

Guaranteed 2022 ATAR scores

Guaranteed ATAR selection thresholds for domestic students applying for applicable programs at UQ in 2022

*Know the ATAR
needed to gain a
position in your
chosen program
next year*

We want to help provide some certainty to students applying to study a UQ undergraduate program next year, so we've compiled a table of ATAR ranks guaranteed for undergraduate entry in 2022.

With this early release of our guaranteed ATAR selection threshold, you can start preparing for university now.

Not sure you will receive the guaranteed ATAR? You should still apply to UQ as applicants with a lower ATAR may still receive an offer into the program. The final minimum selection thresholds will be determined in January. As a reference point, see 2021 minimum selection thresholds as a guide.

These guarantees include adjustment factors. They also apply to applicants who are being assessed for entry on the basis of a rank, ATAR or International Baccalaureate (IB) score. The equivalent IB scores

change slightly from year to year and will be determined by QTAC shortly after Queensland Year 12 students receive their ATARs in mid-December.

- Entry is subject to you meeting English standards, prerequisites and other entry requirements
- The guaranteed ATAR includes adjustment factors, which are additional points added to a rank. UQ offers a range of admissions schemes to adjust for equity, subject choices and location
- If your entry score isn't high enough to get into your preferred program, you may want to consider other programs at UQ that will provide a pathway into your first choice
- Some programs are not applicable for an ATAR guarantee due to quotas within the program.

Guaranteed minimum ATAR thresholds

The final selection thresholds will be determined in January 2022 and may be lower than the ATARs listed below. If your ATAR is below the listed threshold for your preferred program, you should still apply as applicants with a lower ATAR may still receive an offer into the program.
