* An annual fee calculated for a full-time study load is the fee rate per unit for a program multiplied by the usual number of units undertaken in an academic year. For most programs this is 16#. The fee for less than a standard full-time study load in a year will be proportionately lower.

Units (#) represent the value of individual [courses](#) which contribute to the total unit requirement of an academic program (most courses are worth #2). To calculate your tuition fee for a specific course, multiply your program's tuition fee rate per unit by unit value of the course.

As fees are indexed annually, it is not possible to calculate precisely the total cost of a program in advance.

** The indicative annual fee for the Associate Degree in Business is calculated based on three full-time trimesters [24 units (24#)] at UQ College, commencing Trimester 1.

- Program is only available to study part-time and concurrently with enrolment in another UQ undergraduate program.
