Master or Graduate Certificate

PHARMACEUTICAL INDUSTRY PRACTICE

Break into the pharmaceutical industry with a competitive edge with the Master of Pharmaceutical Industry Practice.

Flexible online learning
With industry placements and online classes, you can balance your study with work and family commitments.

Teaching excellence
Learn from world-leading teachers and industry partners to gain the in-demand knowledge, skills and experience employers are looking for.

Work-based study
This program is developed with industry consultation to ensure that you’ll gain the necessary skills, knowledge and experience to be job-ready upon graduation.

“I’m currently doing my first placement at a clinical research company where we get to observe the clinical trials process and apply the knowledge that we learn in class. The opportunity to play a role in clinical trials sponsored by globally recognized pharmaceutical brands is a tremendous experience, knowing you are making a difference in delivering future interventions to patients around the world.”
