers List.
At UQ, we create knowledge.

We are one of Australia’s leading research-intensive universities. The calibre of our research and the impact of our innovations is addressing many of the cultural, economic and social challenges facing the world today.

Discover our latest innovations and the technology behind them. Be inspired by our world-leading researchers, and understand what it takes to pioneer change.

**Innovations for the world**

We are a global research leader in biosciences, nanotechnology, engineering, sustainable development and social science. Our innovations are impacting millions of people around the world.

- **Gardasil® cervical cancer vaccine:** 205 million doses administered in 130 countries, saving an estimated 120,000 lives annually.
- **Conservation:** software developed by UQ has enhanced conservation planning globally in areas like the Great Barrier Reef and the Galapagos Islands.
- **Triple P Positive Parenting Program:** helps millions of children and families in 28 countries and 22 languages.
- **MRI machines:** UQ technology is used in the majority of the world’s MRI machines, facilitating production of faster and more accurate images, and therefore improving diagnostic quality.
- **GroundProbe:** mine-safety technology that is used by some of the world’s largest mining companies.
- **Food security:** UQ works with the Queensland Government to enhance the drought tolerance of sorghum, an important cereal in sub-Saharan Africa.
- **Nanopatch:** a revolutionary needle-free method of delivering vaccines being developed in the UQ spin-out company, Vaxxas.
- **Latch-On:** gives the gift of literacy to people with intellectual disability in Australia and across the globe.
- **Water use:** our technology has changed practices in global water and sewerage utilities, saving hundreds of millions of dollars.

**Pioneering your future**

We bring the latest ideas and research into the classroom to place you at the frontier of knowledge. You will learn from world-renowned researchers. Our international reputation means we attract some of the best minds in the world to the University – including presidents, prime ministers, international authors and ground-breaking researchers – who will inspire you to break through barriers.

**World-class facilities**

Our eight globally recognised research institutes are home to more than 1500 specialists continuing UQ’s tradition of research leadership with the latest in equipment and instrumentation, laboratories, scientific services and training, and support. Additionally, we have research centres located throughout Queensland.

**3MT® (Three Minute Thesis)**

Founded by UQ, 3MT has been adopted by more than 600 universities in 66 countries around the world. The 3MT competition sees our research students pitching their exciting ideas to industry leaders, alumni and global leaders in three-minute presentations. Each year, winners are awarded a range of prizes including research travel grants.

[www.threeminutethesis.uq.edu.au](http://www.threeminutethesis.uq.edu.au)

**Summer and Winter Research Programs**

Improve your employability, extend your knowledge of an area of interest, and develop your analytical, critical thinking and communication skills by participating in the Summer or Winter Research Program. Successful applicants are eligible for funding to support their participation in the program.

[www.uq.edu.au](http://www.uq.edu.au)
Transforming your learning

Our teachers are the most highly awarded in the country. Recognised for transforming the way students learn at university, they will inspire and guide you with the latest knowledge and ideas. You will put theory into practice in workplace settings, expanding your understanding and contextualising your studies.

Best place to learn in Australia
We are committed to your learning and enabling you to become a creative, adaptive and innovative problem-solver in today’s workplace. In the most recent Australia-wide survey designed to assess how satisfied international students were with their university, we received above 88 per cent satisfaction in the following areas:

- Overall student satisfaction
- Good teachers
- Quality lectures
- Performance feedback
- Managing research
- Topic selection
- Program content
- Learning support
- Virtual learning
- Laboratories
- Learning spaces.

Teaching for the future
Our courses are designed in consultation with learning design teams to maximise your employability when you graduate. Our teachers also consult students in their decision-making and planning processes to ensure course material is exciting, fresh and transformative. We offer courses and programs on edX, one of the most reputable online course platforms in the world, so you can expand your horizon, gain new skills and follow your curiosity.
edx.org/school/uqx

Practical learning
You will apply knowledge in practical settings. From our marine research station at Heron Island and our veterinary science centre at Gatton to the Business School in Brisbane’s city centre and our medical centres located in hospitals throughout Queensland, we immerse you in environments where learning and making a difference meet.

UQ2U blended learning
UQ2U is a dynamic, engaging and contemporary approach that will provide you with a signature UQ experience that maximises campus-based ‘face time’ with teachers and peers, in combination with high-value, flexible online learning. This approach currently supports over 70 UQ courses through blended and active learning opportunities, fostering the next generation of game-changing graduates.
student-strategy.uq.edu.au/uq2u

Engineering students testing a hybrid vehicle as part of the Mechanical Systems Design course.
More national teaching awards than any other Australian university.

Four UQ academics received an Australian Award for University Teacher of the Year and an award for Teaching Excellence in 2020.

Other national awards were attributed to UQ programs in 2019, such as the UQ Physiotherapy Standardised Patients Program (Australian Financial Review Higher Education Award) and the UQ Faculty of Business, Economics and Law Student Employability Team program (Reimagine Education Award).

The ‘Leading High Performing Teams / Business Leadership MicroMasters program’ led by the UQ Business School was a finalist for the 2019 edX Prize for Exceptional Contributions in Online Teaching and Learning.
As a locally and globally connected university, UQ provides many opportunities for students to apply knowledge gained in the classroom to the real world. You will have access to work-integrated learning, entrepreneurial courses, local and global internships and volunteer positions to boost your confidence, capabilities and résumé.

A wide range of free entrepreneurship programs are available to complement your studies, and to help you build a network, take on new challenges and bring your ideas to life.

**Partner to companies**

We build partnerships with leading international companies. Our teachers work on commercial challenges and bring their experiences into the classroom. As UQ’s partnerships with companies develop, so do internship and research opportunities for students and researchers.

- **Neusoft**: UQ has an agreement with the largest IT solutions and services provider in China to promote research collaboration and provide internships for students.
- **Siemens**: provided more than $500 million of software to UQ to enable students to access advanced technology, building their skills in digital and data-driven industries.
- **Leo Pharma Denmark**: UQ has an ongoing scientific collaboration with the pharmaceutical company to better understand and treat skin cancer.
- **Australian Government**: UQ helped the government to create a national compliance framework for export controls.
- **Johnson & Johnson (J&J)**: UQ researchers are collaborating with J&J immunology scientists to discover and develop a new treatment for rheumatoid arthritis.

- **Fangyuan Company (China) and CODELCO (Chile)**: the two huge copper producers are funding a five-year research professorship at UQ around copper smelting.
- **EY**: UQ researchers are collaborating with EY on the importance of innovation as a driver of organisational productivity in the oil and gas sector in Australia.
- **Great Barrier Reef Marine Park Authority**: UQ provides ongoing pioneering research to protect the Great Barrier Reef’s precious marine species such as coral reef communities and turtles.

**Workplace learning**

Internships, placements and networking will be part of your study experience at UQ through work-integrated learning. Grow your entrepreneurial mindset and employment network before you even graduate.

- **Business, Economics and Law**: our staff work with a diverse portfolio of international organisations such as Accor, Bank of America, Colliers International, Deloitte, EY, Flight Centre, Goldman Sachs, Google, HSBC and Virgin.
• **Engineering, Architecture and IT:** the Meet a Mentor program sees third- and fourth-year engineering and IT undergraduates working one-on-one with managers from 80 companies.

• **Health and Behavioural Sciences:** ten clinics providing healthcare, rehabilitation and nutrition services to the general public expose our students to the latest in equipment, tools and care.

• **Humanities and Social Sciences:** internships, field trips and placements in Brisbane, interstate and overseas are part of course credit for humanities and social science students.

• **Medicine:** students undertake placements in hospitals and clinics around the world where they are trained and mentored by doctors and healthcare specialists.

• **Science:** our researchers work with industry partners including the peak industry councils for cotton, fisheries, horticulture and forestry, as well as Rio Tinto and BHP.

• **Extra-curricular opportunities:** with UQ’s range of entrepreneurship programs students can access local and global internships and work experience.

Ventures offers fully supported, hands-on internships with startups in San Francisco, Singapore, Tel Aviv, Shanghai and other entrepreneurial hotspots. The ilab Accelerator also supports students, researchers and alumni through the early stage of business development by providing seed funding and mentoring so they can scale their business or social enterprise.

**UniQuest.** UQ’s commercialisation company, has helped start up more than 100 companies and raise US$22 billion in gross product sales.

Since 2003 we have been in partnership with Boeing, the world’s largest aerospace company. Boeing Research & Technology–Australia (BR&T-A) is located at our St Lucia campus. Boeing collaborates with UQ researchers and students on the latest ideas in aerospace, so you can learn from their discoveries and setbacks in the classroom or directly from Boeing staff.

**Design your own path**
You can mix and match programs depending on your experience. There’s support at every stage of your Ventures journey – from flexing your creative muscles to launching a startup.

**Introductory**
*Gain the skills and knowledge needed to think and act like an entrepreneur.*
Our introductory programs such as Idea Hub Unlimited and LeadHers, will help you to get inspired, learn core entrepreneurial skills, immerse yourself in UQ’s community of entrepreneurs and give you the confidence to take your first steps in your Ventures journey.

**Skills applied**
*Put your knowledge into practice by solving real industry problems.*
Challenge your ideas and make them reality by applying your new-found entrepreneurship skills with Startup Academy or Social Enterprise programs. Test and validate the fit between your ideas and market needs while developing a sustainable business model for your product or service.

**Advanced**
*Our programs can take you overseas, or help you launch your own startup.*
Take your entrepreneurship journey overseas with our Startup Adventures. Our four-week intensive global internships at some of the world’s most vibrant startup hot spots including San Francisco, Shanghai, Shenzhen, Tel Aviv and Singapore.

Accelerate your startup and get up to $20,000 to take your business or social enterprise to the next level with the ilab Accelerator program.
A truly global network

As an international student, you know the importance of thinking and acting globally. At UQ, so do we.

Our worldwide partner and alumni networks give you the international opportunities and connections to enhance your learning, life skills and employment prospects from the start of your degree to long after you graduate.
While you are at UQ

Our partnerships = your opportunity
As a UQ student, Brisbane or Gatton is just the first stop on your overseas adventure. Grow your global network through UQ’s student exchange program by studying up to two semesters of your degree at one of our 180 partner institutions in 38 countries. You will gain program credit while expanding your world perspective, enhancing your employability, developing your network, and maybe even learning a new language. While on exchange, tuition fees at the host university are waived as you remain enrolled at and pay fees to UQ.

employability.uq.edu.au/global-experiences

Unlock new languages
In a global economy, the ability to communicate with a wide range of people is invaluable. Perfect your English at our award-winning English language institute, ICTE, or learn several languages at our Institute of Modern Languages. A range of Humanities and Social Sciences courses also allow you to learn a language for credit.

ICTE
icte.uq.edu.au
Institute of Modern Languages
iml.uq.edu.au
School of Languages and Cultures
languages-cultures.uq.edu.au

Short-term global experiences
While studying at UQ, head overseas for a short-term global experience at one of our partner institutions during semester break. The short-term global opportunities include study, internships and community-based learning.

employability.uq.edu.au/global-experiences

Incoming exchange and study abroad
Even if you are partway through a degree at a non-Australian university, with our incoming exchange and study abroad programs you can still study at UQ for one or two semesters and gain credit for your degree back home. If your university has an exchange agreement with UQ, you are eligible for the Incoming Exchange program. If your university is not partnered with UQ, you can apply to UQ as a Study Abroad student.

uq.edu.au/studyabroad

Global business connections
At UQ you will join a global network of more than 268,000 graduates, many of whom are leaders in their fields, including more than 14,500 PhDs in 170 countries. You will benefit from an extensive graduate network, strong industry partnerships and many notable alumni.

alumni.uq.edu.au

Relationships changing the world
Global connectivity is at the heart of UQ’s vision to create knowledge leadership for a better world. From renewable energy technologies and sustainable mining practices, to disease control and child psychology, our international collaborations are working towards a cleaner, healthier and happier future. Explore our impact around the world.

global-engagement.uq.edu.au

We are members of the prestigious Group of Eight coalition in Australia and the leading global network of research universities, Universitas 21.
Dr Hooman Baghaie (pictured)
Bachelor of Dental Science (Honours)
A decade after moving from Iran to Australia with his family, Dr Hooman Baghaie is now working as a successful dentist on Queensland’s Gold Coast. His life experiences have led him to value the importance of giving back, and through his studies at UQ Dr Baghaie volunteered in East Timor and Cambodia, and in Australia with the Royal Flying Doctor Service. He was the valedictorian of his class and received numerous awards including the Pierre Fauchard Award in recognition of his character and work ethic.

Ms Melinda Taylor
Bachelor of Laws / Bachelor of Arts (First Class Honours)
Melinda Taylor is an international lawyer who has served across various international organisations including the International Criminal Court (ICC) and the UN Working Group on Arbitrary Detention. She has represented polarising figures such as WikiLeaks founder Julian Assange, and Saif al-Islam Gaddafi, the son of former Libyan leader Colonel Muammar Gaddafi. She is now predominantly based between the Hague, Netherlands and El Port de la Selva, Spain.

Mr Alborz Fallah
Bachelor of Information Technology / Bachelor of Arts
During his studies at UQ, Alborz Fallah launched the website caradvice.com.au for A$35. Ten years later, he sold it to an Australian national television network for A$35 million. Fallah credits his success to the technical knowledge he gained at UQ and being brave enough to follow his passions. In 2017, he was named the first Entrepreneur in Residence at UQ’s IdeaHub. In this position he draws on invaluable knowledge gained from founding seventeen startups, to mentor budding UQ entrepreneurs from all disciplines.
Game-changing graduates

Our research, teaching and connections prepare you to forge an exciting career. Outside the classroom you can access our career resources and networking events, and participate in our Employability Award to expand your capabilities and mindset. When you graduate, you will be ready for any challenge.

Careers Service
Our award-winning Careers Service can help you plan your career, develop your capabilities and gain that competitive edge. We offer workshops in how to find work, network, write a résumé, excel in interviews, apply for a job, and leadership and presentation techniques.

employability.uq.edu.au/find-a-job

Career portals
UQ offers an exclusive online job board for its students and graduates featuring vacation work, volunteer work, internships, and graduate employment opportunities from over 3000 employers. Our Global Grad careers search portal is just for international students with Australian and international companies posting work opportunities regularly.

studenthub.uq.edu.au (login required)
globalgrad.uq.edu.au

Employer events and Volunteer Expo
With multiple Employers on Campus events throughout the year, you can speak with future employers from a diverse range of industries and backgrounds to find the right job for you. Most employers offer roles in graduate recruitment programs and some offer vacation work, internships, work experience, scholarships and co-op programs. Our yearly Volunteer Expo is an opportunity to find out how you can help the community and your career prospects.

Employability Award
The Employability Award gives undergraduate students the chance to learn from experiences and develop capabilities that future employers value, such as leadership, teamwork, communication, problem solving and cultural awareness. To qualify for the Award, you need to complete a minimum of 100 hours of work experience, 100 hours of volunteering, and participate in five supplementary activities. It’s free to join and is awarded upon graduation.

employability.uq.edu.au/award

Testimonials updated 10/01/19

Our free online course EMPLOY101x will help you unlock your career potential and market yourself to employers.
edx.org/course/unlocking-youremployability

UQ is ranked 57th in the world for graduate employability (QS Graduate Employability Rankings, 2020).

Over the last three years, UQ’s student employability and careers services have been recognised with multiple national and international awards.

The UQ International Student Ambassador program gives high-achieving international students the opportunity to represent the University in a range of paid roles.
BRISBANE
Brisbane, the home of UQ’s St Lucia and Herston campuses, is the capital city of Queensland and its economic engine room. Young and progressive, the city is fast becoming a hub in the Asia–Pacific for business, investment, major events and education. It is also home to over 200 nationalities and 220 languages.

Entertainment
Brisbane city has a great live music scene that can be discovered in Fortitude Valley and West End. For comedy, live theatre and dance, head to the Brisbane Powerhouse and the Queensland Performing Arts Centre (QPAC). The Gallery of Modern Art (GOMA) is one of the best modern art galleries in the country, and keep an eye out for the Brisbane Writers Festival and the Brisbane Festival that attract international artists from across the globe.

Sport
Brisbane’s amazing weather and sporting facilities make physical activity a must. Kayak along the Brisbane River, rock climb your way to the top of the Kangaroo Point Cliffs, ride along more than 20 kilometres of riverside cycle paths, join a sporting club, or barrack like a local when you attend a rugby union, rugby league, cricket, ‘Aussie Rules’ or football match at one of our famous sporting stadiums.

Food
With just under a third of Brisbane’s population born overseas, you can find cuisine from almost every culture. From affordable lunchtime and ‘Cheap Tuesday’ offers, to reasonably priced cafes, pubs, restaurants and farmers’ markets, there is plenty to choose from and plenty of new culinary experiences to be had. And you can always picnic or barbecue in one of our lovely parks by the river.

Getting around
One of the best views of Brisbane is from a CityCat – a ferry service that runs along the river from UQ’s St Lucia campus to the city and the riverside suburb of Hamilton. Brisbane also has an extensive bus and train network that makes it easy to get around. A ‘go card’ will allow you to travel on all Brisbane public transport at discounted student prices.

Around Brisbane
When you want to head out of the city, there is plenty to discover. Head south for the famous golden sands of the Gold Coast and Byron Bay, north for the quiet beaches of the Sunshine Coast or the majestic Great Barrier Reef, west for ancient rainforests and charming outback towns or east for the spectacular Moreton Island, Stradbroke Island and Fraser Island. Sydney, Cairns and Melbourne are all short flights away. You will wish you had more holidays.
GATTON

Gatton, the largest town in South-East Queensland’s Lockyer Valley, is the home of the UQ Gatton campus. Bordered by unspoil’d mountain ranges and located only one hour’s drive from Brisbane, Gatton has a culturally diverse population of approximately 7000 people. UQ Gatton students enjoy a laidback, country lifestyle in a close-knit community.

Find out more about living in Queensland
future-students.uq.edu.au/university-life/living-in-brisbane
UQ St Lucia

Considered one of the most beautiful campuses in the world, our main campus is a vibrant mix of old sandstone buildings, modern architecture, parklands and lakes. It is a city within a city with everything you need to study, live and relax.
Food

UQ St Lucia is full of cafe and food options. From great coffee and bakery food, to make-your-own sandwich stations, pizza, vegan and vegetarian options, noodles, bubble tea and juice bars, you won’t go hungry or thirsty. Options include organic and halal food.

uqu.com.au/feeding-u
instagram.com/uqfood
instagram.com/uqueats

Retail

You don’t need to leave the campus for your shopping. There is a bookshop, as well as a shop where you can sell your secondhand books, a convenience store, hairdresser, travel agent, post office, newsagency and Wednesday markets offering handicrafts, gifts, flowers and fashion.

uqu.com.au/feeding-u

Entertainment

Check out UQ Life to see all that awaits you on campus! There is something on every week, and if you can’t see anything that grabs your attention then get in touch and we can make it happen together.

life.uq.edu.au
uqu.com.au/entertaining-u

Fitness

You’ll be spoilt for choice with a massive range of sporting, fitness and recreational opportunities on offer at our St Lucia campus. Explore Queensland’s largest multi-sport complex, featuring dedicated fitness, aquatic, tennis, and athletics centres, as well as an array of sporting fields and courts. Play your way with more than 75 sports and activities to choose from, including up to 90 weekly group fitness classes, across nearly 40 sporting clubs and social sports.

uqsport.com.au

Library

We have six libraries on campus. They feature computers for students, group study and meeting rooms, height-adjustable desks, 24-hour study spaces, quiet areas, and friendly staff ready to help you with finding information, accessing resources, research support, student IT and training, and details about the latest author talk, lecture or panel discussion in the library.

library.uq.edu.au

Healthcare

If you need to see a doctor, visit our friendly team at the UQ Health Care clinic. There is also a pharmacy and a dental clinic on campus.

uqhealthcare.org.au
Our rural campus is located near the town of Gatton, 87 kilometres west of the Brisbane CBD. It offers a laid-back and friendly lifestyle with on-campus accommodation, a publicly accessible motel and a variety of sporting facilities.

Food and retail
You can buy food and drinks from the Coffee Pod, Dining Hall and Walkway Cafe, and you can purchase and sell books at our retail bookshop. There is an on-campus ATM and a post office, and keep an eye out for the regular events for students in the Central Walkway.

Teaching and research facilities
The campus houses production animals, horticultural fields, a plant nursery, post-harvest facilities, research laboratories and greenhouses, a wildlife facility, specialist veterinary and equine hospitals, and some of the best animal teaching facilities in the southern hemisphere.

Fitness
Whether you’re looking to boost your fitness, meet new people, or relax and unwind, UQ Sport Gatton offers an ideal opportunity to do it all in one location. There’s both gym and pool facilities – as well as tennis, basketball, netball and squash courts. There are weekly group fitness classes, sporting clubs and social sports to enjoy.

uqsport.com.au

Library
UQ Gatton’s recently refurbished library provides computers, comfortable furniture and break-out spaces, individual study spaces with acoustic lining, power and USB connectors, height-adjustable desks, meeting rooms, and a 24-hour study space.

Free inter-campus bus service
UQ provides a free inter-campus bus service between UQ Gatton and UQ St Lucia for students and staff. future-students.uq.edu.au/university-life/campuses-research-sites
UQ Herston

Just three kilometres from the Brisbane city centre, UQ Herston is the specialist campus for health and medical teaching and research.

UQ shares premises with the Royal Brisbane and Women’s Hospital and the QIMR Berghofer Medical Research Institute, which creates a connected and engaged community. The campus is home to:
- Faculty of Medicine
- School of Public Health
- School of Dentistry
- Herston Imaging Research Facility
- Oral Health Centre
- RECOVER Injury Research Centre
- UQ Centre for Clinical Research.

Surgical, Treatment and Rehabilitation Service (STARS)
Currently under construction, STARS will be one of the largest tertiary specialist rehabilitation centres in the southern hemisphere, accommodating about 100 nursing and allied health students.

Library
UQ Herston’s Health Sciences library provides computers, study rooms and meeting rooms, a 24-hour study space, height-adjustable desks, and access to the Queensland Health network.

Food and retail
You can grab a bite to eat or drink from Cafe Dose, the hospital cafes or Subway. There is a bank and ATMs on campus, as well as a gift shop, pharmacy, post office and newsagency, and bookshop.

future-students.uq.edu.au/university-life/campuses-research-sites
Programs

At UQ, a qualification or degree is called a program. We offer bachelor’s programs, dual programs and honours programs at undergraduate level.

You can receive credit for applicable prior studies and if you don’t meet a program’s entry requirements, you can take advantage of our pathways to upgrade your academic qualifications or English language skills.
Using the Programs section

1. Choose your program

Use the ‘UQ programs quick reference table’ on pages 24–25 to find your program. You can also search for a program based on your area of interest on pages 68-73. Alternatively, you can refer to the index on page 89.

2. Check your program’s admission requirements

To gain entry into a UQ program you must have: ‘Minimum’ or ‘Higher-than-minimum’ English language skills, attained an overall minimum entry score in senior schooling equivalent to Queensland Year 12, passed particular subject prerequisites, and completed any other program-specific application requirements.

You can find each program’s entry requirements on pages 32–67.

3. Check you qualify for entry to UQ

Use the admissions section (pages 74–77) to view: definitions of ‘Minimum’ and ‘Higher-than-minimum’ English language requirements and how to meet them, subject prerequisite equivalents, and each program’s minimum entry score.

If you do not qualify for entry to UQ you may be able to upgrade through an academic or English language pathway (see pages 26–31).

4. Apply for your UQ program

Use the step-by-step application process to apply to UQ (see pages 76–77).
The academic year at UQ is divided into two main semesters. Semester 1 usually starts at the end of February and Semester 2 starts at the end of July. The majority of programs begin at the start of the semester, and some only have one start semester per year; however, some programs may have an earlier or later start date or begin in Summer semester.

**English Academic Prerequisites**
You must have completed schooling equivalent to Queensland Year 12 to gain entry into a UQ program. Some programs require you to have completed specific subjects (or their equivalent) at school. Some also have additional requirements.

**ADDITIONAL COSTS**
Additional costs can include items such as equipment, clothing, field trips, placements, special registrations or other necessities and may be purchased from providers other than UQ.

**Indicative Fee (Year 1)**
Tuition fees vary according to the program. We have provided an indicative annual fee for each program in this guide. This indicative amount is based on a standard full-time study load for a calendar year for the year of commencement.

**Placement**
A placement is work experience for course credit. Placements can be compulsory or optional.

**Program Table Explained**
- **Duration**
The time it takes to complete a program when it is studied full-time.
  - **Full-time**: The standard study load is eight units per semester.
  - **Part-time**: Part-time study load is less than 75 per cent of the standard study load (i.e., less than six units per semester for most programs). International students can only study part-time if they do not require a student visa. All international students on an international student visa must complete the program within the stated program duration.

- **Start Semester**
The academic year at UQ is divided into two main semesters. Semester 1 usually starts at the end of February and Semester 2 starts at the end of July. The majority of programs begin at the start of the semester, and some only have one start semester per year; however, some programs may have an earlier or later start date or begin in Summer semester.

- **Campus**
One of three UQ teaching sites located at St Lucia, Herston and Gatton where the majority of lectures are held. Some programs may be delivered at UQ’s other teaching sites.

- **Honours Available**
The majority of our three-year bachelor degrees offer a one-year honours program. Most four- or five-year programs include the honours component. This box shows whether an honours year is available as an extra year of study.

- **Dual Programs Available**
Two UQ programs undertaken at the same time (sometimes known as dual/parallel/combined/double degrees). This box shows if a program is available as a dual program. The dual programs are listed in full on page 25.

- **Quota Program**
A quota program is one that has limited places available for students, and entry is usually competitive. Even if you meet the minimum entry requirements, there is no guarantee you will be confirmed as having a place on the program.

- **Additional Costs**
Additional costs can include items such as equipment, clothing, field trips, placements, special registrations or other necessities and may be purchased from providers other than UQ.

**QR Codes**
For a direct link to more details about a specific program, scan the QR code. New generation smart phones do not require a QR reader – just hover your phone’s camera over the code. On other phones, you will need to download a QR reader app.

Pathways to UQ

We offer a range of pathway programs if you don’t satisfy the admission requirements for your preferred UQ program.

You can improve your English language skills at our on-campus language institute or take a Foundation Year pathway program.

Institute of Continuing & TESOL Education (ICTE)

Each year, more than 4000 students from 50 countries and regions come to Brisbane to learn or improve their English at ICTE on UQ’s St Lucia campus. In our classes, you will be taught by highly qualified teachers, while outside class time you can access our Learning Advisors, Learning Centre and online support materials. ICTE can also arrange for homestay accommodation with a local family.

CRICOS Provider Number 00091C

International Education Services (IES)

IES Foundation Year prepares you to study a bachelor’s program at UQ. You will benefit from our academic and English language programs, student counsellors, study and career advice, accommodation assistance, and an international community featuring people from more than 40 countries.

iescollege.com
CRICOS Provider Number: 01697J

Pathway options to enter UQ

**English language pathways**

Improve your English language proficiency by studying an ICTE English language pathway course, which can lead to:

- a UQ program (provided you have the academic qualifications for entry and achieve the required English results). Programs are listed on pages 24-25.

**IES Foundation Year**

Improve your English language proficiency and academic entry qualifications by studying the IES Foundation Year, which can lead to:

- any UQ undergraduate program (upon meeting required results). Programs are listed on pages 24-25.
English language pathways

Improve your English language proficiency at UQ’s award-winning English language institute, the Institute of Continuing & TESOL Education (ICTE).

If you meet the academic requirements for entry to a UQ program but do not satisfy the English language entry requirements for that program, for most of our programs you can apply for a package offer that includes:

- an English course – English language classes to get you to the level you need for entry to your UQ program, and
- a conditional place in your preferred UQ program.

To receive a UQ package offer, you must provide evidence of your current English language ability (IELTS or other recognised test – see the fold-out in this guide for other recognised tests) with your UQ program application.

If you don’t have an IELTS score or equivalent, or your overall IELTS score is below 5.0, join our General English classes. When you reach General English level 4, you can transfer to an English for Academic Purposes course.

There are two English language pathways to UQ programs:

**Bridging English (BE)**

**Duration** 10 to 30 weeks, depending on your English level and UQ program entry requirements (see table opposite).

**Weekly tuition fee** $515*

**Campus** UQ St Lucia

**Minimum admission requirements** IELTS 5.0 overall and 5 in each sub-band (or equivalent). Higher-level programs require higher IELTS or equivalent test score for entry. See table opposite for details.

BE is ICTE’s most popular English language pathway with multiple entry points for admission into undergraduate and postgraduate programs at UQ including Study Abroad. The course will develop your proficiency in all four skills (reading, writing, listening and speaking), as well as systematically building your range of vocabulary and control of grammar.

Within the BE there are two options:

- **BE Advantage**
  The BE Advantage finishes five to six weeks before semester commences. This means that if you do not pass the BE assessment the first time, you are able to complete the four-week BE Extension and re-sit the BE assessment before the UQ semester commences. If you pass the BE assessment you have the option to enhance your academic English proficiency for entry into a UQ program.

- **BE Standard**
  The BE Standard finishes immediately before semester commences. This means that if you do not pass the BE assessment the first time, you are able to complete the four-week BE Extension and re-sit the BE assessment five to six weeks before the start of the UQ semester.

Choose BE if:

- you want to gain entry into a UQ program without having to sit an IELTS test at the end of your course
- you want to study with high-quality teachers in a course solely focused on helping you to gain entry into a UQ program
- you want to complete your assessment five to six weeks before the start of the UQ semester
- you would like the opportunity for one-on-one consultation sessions every five weeks to ensure you are on track with your English language progress to reach your academic goals.

For further information on this course, visit icte.uq.edu.au/study/english-courses/bridging-english or scan the QR code at right.

**English for Academic Purposes (EAP)**

**Duration** 5 to 30 weeks depending on your English level and UQ program entry requirements (see table opposite).

**Weekly tuition fee** $440*

**Campus** UQ St Lucia

**Minimum admission requirements** Successful completion of ICTE General English level 4 or IELTS 5.0 overall with minimum sub-score requirements (see table opposite). Higher level programs require higher IELTS or equivalent test score for entry. See table opposite for details.

EAP prepares you for success in academic study and the IELTS test needed for entry to your UQ program. Course materials build your English language proficiency needed to enter university and academic skills required to succeed.

Choose EAP if:

- you want to become more familiar with and prepare for the IELTS test with three days per week of dedicated IELTS preparation
- you want to combine preparation for the IELTS test with a focus on broader academic English skills
- you do not have the IELTS score to enter BE, and you wish to study with high-quality teachers to improve your English proficiency for entry into a UQ program.

For further information on this course, visit icte.uq.edu.au/study/english-courses/academic-english or scan the QR code at right.

*2021 Fees are indicative and do not include costs for student services and materials.
English language pathways to UQ

Select the duration of your BE or EAP course based on your current IELTS Entry Score or General English level (as shown in each column).

<tbody>
<tr>
<td>088290B</td>
<td>40 weeks</td>
<td>February, August</td>
<td>$29,200</td>
<td>IES Campuses, Spring Hill</td>
<td>IELTS 5.5 overall and 5 in each band (or equivalent)*</td>
</tr>
</tbody>
</table>

**Program overview**
The Standard program is recommended for students with good academic results and English language proficiency. It is the most popular of the three programs. Students complete their studies in small class sizes and have full access to student support services throughout the duration of their studies.

**Pathway to**
Guaranteed entry into most UQ undergraduate programs provided assessment standards are met. (Guaranteed entry does not apply to quota programs.)

**Admission requirements**
Eleven full years of schooling (entry from Year 11 or equivalent requires superior grades). Depending on your preferred undergraduate program, a minimum grade in Mathematics may also apply. Forecast results are accepted where appropriate and consideration is given to the actual subjects studied. We will only accept an application if the results indicate the student will have a good chance of passing the program.

**Compulsory subjects**
Main stream: Academic English for University Studies (AE) and Mathematics.

### EXTENDED

<table>
<thead>
<tr>
<th>CRICOS CODE</th>
<th>DURATION</th>
<th>START***</th>
<th>INDICATIVE FEE**</th>
<th>PROGRAM LOCATION</th>
<th>ENGLISH</th>
</tr>
</thead>
<tbody>
<tr>
<td>088291A</td>
<td>47 weeks</td>
<td>January, June</td>
<td>$33,900</td>
<td>IES Campuses, Spring Hill</td>
<td>IELTS 5 overall and 5 in writing (or equivalent)*</td>
</tr>
</tbody>
</table>

**Program overview**
The Extended program offers additional support and services to help students maximise their success at foundation and university studies.

- Extended students have regular meetings with the program coordinator to ensure they are meeting the challenges of their studies.
- The program is especially beneficial for younger students, and students who need to increase their English language competency.

**Pathway to**
Guaranteed entry into most UQ undergraduate programs provided assessment standards are met. (Guaranteed entry does not apply to quota programs.)

**Admission requirements**
Eleven full years of schooling (entry from Year 11 or equivalent requires superior grades). Depending on your preferred undergraduate program, a minimum grade in Mathematics may also apply. Forecast results are accepted where appropriate and consideration is given to the actual subjects studied. We will only accept an application if the results indicate the student will have a good chance of passing the program.

**Compulsory subjects**
Main stream: Academic English for University Studies (AE) and Mathematics.

### EXPRESS

<table>
<thead>
<tr>
<th>CRICOS CODE</th>
<th>DURATION</th>
<th>START***</th>
<th>INDICATIVE FEE**</th>
<th>PROGRAM LOCATION</th>
<th>ENGLISH</th>
</tr>
</thead>
<tbody>
<tr>
<td>088289F</td>
<td>27 weeks</td>
<td>May, October</td>
<td>$25,600</td>
<td>IES Campuses, Spring Hill</td>
<td>IELTS 6 overall, 5 listening, 5 reading, 6 writing, 5 speaking (or equivalent)*</td>
</tr>
</tbody>
</table>

**Program overview**
The Express program is designed for students who have stronger English language proficiency (IELTS 6.0 or above) and are capable of handling a faster pace of tuition. It is also suitable for students who have completed a matriculation program in their own country but have not quite met the entry levels for undergraduate study or who need to gain assumed knowledge in certain subjects.

- Unlike the Standard and Extended programs, the Express program is held over three trimesters rather than two semesters.
- Students study both Academic English and Mathematics throughout the duration of their program and study one elective per trimester.

**Pathway to**
Guaranteed entry into most UQ undergraduate programs provided assessment standards are met. (Guaranteed entry does not apply to quota programs.)

**Admission requirements**
Depending on the country, eleven full or twelve full years of schooling (entry from Year 11 or equivalent requires superior grades). Depending on your preferred undergraduate program, a minimum grade in Mathematics may also apply. Forecast results are accepted where appropriate and consideration is given to the actual subjects studied. We will only accept an application if the results indicate the student will have a good chance of passing the program.

**Compulsory subjects**
Main stream: Academic English for University Studies (AE) and Mathematics.

*Students wanting to proceed to a UQ undergraduate quota program may need to meet higher IELTS requirements for entry to IES Foundation Year.

**2021 Fees are for indication only, fees displayed are for 2020. See foundationyear.com/foundation-year/fees for updated fees.

**2021 Start dates are indicative only. See foundationyear.com/covid-19-update for updated dates.

With the world’s population set to increase significantly, the sustainable production of food and fibre must keep pace. We also need to manage and solve environmental problems to preserve habitats and biodiversity as towns and cities expand.

**Agriculture**

We offer first-class programs in agriculture, agribusiness, food, plants, soil and animal sciences. We have fantastic facilities for each program area, we emphasise hands-on experience in class and working in the field is part of the study program, allowing you to gain practical skills.

**Environment**

We teach you the environmental sciences with an added focus on social and economic disciplines, decision-making, problem-solving and policy analysis. Students enjoy dedicated geography and marine labs, and the latest technologies including a climate station and portable weather stations. Field trips and industry placements enable you to gain experience, test different areas of interest and prepare for a rewarding career.

**Careers**

If you like these subjects:

- Agricultural science
- Biology
- Business management
- Chemistry
- Earth and environmental science
- Economics
- Geography
- Marine science
- Mathematics
- Physics

Our undergraduate programs can lead to careers in:

- Agribusiness
- Agronomy and horticulture
- Animal production
- Animal health and welfare
- Business and government
- Crop and pasture production
- Ecotourism
- Environmental management
- Environmental science
- Equine science
- Farm management
- Food and fibre production
- Food processing
- Food science and technology
- Land management
- Livestock management
- Marine management
- Natural resource management
- Parks and recreation facility management
- Sustainability management
- Veterinary practice
- Wildlife and nature conservation

**Environmental Sciences**

**Agriculture and Forestry**

1st in Australia
17th in the world
QS World University Rankings by Subject, 2019
BACHELOR OF AGRIBUSINESS

Program overview
Open up a career in agriculture – one of the most exciting and fastest-growing industries globally. As an agribusiness professional, you will use technology and contemporary business practices to manage agricultural enterprises. You will be trained to lead organisations that feed and clothe the world, and you will apply the latest concepts in marketing, human resource management, finance and operations to local, national and multinational enterprises. The program has been developed in close and ongoing collaboration with the food and fibre industry, so you will acquire the most relevant and up-to-date knowledge of farming, agricultural sustainability, food security, crop production, livestock and horticulture, and the management of logistics, human resources and marketing. You will participate in site visits, case studies and research projects, and undertake a major group project with an agribusiness company in your final year.

Program features

- UQ is ranked 1st in Australia and 5th in the world (Performance Ranking of Scientific Papers for World Universities, 2019).
- You will complete an industry work placement for credit. Past placements have included working on a horse stud, fruit nursery, salad manufacturing plant, and North Queensland cocoa farm.
- UQ’s field of environmental sciences is ranked 1st in Australia and 11th in the world (QS World University Rankings by Subject, 2019).
- UQ’s field of agriculture and forestry is ranked 17th in the world (QS World University Rankings by Subject, 2019).

Areas of study
Agronomy • Animal Science • Horticulture

Career opportunities
Graduates work as agronomists, horticulturalists, agricultural consultants, agricultural business managers, resource economists, research scientists, inspection officers and government policy advisers.

Program overview
If you want to shape the future of food, fibre and farming, consider a career as an agricultural scientist, and tackle issues like climate change, food security, sustainability and agricultural productivity. The three-year program offers a broad range of courses covering biochemistry, microbiology, genetics, animal nutrition, land use and the environment, agri-economics and international agricultural development. Learn from world-class academics who have an active research focus and strong industry connections and embark on your career with a globally respected qualification.

Areas of study
Ecology and Conservation • Environmental Science

Career opportunities
Graduates work in roles such as quality assurer/manager, researcher, advisory, research, logistics, life science and finance, in roles such as quality assure/manager, researcher, agricultural consultant/manager, regional and community development manager, commodity trader, salesperson/marketer/manager, supply chain manager, public policy developer and analyst, and export marketer/manager.
**BACHELOR OF **WILDLIFE SCIENCE

**Program overview**
As a wildlife scientist, you will study native and exotic amphibians, reptiles, birds and mammals in natural environments, wildlife parks and animal facilities, so you can contribute to their conservation and management. This program focuses on animal biology and managing wild animals. Across your degree, you will learn how to implement and evaluate management programs for both captive and freely roaming wildlife, and study wildlife anatomy and physiology, reproductive biology, breeding and genetics, nutrition and health. With a strong practical focus, you will learn skills in wildlife trapping, identification and animal handling, and get hands-on experience during industry placements at locations including zoos, sanctuaries and wildlife parks. Industry placements give you a chance to establish industry contacts and consolidate your knowledge and skills.

**Program features**
- You will work with UQ Gatton’s wildlife scientists, who are involved in the conservation and management of non-captive and captive wildlife, as well as exotic animals in Australia and overseas.
- You will participate in industry placement programs in zoos, sanctuaries, wildlife parks, government agencies, welfare organisations and animal breeding enterprises.
- You will be involved in a new, privately funded, landscape-scale conservation program and participate in routine management and research on both captive and free-living wildlife (see hiddenvalleylife.uq.edu.au).

**Career opportunities**
Graduates are employed in research, managerial and educator roles, working in the agriculture sector (perhaps educating farmers about the best way to keep predators away from livestock), in tourism (managing animal welfare and research programs), or for government departments (researching and managing feral animals). Others work in biology, conservation, land management and ecotourism, environmental consultancies, vertebrate pest and game management, wildlife science, government agencies, and wildlife sanctuaries and zoos.

**More information**
Visit future-students.uq.edu.au or scan the QR code at right.

**BACHELOR OF **EQUINE SCIENCE

**Program overview**
In this three-year program, you will study horses and their welfare; behaviour, nutrition, reproduction, health, rehabilitation, exercise and physiology. You will build a strong understanding of animal biology and chemistry before specialising in areas including agricultural biochemistry, horse behaviour, physiology, biomechanics, breeding, nutritional physiology and diet. Graduate with scientific knowledge and practical skills that can be used in all aspects of the global equine industry to improve the management, performance and welfare of all horses.

**Program features**
- You will be able to participate in a three-week tour of equine and production animal facilities in Kentucky and Texas, USA.
- You will work with our equine unit, which consists of 110 horses, a horse walker, round yards, performance testing facilities, a reproduction laboratory, holding yards, teasing lanes and equestrian training arenas.
- UQ has an Equestrian Club where you can meet fellow horse enthusiasts and compete in equestrian events.

**Career opportunities**
Graduates typically work in equine enterprise management, agribusiness firms servicing the equine industry, animal nutrition and animal health companies, bloodstock agencies, breed societies, equestrian centres, riding schools, equine industry organisations, equine journalism, horse studs, pre-conditioning and training businesses, racing and competition stables, sales and marketing, and statutory bodies administering racing and trotting.

**More information**
Visit future-students.uq.edu.au or scan the QR code at right.

**BACHELOR OF **VETERINARY TECHNOLOGY

**Program overview**
Develop your theoretical and practical skills to become a para-veterinary healthcare specialist, working in animal health and welfare. You will build a base in biological science by studying the mechanisms of animal disease and diagnostic techniques, clinical aspects of small and large animal health, applied and clinical nutrition, veterinary pharmacology and animal therapeutics. Select from a wide range of elective courses to focus your skills or to pursue an area of interest.

**Program features**
- UQ’s field of veterinary science is ranked 33rd in the world (QS World University Rankings by Subject, 2019).
- Gain hands-on experience by undertaking clinical rotations and participating in industry placement programs.
- Experience at least 80 hours of practical sessions in your first and second years, and off-campus studies of 30 days. In your third year, you will complete a seven-week industry placement in any approved veterinary-related field.

**Career opportunities**
Graduates are employed in areas including veterinary radiology, anaesthesia, pathology, clinical pathology, nutrition and veterinary therapeutics. They typically work as support staff in veterinary practices in roles such as veterinary emergency and critical care technicians, or veterinary practice managers, animal behaviour and training instructors, animal research technicians or supervisors, biosecurity inspectors and project support officers with government agencies.

ARCHITECTURE AND PLANNING

BACHELOR OF ARCHITECTURAL DESIGN

Program overview
As an architect, you will imagine and design spaces that are beautiful and functional, inside and out. The Bachelor of Architectural Design – the first step to becoming a professional, registered architect – provides you with the knowledge and technical skills to complement your creativity, preparing you to shape our built environment and design the cities and spaces of tomorrow. From your first year you will learn about the history of buildings and culture, architectural design principles, terminologies and technologies, the relationship between society and built environments, and the evolution of style. You will also learn how to design in response to climate and context, from lecturers who have strong, local industry links and international perspective, and teach in studio-based design courses, which provide you with opportunities to develop special areas of interest.

Program features
★ Access dedicated studio facilities 24 hours a day, seven days a week, as well as state-of-the-art library, model making, construction and technical laboratory facilities.
★ Well-resourced teaching spaces ensure you are learning the latest technologies used in the design and communication of architecture.
★ Learn by making – we emphasise the importance of practical skills so that you can realise your most imaginative ideas through models, sculptures and structures.
★ Benefit from a strong student and academic community as well as engagement and empowerment from practising architects.
★ With a unique focus on Indigenous architecture across the globe, you will investigate solutions to social problems and ways architectural design can affect social change.

Career opportunities
Graduates are employed with architects and in allied design professions, government departments, statutory bodies, local authorities, commercial development companies or research organisations. Overwhelmingly, Bachelor of Architectural Design graduates progress to the Master of Architecture program, which provides the necessary postgraduate skills, experience and qualifications to register as a professional architect.

Pathway to
Master of Architecture

Additional costs

BACHELOR OF REGIONAL AND TOWN PLANNING

Program overview
Develop the knowledge and skills needed to help communities, companies and governments integrate the environmental, economic and social aspects of development from site design to regional scale analysis. The Bachelor of Regional and Town Planning prepares you to plan cities and communities in their entirety, from land use, transport, infrastructure and urban design, through to real estate markets, investment, sustainability, regulatory frameworks and community consultation.

Program features
★ You will undertake a planning project each year, where you will work with industry, government and community partners on real-life developments in South-East Queensland.
★ Choose to internationalise your studies by enrolling in field studies courses to Indonesia, Vietnam and Hong Kong, which focus on the development of cities and urban areas.

Career opportunities
Graduates are employed in areas such as urban design, statutory planning, strategic planning, regional development, environmental management and monitoring, technology for planning, spatial planning, commercial and industrial development, engineering and architectural firms, heritage and conservation, land-use planning, planning law and practice, resource management, social planning, tourism, and transport and infrastructure planning.

More information
Visit future-students.uq.edu.au or scan the QR code at right.

“I decided to come to Australia because I thought it would be a very good opportunity to do something outside my comfort zone. I was given opportunities to work in an architectural firm as an intern, and it provided me with a lot of opportunities to meet new people, establish connections, and have great benefits for the rest of my career.”

Joy Lim, Singapore
Bachelor of Architectural Design
Architecture public events
UQ’s School of Architecture does more than teach and research. We curate national and local exhibitions and conferences, and host lecture series, symposia and other events that advocate for architecture and design.

</tr>
</tbody>
</table>

**Program overview**

This is a stimulating and challenging program for high-achieving students with a keen interest in the humanities. You will engage with leading humanities researchers from your first year of study and participate in the University’s research culture, applying and developing your analytical skills through practice-led learning.

**Areas of study**

- Ancient History
- Art History
- Drama
- English Literature
- History
- Mathematics
- Music
- Philosophy
- Studies in Religion
- Western Civilisation

**Program features**

- UQ’s broad field of arts and humanities is ranked 78th in the world (QS World University Rankings by Subject, 2019).
- You will work in a small cohort and be mentored by internationally leading humanities specialists and industry professionals.
- This four-year program offers industry internships, field study and study abroad options.
- You will complete specially tailored extracurricular activities including an orientation camp and a conference.

**Career opportunities**

This program will prepare you for a range of careers in leading academic or professional organisations. Your research training and critical thinking will give you an edge in rapidly changing work environments, where logical reasoning, creative thinking and good communication skills are essential.

<td>3 years</td>
<td>(12 Feb 2021)</td>
<td>$34,208</td>
<td>St Lucia</td>
<td>Minimum, see fold-out</td>
<td>Queensland Year 12 (or equivalent), including Year 12 English</td>
<td></td>
</tr>
</tbody>
</table>

**Program overview**

Communication is an expanding area of employment and the Bachelor of Communication has been designed to respond to employer demand across the media and communication industries. The program will prepare you for a lifetime of creative and critical use of media and communication in industries, government and communities. This degree will give you a strong foundation in writing, industry engagement – including internships, practice and production skills – and critical thinking. You will develop expertise in multimedia and online content production, social media engagement and analysis, community and stakeholder engagement, and campaign development.

**Areas of study**

- Advertising
- Digital Media or Public Relations (Compulsory)
- Event Management
- Health Communication
- Interaction Design
- Journalism
- Writing

**Program features**

- UQ’s field of communication and media studies is ranked 48th in the world (QS World University Rankings by Subject, 2019).
- You will have access to a media lab, audio recording and production rooms, a digital radio studio and control room, and a video production studio and post-production suite.

**Career opportunities**

You will develop understanding and skills in a number of areas: visual, written, multimedia and spoken and interpersonal communication and in researching and exploring communications.

More information: Visit future-students.uq.edu.au or scan the QR code at right.

**BACHELOR OF CRIMINOLOGY AND CRIMINAL JUSTICE (HONOURS)**

<td>$34,208</td>
<td>St Lucia</td>
<td>Minimum, see fold-out</td>
<td>Queensland Year 12 (or equivalent), including Year 12 English</td>
<td></td>
</tr>
</tbody>
</table>

**Program overview**

This program focuses on professional practice and criminal law, providing you with high-level, industry relevant skills to compete favourably in the growing international justice and criminology employment markets. As a criminologist, you will understand how justice works, why people commit crimes, and have the skills and knowledge to contribute towards preventing and controlling crime and social problems that face contemporary society.

**Program features**

- You will learn from academics and industry professionals working in the top levels of criminal justice and criminology.
- Your program culminates in a fourth year of study that brings together theory, research, case analysis and specialist skills to provide you with a sound platform for employment or further study.

**Career opportunities**

In a rapidly growing national and international employment market, you will be well positioned for a career at all levels of government, local authorities and global corporations, and a range of non-government treatment and social service agencies.

<td></td>
</tr>
</tbody>
</table>

Program overview
The Bachelor of International Studies focuses on developing language skills and knowledge of global issues from the perspective of relevant social science disciplines. Each student completes an area of study in a language other than English from the wide range of languages taught at UQ and another area of study with strong international relevance. Students develop cultural awareness to effectively communicate across linguistic, cultural and political boundaries.

Areas of study
Chinese • Chinese Translation and Interpreting • Economics • French • German • Indonesian • International History • International Inequality and Development • International Relations • Italian • Japanese • Korean • Peace and Conflict Studies • Russian • Spanish

Program features
⭐ Queensland’s largest selection of language areas of study.
⭐ You may complete an optional internship with one of our partners, including the Australian Federal Parliament, the Parliament of Queensland, and other national and international agencies.
⭐ You will undertake a compulsory international exchange during Semester 1 of your third year.

Career opportunities
Students in this program are typically interested in pursuing a career with an international agency, the global private sector, government or non-profit organisations such as UNESCO, UNICEF or the World Health Organization.

<td></td>
</tr>
</tbody>
</table>

Program overview
UQ’s Bachelor of Journalism has been designed to meet the expectations of the digital landscape. This program will prepare you for a professional career researching, reporting, writing and telling stories across different media platforms, including digital print, radio and television. Benefit from a progressive program that keeps pace with industry where you will learn the principles and practices of new digital media production. Gain sought-after skills in field recording and camerawork; editing of sound; vision and pictures; data analysis; publishing and multimedia platform distribution. Prepare for a versatile and adaptable career with access to an online media and production support team, as well as industry professionals and fieldwork and internship opportunities.

Areas of study
Economics • Film and Television • Interaction Design • Political Science • Popular Music and Technology • Public Relations • Sports Studies • Writing

Program features
⭐ UQ’s field of communication and media studies is ranked 48th in the world (QS World University Rankings by Subject, 2019).
⭐ The School of Communication and Arts has its own digital media channels where the students are responsible for generating all content.
⭐ Industry-based work-integrated learning is a key part of the program.

Career opportunities
Graduates are often employed as journalists; feature writers; magazine editors; news editors; directors of content and media production; digital journalists or bloggers; television and radio presenters; producers, researchers and writers; media advisers; programming associates and professionals; and photojournalists. Others are sought after for their ability to tell compelling stories in communications or corporate publishing roles.

<td></td>
</tr>
</tbody>
</table>

Program overview
If you wish to pursue a professional career in music, the Bachelor of Music (Honours) will provide you with the practical skills combined with theoretical and historical musical knowledge, a thorough understanding of music theory and the skills needed to pursue a range of careers including arts administration, composition, arrangement or conducting, professional performance, recording/sound engineering, music education, music journalism; diversionary therapy (further study required). Note: If you wish to specialise in music education, enrol in the five-year dual program of Bachelor of Music (Honours) / Bachelor of Education (Secondary).

Program features
⭐ Work with staff and alumni who are acclaimed nationally and internationally as performers, teachers and composers.
⭐ Excellent postgraduate opportunities in performance, composition, music education, musicology and music health and wellbeing.

Career opportunities
On graduation you are well-equipped to pursue a range of careers including arts administration, composition, arrangement or conducting, professional performance, recording/sound engineering, music education; music journalism; diversionary therapy (further study required). Note: If you wish to specialise in music education, enrol in the five-year dual program of Bachelor of Music (Honours) / Bachelor of Education (Secondary).

<td>$52,352</td>
<td>St Lucia</td>
<td>Minimum, see fold-out; Queensland Year 12 (or equivalent), including Year 12 English</td>
<td></td>
</tr>
</tbody>
</table>

Program overview
Social science is the scientific study of human relations and society. Key approaches come from sociology, political science, anthropology and economics. It is an area of study that deals with addressing pressing social issues at local, national and international levels. Among these are poverty and inequality, indigenous peoples and injustice, health and illness, and the social impacts of climate change. UQ’s Bachelor of Social Science is unique in its approach and delivery. You will develop a strong grounding in social justice, policy research and links to industry. Our program provides a foundation in the practice-based skills, values and knowledge related to key social problems. Practical workforce skills include public policy design and evaluation, social impact assessment, public advocacy, social planning and research.

Areas of study
Development • Environment and Society • Health and Society • Social and Public Policy

Program features
⭐ UQ’s broad field of social sciences and management is ranked 48th in the world (QS World University Rankings by Subject, 2019).
⭐ Third-year students gain experience in the real world of social research by undertaking a supervised, year-long research project linked with an industry partner.

Career opportunities
You will be equipped with relevant and marketable skills including policy making and advocacy, public communication, cross-cultural awareness, report writing, project management and social research skills. These skills will enable graduates to seek employment with organisations such as government departments, community service and advocacy agencies, healthcare providers, non-governmental organisations (NGOs), and in the business/private sector.

</tbody>
</table>

**Program overview**
In business, every day is looking for an edge. This program is suited to high-achieving students who want to gain the skills to become a reflective and adaptable professional, capable of facing the complex challenges of a fast-paced business world. This small, highly motivated cohort will have a unique and personal experience, taught by internationally respected industry experts and academics. Choose either the professional pathway to complete up to three areas of study, or a research pathway to complete a thesis and continue on to a PhD.

**Areas of study**
- Accounting • Business Analytics • Business Information Systems • Entrepreneurship and Innovation • Finance • Human Resources • International Business • Marketing

**Program features**
- Our business academics have been awarded some of Australia's highest accolades, including the ANZMAC Distinguished Educator Award in Marketing, Marketing and numerous Australian Government Citations for Outstanding Contributions to Student Learning.

**Career opportunities**
Graduates can expect to build careers as leaders in organisations across the private, public and non-profit sectors. Typically, these careers would include business consultants, market researchers, organisational managers, business analysts, accounting and finance specialists, and policy analysts and advisers. This program can also provide a pathway into a PhD and academic career.

</tbody>
</table>

**Program overview**
Get ready for a high-powered career in fast-paced, competitive and influential organisations with the Bachelor of Advanced Finance and Economics (Honours). This four-year program will help you develop strong technical skills in a challenging academic environment, providing you with the expertise to prosper in your chosen career. The program fosters close collaboration between students, creating strong networks that will be an important resource throughout your career. Your first three years will be focused on building knowledge with industry experts demonstrating how course content is applied in practice. In your fourth year, you have the option of pursuing a general or research pathway.

**Areas of study**
Economics • Finance

**Program features**
- UQ’s field of accounting and finance is ranked 43rd in the world (QS World University Rankings by Subject, 2019).
- Exclusive courses and activities help you to create a strong network.

**Career opportunities**
Potential career pathways include investment banking, funds management, management and financial consulting, stockbroking, international finance and trade, or employment with government agencies such as the Reserve Bank of Australia.

</tr>
</tbody>
</table>

**Program overview**
Do you have big ambitions for a career in business? We offer flexible areas of study to best position you for success in your chosen career path. With an emphasis on practical experience and industry engagement, you will learn from industry experts, examine real-life case studies and have the option to undertake applied projects with leading businesses. We equip our students with the required knowledge and applied skills to be confident leaders in competitive and rapidly changing business environments.

**Areas of study**
- Advertising • Business Economics • Business Information Systems • Human Resources • International Business • Marketing

**Program features**
- UQ’s business programs are regularly updated to include topical and innovative study areas. Our courses reflect the world right now and address evolving issues such as business disruption, entrepreneurship and new technologies.

**Career opportunities**
Graduates typically take leading roles in companies, agencies and organisations across the private and public sectors, and work everywhere from small startups in a single room to huge organisations with offices all over the world. Specific roles, industries and sectors you might work in largely depend on your areas of study.

**Program overview**
Are you fascinated by business and how businesses operate, analyse and improve performance? Do you want to learn how they raise capital and minimise risks in financial markets, and how markets determine value? The Bachelor of Commerce is designed to future-proof your career by equipping you with business, finance and analytical skills that will allow you to succeed in a rapidly changing world. You will gain an understanding of accounting and value aspects of business activities within different environments and can refine your skills by choosing areas of study in Accounting, Business Information Systems or Finance.

**Areas of study**
- Accounting • Business Information Systems • Finance

**Program features**
- UQ’s field of accounting and finance is ranked 43rd in the world (QS World University Rankings by Subject, 2019).

**Career opportunities**
Graduates are in demand for roles in accounting and consulting firms, financial institutions, stockbroking firms or merchant banks, government departments and agencies, as well as multinational corporations, as professional accountants, investment analysts, brokers, bankers or finance managers.

**More information**
Visit future-students.uq.edu.au or scan the QR code at right.
BACHELOR OF ECONOMICS

Program overview
Economics is about more than just markets, trade and prices. It’s the study of people – why (and how) we make decisions and how we can predict human behaviour. In this program, you will study microeconomics, macroeconomics, benefit-cost analysis and electives from more than 40 courses, learning a range of statistical, mathematical and analytical tools that can be used to explain why individuals, organisations and governments make the decisions that they do.

Areas of study
• Business and Industry
• Economics and Public Policy
• International Trade and Finance
• Natural Resources and Environment
• Quantitative Methods

Program features
• UQ’s School of Economics is ranked in the top two economics research institutions in Australia (ARWEC, February 2019).

Career opportunities
Economics graduates are highly sought after by employers. You could work as an analyst, adviser, consultant, economist or researcher in a range of fields including international consulting, infrastructure development and planning, finance, investment and trade, natural resources, treasury or statistics.

More information
Visit future-students.uq.edu.au or scan the QR code at right.

BACHELOR OF INTERNATIONAL HOTEL AND TOURISM MANAGEMENT

Program overview
This program will develop your managerial skills and business acumen so you can plan, organise and deliver exceptional experiences in tourism, hospitality or events. Develop your core knowledge with compulsory courses in business management, marketing, tourism, hospitality, events and business law. Then, specialise in event management, hospitality management or tourism management.

Areas of study
• Event Management
• Hospitality Management
• Tourism Management

Program features
• UQ’s field of hospitality and leisure management is ranked 27th in the world (QS World University Rankings by Subject, 2019).
• Gain practical industry experience through initiatives including the Executive Shadowing Program and individual placements. You can also go on winemaking trips, or make the most of opportunities such as the DISUJ International Program.
• UQ is the only university in Australia to offer programs with UNWTO.TedQual certification. The United Nations World Tourism Organization (UNWTO) promotes responsible, sustainable and universally accessible tourism.

Career opportunities
With advanced management training and impressive professional networks, you will be well-positioned for a promising career in the tourism, hospitality or events industries. Our graduates are in high demand with employers, both locally and internationally.

INTERNATIONAL UNDERGRADUATE UQ GUIDE 2021 47
Great teachers encourage curiosity and inspire inquisitive minds. As a teacher, your impact can last a lifetime.

Teaching is a rare profession that allows you to make a difference in the lives of your students. Your impact can last a lifetime. In our initial teacher education programs, we prepare you for the exciting work in primary and secondary classrooms where you will build on sound theoretical foundations to merge content knowledge with understanding how your students learn. Your creative skills will be enhanced as you combine university studies with practicum experiences in a range of contexts. Our school is globally engaged and locally committed so you will gain an understanding of local and world contexts.

Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT) and to teach in state and independent schools in Australia and many countries around the world.

Careers

If you like these subjects:

- Art
- Drama
- English
- Geography
- History
- Languages
- Legal Studies
- Mathematics
- Media studies
- Music
- Sciences
- Physical education

Our undergraduate programs can lead to careers in:

- Curriculum development
- Education leadership
- Educational research
- Guidance and career counselling
- High school teaching
- Language teaching
- Mentoring
- Music teaching
- Primary school teaching

UQ has been preparing teachers for more than 70 years and our staff are leaders in their field
BACHELOR OF EDUCATION (PRIMARY)

Program overview
As a primary school teacher, you will encourage children’s curiosity and inspire their inquisitive minds. This four-year program will provide you with the high-level academic knowledge and professional skills necessary to foster children’s learning and development from prep (the first year of school) through to Year 6. You will cover all aspects of the Australian Curriculum, while developing vital knowledge about teaching and learning, child development, diversity and inclusion, and Indigenous education. You will complete placements and a final year internship to demonstrate your competence to meet the Queensland College of Teachers’ professional standards.

Areas of study
- English and Literacy
- Humanities and Social Sciences
- Mathematics and Numeracy
- Science

Program features
- UQ’s field of education and training is ranked 19th in the world (QS World University Rankings by Subject, 2019).
- You will be ready to enter the classroom after a minimum of 80 days of supervised professional experience across your program, along with 40 days of internship over four years.

Career opportunities
Graduates are eligible to apply for registration with the Queensland College of Teachers (QCT), as well as other authorities, to teach in schools around Australia, and some worldwide. Once registered, you can work as a primary school teacher in state or independent schools in Queensland, interstate or overseas, or undertake further study to qualify as a principal, mentor, curriculum adviser, guidance or career officer, or head of department.

More Information
Visit future-students.uq.edu.au or scan the QR code at right.

Additional costs
- Placement

BACHELOR OF EDUCATION (SECONDARY)

Program overview
High school teachers are instrumental in shaping young adults. In this dual program, you will learn to guide students’ inquisitive minds, developing high-level academic knowledge and professional skills across teaching and learning, research and leadership, development, diversity, and gaining a broad understanding of the Australian Curriculum, while also specialising in a key area of interest in your second program. Immersive, hands-on workshops, school visits and supervised practicums throughout your program will give you a strong understanding of day-to-day life in a high school. The Bachelor of Education (Secondary) can only be studied as a dual program. It can be combined with any one of the following programs: Bachelor of Arts, Bachelor of Mathematics, Bachelor of Music (Honours), Bachelor of Science, or Bachelor of Business Management.

Program features
- UQ’s field of education and training is ranked 19th in the world (QS World University Rankings by Subject, 2019).
- You will be confident and job-ready after completing a minimum of 80 days of supervised professional experiences and a 10-day school experience during your program.

Career opportunities
Graduates are eligible to apply for registration as a teacher in Queensland, to work as a secondary school teacher in state and independent schools in Australia and worldwide. With further study and experience, this can lead to roles as a head of department, principal, guidance officer, learning support teacher, or student advisor. If you choose to undertake a specialisation in music or a Language Other Than English (LOTE) there is also the opportunity to work in primary school education.

More Information
Visit future-students.uq.edu.au or scan the QR code at right.

Additional costs
- Placement
“I thought the program was well-structured as there were many different elective courses to choose from to develop your knowledge and interest in that area.

I particularly enjoyed my final year of study where I completed two practicum blocks at a school in preparation for becoming a teacher. I felt this helped me make the transition from university student to teacher.

UQ offered many opportunities to prepare for life after university. The content of some courses included concepts and practical skills that applied to real life situations.”

Mai Takamoto, Japan
Bachelor of Education (Primary)
Mineral and Mining Engineering

BACHELOR OF COMPUTER SCIENCE

Program overview
Do you want to shape our digital future? Tailor your studies to suit your career aspirations and learn how to create systems that automatically transform data into information. Learn the theory behind algorithms and data structures as you gain the knowledge and practical skills to create, develop, implement and evaluate computer hardware and software. Design platforms that support and enhance almost all functions of modern life. With the strong analytical, logical and engineering skills you will gain through this program, you will be able to pursue a career across any sector that uses technology.

Areas of study
• Programming Languages • Scientific Computing
• Cyber Security • Data Science • Machine Learning
• Areas of study
• Artificial Intelligence

Program features
★ UQ’s field of computer science is ranked among the top 125 in the world (Times Higher Education World University Rankings by Subject, 2020).
★ Access UQ’s state-of-the-art facilities, which include more than 740 Windows, Unix and Apple workstations, 16 specialist computer labs (including 10 with 24-hour access), and a university-wide 802.11ac wi-fi network.
★ UQ is home to world-leading computer science research, including two Australian Computer Society Digital Disruptor Awards for 2017.

Career opportunities
As technology continues to evolve, the growing demand in this area provides opportunities in the operation and support of services in finance, energy, transport, health, communications and more.

BACHELOR OF ENGINEERING (HONOURS)

Program overview
No matter what engineering path you’re set on, we’ll show you how to embrace the challenges of a changing world – in a way that benefits your career, the industry and communities all over the world. The Bachelor of Engineering (Honours) prepares you to address some of the key challenges of the 21st century, such as water resourcing, infrastructure and communication, food and health services supply, and sustainable energy development. You will choose from Queensland’s largest range of engineering study areas, graduating with a highly respected qualification that can take you anywhere.

Study areas
Chemical Engineering • Chemical and Biological Engineering • Chemical and Environmental Engineering

Program features
★ UQ’s field of chemical engineering is ranked 3rd in Australia and 33rd in the world (QS World University Rankings by Subject, 2020).
★ Engineers Australia’s top 100 most influential engineers includes 10 UQ graduates.
★ You can complete your compulsory 450 hours of professional practice with organisations including Boeing, Deloitte, Energetix, EY, Google, Lendlease, the Queensland Government and Rio Tinto.
★ Bring your ideas to life at UQ Innovate, the largest makerspace of its kind in Australia.

Career opportunities
Graduates work as engineers and consultants in government, business and industry within Australia and overseas.

Placement

“Growing up in Hong Kong, I witnessed numerous developments of high-rises and iconic structures. I always dreamed of working in an engineering consultancy and being part of the engineering, design and planning process.

The flexible first-year program for engineering allowed me to explore my options in a variety of disciplines like civil, mechanical and electrical engineering. I ended up choosing electrical engineering and prior to my graduation I managed to secure a job in Arup’s Brisbane office.”

Gabriel Tuntomo, Hong Kong
Bachelor of Engineering (Electrical) / Bachelor of Commerce
Graduate Electrical Engineer, QLD Transport and Resources, Arup
BACHELOR OF ENGINEERING (HONOURS) / MASTER OF ENGINEERING

Program overview
Do you want to be a respected engineering leader who excels in your field? As a UQ Bachelor of Engineering (Honours) / Master of Engineering student, you will be challenged to push the boundaries of the discipline while you develop high-level skills in critical and analytical thinking, research design, writing and project management. As part of the program, you will submit a master’s-level thesis and complete a semester-long placement, either in industry or in research. This placement within a five-year program with master’s-level coursework is an Australian first.

Fields of study
Chemical Engineering • Chemical and Biological Engineering • Chemical and Environmental Engineering • Chemical and Materials Engineering • Chemical and Metallurgical Engineering • Civil Engineering • Electrical Engineering • Electrical and Biomedical Engineering • Electrical and Computer Engineering • Mechanical Engineering • Mechanical and Aerospace Engineering • Mechanical and Materials Engineering • Mechatronic Engineering • Software Engineering

Program features
★ UQ’s field of chemical engineering is ranked 3rd in Australia and 33rd in the world (QS World University Rankings by Subject, 2019).
★ Engineers Australia’s top 100 most influential engineers includes 10 UQ graduates.
★ You can undertake a full-time placement in industry or a research project with a university or research institution, either in Australia or overseas. We maintain a strong engagement program with organisations including Boeing, Rio Tinto, Energex, Brisbane Airport Corporation and Queensland Urban Utilities.
★ Bring your ideas to life at UQ Innovate, the largest makerspace of its kind in Australia.

Career opportunities
Graduates are often employed as leaders on issues like climate change, diminishing supplies of water, mineral resources, poverty and disease. Others extend their research ambitions and enrol in a MPhil or PhD program, where they make significant discoveries and contribute to knowledge.

BACHELOR OF INFORMATION TECHNOLOGY

Program overview
If you’re passionate about innovation, thrive when solving problems and want to shape the future of technology, this program is for you. Developed through strong industry consultation via our Industry Advisory Board (made up of multinational companies including Boeing, Microsoft, Virgin, Accenture and SAP), this program will establish your strong professional understanding of software and hardware with fundamental technical, analytical and problem solving skills, interpersonal and project-work skills, programming languages and design principles. You can also take advantage of UQ’s state-of-the-art facilities, which include more than 740 Windows, Unix and Apple workstations, 16 specialist computer labs (including 10 with 24-hour access), and a university-wide 802.11ac wi-fi network.

Areas you can specialise in
Computer Systems and Networks • Enterprise Information Systems • Software Design • Software Information Systems • User Experience Design

Program features
★ UQ’s field of computer science is ranked among the top 125 in the world (Times Higher Education World University Rankings by Subject, 2020).
★ In your final year, you will have the opportunity to undertake a placement and work on a significant industry-based project.
★ UQ offers industry experience opportunities with companies such as IBM, Google and SAP that can lead to graduate employment.

Career opportunities
Graduates typically work as analysts, programmers, designers, developers, administrators, consultants, or project managers, working in small teams to complete projects within their organisation, or for external clients.

ShanghaiRanking’s Global Ranking of Academic Subjects, 2019
As life expectancy increases the need for quality healthcare professionals will also rise. The global health sector is seeking alternative models of care, making it an exciting time for a career in health.

At UQ, we’re committed to health in a big way. Our vision is to advance understanding of health issues, build better health services and make you a leader and innovator of the future.

A hands-on approach and cutting edge research are built into our teaching to prepare you for all types of care situations. We maintain close partnerships with major healthcare providers to inform our teaching, research and clinical engagement. Clinical and industry placements will help you to expand your professional network, decide on a specialty and prepare for an exciting career.

Health, Behavioural Sciences and Medicine

If you like these subjects:

- Biology
- Business studies
- Chemistry
- Health and physical education
- Mathematics
- Physics
- Psychology
- Studies of society

Our undergraduate programs can lead to careers in:

- Biomedical science
- Cardiac science
- Dentistry
- Disability support
- Embryology
- Environmental health sciences
- Epidemiology
- Exercise physiology
- Health and physical education
- Health promotion
- Health policy
- Health science
- Medicine
- Mental health services
- Midwifery
- Nursing
- Nutrition
- Occupational health and safety
- Occupational therapy
- Pharmacy
- Physiotherapy
- Psychology
- Public health management
- Regulatory and medical affairs
- Research
- Social work
- Speech pathology
- Sport and recreation management
- Sports science
- Youth and child support services
Program overview
Develop your understanding of the breadth and depth of modern biomedical science and learn from our researchers who are leaders in this area. You will benefit from their latest knowledge of biomedical science developments and put this theory into practice through structured research projects. By integrating your study across the various discipline areas of the biomedical sciences, you will graduate with a well-grounded, wide range of knowledge and enter a rewarding career in modern biomedical science. You can also use this program as a pathway to study medicine or allied health programs. Your studies will focus on the human body at the molecular, cellular and whole body levels, and the disciplines of anatomy, biochemistry and cell biology, physiology, developmental biology, microbiology, pharmacology and neuroscience. You will learn the scientific process through activities ranging from experimental design and hands-on experiments to computer modelling.

Program features
★ UQ’s broad field of life sciences and medicine is ranked 33rd in the world (QS World University Rankings by Subject, 2019).

Career opportunities
This program will help you embark on a biomedical science career, including work in hospital and diagnostic clinical laboratories, biotechnology and pharmaceutical companies, laboratory work in molecular and cellular biology; health policy and communication; and secondary schools or other educational institutions (when combined with a teaching qualification).

Queensland Year 12 (or equivalent), including Year 12 Chemistry and Biology; Biology recommended

At the start of the program, you must obtain, and hold for the duration of the program, a current First Aid Certificate (including CPR) and blue card. You may also be required to provide evidence that you do not carry blood-borne transmissible viruses or tuberculosis (TB) and comply with a schedule of immunisations. (See UQ terminology, page 88, for an explanation of blue card and immunisation.)

Program overview
The Bachelor of Dental Science (Honours) educates the next generation of dental professionals in the most advanced oral health facility in Australia. With small cohorts and dedicated, specialist teachers, you will master the science and technical skills required to care for patients and prevent, diagnose and treat oral diseases and abnormalities. You will be work-ready when you graduate, with extensive clinical experience and in-depth knowledge of general practice in dentistry, orthodontics, prosthodontics, paediatric dentistry, periodontics, oral medicine, oral and maxillofacial surgery, and public health.

Program features
★ You will undertake supervised practical placements in a variety of clinical settings.

Career opportunities
Once registered with the Dental Board of Australia, you can establish your own private practice, work within an established practice, or join a partnership. Within the public sector, there are opportunities to work within hospitals, community health services, or school-based dental clinics across Australia. Postgraduate study offers opportunities to develop specific interests and qualify as a specialist in a recognised field such as orthodontics, prosthodontics, oral medicine, periodontics and special-needs dentistry.

Offer round 2: 30 September 2020
BACHELOR OF EXERCISE AND NUTRITION SCIENCES

Program overview
How is the human body and its health influenced by diet and exercise? What drives people to consume high levels of fats, salts and sugars, and what are the impacts? The Bachelor of Exercise and Nutrition Sciences provides a framework and way of thinking to answer questions like these. You will learn about the science of human movement, nutrition and food, the culture and social role of sport in Australia and overseas, and the psychology of sport and exercise. Whether you’re interested in exercise and nutrition, or a broader career in health, this program will help you make a positive change to the wellbeing of others.

Program features
☆ UQ’s field of sports-related subjects is ranked 2nd in the world (QS World University Rankings by Subject, 2019).
☆ This program is a preferred pathway into UQ’s Doctor of Medicine.
☆ Excellent springboard to a range of clinical and non-clinical health careers.

Career opportunities
Graduates frequently combine a Bachelor of Exercise and Nutrition Sciences with a postgraduate qualification to specialise in non-clinical or clinical areas such as dietetics, medical practice and physiotherapy. Other students use their skills to work in graduate entry roles such as nutrition assistant, fitness or weight loss consultant, or research assistant.

More information
Visit future-students.uq.edu.au or scan the QR code at right.

BACHELOR OF EXERCISE AND SPORTS SCIENCES (HONOURS)

Program overview
This program will ignite your interest in the complexities of maintaining an active, healthy human body and allow you to make an essential contribution to wellbeing, rehabilitation and performance. This program focuses on understanding how to enhance human performance, how the body responds to exercise and physical activity, and how to conduct research that could help build healthier communities and stronger athletes.

Program features
☆ UQ’s field of sports-related subjects is ranked 2nd in the world (QS World University Rankings by Subject, 2019).
☆ This program is a preferred pathway into UQ’s Doctor of Medicine.
☆ You will undertake 500 hours of professional practicum providing hands-on experience with real clients in a supervised environment.
☆ Graduates are eligible for accreditation with Exercise and Sports Science Australia (ESSA) – the leading professional association for exercise and sports science practitioners.

Career opportunities
Career opportunities are varied and may include prescribing and delivering exercise and physical activity programs in the fitness industry; developing strength and conditioning programs to assist elite athletes and sporting teams; delivering workplace health promotion and executive health management programs; or conducting diagnostic measurements (cardiac, sleep, respiratory or neurophysiology) in hospitals or other clinical services.

Pre-placement requirements

BACHELOR OF HEALTH SCIENCES

Program overview
In this flexible program, you will gain a broad understanding of human health, studying fields including: biomedicine, health behaviours, public health and evidence-based practice. You will specialise in clinical health, nutrition or public health, and get hands-on experience during your final semester of study with a minimum of 90 hours of supervised work experience.

Areas of study
Clinical Health • Nutrition • Public Health

Program features
☆ UQ is ranked equal 1st in Australia and 23rd in the world for public health (ShanghaiRanking’s Global Ranking of Academic Subjects, 2019).
☆ With appropriate study plans, this program covers the minimum recommended courses prior to entry into UQ’s Doctor of Medicine program.
☆ UQ’s broad field of life sciences and medicine is ranked 33rd in the world (QS World University Rankings by Subject, 2019).

Career opportunities
Graduates pursue rewarding careers as health promotion or public health officers, or in health administration. Others pursue clinical careers through further study.

More information
Visit future-students.uq.edu.au or scan the QR code at right.
HEALTH, BEHAVIOURAL SCIENCES AND MEDICINE

BACHELOR OF HEALTH, SPORT AND PHYSICAL EDUCATION (HONOURS)

Program overview
Do you want to make a difference in young lives by inspiring healthy lifestyles through physical activity? This program prepares you to be a specialist health, sports and physical education teacher in secondary schools, with junior science as your secondary teaching area, or in related areas such as sports education, outdoor recreation or health promotion. You will help young people explore a range of sport and physical activities, develop self-esteem and acquire social skills. As part of the program, you will complete placements where you will work with young people in primary and secondary schools.

Program features
★ UQ’s field of sports-related subjects is ranked 2nd in the world (QS World University Rankings by Subject, 2019).
★ You will undertake more than 100 days of supervised teaching experience in a range of settings including primary, secondary and special needs schools.
★ Complete an individual research project in final year, supervised by one of the School’s leading academics and researchers.

Career opportunities
Graduates can pursue a broad range of careers, not only as a specialist teacher of physical education, health education and junior science, but also as health promotion officer, sports coach, corporate health officer, and roles in sports academies, charities and institutes.

Placement

BACHELOR OF MIDWIFERY

Program overview
Midwives play a pivotal role in safely guiding expectant parents through pregnancy, birth and the weeks that follow. This program will prepare you for this challenging and rewarding career. You will undertake extensive supervised practical experience throughout the program, and during your final year you will extend your clinical knowledge to ensure you meet the Nursing and Midwifery Board of Australia National Competency Standards. This program is delivered in small group-based clinical teaching sessions in simulation centres and through workshops and lectures at UQ St Lucia and is integrated with placements at your placement hospital.

Program features
★ UQ’s field of midwifery subjects is ranked 1st in the world (QS World University Rankings by Subject, 2019).
★ You will benefit from a program that focuses theory on specific case studies, so you can apply everything you’re learning to real-life scenarios.
★ Your clinical placements will commence early in the first semester, and in your final year you will complete extended clinical placements in a variety of maternity and healthcare settings.

Career opportunities
Midwives find employment in public or private health; maternity and neonatal care; teaching or research; rural and remote health; and aid organisations.

Placement

“I chose UQ as it has a large School of Psychology with so many experienced academics from all over the world. I would definitely recommend the Bachelor of Psychological Science (Honours) degree to interested students, because of how well structured it is. It truly covers every discipline of psychology out there, from evolutionary psychology to abnormal psychology.”

Su Jin Lim, Malaysia
Bachelor of Psychological Science (Honours)
Program features

★ UQ’s field of nursing is ranked 21st in the world (QS World University Rankings by Subject, 2019).
★ Students may be able to complete rural and overseas placements.
★ There is a worldwide shortage of trained nurses, and Australian employment prospects are projected to increase by 18.4 per cent during the next five years (2018 Industry Employment Projections report, Department of Employment).

Career opportunities
Graduates work as registered nurses in various public, private or community healthcare settings; critical care facilities; mental health services; centres of tertiary education; research institutions; or private practice.

BACHELOR OF OCCUPATIONAL HEALTH AND SAFETY SCIENCE (HONOURS)

Program overview
Maintaining the safety, health and wellbeing of people while they work is both challenging and rewarding. With this science-focused multidisciplinary program, you can work in almost any industry or company around the world. Combining studies of health, psychology, law, ethics and management with practical skills through placements, worksite visits and industry experience, you will learn scientific approaches to identifying, assessing and controlling chemical, physical and biological hazards. You will also learn about psychosocial health factors, like stress, bullying, harassment and fatigue.

Program features

★ With these key skills, you will be able to monitor and modify work environments, deliver education programs, analyse workplace data, devise, evaluate and implement Occupational Health and Safety (OH&S) management systems, undertake OH&S auditing and inspections, complete accident investigations and ensure compliance with legislation.
★ There is currently a high demand for Occupational Health and Safety graduates in Australia and Asia, and an increasing demand worldwide.

Career opportunities
Graduates may work in any workplace, including remote, rural or urban regions in Australia or internationally; across all industries (including mining, agricultural, retail, hospitality, construction, transport, manufacturing and healthcare); in government, the private sector or consultancies; and enjoy flexible working conditions.

BACHELOR OF OCCUPATIONAL THERAPY (HONOURS)

Program overview
Occupational therapists help people of all ages overcome barriers that affect their ability to engage in the everyday activities that are meaningful and important to them. They use a range of treatment strategies designed to enhance the person’s ability, such as modifying the task or environment, and developing their skills and/or education. Through this program, you will gain a thorough understanding of the theory and practice of occupational therapy, including foundation knowledge from the anatomical, physiological, social, behavioural and psychological sciences.

Program features

★ You may have the opportunity to undertake rural, regional and overseas placements.
★ UQ has a dedicated occupational therapy clinic and a simulated hospital ward where you will apply your knowledge and develop your skills during your studies.

Career opportunities
Graduates work as occupational therapists in public and private hospitals; community health services; rehabilitation units (medical, vocational, psychiatric); regular and special schools; services providing development and training for persons with a social, intellectual or physical disability; independent living centres; workplace health and safety units; aged care facilities; mental health services; centres of tertiary education; research institutions; or private practice.

Program overview

The Bachelor of Pharmacy (Honours) prepares you to play a vital role in the healthcare system. As a pharmacist, you can work in a community pharmacy, hospital pharmacy, industry, research or a range of other settings. Pharmacists improve people’s lives through education, disease prevention, patient counselling, medication reviews and more. In dedicated laboratories and simulated pharmacies at the Pharmacy Australia Centre of Excellence, students learn about the properties of medicines, how medicines affect the body and the pharmacy profession. Pharmacists develop an extensive understanding of drugs, their side-effects, their interactions, how they work and correct dosages. With an ageing population the role of the pharmacist is expanding and their skills are necessary now, and into the future.

Areas of study

Clinical and Experimental Therapeutics

Program features

⭐ UQ’s field of pharmacy and pharmacology is ranked 31st in the world (QS World University Rankings by Subject, 2019).
⭐ Learn at the Pharmacy Australia Centre of Excellence (PACE) – a purpose-built $100 million teaching and research facility.
⭐ Students from culturally and linguistically diverse backgrounds can take part in the award-winning Skills for Communicating and Relating in Pharmacy Training (SCRIPT).

Career opportunities

Graduates of UQ’s Pharmacy program enjoy one of the highest graduate employment rates of any occupation in Australia. This program leads to careers in community and hospital pharmacies as well as industrial pharmacy. Graduates have also gone on to senior positions within both the pharmacy and healthcare industries, as well as government. They have also used pharmacy as a platform for further study in medicine, a career in academia, or a career in research and development.

Program overview

Physiotherapists help to get people moving, from office workers to elite athletes, children with disability and elderly with degenerative conditions. As a UQ Bachelor of Physiotherapy (Honours) student, you will earn internationally recognised qualifications and become a skilled healthcare professional who helps people improve their mobility, function and reduce pain. From your first year, you will build a strong foundation in applied study in medical science, physiotherapy science, anatomy, professional ethics, psychology and therapeutic exercise, to prepare you to care for people with musculoskeletal, neurological, respiratory and other conditions.

Program features

⭐ UQ has dedicated physiotherapy clinics and a simulated hospital ward where you will get to apply your knowledge and develop your skills during your studies.
⭐ You will participate in a range of supervised clinical practice across your program to prepare you for the workplace.
⭐ You may have the opportunity to undertake rural, regional and overseas placement.
⭐ UQ is a leader in digital health, research and clinical physiotherapy skills curriculum.

Career opportunities

Graduates work as physiotherapists in hospitals, community health centres and agencies, rehabilitation units, preschool and school programs and private practice offering treatments to a full range of patients. They may specialise in areas such as sports physiotherapy, musculoskeletal physiotherapy, paediatrics, neuromotor, cardiorespiratory, orthopaedics or other fields of particular interest; or work in research or consultancy roles in educational, industrial or government institutions.

Program overview

Examine the complexity, intricacy and wonder of the human mind in this program, which is designed for students looking to undertake comprehensive studies in psychology, including the study of developmental, social, cognitive, biological, physiological and abnormal psychology – as well as study in research methods and report writing. Courses examine areas including child development, neuroscience, learning and cognition, social and organisational psychology, psychological assessment, psychological research methods and evaluation of research. With a range of psychology electives to choose from, you will gain a thorough understanding of the fundamentals of psychology, while gaining exposure to a variety of specialisations.

Special note: This program meets undergraduate requirements for professional registration when combined with two years’ supervised experience as a psychologist.

Program features

⭐ UQ’s field of psychology is ranked 23rd in the world (QS World University Rankings by Subject, 2019).
⭐ Specialised Psychology International Student Support Program.

Career opportunities

When you graduate you will meet the academic requirements for registration as a provisional psychologist with the Psychology Board of Australia, as well as an associate membership of the Australian Psychological Society. This means you can train further to become eligible for general registration as a psychologist. With full registration, you can pursue careers in clinical psychology, clinical neuropsychology, organisational psychology, educational and developmental psychology, sports and exercise psychology and counselling. Broader career options include human resources, mental health services, youth and child support work, relationship counselling, residential care, family and social services, public and private sector management, marketing, advertising and market research, disability support services, aged care, juvenile justice and corrective services.

More information

Visit future-students.uq.edu.au or scan the QR code at right.

*Semester 2 intake available to international students eligible for advanced standing of 8 units (4 courses) or more.
BACHELOR OF SOCIAL WORK (HONOURS)

Program overview
Do you believe in the fundamental human values of dignity and worth, and want to make a positive difference in people’s lives? As a UQ Social Work (Honours) graduate, you will create a fairer, more inclusive society and champion the rights of the disadvantaged, while building relationships with individuals, groups and communities. Our program allows graduates to forge their own path in social work, with all students undertaking foundation and advanced practice in the areas of health and ageing, child, youth and families, and mental health. You will also engage in simulated learning activities that demonstrate the difficult scenarios you are likely to encounter in practice.

Program features
★ UQ’s broad field of social sciences and management is ranked 48th in the world (QS World University Rankings by Subject, 2019).
★ You will spend more than 1000 hours on supervised clinical placement across your program.
★ You may be able to complete a rural, interstate or international placement in your final year.

Career opportunities
Graduates work as social workers in a variety of government, community and private organisations. They work with individuals, groups and communities, such as abused children, people with disabilities, people with mental health issues, victims and perpetrators of domestic violence, people with eating issues, homeless people, survivors of sexual abuse, asylum seekers, elderly people, and people with drug and alcohol issues.

BACHELOR OF SPEECH PATHOLOGY (HONOURS)

Program overview
For a rich and rewarding career as a specialist in communication and swallowing difficulties, study UQ’s Bachelor of Speech Pathology (Honours). This program prepares you to help people of all ages with speech, language, fluency and voice disorders, people who have feeding or swallowing difficulties, and people who want to modify their accents or voices. You will learn about anatomy, linguistics, physiology, psychology, swallowing and communication disorders in the areas of voice, fluency, hearing, speech and language function.

Program features
★ #1 ranked Australian speech pathology program for the quality of the educational experience and quality of teaching (Australia Quality Indicators for Learning and Teaching Survey, 2016).
★ UQ has its very own Speech Pathology Clinic where you will undertake supervised clinical placements.
★ You will participate in clinical experiences from your first semester of study, including simulated learning experiences in our onsite hospital simulation ward, and clinical placements in metropolitan, regional, rural and international settings.

Career opportunities
Graduates work as speech pathologists in general, paediatric and geriatric hospitals; community health centres; rehabilitation units; aged care facilities; mental health services; preschools, schools, kindergartens and childcare settings; centres for people with specific disabilities such as cerebral palsy, intellectual impairment, autism or hearing impairment; centres of tertiary learning; research institutions; and private practice.

DOCTOR OF MEDICINE

Program overview
The Doctor of Medicine (MD) is a postgraduate-entry program that aims to be internationally renowned for our outstanding people, the diversity of our student intake and the excellence of our education. Graduates will be recognised for their social accountability, critical scientific thinking and drive to be global leaders in healthcare. Years 1 and 2 (Phase 1) of the program combine biomedical sciences, public health, medical ethics and clinical skills training in a case-based learning context and a series of patient-centred cases, each designed to help you learn principles of basic and clinical science of health and disease within a relevant clinical context. Early patient contact and opportunities for clinical reasoning and research are embedded to help you develop advanced critical thinking and clinical reasoning and skills that are required for safe, high quality clinical practice. Years 3 and 4 are organised around core medical disciplines and across clinical schools comprising hospitals, clinics and general practices in Queensland and the United States. Our students may also enhance their learning by conducting research through a higher degree or executive leadership training opportunities.

Program features
★ UQ is ranked equal 1st in Australia and 23rd in the world for medicine (QS World University Rankings, 2019).
★ UQ is ranked equal 1st in Australia and 23rd in the world for medicine (QS World University Rankings, 2019).
★ UQ’s broad field of life sciences and medicine is ranked 33rd in the world (QS World University Rankings, 2019).
★ Internationally recognised, enabling graduates to practice in many countries around the world.

Career opportunities
Graduates are ready to embark on a variety of career pathways. For example, you may work in patient care, public health, clinical academia and education, research or work for aid organisations, the defence forces or set up your own private practice.

Science and Mathematics

The world needs more scientists and mathematicians to solve problems in finance, the environment, science, food and quantum physics.

We are one of the largest science faculties in Australia with some of the world’s leading scientists, teachers, science programs and commercial outcomes. As a student, you will interact with research teams, use our world-class laboratories and contribute to our international research. You will network with industry partners and work for organisations and companies during professional placements or internships. This hands-on approach is why our graduates enjoy high employability rates and attractive starting salaries.

Careers

If you like these subjects:

- Agricultural science
- Biology
- Business studies
- Chemistry
- Earth and environmental science
- Economics
- Geography
- Health and physical education
- Information technology
- Marine science
- Mathematics
- Physics
- Psychology

Our undergraduate programs can lead to careers in:

- Actuarial science
- Animal science
- Archaeology
- Biochemistry
- Bioengineering
- Bioinformatics
- Biomedical science
- Biophysics
- Biotechnology
- Chemistry
- Computer Science
- Drug design and development
- Ecology
- Economics
- Education
- Environmental management
- Environmental science
- Epidemiology
- Food science and nutrition
- Food technology
- Genetics
- Geographical science
- Geological science
- Horticulture
- Immunology
- Marine biology
- Marine science
- Mathematics
- Medicine
- Meteorology
- Microbiology
- Nanotechnology
- Neuroscience
- Nutrition
- Occupational health and safety
- Pharmacology
- Physics
- Plant science
- Psychology
- Public Health
- Quantitative finance
- Spatial science
- Statistics
- Vaccine science
- Veterinary science
- Veterinary technology
- Wildlife science
- Zoology
## Bachelor of Advanced Science (Honours)

**Program overview**

Do you see yourself researching and pondering big, unanswered questions? Transform your interests into a rewarding career with the Bachelor of Advanced Science (Honours). Specifically tailored for science students with big ambitions and a desire to challenge and develop their interest in science, this program offers advanced-level learning to take your scientific knowledge and capabilities beyond the classroom and into practical research and development.

**Areas of study**

- Biology • Biomedical Science • Chemistry • Geographical Sciences • Geological Sciences • Mathematics • Physics

**Program features**

- UQ’s broad field of natural sciences is ranked 77th in the world (QS World University Rankings by Subject, 2019).
- You may have the opportunity to undertake a field trip to the Great Barrier Reef, Moreton Bay, Mt Isa or western Queensland.

**Career opportunities**

Graduates are employed in a wide range of areas, including research organisations and institutes; private and public sector organisations; not-for-profit and charity organisations; universities; hospitals and healthcare; environmental sustainability and planning; advisory positions for product development; defence; marine and wildlife conservation; operations research; and finance.

**More information**

Visit future-students.uq.edu.au or scan the QR code at right.

---

## Bachelor of Biotechnology (Honours)

**Program overview**

Biotechnology is a creative and entrepreneurial field, where scientists design innovative products and technologies, pioneering new frontiers in sectors including health, agriculture, science and engineering. The Bachelor of Biotechnology (Honours) is a collaborative, transdisciplinary program spanning several university faculties, institutes, government agencies and local industry. You’ll study molecular genetics, bioinformatics, microbiology, immunology, biochemistry, cells and genes, physics, chemistry, engineering, mathematics and other essential subjects to understand the biotechnology sector. You’ll develop skills in commercialisation of biotechnology products, and build expertise in a specialist area with the option to complete a dual area of study, with Innovation Management.

**Program features**

- UG is ranked 1st in Australia and 9th in the world for biotechnology (ShanghaiRanking’s Global Ranking of Academic Subjects, 2019).
- The program incorporates an optional 8–12 week summer internship with academic or industry partners.
- Choose from a wide variety of globally renowned research labs to complete honours research.

**Career opportunities**

Graduates with biotechnology qualifications are versatile and highly employable in agricultural biotechnology (plant and animal); medical technology (including biotherapeutics, drug design, diagnostics and devices); chemical technology, nanotechnology and industrial biotechnology. A biotechnology degree can lead to a wide range of possible roles in regulatory affairs, quality assurance, clinical trial operations management and consulting, with graduates working in industry, venture capital, pharmaceutical companies, research institutes, and government agencies.

**More information**

Visit future-students.uq.edu.au or scan the QR code at right.

---

## Bachelor of Mathematics

**Program overview**

Mathematics helps us to understand everything around us. Use this program to study advanced mathematics to gain quantitative and analytical skills to pursue a high-achieving career in mathematics, or one of the many fields where it plays an essential role, such as physics, engineering, economics, computer science or biology. After securing a foundation of calculus, linear algebra, discrete mathematics, mathematical analysis and modelling, you will specialise in an area of your choice.

**Areas of study**

- Applied Mathematics • Data Analytics and Operations Research • Mathematical Physics • Pure Mathematics • Statistics

**Program features**

- You may undertake a summer research project or internship through the School of Mathematics and Physics. Undergraduate research scholarships are available through UQ and some industry groups.
- UG’s field of statistics and operational research is ranked equal 43rd in the world (QS World University Rankings by Subject, 2019).

**Career opportunities**

Demand for quantitatively trained graduates is at an all-time high and they are sought by industry sectors including finance, economics, meteorology, information technology, data science and teaching, government agencies and research organisations.

**More information**

Visit future-students.uq.edu.au or scan the QR code at right.
BACHELOR OF SCIENCE

Program overview
No matter what your interests, this flexible program lets you mix and match from the many aspects of science while developing your critical thinking, technical and communication skills. Study general science and non-science courses before specialising in your second and third years. Take advantage of UQ’s excellent facilities, including more than 2200 science labs, including wet, dry and clinical labs, PC2 and PCS labs, and a range of animal diagnostic, operating and skills training labs. Depending on your specialisation you can also broaden your experience with fieldwork, internships or international study options.

Areas of study
- Gatton: Animal and Veterinary Bioscience

Coursework
The Bachelor of Science is the only undergraduate veterinary degree in Australia that is internationally accredited in the USA, Canada, and overseas. You can also consult for animal disease control, pharmaceutical or biotechnology companies; as a veterinarian for large or small animals in Australia; work in efficient animal husbandry and husbandry systems in Australia or other animal health enterprises in Australia or internationally. You will also receive comprehensive biomedical training that can lead to careers in research, industry and government.

Program features
- UQ’s field of veterinary science is ranked 33rd in the world (QS World University Rankings by Subject, 2019).
- Your science academics have won some of Australia’s highest scientific accolades, including three Eureka prizes, two Fenner Medals from the Australian Academy of Science and over 20 Fellowships of the Australian Academy of Science.
- The Bachelor of Science is popular both as a pathway to medicine, or as a way to improve your entry rank for programs including engineering, veterinary science, or pharmacy.

Career opportunities
Graduates work in research organisations, government agencies, hospitals and health, industry, environmental and wildlife conservation authorities, universities, and secondary schools (with further study).

More Information
Visit future-students.uq.edu.au or scan the QR codes below.

BACHELOR OF VETERINARY SCIENCE (HONS)

Program overview
UQ’s Bachelor of Veterinary Science (Honours) is a registrable degree program that allows you to practise as a veterinarian. Attracting some of the highest achieving students from Australia and internationally, this program produces veterinarians who are in high demand around the world. As a UQ vet student, you will learn how to diagnose, treat and prevent diseases and injuries in companion, domestic, exotic, wildlife and production animals. You will develop skills and knowledge in veterinary medicine, surgery, anaesthesia and radiology in commonly treated animal species as well as wildlife, avian and exotic pets. You will graduate with expert animal handling and clinical skills, with a final year spent entirely in hospitals and clinics. You will also receive comprehensive biomedical training that can lead to careers in research, industry and government.

Program features
- UQ’s field of veterinary science is ranked 33rd in the world (QS World University Rankings by Subject, 2019).
- Your Bachelor of Veterinary Science (Honours) is the only undergraduate veterinary degree in Australia that is internationally accredited in the USA, Canada, the UK, South Africa, New Zealand, Singapore, Hong Kong and Malaysia.
- During your degree you will gain work experience in UQ hospitals, farms, veterinary clinics and other animal health enterprises in Australia or internationally.

Career opportunities
Graduates are qualified to work as a general veterinary practitioner for large or small animals in Australia and overseas. You can also consult for animal disease control, pharmaceutical or biotechnology companies; work as an educator or researcher in universities or government departments; or work in efficient animal production.

“...”

Hayin Chung, South Korea
Bachelor of Veterinary Science (Hons)
Aboriginal and Torres Strait Islander Studies: Discover the cultures and lifestyles of Australian Aboriginal and Torres Strait Islander peoples past and present, and develop a deep understanding of Indigenous perspectives on social, economic and political issues.
- Bachelor of Arts

Accounting: If you aspire to be an accountant or want a career in the corporate, government or not-for-profit sectors, this is for you. You will enhance your financial and accounting acumen, develop your knowledge of accounting processes, income tax and corporation laws, and build skills in decision-making and control, auditing, analysis and reporting.
- Bachelor of Advanced Business (Honours)
- Bachelor of Commerce

Advertising: You will be introduced to the foundations of advertising and the media, and develop business expertise in creative and design and development of advertising campaigns.
- Bachelor of Business Management
- Bachelor of Communication

Agriculture: You will develop your knowledge of genetics, biology, chemistry, plant physiology, ecology and earth sciences to manage crop rotation, irrigation, drainage, plant breeding, and soil classification and fertility.
- Bachelor of Agricultural Science

Ancient History: Discover how ancient cultures still influence many of our ideas and institutions today. You will learn about the history, literature, religion, philosophy, social customs, art, and architecture of ancient peoples like the Egyptians, Persians, Greeks and Romans.
- Bachelor of Advanced Humanities (Honours)
- Bachelor of Arts

Ancient History / History: This has been designed to meet the teaching prerequisites for education students who want to teach history in high schools. Ancient History / History provides insight into ancient and modern worlds and you will learn how to interpret the past and better understand the forces that have shaped societies and cultures in the modern world.
- Bachelor of Arts

Animal and Veterinary Bioscience: Study chemistry, biochemistry, biostatistics and microbiology, examine animals from the molecular level through to whole animals and animal populations; and build your expertise in nutrition, reproduction, animal health and conservation.
- Bachelor of Science (Gatton)

Animal Science: Study animal nutrition, reproduction, health, genetics, behaviour, microbiology, anatomy, physiology, biochemistry, and pasturage science. Your practical classes will be held in some of the best animal teaching facilities in the Southern Hemisphere.
- Bachelor of Agricultural Science

Anthropology: The aim of anthropology is to address the way cultural traditions continue and change over time, and how we can understand and explain human beliefs and behaviour. You will study human beings and the societies and cultures they live in.
- Bachelor of Arts

Applied Mathematics: Derive and evaluate models in the physical, biological and engineering sciences and study advanced techniques for solving differential equations.
- Bachelor of Mathematics

Archaeological Science: Study geography, earth science, biology, and psychology with archaeology courses to develop new knowledge of human evolution and dispersal, the development of civilization and the history of human-environment relationships.
- Bachelor of Science

Archaeology: Develop your understanding of past human cultures and explore major milestones in the human past. You will also learn about archaeological methods and techniques, including field survey and excavation, materials analysis, and how to interpret archaeological collections and sites.
- Bachelor of Arts

Art History: Understand the evolving values of visual cultures by using a range of different approaches. You’ll examine objects, paintings, sculpture, film and other creative media across cultures and through time to better understand the evolution of artistic forms.
- Bachelor of Advanced Humanities (Honours)

Biochemistry and Molecular Biology: Study the chemical basis of life underpinning all disciplines of biology to investigate and treat disease, and solve environmental, agricultural and industrial issues using biochemistry and molecular biological approaches.
- Bachelor of Science

Bioinformatics: Understand how computers enhance our understanding of biology, change the way we manage our health and the environment, and how research in these emerging fields is conducted.
- Bachelor of Biotechnology (Honours)
- Bachelor of Science

Biology: Study life processes and the structure, function, growth and evolution of living organisms to better respond to emerging issues in agriculture, health and medicine, and learn how to manage sensitive environments.
- Bachelor of Advanced Science (Honours)

Biomedical Science: Study the human body at the molecular, cellular and whole body levels, to specialise in areas such as physiology, pharmacology, anatomy, developmental biology, human genetics, neuroscience, human immunology and infectious diseases.
- Bachelor of Advanced Science (Honours)
- Bachelor of Science

Bioprocess Technology: Develop a strong understanding of microbiology, biochemistry and chemistry and how process engineering and process technologies are applied to the creation of new products.
- Bachelor of Biotechnology (Honours)

Business Analytics: Business is becoming increasingly quantitative and numeric, in part driven by the explosion of data. Business analytics has emerged as data scientists apply mathematical and statistical methods to business problems. Business analytics meets the data-analytic and decision-making challenges confronting firms by providing an understanding of data science as it applies to business. This will familiarise you with the technology needed to be an effective data scientist working in business.
- Bachelor of Advanced Business (Honours)

Business and Industry: Cover issues such as managerial, industrial and labour economics, and the regulatory environment. You will develop critical thinking and understanding skills, applicable to businesses across all sectors and industries. Enhance your economic decision-making capabilities and learn how to apply them to improve an enterprise’s competitiveness and efficiency.
- Bachelor of Economics

Business Economics: Ideal for anyone who wants to work in corporate strategy, production management, financial planning, capital budgeting, economics or business analysis. This covers growth strategies, macroeconomic modelling, forecasting, scenario planning, demand and cost–benefit analysis, pricing policies, competitive strategies, capital budgeting and investment.
- Bachelor of Business Management

Business Information Systems: Discover the relationship between business and technology, and learn about the crucial role information systems play in well-functioning organisations. Develop skills in data analytics, analysis of organisational information requirements, business information security and process improvement to provide advice to your future employer about the use of technology and systems to improve business operations.
- Bachelor of Advanced Business (Honours)

Bachelor of Business Management
- Bachelor of Commerce

Chemical and Biological Engineering: Combine chemical engineering with engineering biological systems at a molecular, cellular and tissue level. Learn to help organisations and industries transition from chemical to biological processes.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Chemical Engineering: Study the chemical basis of life underpinning all disciplines of biology to investigate and treat disease, and solve environmental, agricultural and industrial issues using biochemistry and molecular biological approaches.
- Bachelor of Science

Chemical Biotechnology: Prepare yourself to be an accredited chemical engineer with technical skills in waste management, resource recovery, water treatment and sustainable-energy systems. You’ll have specialist skills in modelling and in analytical measurement in laboratory and field industrial settings, including basic sampling design and data analysis.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Chemical and Materials Engineering: Combine chemical engineering with additional specialist study in materials engineering, which involves selecting, processing and developing materials to design and make products. It prepares you to work across a broad range of industries, from phone screens to aircraft wings.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Chemical and Metallurgical Engineering: Combine a broad education in chemical engineering with specialist skills in metallurgy. Metallurgical engineers play a key role in ensuring a sustainable society by developing, designing and delivering sustainable processes that transform raw materials into useful, high-value mineral and metal products.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Chemical Biotechnology: Study microbiology, biochemistry and pharmacology to understand organic and inorganic chemistry, and apply this knowledge in the development of new or improved products. This is accredited by the Royal Australian Chemical Institute.
- Bachelor of Biotechnology (Honours)

Chemical Engineering: Study fields such as molecular biology, nanomaterials, chemistry, physics, mathematics and information technology, preparing you to design both products and processes for things like petrol, plastics and pharmaceuticals.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Chemistry: Study chemistry, biochemistry, biostatistics and microbiology, examine animals from the molecular level through to whole animals and animal populations; and build your expertise in nutrition, reproduction, animal health and conservation.
Chemistry: Explore the structures and properties of molecules as well as the mechanisms of chemical reactions and how chemical principles underpin disciplines such as biochemistry, engineering, food science, materials science, nanotechnology and medicine.
- Bachelor of Advanced Science (Honours)
- Bachelor of Science

Chinese: Explore one of the world’s oldest languages from a country with close economic and cultural ties to Australia. Learning Chinese will help you understand China’s diverse culture and way of life. Choose from separate areas of study for native speakers of Mandarin and other Chinese dialects, with specialist courses in literature, culture, translation, business and language teaching.
- Bachelor of Arts
- Bachelor of International Studies

Chinese Translation and Interpreting: Learn the key issues in English to Chinese translation; Chinese to English translation; English to Mandarin interpreting; and Mandarin to English interpreting, based on standards set by the National Accreditation Authority for Translators and Interpreters. You will understand how culture influences written and spoken texts, and how to take this into consideration when interpreting.
- Bachelor of Arts
- Bachelor of International Studies

Civil Engineering: Civil engineers design and build buildings, bridges, roads, harbours, dams, airports and more, creating sustainable facilities that meet the needs of society. Study areas like geomechanics; hydrology; construction; and structural, hydraulic, transportation and coastal engineering.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Civil and Geotechnical Engineering: Combine studies in civil engineering with specialist study and project work in geotechnical engineering, supported by a range of industry partners. You’ll learn about soil mechanics, rock mechanics and engineering geology, graduating with the expertise to approach complex, multidisciplinary problems involving earth materials.
- Bachelor of Engineering (Honours)

Classical Languages: Classical languages are not only important for studying the Greco-Roman world, but also for better understanding other European languages, ideas, cultures and societies. This is a good fit for anyone who wants to boost their studies in law, history, ancient history, science, literature, art history or languages.
- Bachelor of Arts

Clinical and Experimental Therapeutics: Take advantage of an optional pathway for pursuing a research-focused career in hospital pharmacy, the pharmacy industry or academia. You will undertake a research project with a supervisor. You will develop high-level skills in critical and analytical thinking, research design, writing and project management. Entry is competitive and is based on your grade point average.
- Bachelor of Pharmacy (Honours)

Clinical Health: This is an excellent choice if you are keen to pursue a career in areas like medicine or allied health. This will equip you with all the prerequisites for a clinical career, along with an in-depth understanding of health systems and services, health policy and working effectively with communities.
- Bachelor of Health Sciences

Computer Science: Gain computational, scientific and mathematical skills that can be applied to many scientific disciplines through your study of software, information systems and management, web design, artificial intelligence and human-computer interaction.
- Bachelor of Science

Criminology: Criminology draws on sociology, psychology, anthropology and the law to examine the nature of crime and the causes of criminal behaviour. You will be trained in social research methods and learn how to study crime and its regulation in contemporary society.
- Bachelor of Arts

Cyber Security: As computers become increasingly interconnected and support more services than ever before, securing these systems becomes more challenging yet more crucial than ever. You will learn the fundamental processes and practices to protect computing systems – smartphones, engine control units for cars, computers, or servers – from attack, damage or unauthorised access. You will study secure programming techniques and ethical hacking to safeguard individuals, businesses and governments against cyber crime.
- Bachelor of Computer Science

Data Analytics and Operations Research: Learn to analyse large, complex data sets to make effective decisions using optimisation techniques and a range of mathematical, statistical and computational approaches to extract information.
- Bachelor of Mathematics

Data Science: Our world is recording more data than we have the ability to process, which presents enormous challenges associated with storage, management and analysis of data. Learn comprehensive and fundamental techniques for end-to-end processing that transforms data into information, and become one of the new breed of data science professionals.
- Bachelor of Computer Science

Development: Gain a social science perspective on international and community development problems. You will focus on strategies to alleviate poverty and inequality and develop sustainable societies, communities and environments.
- Bachelor of Social Science

Digital Media: This is distinctive for its emphasis on a combination of critical perspectives, research and analytic frameworks, and content and platform management. You will be prepared to work in industry roles that require a combination of digital analytics, social engagement and content production skills. This area of study approaches media as technologies for orchestrating social, cultural and political life.
- Bachelor of Communication

Drama: Examine, experience and create theatre in a program that focuses on the full spectrum of theatre practice, from Antiquity to the present day, across cultures and most stops in between. By studying theatre history, theory and practice, you will be challenged to think about what constitutes performance on the stage, on the page and in everyday life.
- Bachelor of Advanced Humanities (Honours)
- Bachelor of Arts

Drug Design and Development: Study pharmacology, chemistry and biochemistry to identify, select and develop chemical compounds into drug products in preparation for a career in the pharmaceutical industry. This is accredited by the Royal Australian Chemical Institute.
- Bachelor of Biotechnology (Honours)

Earth Resources: Become an expert at assessing geological phenomena and managing activities related to the extraction and use of the Earth’s resources.
- Bachelor of Environmental Science (Honours)
Elective courses include advanced microeconomics, policies. Core courses emphasise the theoretical on policy development as well as to evaluate existing the tools, concepts and techniques to provide advice governments develop public policy and how development and sustainability shape the availability up the costs and benefits of their decisions. You making. As a student of Economics you'll understand.

**Areas of study**

**Ecology:** Study how organisms interact with each other and their environments, including behavioural ecology, physiological ecology, population and community ecology, conservation ecology, landscape ecology, and evolutionary ecology and mathematics. Field courses are key feature.
- Bachelor of Science

**Ecology and Conservation:** Focus on the interrelationships between plants, animals and their environments to learn how their populations may be modified by environmental changes.
- Bachelor of Environmental Science (Honours)

**Economics:** Economics is the science of decision-making. As a student of Economics you'll understand how individuals, communities, companies and governments make choices every day, weighing up the costs and benefits of their decisions. You will also understand how economics, globalisation, development and sustainability shape the availability of resources in today's societies.
- Bachelor of Economics
- Bachelor of International Studies
- Bachelor of Journalism

**Bachelor of Advanced Finance and Economics (Honours)**
- Bachelor of Business Management
- Bachelor of Politics, Philosophy and Economics (Honours)

**Economics and Public Policy:** In this multidisciplinary area of study, you will learn how governments develop public policy and how government intervention can impact economies in an increasingly globalised world. You will be taught the tools, concepts and techniques to provide advice on policy development as well as to evaluate existing policies. Courses emphasise the theoretical framework and rationale for government intervention. Elective courses include advanced microeconomics, international economics and political sciences.
- Bachelor of Economics

**Electrical and Biomedical Engineering:** Prepare to bridge the gap between technology, medicine and biology to improve healthcare. You'll develop broad knowledge of engineering, maths, biology and physics, followed by advanced coursework and laboratory training in engineering analysis, design techniques, and the biology and physiology of cells and organisms.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

**Electrical Engineering:** Prepare yourself for a challenging and rewarding career managing electronics and electrical infrastructure, where you will design state-of-the-art products for a number of different industries. With a strong emphasis on practical, hands-on experience, you will also develop strong research and problem-solving skills in an individual research project.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

**Electrical and Computer Engineering:** Learn about electrical engineering, computer engineering and information technology while at the same time developing the advanced technical skills of a professional engineer.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

**English:** The courses in this area of study meet the teaching prerequisites for education students who want to teach English or English extension in high schools. It combines courses from English literature, media studies, and film and television studies to give you a deeper insight into the English-speaking world and English-language culture.
- Bachelor of Arts

**English as an International Language:** Deepen your understanding of the ways in which English is used as a global means of communication. Through the study of language use and language change when people of different backgrounds communicate, you will be prepared to engage with living spaces and workplace characterised by super-diversity.
- Bachelor of Arts

**English Literature:** Develop your enjoyment of reading and refine your analytical skills when you look at some of the world's major English-language novels and works. You'll study English literature from its beginnings to the present day and be introduced to a vast intellectual and cultural history.
- Bachelor of Advanced Humanities (Honours)
- Bachelor of Arts

**Entreprise Information Systems:** Enterprise information systems play a critical role in organisations. Learn not only how to create large, effective and efficient information systems, but also how to incorporate business process and management knowledge into the system's development to maximise the system's applicability and performance.
- Bachelor of Information Technology

**Entrepreneurship and Innovation:** Catering to those seeking knowledge and practical experience in working in a business from the ground-up, you will be introduced to foundational principles in entrepreneurship and innovation. You will then apply this knowledge through ‘in practice’ courses, including commercial, social and corporate, which require you to implement the entrepreneurial process and begin to create your own venture. You will then study issues relating to scaling and growing a venture.
- Bachelor of Advanced Business (Honours)

**Environment and Society:** Focus on the intersections between human society and the environment, including the ways environmental problems such as climate change, land clearing and waste are tied to social, political, economic and cultural processes. Understanding these connections is vital to addressing these environmental challenges.
- Bachelor of Social Science

**Environmental Toxicology:** Develop solutions to the harmful effects of chemical, biological and physical toxins affecting ecosystems and human populations.
- Bachelor of Environmental Science (Honours)

**Event Management:** Learn about the nature and role of events in society, and develop skills in all aspects of event management. Importantly, you'll also learn about the long history and development of festivals, so you can better understand how events have evolved and why they matter.
- Bachelor of Communication
- Bachelor of International Hotel and Tourism Management

**Film and Television Studies:** Film and television were the most important creative forms of the 20th century and drastically reshaped society and our human experience. You will learn how to understand and analyse the development of the moving image—from its origins in the 19th century to today—and appreciate how film and TV are both major commercial industries and artistic forms.
- Bachelor of Arts
- Bachelor of Journalism

**Finance:** Undertake courses in financial, portfolio, derivatives and risk management, and banking. These courses will build your financial acumen and move you to the front of the line for career opportunities in banking, finance, investment, portfolio management, corporate finance, risk assessment and business analysis.
- Bachelor of Advanced Business (Honours)
- Bachelor of Advanced Finance and Economics (Honours)
- Bachelor of Commerce

**Food Science and Nutrition:** Study all aspects of food systems and processes, including the physical nature and chemical composition of food and how food behaves under different processing and storage conditions.
- Bachelor of Science

**Food Science and Technology:** Learn to develop, produce and evaluate new foods; examine the causes and prevention of foodborne illnesses; discover the causes and prevention of quality degradation; study the physics and physical chemistry of food; and apply this knowledge to industry-based problems.
- Bachelor of Science

**French:** Study one of the world's major diplomatic languages and learn about the diverse society, history and culture of France. We offer courses for complete beginners through to those with extensive knowledge of French.
- Bachelor of Arts
- Bachelor of International Studies

**Gender Studies:** Focusing on the social and cultural constructions within different societies, you will learn about gender issues around race, ethnicity, class and sexuality and develop tools for analysing and discussing the representation of masculinity and femininity.
- Bachelor of Arts

**Genetics:** Study inheritance through the structure and function of genes, the genetic basis of traits, and the interaction between genes and the environment at the population and species level.
- Bachelor of Science

**Geographical Sciences:** Study environmental systems, earth system science (physical geography), human geography and geographic information science to understand spatial patterns and interactions of physical and human phenomena at local, national and global scales and how they change over time.
- Bachelor of Advanced Science (Honours)
- Bachelor of Science

**Geography:** Develop your understanding of the relationship between natural systems (climate, landscape, animal and plant) and social systems (human populations, economic activity, society and culture) and the impact of human activities on environments both now and in the future.
- Bachelor of Arts

**Geological Sciences:** Examine the interactive system of the solid Earth, atmosphere, hydrosphere and biosphere over very long and very short timescales through hands-on mineral and rock analysis and practical field mapping, and advanced geophysics, geochemistry and subsurface modelling courses.
- Bachelor of Advanced Science (Honours)
- Bachelor of Science

**German:** German-speaking countries lie at the heart of Europe, and Germany has been a major economic and political powerhouse in modern history. This area of study offers study in German language, history and culture, including an overview of significant events, trends, places and people in contemporary German-speaking countries.
- Bachelor of Arts
- Bachelor of International Studies

**Health and Society:** Gain an understanding of the social and ethical factors influencing health and illness. Focus is placed on the ways in which these systems work and gaining the skills relevant to becoming a social science worker in health care.
- Bachelor of Social Science

**Health Communication:** Learn about the importance of digital technologies and applications in the areas of clinical practice, education and administration. You will develop an understanding of the interrelationships between physical activity and population health, and the social and economic importance of physical activity for society.
- Bachelor of Communication
History: Develop important skills including the ability to conduct archival research, analyse documents and interpret evidence. Courses cover topics including turning points in world history, Chinese history from 1500 until the present, great empires, genocide, global history, the foundations of European, Islamic civilisation, modern Middle East, modern South-East Asia and the United States since 1945.
- Bachelor of Advanced Humanities (Honours)
- Bachelor of Arts

Horticulture: Study intensive and sustainable crop production and the use of plants for recreational and therapeutic purposes, or to enhance and beautify the urban landscape.
- Bachelor of Agricultural Science

Hospitality Management: As the hospitality industry shifts from a skills-based to a knowledge-based industry, higher learning has become critical for career success. This area of study focuses on the global hospitality industry, which includes hotel, restaurant and resort management. You will develop an understanding of and skills in the essence of 'hospitality'; the international hotel industry; and how to develop an understanding of and skills in the essence of 'hospitality'; the international hotel industry; and how to develop
- Bachelor of Advanced Hospitality
- Bachelor of Business Management

Indonesian: Bahasa Indonesia is the official language of Indonesia, the fourth most populous and largest Muslim majority country in the world. Indonesia is a key partner for Australia and this area of study covers Indonesian history, politics, culture and society, with language courses available for all skill levels.
- Bachelor of Arts
- Bachelor of International Studies

Innovation Management: Study Innovation Management. You’ll learn about Australian and international industrial relations, organisational change, interpersonal communication, conflict resolution and negotiating employment agreements.
- Bachelor of Advanced Business (Honours)
- Bachelor of Business Management

Italian: Learn about a culture that has strongly influenced the art, music, architecture and literature of Europe and Australia. This area of study includes language courses from beginner to advanced levels as well as content-based courses (mostly delivered in Italian) exploring contemporary society, cinema, media, music, literature, politics and food culture. Italian is available in a cross-institutional arrangement at Griffith University.
- Bachelor of Arts
- Bachelor of International Studies

Japanese: Japanese is a key world language for business, residence and government activity. Study speaking and writing courses from beginner to advanced levels, and learn about Japanese culture including the different levels of politeness and contextually appropriate expressions that are used in Japanese language and society.
- Bachelor of Arts
- Bachelor of International Studies

Journalism and Mass Communications: Learn about the key ideas in global journalism, mass communications and digital media - knowledge that is important for careers in media and related professions like PR, marketing and communications, or any field that needs people who understand the changing media landscape.
- Bachelor of Arts

Korean: Gain insight into Korean popular culture, language, and translating and interpreting. Study speaking and writing courses from beginner to advanced levels, as well as Korean culture, including films, TV dramas, internet culture and pop music. Courses also examine honorifics and variations in South and North Korean expressions.
- Bachelor of Arts
- Bachelor of International Studies

Legal Education Studies: Prepares students to teach Legal Studies within secondary schools. This senior syllabus area examines the interface of law and society, providing an understanding of the legal system and its protection of individual rights in line with obligations and responsibilities. This area of study includes a variety of courses dealing with legal foundations - Criminal, Civil and Business Law, International Law and Human Rights Law. Elective courses include Offender Rehabilitations and Crime Prevention.
- Bachelor of Arts

Linguistics: Explores the structure of language, its uses and its applications in society by connecting theoretical, descriptive and applied studies that address problems and issues in human communication.
- Bachelor of Arts

Machine Learning: Machine learning is the study of algorithms that automatically improve their performance with experience. These algorithms allow computers to automatically identify and harness useful data to help decision-making. Machine learning algorithms are designed to process large data sets without being explicitly programmed in where to look, and predict outcomes of certain policies to help authorities design effective policies. This is a growing area as society looks for automated and continuous improvements in ways to enhance businesses and lives through the use of computing systems and data.
- Bachelor of Computer Science

Marine Biology: Combine courses in marine ecology, zoology, botany and genetics with fieldwork at UQ's research stations at Moreton Bay and Heron Island, and have access to one of the largest marine groups in Australia to comprehensively study life in oceans and other saltwater environments.
- Bachelor of Science

Marine Science: Expand your knowledge of marine molecular biology, biotechnology, fisheries, aquaculture, marine geology and marine conservation through coursework, field trips to UQ’s research stations at Moreton Bay and Heron Island, and interaction with one of the largest groups of marine scientists in Australia.
- Bachelor of Science

Mathematical Physics: Explore the mathematical foundations of modern physical theories, and gain a mathematical understanding of contemporary science, including statistical mechanics, relativity and the quantum theory of many-body systems.
- Bachelor of Mathematics

Mathematics: Mathematics is relevant across a range of disciplines where you can combine your knowledge with modelling and computational skills and use the latest technology to solve problems. In recent years, there has been an upsurge in the number of mathematicians employed in banking, finance, insurance and risk management.
- Bachelor of Advanced Humanities (Honours)
- Bachelor of Arts

Mathematics (within the Science faculty): Combine fundamental and applied mathematical knowledge with modelling and computational skills and use the latest technology to solve problems in the physical and biological sciences, engineering, information technology, economics and business.
- Bachelor of Advanced Science (Honours)
- Bachelor of Mathematics
- Bachelor of Science

Mechanical and Aerospace Engineering: Combine courses in mechanical engineering with specialist study and project work in aerospace and aviation. You will study aerospace propulsion, design and manufacturing, before specialising in either aeronautical or space engineering streams like flight mechanics, aerospace composites, space engineering, hypersonic aerodynamics and computational fluid dynamics.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Mechanical and Materials Engineering: Combine studies in mechanical engineering with additional specialist study in materials engineering. You’ll learn about the selection, processing and development of materials to design and make products with specific functional and aesthetic qualities.
- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering
Areas of study

Mechanical Engineering: Study foundational concepts in mechanics, modelling, computing, management and engineering science, before specialising in fields of your choosing, such as fluid mechanics, thermodynamics and heat transfer, solid mechanics, manufacturing, energy systems, and dynamics and control.

- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Mechatronic Engineering: Understand the basic principles of electrical, mechanical and computer engineering by studying engineering analysis and design, engineering mechanics, dynamics and automatic control, signals and communication, and electrical hardware and computer software. You’ll learn how to integrate mechatronic engineering with electronics to design and construct intelligent machines, artificial intelligence systems, robotics and avionics.

- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Media and Digital Cultures: Learn about the role of media and entertainment industries. Understand the emergence of digital technologies, as well as the impact of cultural, economic, social and political factors affecting this area of study. Media and entertainment industries are driven by the need for content creation, distribution, and consumption.

- Bachelor of Arts

Microbial Biotechnology: Access UQ’s knowledge and expertise in the top Australian life sciences research organisation in genetics, biochemistry, molecular biology, genomics, bioinformatics and molecular microbiology to develop and apply new solutions for diverse biindustries.

- Bachelor of Biotechnology (Honours)

Microbiology: Study immune recognition and vaccine design, microbial biotechnology and parasitology to understand infectious diseases and methods of control and targeted environmental, agricultural and industrial applications.

- Bachelor of Science

Mining Engineering: Study all phases of mining operations, including exploration, discovery, feasibility, development, production, processing, marketing, and site rehabilitation, gaining an understanding of advanced mathematics, earth and environmental sciences. You can study mineral processing engineering and mining economics, and do practical activities in the unique University Experimental Mine facility near the St Lucia campus.

- Bachelor of Engineering (Honours)

Molecular Biotechnology: Learn to create new and innovative products by transferring genetic information from one organism to another. You will study the interactions of government, economic and ecological value of natural resources, and the political, environmental, commercial and social factors affecting food supply, choices and health. Nutrition also includes supporting studies in health systems, public health and Indigenous health. This area of study will enable graduates to work as community nutritionists, which requires an understanding of nutrition sciences, as well as the determinants of poor nutrition, to work with populations and communities to achieve healthy eating and reduce the burden of diet-related disease.

- Bachelor of Health Sciences

Peace and Conflict Studies: Examine issues including international conflict, peacekeeping, Indigenous politics, ethics and justice, and development politics, providing you with an understanding of the causes of political conflict and the possibilities of finding peaceful solutions to them. Develop your capacity to analyse social and political situations, and to engage in, and evaluate, alternative courses of action.

- Bachelor of Arts

- Bachelor of International Studies

Philosophy: Philosophy explores fundamental aspects of reality, value, morality and political ideas. It spans topics such as philosophy of science, history, art and the humanities. Philosophers are less concerned with ‘right’ or ‘wrong’ answers – instead, they think deeply about a range of topics and develop well-constructed, informed arguments to address particular questions. Throughout studying Philosophy, you learn how to think.

- Bachelor of Advanced Humanities (Honours)
- Bachelor of Arts
- Bachelor of Politics, Philosophy and Economics (Honours)

Physics: Study the most basic natural laws of how and why things work, from sub-nuclear to cosmic scales and explore and identify basic principles governing the structure and behaviour of matter, the generation and transfer of energy, and the interaction of matter and energy.

- Bachelor of Advanced Science (Honours)
- Bachelor of Science

Plant Biotechnology: Study core knowledge in plant biology, genetics, biochemistry, chemistry, cells and genes, and plant bio-industries. This includes studies in plant science, plant molecular biology and biotechnology, genomics and bioinformatics and relevant applied technologies, such as the development of plants and crops for more nutritious foods, renewable biofuels, or to produce sustainable industrial products and inexpensive drugs.

- Bachelor of Biotechnology (Honours)

Plant Science: Learn the essential components of crop production systems, including genetics, breeding, plant pathology, plant physiology and plant-soil interactions. Study ecology, evolution and conservation, and plant biotechnology to examine the relationship between organisms and their environments and how genetic manipulation of plants can increase their value, produce biofuels, and increase nutrition and yield.

- Bachelor of Science

Political Science: Study political structures, processes and policies in Australia and other societies, and examine contemporary ideas, ideologies and theories that shape political decision-making and the various approaches to cooperation and conflict resolution within the international system.

- Bachelor of Arts
- Bachelor of Journalism

Politics: You will study the interactions of government, state and market in great detail through case studies of particular policies and institutions and, at a more general level through theories of governance and politics.

- Bachelor of Politics, Philosophy and Economics

Popular Music and Technology: You will develop an understanding of your own response to music and the society you live in. The courses will help you express yourself in writing and music production and equip you for changing music-making environments by developing practical music-making skills and technical knowledge with mobile devices, digital audio workstations and recording studio technologies.

- Bachelor of Arts

Professional Pathways: Humanity and Society: You will be prepared for the many potential professional pathways that await you upon graduation, as well as a successful career uniquely suited to your personal perspective.

- Bachelor of Arts

Professional Writing and Communication: You will be introduced to professional writing and digital communication skills including multimedia storytelling and production, media design, basic public relations writing, and editing and publishing practices. You will develop an introductory set of skills that you can use in a contemporary workplace or in a career where clear writing and creative communication in print or digital modes are required.

- Bachelor of Arts

Programming Languages: Programming languages are the building blocks of software in computer science. Covering the different paradigms of programming, this area of study focuses on the design of computer languages that can be easily used to create programs. You will study the craft and science of programming that will enable the construction of effective programming languages as well as correct and reliable software.

- Bachelor of Computer Science

Psychology: Study how people behave, think and feel by examining brain function, memory, conscious experience, lifespan development, social behaviour and the full spectrum of normal and pathological behaviour. Learn how to apply the scientific perspective to psychology in the laboratory and in the real world.

- Bachelor of Arts
- Bachelor of Science
Public Health: Public Health focuses on preventing disease and promoting health and wellbeing. Learn how health services and programs are designed and delivered to promote positive community health and prevent disease and disability. You will learn how to work with communities to promote health and understand the role of health services, health policy and healthcare decision-making, while examining the role of human behaviour in the incidence, prevention and progression of illness.

- Bachelor of Health Sciences
- Bachelor of Science

Public Policy: Studies in Public Policy are designed to help you understand issues of and controversies within modern governance in general, and with the institutions and processes of public policy in particular. The main focus is on the political, institutional, economic, social and ideological forces that shape Australian governance and public policy.

- Bachelor of Arts

Public Relations: You will learn the theories of public relations and communication, understand the importance of the management of stakeholder relationships and reputation, acquire skills in public opinion analysis, learn to identify and manage organisational issues, develop a crisis management plan, and acquire the skills to research, plan and implement a strategic public relations campaign.

- Bachelor of Communication
- Bachelor of Journalism

Pure Mathematics: Develop foundational and theoretical mathematical knowledge and high-level critical, analytical and abstract thinking skills to understand and solve advanced problems in applied mathematics, mathematical physics and statistics.

- Bachelor of Mathematics

Quantitative Methods: You will learn how to provide rigorous, evidence-based economic analysis. This area of study has a strong mathematical focus, covering measurement, analysis, projection and modelling for a diverse set of economic factors and scenarios. This area of economics is developing quickly and is sought after by employers as it can provide real, data-informed answers to difficult questions, allowing for better decision-making by governments and businesses.

- Bachelor of Economics

Russian: With almost 200 million native speakers in Europe and Asia, Russian is truly an international language and a gateway to one of the world’s great cultures. The Russian area of study combines a comprehensive language acquisition program with studies in many other aspects of the Russian world.

- Bachelor of Arts
- Bachelor of International Studies

Scientific Computing: You will gain understanding of algorithms for the numerical approximations of mathematical analysis. All scientific endeavours, from biology to chemistry to pharmaceutical research, rely on such analysis. Careful approximations are necessary to enable computers to analyse complex mathematical functions used in various scientific endeavours, including by various hospitals and universities, medical research facilities, and big pharmaceutical and petrochemical companies across the public and private sectors.

- Bachelor of Computer Science

Social and Public Policy: You will develop the technical skills required to analyse social and economic problems and develop, advocate, implement and evaluate policy solutions. You will focus on the connection between the social sciences to the world of government and practical politics.

- Bachelor of Social Science

Sociology: Sociologists analyse social change and investigate patterns of social behaviour. This area of study provides you with the critical and analytical skills to build evidence-based findings on the pressing issues of our time.

- Bachelor of Arts

Software Design: Learn to develop applications for mobile devices and gaming, and a number of tools and systems for use by individuals, governments and organisations. You will understand how to design, implement, maintain, evolve and test applications, tools and systems for small projects or large and complex ICT landscapes that require complex functionality and interconnections to other systems.

- Bachelor of Information Technology

Software Engineering: Software engineers develop, operate, maintain and retire software, using principles of computer science, engineering, design, management, psychology, sociology and other disciplines to design and manage large software systems. Teams and individual projects are a focus of this area of study, which is an approach valued by our industry partners – and your future employers.

- Bachelor of Engineering (Honours)
- Bachelor of Engineering (Honours) / Master of Engineering

Software Information Systems: Develop the skills to design and build the information systems that are used everywhere in modern life: in retail, banking, healthcare, transport, education, entertainment, science and engineering. Courses span the lifecycle of information systems, including data acquisition, modelling, storage, retrieval, transformation, presentation and analytics. You will emerge as a software professional who can produce reliable, secure, scalable and user-friendly systems.

- Bachelor of Information Technology

Spanish: This includes language courses from beginner to intermediate levels, as well as courses about Latin American thinking, European film and the broader Spanish-speaking world. Being fluent in a world language like Spanish will give you highly employable communication skills.

- Bachelor of Arts
- Bachelor of International Studies

Sports Studies: Understand sport and leisure from sociological, historical, economic and psychological perspectives. You will undertake courses in the social science and humanities areas of the study of sport as well as courses relating to the sociology of sport and the human body in society.

- Bachelor of Arts
- Bachelor of Journalism

Statistics: Gain an in-depth theoretical and applied knowledge of modern statistics and popular statistical and data analysis packages, and learn how to design, collect, analyse and interpret data to extract patterns and other useful relationships to aid in decision-making across many industry sectors.

- Bachelor of Mathematics
- Bachelor of Science

Studies in Australian Culture: Learn more about Australia’s distinctive Indigenous, colonial and contemporary culture and history, and gain an understanding of the key social and political issues influencing Australian cultural expressions and cultural institutions.

- Bachelor of Arts

Studies in Religion: Religion and spiritual ideas have shaped and continue to shape many societies across the globe. This area of study will expand your religious and spiritual knowledge; and develop critical methods of evaluating Western and Eastern traditions.

- Bachelor of Advanced Humanities (Honours)
- Bachelor of Arts

Tourism Management: You will develop managerial expertise in issues relating to sustainability; ecotourism; policy and planning; visitor behaviour; and the environmental, social and economic impacts of tourism. You will be at the forefront of current and future trends and issues for the industry. Case studies and site visits provide practical and relevant skills and knowledge to ensure your success on graduation.

- Bachelor of International Hotel and Tourism Management

User Experience Design: From mission-critical commercial software, to personal fitness apps and casual games on a smartphone, a user experience (UX) designer is an expert in designing software to function perfectly for its intended use. Prepare for a career in the multi-skilled and interdisciplinary field of human-centred design, studying courses in design and creativity, programming and prototyping for different media. UX designers are increasingly sought after across all sectors of information and communication technology (ICT).

- Bachelor of Information Technology

Western Civilisation: This new interdisciplinary area of study allows students to study some of the key works of literature, art, music, politics, law and religion that have contributed to evolving conceptions of the West. Encounter influential ideas that have inspired revolutions and transformed the world by studying Western Civilisation through either our Bachelor of Advanced Humanities (Honours) or the new Bachelor of Humanities / Bachelor of Laws (Honours) dual program.

- Bachelor of Advanced Humanities (Honours)

Writing: Develop a substantial understanding of how language works at the word, sentence, paragraph and document level. Learn strategies for designing, structuring and writing, and revising on paper and online. Whether you are aiming to be a corporate writer, this will train you to produce compelling, career-enhancing writing in a variety of genres.

- Bachelor of Arts
- Bachelor of Communication
- Bachelor of Journalism

Zoology: Study wildlife and conservation biology, entomology, environmental physiology, marine biology, fisheries biology and aquaculture; terrestrial ecology; molecular ecology and mathematical applications in biology and access field courses in arid zone ecology, rainfall ecology, marine ecology, and coral reef biology.

- Bachelor of Science

FROM MISSION-CRITICAL COMMERCIAL SOFTWARE, TO PERSONAL FITNESS APPS AND CASUAL GAMES ON A SMARTPHONE, A USER EXPERIENCE (UX) DESIGNER IS AN EXPERT IN DESIGNING SOFTWARE TO FUNCTION PERFECTLY FOR ITS INTENDED USE. PREPARE FOR A CAREER IN THE MULTI-SKILLED AND INTERDISCIPLINARY FIELD OF HUMAN-CENTRED DESIGN, STUDYING COURSES IN DESIGN AND CREATIVITY, PROGRAMMING AND PROTOTYPING FOR DIFFERENT MEDIA. UX DESIGNERS ARE INCREASINGLY SOUGHT AFTER ACROSS ALL SECTORS OF INFORMATION AND COMMUNICATION TECHNOLOGY (ICT).
Admission requirements

To be admitted into a UQ undergraduate program you must have:

1. completed **Queensland Year 12** (or equivalent) (see below),
2. attained the required minimum **entry score** (see fold-out),
3. passed **prerequisite subjects** (if applicable) (see fold-out),
4. attained the required level of **English** (see fold-out and page 75), AND
5. completed **program-specific** application requirements (if applicable) (see page 75).

The admission requirements in this guide are for 2021 only. Admission requirements are reviewed annually.

---

### Notes to this table

- More information: future-students.uq.edu.au
- All qualifications are comparable to Queensland Year 12 unless specified.
- Minimum entry scores are for UQ Foundation Year.
- If it is a quota program, your entry requirements may apply. If you cannot find your qualification or a relevant minimum entry score, please contact UQ.
To be admitted into most UQ undergraduate programs, you must have passed specific subjects. These are stated within each program entry under "academic prerequisite subjects" on pages 32–67. Some international secondary school subjects equivalent to those studied in Queensland Year 12 are shown below. If your school's subject equivalents are not listed, please contact UQ International Admissions (email: applicationstatus@uq.edu.au). Note: if you have met UQ's English requirements, these are stated in each program entry under "English" in pages 32–67.

Results are valid for five years from the date of the qualification being granted or the commencement date at UQ, except for locations marked with *.

Comprehensive information about UQ’s English language proficiency requirements is available online in the UQ Policy and Procedures Library (pppl.uq.edu.au/content/54034-en/english-language-proficiency-admission). Note: it is assumed that the applicant will have completed the entire school qualification, where applicable. *Provisionally acceptable if approved before completion of UQ's academic prerequisite subjects.

Of completing secondary school from a designated location: if you have completed secondary school from one of these locations, where the medium of instruction was English, you may meet UQ’s English language proficiency requirements.

Designated locations:

- American Samoa, Australia, Bahamas, Barbados, Botswana, Bermuda, Canada, Costa Rica, Falkland Islands, Fiji, Gibraltar, Ghana, Grenada, Guyana, Ireland, Jamaica, Kenya, Lesotho, Liberia, Macao, Malaysia, Malawi, Mauritius, Mexico, Mighty (Ireland), Mongolia, Morocco, Namibia, Nepal, New Zealand, Nigeria, Panama, Papua New Guinea, Samoa, Singapore, Solomon Islands, South Africa, Trinidad and Tobago, UK, USA, Zambia, Zimbabwe.

Of English language tests: you can undertake one of the following English language tests to determine if you satisfy UQ’s English language proficiency requirements:

<table>

**International English Language Testing System. **For an equivalent test score, see: *International English Language Testing System.*

***At the time of publication, equivalent tests are not accepted for Education (Primary) and for the most up-to-date details.

Notes to 2021 minimum entry scores table (fold-out)

1 UK GCE: A Levels for locations including: Bahamas, Bangladesh, Brunei, Cameroon, Falkland Islands, Gambia, Ghana, Gibraltar, Hong Kong, Ireland, Japan, Liberia, Macau, Malta, Mauritius, Namibia, Nigeria, Seychelles, Sierra Leone, Tanzania, Uganda, United Kingdom, Zambia and Zimbabwe. Aggregate of best 3 (or 2) A Level subjects excluding the combination of A and AS Level subjects equivalent to 3 (or 2) A Level subjects. A*, A-, B+, C+, C, D, E1 and E Levels count for all A Levels.

2 International Baccalaureate Diploma. 
3 Canada: OSSD: grade average of best 6 University (U, 4.0) and/or University College (U/C, 4.0) courses; Alberta High School Diploma: grade average of best 5 Level 30 Provincial Diploma Exams; British Columbia Senior Secondary School Graduation Diploma: grade average using the Language Arts 12 subject (provisionally examined if prior to 2020) plus three Grade 12 subjects with 4 credit points. The following minimum entry scores are also accepted: New Brunswick: grade average of best 5 grade 12 subjects; Newfoundland and Labrador: grade average of best 5 grade 12 results; Nova Scotia: grade average of best 5 grade 12 subjects; New Brunswick: grade average of best 5 grade 12 subjects; Newfoundland and Labrador; grade average of best 5 grade 12 results; Nova Scotia: grade average of best 5 grade 12 subjects; level 3 (grade 12) or 4 advanced placement) subjects; Prince Edward Island; grade average of best 5 grade 12 subjects, Enriched/Advanced or Academic subjects only; Saskatchewan: grade average of best 5 grade 12 results, level 30 subjects and advanced subjects.

4 Chinese Gaokao: cut-off scores are converted into a percentage.

5 Danish Studenteksamen: grade average of final year results, converted to a point scale if otherwise reported. From 2007 a new grading system ranging from 00 (lowest) to 12 (highest) with a pass at 2 has been introduced.

6 French Baccalauréat: average, with 10 as the pass mark.

7 German Abitur: in the reformed upper secondary level (abitur), the grade section is 1 to 6. The maximum grade is 1 with 6 being the lowest.

8 HKDSE: overall and sub-band scores for your program where this is accepted***, as listed in the following table.

How to apply

STEP 1
Choose your program

- Find the program you wish to study in the Programs section on pages 32–67.
- Check you meet (or will meet) all admission requirements on pages 74–75.
- Check the application deadline has not passed.

STEP 2
Create an account

- Go to UQ’s online application portal and create an account: apply.uq.edu.au.

STEP 3
Complete your application

- Complete all details requested in the online application detailing all courses you have taken and qualifications you have been awarded from institutions other than UQ, even if you think they are not relevant to your application.
  **TIP: You can save an incomplete form and return later.**
- Attach all required documentation as per the program entry requirements and any additional information requests. You must provide complete academic transcripts and/or testamurs of any previous tertiary studies (if you have not yet completed your studies please provide a current transcript). A copy of your passport (in colour if possible) and official evidence of any name differences on your transcripts / awards is also necessary.
- If you want to apply for an English language pathway package, you can indicate this during the application process.
- In addition, you may be asked to complete and submit a Genuine Temporary Entrant (GTE) Assessment and provide a GTE Agent Checklist (if working with an agent).

STEP 4
Submit your application

- Online: a non-refundable A$100 application fee will be charged when submitting your application online. After submission, you can check the status of your application through your account.
- If you are unable to access the online application portal, please email applicationstatus@uq.edu.au to request an application form. A non-refundable A$150 application fee is payable for an email submission of an application.
- In person or by mail: If you are unable to email your application, you can submit it in person or by mail to: Future Students, Level 2, JD Story Building, St Lucia, The University of Queensland Brisbane, Queensland 4072 Australia. A non-refundable A$150 fee applies for applications that are not submitted online.
- Your application will be assessed by UQ International Admissions. They will inform you of the outcome.
International student definition

You are an international student if you are:
• not a citizen of Australia or New Zealand, or
• not an Australian Permanent Resident, or
• a Temporary Resident (visa status) of Australia.

You are not an international student if you are:
• an Australian citizen
• an Australian Permanent Resident (visa status)
• a New Zealand citizen, or
• a holder of an Australian permanent humanitarian visa.

Permanent residency

If you have been offered an undergraduate place as an international student and become an Australian permanent resident before starting your first semester of study, you will not be able to retain that place. Instead, you must apply for a Commonwealth Supported Place (CSP) through the Queensland Tertiary Admissions Centre (QTAC).

future-students.uq.edu.au

International students studying Year 12 in Australia

If you are an international student studying Year 12 in Australia, check our website for details on how to apply for an undergraduate program through QTAC.

You may also be eligible for Adjustment Factors (previously known as Bonus Points).

future-students.uq.edu.au/high-school-students
yr12international@uq.edu.au

Credit transfer and exemption for previous studies

Credit for previous studies

If you have completed study elsewhere and have taken courses that are the same, or nearly the same (in terms of level, standard and content) to your UQ program, you may be eligible for credit transfer. In some instances, this will reduce the amount of time it will take to complete your UQ program. UQ recognises formal studies and recognised informal learning. You can see if your prior studies qualify through our database.

creditprecedents.app.uq.edu.au

Exemption for previous studies

If you have undertaken some prior formal or informal learning you may not have to complete some courses in your program. You will still have to complete the usual total number of units to graduate.

future-students.uq.edu.au/admissions/undergraduate/check-credit-eligibility

IB students

If you achieve specified grades in your IB, you may be offered up to 8 units of specified or unspecified credit for selected bachelor’s level courses; this varies by program. Exemptions are also available for some IB subjects. You can apply for credit and/or exemption once you have accepted an offer and enrolled at UQ. For information on the minimum grades needed to obtain credit, and to download an application form: future-students.uq.edu.au/admissions/undergraduate/check-credit-eligibility

Visas

All international students applying to study in Australia must have a student visa unless they have an alternative visa that enables them to study. If you are granted a student visa, you must comply with all student visa conditions. For all visa enquiries and applications, please contact your local Australian Embassy, High Commission or Diplomatic Mission.

future-students.uq.edu.au/international-visa-information
www.homeaffairs.gov.au

Applications

Closing dates

It is recommended that you submit your application no later than the dates below to ensure you have enough time to apply for a student visa. Please note that some UQ programs have earlier closing dates. See program listing for details.

Semester 1 30 November of previous year
Semester 2 31 May of same year

Assessment

Applicants are assessed on a case-by-case basis. For some quota programs, meeting the minimum entry requirements does not guarantee acceptance. Applicants who do not meet academic entry requirements may wish to consider taking the Foundation Year program offered by International Education Services (IES) (see page 30).

Your application status

You can view the status of your application on your online application portal.

Documentation required

Academic

When you apply to UQ, please ensure that you submit certified copies of up-to-date transcripts and award certificates with your application. Grading scales will also be needed for any tertiary studies you have undertaken. Certified official translations are required for all documents in languages other than English.

English

To demonstrate your English language proficiency, you must attach copies of all relevant academic transcripts and award certificates to your application. Specific arrangements apply to IELTS, TOEFL and Pearson Test of English (PTE) Academic.

future-students.uq.edu.au/admissions/english-language-requirements

Waiting on documents?

If you are waiting for transcripts or final results, you may still submit an application and, where possible, we will consider making a conditional offer to you. Submit the evidence of English language proficiency (unless you intend to sit a test), and any results you have so far with your application. Please upload any outstanding documents to your online application portal as soon as you receive them.

Deferrals, suspensions and cancellations

If you have a UQ offer in a certain semester and wish to defer (i.e. delay commencing to a future semester), please contact the International Admissions office as soon as possible and before the commencement date stated on your offer. If you have already received your UQ Confirmation of Enrolment (CoE), a deferral will only be permitted if there are ‘compassionate or compelling grounds’. If a deferral is not approved, you may still delay commencing, but your CoE will be cancelled. This may impact your student visa or student visa application. The University can suspend or cancel your enrolment for a number of reasons including misbehaviour, poor academic standing and unsatisfactory academic progress. Please note that any deferrals, suspensions or cancellations may affect a student visa or visa application.

my.uq.edu.au/information-and-services/manage-my-program/withdraw-defer-or-return-study/deferring-studies

Students under 18 years of age

UQ offers a Supervision Program that approves the accommodation, support and general welfare of international students under 18 years of age. This program is compulsory for international students who:
• are under 18 years of age when they enter Australia and commence their program at UQ
• are under 18 and are not living with a parent, legal custodian or suitable relative approved by the Department of Home Affairs
• need their accommodation and welfare arrangements approved to meet the Department of Home Affairs’ student visa requirements.

For more information about the under 18 Supervision Program, including how to apply visit:

Life at UQ

UQ will be your home away from home. We offer sporting, cultural and recreational activities, we help you find accommodation, and we anticipate your unique needs from arrival to departure.

Whether you require help with learning, someone to talk to, or a lift from the airport the first time you touch down in Australia, we have you covered.
We have accommodation options to suit your lifestyle and make you feel at home. Live in a college on one of the best campuses in the world, go to the inner city for off-campus student accommodation, or find your own home in the private housing market.

**On-campus colleges**
Do you want a traditional, immersive university experience? If you are studying at one of UQ’s Brisbane campuses you can live in one of the ten colleges at UQ St Lucia, or if you are studying at UQ Gatton, live at the Gatton Halls of Residence. You can walk to class, enjoy services like academic support and social and sporting activities, and your meals are provided. Plus, you will make friendships for a lifetime. Apply before you arrive to secure a room.
liveuq.edu.au

**Off-campus student accommodation**
Do you want to cook your own meals but still live in a student community in the inner city of Brisbane? Choose from one of our recommended student accommodation providers. A variety of studio, single bedroom apartments and twin share options are available. You can pre-book a room before you arrive.
my.uq.edu.au/student-support/accommodation/approved-providers

**Private housing**
Are you the more independent type? You might like to share a house or apartment with other people. Brisbane’s rental market features everything from low-cost share houses to high-rise apartments, while Gatton’s rental market features a range of affordable share houses. To find a room, apartment or house, first check our UQ Rentals database. There are also private rental accommodation websites and you can rent directly from real estate agents. At the start of a lease you typically pay two weeks rent in advance and
a bond (four weeks rent). You should get the bond back at the end of your lease if you maintain the property well. Make sure you inspect a property in person before paying money or signing anything. Arrive around one month before classes start to get organised, arrange inspections and lodge your rental application. Make sure you arrange temporary accommodation for when you land, if needed. rental.uq.edu.au

UQ Accommodation team
Our UQ Accommodation team can help you find your new home. If you are new to the housing market, attend our free information sessions before classes start. The team can also give you advice, check documentation for you, and direct you to useful material online. my.uq.edu.au/student-support/accommodation

Airport pick up
If you are a new international student to UQ, we'll provide you with free transportation from Brisbane’s domestic or international airports. Just make sure you book three business days in advance. my.uq.edu.au/information-and-services/student-support/accommodation/about-accommodation/airport-pickups

Associate members program
Does college life appeal to you but you are not going to live in a college? As a first year student, you can access a college’s resources and participate in their activities through our college associate members program. Membership benefits vary between colleges. liveuq.edu.au/the-colleges

Guaranteed accommodation
When you apply through UQ Guaranteed Accommodation, you are able to secure your accommodation prior to arriving in Brisbane and commencing studies at UQ. The UQ residential colleges (on-campus) and UQ approved providers (off-campus) set aside a guaranteed number of rooms so you are able to compare, choose and secure the most appropriate accommodation easily. my.uq.edu.au/information-and-services/student-support/accommodation/about-accommodation/guaranteed-accommodation
International student support

UQ has services and activities to help you settle in, make new friends, expand your skills and network, and enjoy student life right up until graduation.
SETTLING IN

Getting started
Make your transition to UQ a smooth one by attending one of our Getting Started sessions either when you arrive or during O-Week. Attendance is compulsory for all international students. In the session, you find out: how to enrol, register for classes, get your student ID card and key UQ dates and terminology. We also tell you about what services and facilities are on campus, how to register for public transport student discounts, and what your best options are for getting to and from UQ.

my.uq.edu.au/information-and-services/student-support/settling-in

Transition to UQ life with ease by registering for the Jumpstart uni preparation program, held before semester starts.

my.uq.edu.au/information-and-services/student-support/study-skills/jumpstart-uni-preparation-program

O-Week and your first weeks
Make sure you are here for O-Week, which is held one week before semester starts. It is a great introduction to life at UQ. You can browse clubs and societies, listen to live music, meet new and interesting people at events, pick up free stuff, and most importantly, attend your program’s welcome session.

orientation.uq.edu.au

UQ mentoring
UQ offers loads of mentoring opportunities for you to get connected, get involved and have fun! Connect to peers, groups or industry partners; there’s something for everyone. As a new student transitioning to uni life we recommend you check out the O’ to 4 program to help you navigate your first five weeks at UQ. For more information on all of the mentoring opportunities available, visit the Mentoring website.

my.uq.edu.au/mentoring

Clubs and societies
Are you up for expanding your social network and diving into a hobby or passion? Join one of our 220 clubs and societies. From anime to yoga, medievalism to table tennis, and hockey to dancing, you are certain to find like-minded people. If you don’t, you can always start your own club.

uqu.com.au/clubs-societies

Safety on campus
Our campuses are safe places for students and staff. St Lucia and Gatton campuses have 24-hour security teams. St Lucia also offers a safety escort service if you would like someone to accompany you to public transport or your car, and a Safety Bus that runs from 6pm onwards around the campus. Plus, students can download the free UQ SafeZone app, which connects students directly with security officers or emergency services.

Spiritual practice
Our Multi-Faith Chaplaincy at UQ St Lucia caters to all religions. The venue also offers yoga and meditation classes, free English conversation classes, and it hosts community celebrations. It is a great place to meet people from different cultures and faiths.

my.uq.edu.au/information-and-services/student-support/religion

UQ Mates
Your one place to gain access to the social scene through UQ’s free social network! Meet new friends and connect with like-minded students that share your interests through chat groups and facilitated on- and off-campus meet-ups. Whether you are into food, drinks, arts, culture, fitness, games or study – find your circle at UQ Mates.

my.uq.edu.au/uqmates

ACADEMIC AND LIFE SUPPORT

Student Centres
If you need help navigating university administration, visit UQ Answers online or head to one of our Student Centres for help with forms, fees, health insurance, enrolments, scholarships, exams and visas.

support.future-students.uq.edu.au/app/answers/list

my.uq.edu.au/contact/student-centre

Academic workshops
Gain new skills and prepare for exams by attending free workshops held by our Student Services team. There are workshops on writing assignments, improving your memory, thesis writing, presentation skills, time management, academic language and grammar, and more.

my.uq.edu.au/information-and-services/student-support/workshops

International student advisers
There are advisers specifically for international students to help you overcome some of the challenges of studying in a foreign country. The Student Advice Team, located in Student Services, can help with a range of common questions and queries from making friends, planning finances, living in Australia and preparing for study to bringing your family, student visa information and academic and English support. The student advisers offer support in a free and confidential space and if you need to make an appointment with a Student Adviser or a Counsellor, you can do this in private by contacting Student Services.

my.uq.edu.au/information-and-services/student-support/international-interstate-students

The Students’ Union (UQU) can also help you with legal or migration support.

uqu.com.au

Peer Assisted Study Sessions (PASS)
Learn more about studying at UQ from second- and third-year students who have achieved top grades in your course. They can provide advice on coursework and content, and suggest effective study habits that will help you make the most of your time. Ask your faculty for more information.

English language support during your study
Develop and refine your English language skills needed for study at UQ. Take Academic Communication Skills (ACS) pre-semester to improve your academic skills; or join our free English for Academic Communication (EAC) course offered in-semester by ICTE (Institute of Continuing & TESOL Education). A wide variety of academic English study options are available to meet your needs. Check the website for more information.

icte.uq.edu.au/study/english-language-support-university-queensland-students-and-community
Cost of living

Brisbane is an affordable city offering a lower cost of living than Sydney, Melbourne, Perth and Canberra.*

To make the most of your time in Australia, we recommend you plan and budget for your study and holiday time.

*studentcities.com.au

Yearly costs

How much it will cost you to live in Brisbane will depend partly on your lifestyle preferences. For example, if you live in a share house off-campus, your yearly budget will be in the range of $12,960 – $33,060.

In addition to this amount, you will also need to consider establishment costs such as buying furniture, paying a rental bond and setting up electricity, gas and mobile phone accounts, as well as other expenses such as visa and medical fees, tuition fees, return airfares, and Overseas Student Health Cover (OSHC). Remember that exchange rate variations may also affect your budget.

Monthly expenses

The table below estimates monthly expenses for studying at UQ. These estimates are a guide only and prices vary according to your lifestyle. UQ tuition fees, textbooks and study materials, clothing, entertainment, printing, and healthcare costs are in addition to the figures below.

Working while studying

If you have a student visa you can work up to 40 hours per fortnight (two-week period) during university semesters, and full-time hours during holidays. In general, students shouldn’t expect to cover tuition fees or living expenses with a casual job. If you are studying at UQ on a scholarship, you should contact your scholarship provider about how many hours you are permitted to work each week.

immi.homeaffairs.gov.au/visas/already-have-a-visa/check-visa-details-and-conditions/see-your-visa-conditions?product=500

Student concessions

As a student, you can use your student ID to receive concession prices for public transport, the cinema, museums, software, technology and much more.

my.uq.edu.au/starting-at-uq/student-finances/budgeting

Visa information

When applying for a student visa, you must meet the Genuine Temporary Entrant criteria (immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing/student-500/genuine-temporary-entrant) and have sufficient funds to pay your tuition fees, living costs (and the living costs of any dependants, if applicable) for the duration of your studies.

Bringing your family

To apply for a student visa in Australia, you need to declare that you have access to sufficient funds to pay your tuition fees and to support yourself and any dependants who are coming with you. This declaration is part of the UQ acceptance process. For children, you will also have to factor in school fees and childcare costs.

eqi.com.au/study-options/fees

If you are bringing a spouse and/or children, they will need dependant visas.

future-students.uq.edu.au/university-life/getting-prepared-to-come-to-australiabringing-your-family-australia

</tbody>
</table>

*On-campus and off-campus accommodation costs are usually lower in Gatton. The monthly cost for a standard resident room in the Halls of Residence in Gatton is approximately $1190.

**Many student accommodation providers include electricity, gas and internet costs in rent; however, check with your provider to be sure.

***These costs are based on the assumption that the dependent child is not of school age and does not factor in child care costs. For more information on fees for school aged dependents visit: eqi.com.au/study-options/fees

This table should be taken as a guide only. For the most accurate costs of living, visit: future-students.uq.edu.au/university-life/living-in-brisbane/cost-living
Fees and expenses

As an international student, you will pay tuition and non-tuition fees. Some programs have additional costs; see individual program listings for details.

Tuition fees
Tuition fees vary according to program. We have provided an indicative first year tuition fee for each program on pages 24-25. This indicative amount is based on a standard full-time study load for the whole year. UQ has program-based tuition fees for coursework award programs, meaning that all courses within a program are charged at the same tuition fee rate per unit for a given academic year. Some programs also have additional costs. Tuition fees are reviewed annually.

Non-tuition fees
Non-tuition fees paid to the University may include the student services and amenities fee, books and equipment, health insurance, administration, accommodation, and assistance to apply for or hold a student visa.

Student Services and Amenities Fee (SSAF)
The SSAF is charged each semester for the provision of non-academic services. In 2020 the annual SSAF was capped at $308.

Scholarships
The University of Queensland offers competitive scholarships to help high-achieving students fund their tertiary education. For more information, see pages 108-109.

Health insurance
If you will be coming to Australia on a student visa, you will need to purchase and maintain Overseas Student Health Cover (OSHC) as one of the conditions of your visa. This is an insurance policy that covers you for basic medical and hospital care and is required from the day you arrive in Australia until you leave. UQ’s preferred OSHC provider is Allianz Global Assistance. UQ can organise your OSHC with Allianz when you accept your UQ offer and pay your tuition fee deposit. Alternatively, you can obtain your own OSHC from a government-approved OSHC provider.

Financial aid
We can help students from North America, as well as some countries in Europe and Latin America, apply for student loan programs that are offered in their home countries. These loans can help you cover a portion of your educational expenses while studying full-time at UQ.

Refunds
Refunds are only made to international students in certain circumstances and in accordance with our Student Fees policy and Student Refund procedures.

Insider Guides provides a helpful online Cost of Living Calculator to estimate your weekly, monthly and yearly living costs in greater detail.

UQ partners

UQ has links worldwide and is also a proud member of the prestigious Group of Eight and Universitas 21 networks.

UQ’s partnership network

UQ has a strategic partnership network across more than 50 international locations, which includes leading organisations and institutions across higher education, research, industry, government, sponsorship and philanthropy.

As a key component of UQ’s broader Global Strategy, UQ seeks to ensure a cohesive and coordinated approach to collaboration with international partners. UQ partners for global impact by building meaningful relationships worldwide and leveraging our strategic global presence. UQ’s global connectedness has a multitude of beneficiaries, leading to research outcomes, products and services that have real impacts on people around the world.

Through our partnerships, UQ students can study in more than 40 international locations to develop and broaden their perspectives, build international networks and prepare for global careers. Almost a quarter of UQ’s undergraduate students engage in an international experience of some kind during their studies.

UQ is also a member of a number of global networks that enhance the opportunities for collaboration for our staff and students, including: Universitas 21, a select international network of comprehensive, research-intensive universities; edX, the world’s leading consortium of Massive Open Online Courses (MOOCs); and the McDonnell International Scholars Academy, a select group of research universities that aims to develop future leaders and promote global awareness and social responsibility.

UQ also has a number of arrangements with international institutions to facilitate the progression of students from those institutions to UQ through credit transfer.

• University of Amsterdam

United Kingdom
• University of Birmingham
• University of Edinburgh
• University of Glasgow
• University of Nottingham

United States of America
• University of Connecticut
• University of Maryland
• University of California, Davis (UC Davis)

Group of Eight

The Group of Eight (Go8) is a coalition of leading Australian research-intensive universities that work together to improve outcomes for all.

Queensland
• The University of Queensland

ACT
• The Australian National University

New South Wales
• UNSW Sydney
• The University of Sydney

South Australia
• The University of Adelaide

Victoria
• Monash University
• The University of Melbourne

Western Australia
• The University of Western Australia
UQ exchange partners

UQ has exchange agreements with the following institutions, supporting students to study overseas for one or two semesters. In turn, students from these institutions can study at UQ. If your university is not a UQ exchange partner, you can apply as a Study Abroad student (see page 11).

INTERNATIONAL UNDERGRADUATE UQ GUIDE 2021
**UQ terminology**

**INTERNATIONAL UNDERGRADUATE**

A student who is an Australian citizen or Australian students studying in Australia on a student visa.

A qualification awarded for the first level of study undertaken at university, typically requiring three to five years of study.

**Blue card**

An identification card issued under the Commission for Children and Young People and Child Guardian Act 2000 that you need in order to work with children in Queensland, whether as a paid employee or volunteer.

You may apply for one through the UQ School administering your program. Blue card applicants undergo a complete national criminal history check.

**Campus**

The location where a program is delivered. Some programs are taught at locations other than UQ St Lucia or at more than one campus.

**Census date**

The last date to cancel enrolment in a course without incurring financial liability. Census dates are 31 March for Semester 1, 31 August for Semester 2 and 18 December for Summer Semester (although this may change). Intensive study periods have individual census dates that change each year according to the start date of the study period.

**Compulsory courses**

Courses that must be studied to complete the requirements of a program.

**Confirmation of Enrolment (CoE)**

A student Visa grant application form in which you accept a place at the University and pay your deposit and Overseas Student Health Cover (OSHC). If applicable, and you need to apply for a student visa. A CoE will only be issued for a quota program if there is still a place available at the time you accept and pay your deposit. / OSHC.

**Course**

A discrete component of study within a program for which a grade is given.

**Course profile**

A profile gives you key information about a course, including the course aims and learning objectives, required textbooks, learning activities, assessment information and due dates, and other important information.

**Coursework program**

A program where the assessable content by research represents less than two-thirds of the total assessable content. At UQ, coursework programs involve at least a value of at least eight units or in a one-year bachelor's (honours) program having a value of 16 units.

**Duration**

The length of time taken to complete a program, expressed in terms of a standard full-time study load.

**Elective**

A course that you may choose from a set of options.

**Entry score**

The entry requirement for a specific undergraduate program from a specific high school qualification.

**External student**

External students study online and do not attend any on-campus classes, although attendance at residential schools may be required in some programs. Material is dispatched by mail or via the web. International students can only study external programs offshore.

**Faculty**

The major organisational units within UQ, with responsibility for academic programs. Faculties may have a number of sub-faculty academic units called ‘schools’. There are six faculties: Business, Economics and Law; Engineering, Architecture and Information Technology; Health and Behavioural Sciences; Humanities and Social Sciences; Medicine; and Science.

**Field of study**

A field of study is a prescribed combination of courses in a postgraduate coursework program having a value of at least eight units or in a one-year bachelor’s (honours) program having a value of 16 units.

**Full-time (F/T)**

At least 75 per cent or more (six units) of the standard full-time study load (eight units) per semester for most programs. As an international student in Australia, you must complete your program within the specified duration. To do this, you would need to enrol in eight units per semester.

**Grade point average (GPA)**

A statistic calculated on grades received and the number of units completed, indicating your performance in your studies.

**Higher degree by research (HDR)**

A postgraduate coursework program where the assessable content by research represents more than two-thirds of the total assessable content. At UQ, HDR programs include the Doctor of Philosophy (PhD), Master of Philosophy (MPhil) and professional doctorates.

**Honours**

At UQ, honours may be awarded as an additional one-year of study following completion of a bachelor’s degree or as a four-year bachelor’s (honours) degree. Some undergraduate programs allow eligible students to transfer to a bachelor’s (honours) degree at a defined point in the bachelor's degree.

**IELTS**

International English Language Testing System.

**Immunisation**

For some Health, Behavioural Sciences and Medicine programs, you must provide proof of immunisation against certain diseases, including Hepatitis B. See halbs.uq.edu.au/placement-ready/immunisations.

**Intensive**

A flexible delivery study mode where you attend on campus for short periods only (typically 1–2 weeks).

**Internal student**

A student who attends classes (lectures, tutorials and practicals) on-campus during semester.

**International applicant / student**

An international applicant or student is not an Australian citizen or Australian permanent resident, or a New Zealand citizen.

**Orientation (O-Week)**

A compulsory program of activities and information sessions to introduce new students to the University and to assist the transition to tertiary study.

**Part-time (P/T)**

Part-time study is less than 75 per cent of the standard full-time study load (i.e. less than six units per semester for most programs).

**Placement**

Also called work placement, internship, industry study, clinical practice, practicum, fieldwork, clinical placement, practical work, teaching practice or industry experience. This is a period of practical, work-related experience designed to enable you to practise professional skills in a real-life setting, usually at an organisation external to the University.

**Postgraduate coursework programs**

Postgraduate coursework programs involve at least two-thirds of coursework. Study options include a graduate certificate, graduate diploma, coursework master’s, and professional doctorate.

**Prerequisites**

Prerequisites are minimum entry requirements for admission. The prerequisite requirements that everyone entering a program has studied and achieved an appropriate level of knowledge in subject areas necessary to undertake the program successfully. Applicants who satisfy the prerequisite requirements are then eligible to compete for a place on the basis of the selection rank allocated to their qualifications.

**Program**

A sequence of study leading to the award of a qualification such as a degree, diploma, certificate or higher degree by research.

**Quota program**

Some programs have limited places available. The quota is the number of places that are available. For international students, the issuing of a Confirmation of Enrolment (CoE) for a quota program confirms that you have a place in that program.

**School**

A school is a sub-division of a faculty – in other words, a faculty is a collection of schools. The school that teaches a course is listed on each course’s electronic course profile (ECP) as the ‘Coordinating Unit’.

**Semester**

The University teaching year is divided into three semesters: Semester 1, Semester 2 and Summer Semester. Most programs only require you to be enrolled in Semesters 1 and 2 each year.

**Specialisation**

A specialisation is at least 32 units of a prescribed combination of courses with a particular disciplinary focus, within an undergraduate program.

**Study areas**

Discipline-focused sets of courses that can be studied within a degree program and may include majors, minors and specialisations.

**Teaching methods**

At UQ we use a range of teaching methods, including lectures, tutorials, laboratory practicals, fieldwork, group discussions, and online modules and workshops. You will be required to complete assignments and examinations, and undertake independent study. Debate in classrooms is strongly encouraged.

**Teaching spaces**

Ranging from large, tiered lecture theatres to small tutorial rooms and specialised laboratories, we offer flexible spaces for group work, teaching and printing. All lecture theatres have a digital transfer Echo 360 installed so that teaching sessions can be recorded and accessed online.

**Tertiary pathway**

If you are not offered a place in your preferred program, you can accept an offer in a program with lower entry requirements, improve your entry score after completing your first year of full-time study, and then apply to change into your preferred program.

**Units**

Units (#) represent the value of individual courses that contribute to the total unit requirement of an academic program. Most courses at UQ are worth two units and a standard study load is eight units per semester.
Index

UQ is a great place to study, make new friends, and take part in sporting and cultural activities. Register for a campus tour and experience first-hand what UQ has to offer.

All UQ campuses are smoke-free.

Disclaimer

The information in this Guide is accurate at July 2020. However, the University, its many partners and suppliers, and third-party providers are often able to make changes to their programs in future years, so that they can offer courses which meet the needs of their students, meet the demands of the industry, and respond to changes in the political and social environment.
