WELCOME

The world around you is changing faster than ever. At UQ, your experience will position you ahead of the curve, empowering you to “create change” and transform your world for the better.

I am confident that you will thrive here, because:

• You will be taught by outstanding, inspiring teachers. UQ cultivates teaching excellence and has won more national teaching awards than any other Australian university.

• You will be guided by game-changing research leaders. UQ’s research community pioneers positive change locally and globally.

• You will graduate with a globally recognised edge over graduates from other institutions. UQ is internationally renowned, ranking in the top 50 global universities, so a UQ degree is a passport to an international career.

• You will be in good company. UQ has a diverse community of over 50,000 students, including over 12,600 international students from 140 different countries around the globe.

• You will study among talented students. UQ’s high entry standards mean you’ll learn with some of your generation’s best and brightest from all walks of life, sharing ideas and motivating each other toward greater achievements.

• You will be part of a global network. UQ’s connectivity means you can gain credit towards your UQ degree while studying with a partner university overseas, broadening your cultural awareness and acumen and shaping you as a “must have” employee in a globalised workforce.

• You will have fun. Across UQ’s vibrant campuses, you can immerse yourself in a range of extra-curricular activities, including sports, live performances, markets, exhibitions, and special events like Oktoberfest and Market Day.

No matter what you choose to do at UQ, your time here will change you for life, shaping you into a well-rounded global citizen who inspires change in others and the world around you.

I look forward to welcoming you around you.

President and Vice-Chancellor

Professor Peter Høj
President and Vice-Chancellor
TOP REASONS TO CHOOSE UQ

SUCCESSFUL GRADUATES
Higher than national averages for full-time graduate employment rates and salaries

GLOBAL CONNECTIONS
Extensive graduate network, strong industry partnerships and many notable alumni

GREAT EXPERIENCES
Long- and short-term overseas study exchange, vacation research programs and more
HIGHLY RANKED
-ranked in the top 50 world universities*

EXCELLENT TEACHERS
-More national teaching awards than any other Australian university**

VIBRANT LIFESTYLE
-Dynamic sports and cultural activities, 200+ clubs and societies

LEADING RESEARCH
-Global research powerhouse with all fields at or above world standard***

WORLD-CLASS FACILITIES
-Continuously improving teaching, learning, sporting, and research spaces

HIGH-QUALITY PROGRAMS
-Comprehensive range of over 400 programs and 4000 courses

* UQ ranks 46th in the QS World University Ranking and 45th in the Performance Ranking of Scientific Papers for World Universities.
** As at December 2015, UQ has received 114 Citations for Outstanding Contributions to Student Learning, Awards for Teaching Excellence, and Awards for Programs that Enhance Learning.
*** 2015 Excellence in Research for Australia (ERA) assessment
HIGHLY RANKED

AU$380M in research grants

More national teaching awards than any other Australian university

Good University Guide Five-star rating for Staff Qualifications and Research Grants
WHERE IS UQ?

The University of Queensland has three campuses in and around Brisbane, South-East Queensland, and 40+ teaching and research sites elsewhere.

DANNICAH CHAN (SAMOA)
Bachelor of Commerce

Brisbane is a multicultural and active community. The variety of creative performances, cultural arts displays and other social and family friendly events bring the whole community together.

A special Brisbane event is the annual City Welcome Festival organised by Study Brisbane, which is a welcoming ceremony for new and returning international students and is a lovely gesture that Brisbane acknowledges international students. This special event makes me feel at home and truly loved by this city.
QUEENSLAND, WHERE AUSTRALIA SHINES

My experience as an international student in Brisbane is turning out to be really fruitful. The people I’ve met here are just so friendly and willing to go out of their way to help me with my studies, making me feel at home.

And, as a country occupying an entire continent, Australia’s wildlife and scenery is unique, offering something different in every state. I’m often spoiled for choice when making plans for holidays during the semester breaks.

MOHAMED AHMED MALFALEH (SAUDI ARABIA)
PhD student, Australian Institute of Bioengineering and Nanotechnology

Moreton Island’s Tangalooma, off the coast of Brisbane
Welcome to Queensland

Sunny days and year-round temperate weather are a way of life for UQ students.

As a UQ student living in South-East Queensland, you will enjoy an experience like no other.

Dine out at some quirky and dynamic venues in Brisbane’s diverse restaurant scene; join one of the range of indoor or outdoor sports teams at high-quality venues across the city; go shopping in any of our many hotspots for fashion, bargains, homewares, or anything else; and hang out with new friends in the glorious sunshine.

Queensland has a highly educated and skilled population, a diverse range of industries, and a stable economy, and offers many opportunities for casual, part-time, or community work for university students while you study.

The landscape features lush northern rainforests and golden surf beaches in the south-east. The Queensland Government is renewing its focus on developing the state’s strengths in tourism, agriculture, resources and construction to boost the economy and improve community resilience.

Be beach safe

Many visitors are unaware that Queensland’s beautiful, world-famous beaches hold some potential dangers.

Follow these simple rules to enjoy the beach safely:
- always swim between the flags
- understand, recognise, and learn how to avoid potential dangers
- know how to help if you or a friend get into trouble.

Brisbane

Where opportunity and lifestyle converge

Young, vibrant and entrepreneurial, Brisbane is fast becoming an economic hub in the Asia Pacific for business, investment, major events and education.

With a strong economy and record of growth and stability, the city’s diverse population and ever-growing infrastructure contribute to the reason our students graduate with the knowledge, attitude and experience needed to succeed both within Australia and on the world stage.

Add a beautiful climate, an exciting blend of food, art and culture, and easy access to golden beaches, subtropical rainforests and coastal mountain ranges – there’s always plenty to discover.

Entertainment

Entertainment in Brisbane encompasses art galleries including the Gallery of Modern Art (GOMA), an inner city beach (pictured far left), museums, unconventional and sophisticated live art venues, a thriving live music scene, cinemas, and kilometres of beautiful riverside parklands perfect for relaxing on hot summer afternoons. Our lively festival scene, which includes the Brisbane International Film Festival, Brisbane Writers Festival and the Brisbane Festival, attracts celebrated national and international participants.

Sport

Whether you are watching or participating, Brisbane’s amazing weather, gorgeous parks and huge range of sporting facilities make physical activity almost impossible to avoid. Kayak along the Brisbane River, rock climb your way to the top of the Kangaroo Point cliffs, ride along more than 20 kilometres of riverside pathways, join one of our many sporting clubs, or barrack like a local when you attend a rugby union, rugby league, cricket, “Aussie rules” or football match at one of our famous stadiums.

Food

With just under a third of Brisbane’s population born overseas, it makes sense that you will find cuisine from almost every culture in our thriving restaurant industry, so if you’re missing food from home, it’s likely you’ll find what you’re looking for. Attend one of our popular farmers’ markets every weekend for fresh produce, music and delicious meals outdoors. During the week, drink coffee at one of the many cafés that dot the city and suburbs.

Getting around

One of the most picturesque and practical ways to see Brisbane is on the CityCat (pictured left), a ferry that runs along the length of the river, from UQ’s St Lucia campus to the riverside suburb of Hamilton. Brisbane also has an extensive bus and train network, so everything you want to see or do is easily accessible. We recommend buying a go card, an electronic ticket that allows you to travel on all Brisbane public transport services at a discounted price.

TransLink
Voted 11th most beautiful campus in the world (Buzzfeed, 2015)

Just seven kilometres from Brisbane’s city centre, UQ St Lucia is renowned as one of Australia’s most attractive university campuses.

Bounded by the Brisbane River on three sides, the 114-hectare site provides a perfect study, research, and living environment. You will enjoy the best of both worlds: a vibrant modern campus with the tradition of an established university.

St Lucia’s beautiful sandstone architecture, parklands and lakes encompass world-class teaching and research facilities, including Queensland’s largest research library and fully equipped laboratories and modern lecture theatres.

Plan your journey

Travelling to UQ by public transport is easy:

- visit translink.com.au for train, bus and ferry timetables
- buy your ticket from the go card vending machines on campus
- relax and enjoy the ride!

Catch a bus – one arrives every two minutes at the UQ Lakes bus stop; the Chancellors Place bus stop is also well-serviced

Catch a CityCat – ferries to UQ’s CityCat terminal regularly depart from the city and suburbs

Catch a train – closest stops are at Indooroopilly, Taringa, Toowong or Park Road, then walk or catch a bus to campus

Walk – wide inviting pathways and beautiful scenery await! Access campus from local suburbs or via the Eleanor Schonell Bridge

Ride your bike – park in secure Bike Box facilities or at bike racks

Drive – metered parking spaces are readily available but in very high demand year-round; see www.pf.uq.edu.au/parking

UQ St Lucia's Great Court and Forgan Smith Building
**GATTON CAMPUS**

UQ Gatton combines its Queensland Agricultural College heritage with modern research and teaching facilities in agriculture, agribusiness and veterinary science.

Just over an hour’s drive west of Brisbane and five kilometres from the local township, the 1068-hectare Gatton campus offers a relaxed, friendly atmosphere and world-class facilities including the Queensland Animal Science Precinct, the UQ Veterinary Medical Centre, Gatton Research Dairy, nursery and glasshouse facilities, the southern hemisphere’s largest PV solar array research facility, and a pesticide wind tunnel facility.

The campus also operates several commercial plant and animal production units in rural technologies to support teaching, research and hands-on training.

**Catch a bus** – Gatton, Brisbane or Toowoomba have services to campus, and a UQ-operated inter-campus service is also available four times each weekday; see [www.pf.uq.edu.au/buses](http://www.pf.uq.edu.au/buses)

**Catch a train** – you can purchase a combined rail and bus service ticket from Brisbane and travel by Queensland Rail and Greyhound express coach

**Drive** – parking on campus is free; however, spaces are in high demand during teaching periods; see [www.pf.uq.edu.au/parking](http://www.pf.uq.edu.au/parking)

**HERSTON CAMPUS**

Just three kilometres from the Brisbane city centre, Herston is UQ’s core campus for clinical health teaching and research.

Sharing premises with the Royal Brisbane Hospital, Women’s Hospital and the QIMR Berghofer Medical Research Institute, UQ Herston houses a vibrant clinical and research community who deliver innovative and contemporary research and education programs in a clinical academic environment.

Major research institutes on campus include the UQ Centre for Clinical Research and the Child Health Research Centre, along with other key facilities such as the Oral Health Centre and the purpose-built Herston Imaging Research Facility.

**Catch a bus** – Herston Road and Bowen Bridge Road have stops for UQ Herston

**Catch a train** – stop at Brunswick Street or Bowen Hills stations, followed by a short walk to campus

**Drive** – parking on campus is extremely limited but commercial carparks are located close-by
RESEARCH INSTITUTES

UQ is an international leader in research and teaching in a comprehensive range of disciplines, including the biosciences, nanotechnology, sustainable development and social science.

In partnership with government, industry and donors, UQ has developed nine globally recognised research institutes, many of which offer research and study opportunities for students, either during semester or over the summer and winter breaks. Most are located at UQ St Lucia.

Australian Institute for Bioengineering and Nanotechnology (AIBN)
Seeking big impact in commercially viable breakthroughs in health, energy, manufacturing and sustainability, AIBN’s focus is on the new scientific frontiers of cell and tissue engineering, systems biotechnology, nanomaterials and nanobiotechnology.
W: aibn.uq.edu.au/students

Global Change Institute (GCI)
Addressing the challenges of a changing world – including climate change, population growth and biodiversity – GCI’s key research areas are food systems, land use, healthy oceans, clean energy, and sustainable water.
W: gci.uq.edu.au

Institute for Molecular Bioscience (IMB)
Established in 2000 as UQ’s first institute, IMB is a multidisciplinary scientific institute committed to improving quality of life through research in areas including pain, rare diseases, inflammation and superbug infection, in partnership with academic, industry and clinical colleagues from around the world.
W: imb.uq.edu.au

Undergraduate research opportunities
Research doesn’t just have to be for postgraduate students. Consider undertaking Honours or a Summer or Winter Research Program at one of UQ’s nine internationally recognised research institutes.
Institute for Social Science Research (ISSR)
With expertise in research methods and social statistics, ISSR conducts policy and program evaluations, and analyses society’s “big” issues including social disadvantage, employment, education, sustainability, social wellbeing, health and housing, for recommending policy to government and other agencies.
W: issr.uq.edu.au

Mater Research Institute–UQ (MRI–UQ)
MRI–UQ aims to discover, develop, translate and commercialise medical research, specifically in the fields of maternal and early childhood health, cancer biology and care, neuroscience, mental health and intellectual disability, chronic disease in adolescents and adults, acute care, recovery and musculoskeletal health.
W: research.mater.org.au

Queensland Alliance for Agriculture and Food Innovation (QAAFI)
Through its three centres – Plant Science, Animal Science, and Nutrition and Food Sciences – QAAFI aims to significantly improve the productivity, competitiveness and sustainability of tropical and subtropical food, fibre and agribusiness industries.
W: qaafi.uq.edu.au

Queensland Brain Institute (QBI)
The brain is a complex machine and its function is little understood. It stores our memories and makes each of us unique. At QBI we are unravelling these mysteries. Our research will help you understand why you shouldn’t take drugs, why someone has dementia and how we can improve educational outcomes.
W: qbi.uq.edu.au

Sustainable Minerals Institute (SMI)
With expertise in engineering, science and the social sciences, SMI’s purpose is to develop practical solutions to the challenges of operating sustainably in the resources sector – from geology, minerals extraction, water management and minerals processing to OHS, mine rehabilitation and community engagement.
W: smi.uq.edu.au

The University of Queensland Diamantina Institute (UQDI)
Through biomedical research in three key areas – cancer, immunology and genomic medicine – UQDI is dedicated to improving the management of severe and chronic diseases such as melanoma, arthritis and diabetes, with particular emphasis on devising innovative therapies and diagnostic methods to improve wellbeing.
W: di.uq.edu.au
Teaching and research sites

UQ’s diverse facilities off-campus include:

- marine research stations at North Stradbroke and Heron Islands
- Pharmacy Australia Centre of Excellence (PACE) and Translational Research Institute at Woolloongabba
- the University Mine and the Julius Kruttschnitt Mineral Research Centre at Indooroopilly
- seismograph station at Mount Nebo
- veterinary science teaching and research centre at Dayboro
- Customs House in Brisbane’s CBD
- the UQ Business School Downtown in the Brisbane city centre
- Institute for Social Science Research at Long Pocket
- Boyce Gardens, Toowoomba
- teaching hospitals, health centres, student accommodation and other medical research facilities throughout Brisbane, the Gold Coast, and regional Queensland.
UQ STUDY OPTIONS

UQ offers around 400 coursework programs at undergraduate and postgraduate levels, as well as research higher degrees (RHD). Programs are organised through six faculties:
- Business, Economics and Law
- Engineering, Architecture and Information Technology
- Health and Behavioural Sciences
- Humanities and Social Sciences
- Medicine and Biomedical Sciences
- Science.

STANDARD PATHWAYS TO AND THROUGH UQ

PRE-TERTIARY LEVEL
- QUEENSLAND YEAR 12 (high school equivalent)
- ENGLISH LANGUAGE STUDIES
- ASSOCIATE DEGREE IN BUSINESS* (UQ College: pathway program)
- UQ FOUNDATION YEAR (Bridging program) (International Education Services)

UNDERGRADUATE LEVEL
- UNDERGRADUATE PROGRAMS
  - Bachelor degree
  - Dual degree
- CONCURRENT DIPLOMA
- HONOURS

POSTGRADUATE LEVEL
- COURSEWORK PROGRAMS **
  - Graduate Certificate
  - Graduate Diploma
  - Coursework Masters
  - Professional Doctorate
- RESEARCH PROGRAMS (RHD)
  - Master of Philosophy (MPhil)
  - Doctor of Philosophy (PhD)
  - Doctor of Biotechnology (DBiotech)

* Please note: the Associate Degree in Business is designed as either a UQ-accredited stand-alone qualification, or as a pathway to the Bachelor of Business Management (BBusMan), with successful completion providing three semesters of credit towards the BBusMan
** Although postgraduate coursework degrees can lead to an RHD, applicants also require relevant experience or research experience. View the full list of entry requirements here: uq.edu.au/grad-school/our-research-degrees

Finding program information
1. UQ Undergraduate program supplement for international students
2. UQ Postgraduate program supplement for international students
3. future-students.uq.edu.au
Programs and courses
At UQ, a degree is called a “program” and a subject is called a “course”. Programs are either “coursework”, where you complete a specific number of courses to graduate, or “research”, where you complete a research project to graduate.

Coursework
Undergraduate and postgraduate coursework programs involve mostly coursework, including lectures, laboratory work, tutorials, assignments and examinations. Undergraduate coursework programs include bachelor degrees (including honours), associate degrees, dual programs, and concurrent diplomas.

Course credit
You are not expected to repeat learning that you have successfully completed at a similar level and standard elsewhere, where that work is substantially the same as required for your UQ program. This means that you may receive credit for previous formal studies and recognised prior (informal) learning for both admission requirements and courses within a program.

Credit transfer
Credit transfer allows for a number of units, up to a specified limit, to be granted towards a UQ award on the basis of either previous formal or informal learning. If you have completed studies at another institution and are considering applying for credit, check the website for a list of courses that UQ has previously assessed for credit and established as precedents, as these will help you determine your own eligibility.

Exemption
While the total number of units required to satisfy program requirements will not be reduced, if you have some prior formal or informal learning you may not have to complete certain specified courses that would otherwise be core requirements in the program list.

Commencement
Semester 1 in Australia generally begins in late February, and Semester 2 in late July, but some programs may start earlier.

As a new international student, you should arrive at least one week before Orientation to get over jet lag, attend a Getting Started session, and settle into housing. You will then get the most benefit from the many Orientation information and social activities available.

If you wish to attend the Jump Start Academic Preparation Program (JSAPP) you should arrive two weeks before Orientation. See page 1 for important dates.
Undergraduate Pathways

If you do not meet the admission requirements for your UQ program, consider the following pathways to undergraduate study at UQ.

IES Foundation Year
The University of Queensland recognises IES Foundation Year, offered by International Education Services (IES), as the exclusive foundation program for international students for entry into the first year of all undergraduate programs.

IES Foundation Year provides a bridge between your secondary (high school) studies and undergraduate study at UQ. If you achieve the specified standards you are guaranteed an offer into UQ’s corresponding undergraduate programs.

The program has two compulsory and three elective subjects, which improve your communication skills and prepare you for Australian university study. IES Foundation Year also provides intensive English language instruction designed specifically for international students.

The environment is truly international, with enrolments from more than 40 countries. You will receive a high level of individual attention and find it easy to make friends.

Ongoing support services are available throughout your foundation and undergraduate studies, including student counsellors, study and career advice and accommodation assistance.

With a strong record of ongoing undergraduate performance, IES Foundation Year has been the perfect starting point for more than 5000 international students.

Programs
You can choose from three programs: Standard, Express and Extended. Program selection is based on your academic results and English proficiency. Each program is tailored to your individual needs and undergraduate aim.

Entry requirements and the application process are available on the IES Foundation Year website.

International Education Services (IES Foundation Year)
W: foundationyear.com
E: info@fdn.uq.edu.au
T: +61 7 3832 7699
RTO 5036

IES CRICOS Provider Number 01697J
Reach out to International Education Services (IES) for further information.

UQ College:
Your pathway to success
If you’re an international student looking for a way to transition into undergraduate business study, apply to UQ College. You’ll study on your terms, with exceptional support, in a tailored learning environment.

Rich and rewarding learning experience
As soon as you join UQ College you commence your journey as a student of The University of Queensland.

UQ College prepares you for success at university and equips you to achieve your ambitions. It allows you to experience the excitement and satisfaction of becoming immersed in life as a university student.

Associate Degree in Business
Designed for business leaders and managers of the future, this 16-month (four trimesters)

UQ-accredited program (AssocDBus), will give you a strong stand-alone qualification.

If you complete the AssocDBus with a cumulative grade point average of 4 (on a 7-point scale), you may also be eligible to apply for UQ’s Bachelor of Business Management (BBusMan) and receive 24 units of credit (three semesters full-time) towards the BBusMan.

Pathway to UQ: Bachelor of Business Management
AssocDBus students may have the option to articulate into the fourth semester of the BBusMan in either February or July intakes.

UNDERGRADUATE STUDY

Undergraduate programs are the first level of tertiary study and UQ offers a diverse range.

**Undergraduate program structure**

**Bachelor degree**

Bachelor degrees usually require between three and five years of full-time study, and provide knowledge and skills for work in a specialist area.

Within a bachelor program, you may have to complete compulsory courses and elective courses (each course at UQ is generally comprised of two units) and can often choose areas of specialisation (e.g. majors). To be awarded a bachelor degree you need to complete the specified total number of units with a certain number studied in specific areas.

A **single major** is a field of disciplinary focus that has a value of at least 12 units (#12). It may be a compulsory requirement of the program.

A **dual major** (as distinct from a dual program – see page 21) is a field incorporating advanced studies in two complementary areas with a value greater than or equal to either #20 or #24 units (depending on program), exclusive of introductory level courses.

An **extended major** is a field incorporating advanced studies with a single disciplinary focus with a value greater than or equal to either #20 or #24 units (depending on the program), exclusive of introductory level courses.

A **minor** is a field with a discipline focus equal to approximately half the value of a major (i.e. #6 to #10 units).

No matter which type of major you undertake – single, dual or extended major - all are completed within the timeframe of your bachelor degree.

**Hear from our recent graduates:**

**ARIMBI YOGASARA**

**(INDONESIA)**

Bachelor of Communication
Public Relations Division Representative, Christian Dior, Indonesia

“I chose UQ because I knew that I would like to experience a world-class education. With UQ and its reputation and quality, I knew I could get the best experience that I have always been dreaming of as a student. I am now working for Christian Dior in Indonesia as one of their representatives from the Public Relations division. With the tight schedule at UQ, now I can say I am a lot better at handling deadlines knowing the fashion industry is a very busy industry. I loved studying at UQ.”

**RAMITA THAWONMAS**

**(THAILAND)**

Bachelor of Health Sciences
Doctor of Medicine student, UQ

“UQ is a global leader in a number of research topics related to health sciences and medicine. I chose this university because I wanted to have opportunities to study and learn from world-class teaching staff and to be involved in various research projects. Also, I instantly fell in love with the beautiful St Lucia campus after a visit. I enjoy practical classes where I have opportunities to do group studies on the given topics in a friendly environment, equipped with state-of-the-art equipment. The tutors are always supportive and engaging.”

**AKASH BODA (INDIA)**

Bachelor of Biotechnology (Bioinformatics) (Honours)
Master of Life Sciences and Technology student, EPFL, Switzerland

“UQ’s reputation as a research-intensive university encouraged me to choose it. Brisbane’s weather was similar to the place in India I am from and I love the beautiful St Lucia campus which was one of the major factors in my choice of UQ. I was welcomed with open hearts and minds by fellow students, academics and Australians in general. Brisbane is nice, quiet and one of best “liveable” cities. UQ’s vibrant and scenic campus makes it a home away from home.”
Honours

If you are undertaking a bachelor degree, you will need to complete additional study to be considered for the award of honours.

All honours programs at UQ satisfy research training requirements to prepare you to progress to a Master of Philosophy and Doctor of Philosophy. An honours degree also provides the skills and knowledge in a specific context that are required to undertake professional work.

There are three models for honours programs at The University of Queensland:

- **Model 1:**
  Enter a one-year Bachelor Honours degree, following completion of a three-year Bachelor degree in the same discipline.

- **Model 2:**
  Enter a Bachelor degree and (at some point during that degree), if you meet the entry requirements, apply to change programs to a four-year (or more) Bachelor Honours degree.

- **Model 3:**
  Enter a four-year (or more) level 8 Bachelor Honours degree: all students will graduate with honours.

You will be awarded a class of honours based on your academic performance in identified courses during the program. Class I, Class IIA, Class IIB, Class IIIA, or Class IIIB honours may be awarded, based on your grade point average (GPA) calculated using all or a subset of courses from your honours program.

**Dual programs**

A dual program enables you to study for two bachelor degrees at the same time, but in a shorter period than if you were undertaking them separately.

This means that you can study several areas of interest at once, gaining extra knowledge and skills to give you a competitive edge in the workforce.

To apply for UQ dual programs, you need to satisfy subject prerequisites and entry score requirements for both programs.

**Upgrading**

If you are not offered a place in your preferred program and want to improve your entry score or meet subject prerequisites, you can accept an offer in a program with lower entry requirements or with fewer prerequisites and try to improve your entry score during your first year of study. This is called upgrading.

Depending on your academic performance, your new entry score could be higher than your previous score, and you may meet the entry requirements for your preferred program. You will be required to follow the program rules and requirements of the program you are offered, but should seek guidance from faculty staff to assist with course selection for upgrading.

For information about UQ’s undergraduate programs please refer to:

1. UQ Undergraduate program supplement for international students
2. future-students.uq.edu.au
UQ Advantage Award

UQ Advantage Award is a free program designed specifically to bring out the best in you during your undergraduate studies. Participants can access a range of co-curricular activities and a unique symposium series.

By registering for the award, you will enjoy experiences that will help you realise your aspirations, become a leader in your chosen field, make a positive impact on society, and enhance your employability.

After completing all program requirements, you will receive a formal certificate when you graduate that endorses the enhanced experience and skill-set you have developed after your UQ Advantage Award experience.

LAWRENCE WONG (INDONESIA)
Bachelor of Biotechnology, founder of TedX UQ in 2013

"Participating in the UQ Advantage Award let me experience things outside the curriculum. Most, if not all, of the activities were enriching and very much worth doing for the learning experience. The Award’s diverse requirements also pushed me to participate in things outside my comfort zone and, as a result, made me more well-rounded. Outside university, good GPAs won’t guarantee success in whatever you do - but soft skills do help a great deal, especially communication. They helped me secure an internship with the Boston Consulting Group in Jakarta, Indonesia."

Financial support

A UQ Advantage Grant could help you realise your dreams.

Grants worth up to $1000 are awarded for co-curricular activities such as internships, volunteering, research, leadership programs and conference participation.

Find out more by visiting: uq.edu.au/uqadvantage/advantage-grant
CAREERS AND EMPLOYABILITY

UQ Careers Service
The Careers Service provides advice on how to reach your career and employment goals through:
- information about vacation, graduate and volunteer work, and internships
- career-development learning strategies, such as resume writing, interview skills, networking, leadership skills and presentation techniques
- access to employer and industry visits, seminars and events through employer presentations, the UQ Careers Fair and Volunteering Expo.
The Careers Service also promotes employment opportunities through UQ CareerHub, an exclusive online jobs board for UQ students and graduates. CareerHub has information on a wide variety of careers, as well as vacation work, internships and graduate employment opportunities from more than 3000 employers.

UQ Practical Experience
W: uq.edu.au/uqadvantage/practical-experience

Leadership
Each year the University selects a small number of student leaders to represent UQ at Australian and international events. Programs include summer schools, undergraduate research conferences and leadership forums. These programs provide a fantastic opportunity for you to develop international networks and gain insight into your capabilities and leadership potential.

UQ Advantage Ambassador Program

YUTONG ZHU (CHINA)
Integrated Bachelor of Engineering (Honours) and Master of Engineering

I decided to undertake the Bachelor of Engineering and Master of Engineering Program at UQ, which has been very rewarding for me.

As part of this program, every student is required to complete a six-month industrial or research placement, and I was fortunate enough to undertake a research placement with the Georgia Institute of Technology in the United States.

The placement provided me with the opportunity to improve my knowledge and skills in the field of chemical engineering and this experience will be useful when looking for a job after university.

Science student Sharifa Hamdan who attended the Universitas 21 Student Experiences research program in 2014
POSTGRADUATE COURSEWORK STUDY

Postgraduate coursework programs are the second level of tertiary study. Most international students undertake Masters; however, study options are available at Graduate Certificate, Graduate Diploma, or Professional Doctorate level.

Postgraduate program structure

The amount of time required to complete a postgraduate program generally ranges from six months to four years; and entry requirements vary according to the program and whether the student has a bachelor degree in the same discipline.

Masters degree (Coursework)

This qualification generally requires either a bachelor degree, graduate certificate or graduate diploma to gain admission, depending on the discipline of the entry qualification, and then one to two years of study. Programs comprise specialist courses and a research component of at least four units.

Professional Doctorate

Professional doctorates are coursework programs that allow experienced professionals to improve their professional practice through the application of research to current problems and issues. Both coursework and research components are included. The doctoral research should make a significant contribution to the knowledge and practice of the profession.

Hear from our recent graduates:

ELIZA YEO (SINGAPORE)
Master of Teaching (Primary)
Primary School Teacher, Indooroopilly State School, Australia

I honestly think that the lecturers and the “real life” teachers that I have been exposed to have given me an edge over other students. UQ lectures have kept me very current with new updates and revisions in the national curriculum, which is vital in my career. In addition, UQ has made an effort to help me by creating opportunities for me to create meaningful connections. I truly believe that without those connections and the teaching and learning that I have done at UQ, I would not have been able to get a job before I graduated. This program is by no means an easy program; expect to put in the hard yards but it will pay off in due time!

CAMILA SALGAR (COLOMBIA)
Master of Tourism, Hotel and Event Management
Operations VP Assistant, Hoteles Decameron, Colombia, and Latin America-Australia Tourism Excellence Scholarship recipient

I chose UQ because I liked the Master of Tourism, Hotel and Event Management program, it was according to my interests plus the University is top 50 world ranked. Living in Australia, studying at UQ, and studying this program was the best experience of my life. I had the chance to travel in Asia and Australia; met new friends, had excellent teachers, experienced good quality of life, and had the chance to participate in an internship. UQ teaches a new way of thinking, to explore deep in the topics, to analyse, to investigate and to be holistic.

ELIKANA JOHN (TANZANIA)
Master of Geographic Information Science
GIS and remote sensing analyst, Tanzania Forest Services Agency, Tanzania

I chose UQ because of its reputation and international ranking, and because it offered research-based programs in my area. I was particularly impressed with the open communication between lecturers and students; it was great having such dedicated and enthusiastic academic staff who were always there to help. A particular highlight, however, was the excellent course range. UQ really prepares graduates to address today’s global challenges in natural resource depletion, and I made lots of contacts in my field of remote sensing and GIS that will be very useful in the future.
RAMITA THAWONMAS (THAILAND)
Bachelor of Health Sciences
Doctor of Medicine student
UQ is a global leader in a number of research topics related to health sciences and medicine. I chose this university because I wanted to have opportunities to study and learn from world-class teaching staff and to be involved in various research projects. Also, I instantly fell in love with the beautiful St Lucia campus after a visit. I enjoy practical classes where I have opportunities to do group studies on the given topics in a friendly environment, equipped with state-of-the-art equipment. The tutors are always supportive and engaging.

SARAH MAK (CANADA)
Master of International Public Health
Founder and Managing Director, TheStoryBoxes Moving Image Studio, Australia
I chose UQ School of Public Health because of its academic reputation and the Australian lifestyle and Queensland tropics, having lived in cold climates my entire life. Not quite knowing what I wanted to specialise in, the course offerings were comprehensive, allowing me to broaden my international public health knowledge. I really enjoyed learning from the professors. Not only were they knowledgeable, but I felt that they were accessible and open to helping all students.

---

**Pathways**

You may choose to do – if available – a Graduate Certificate only and then study progressively to the higher level programs of Graduate Diploma and Coursework Masters; or, if you are eligible, you can enrol in a higher level program from the start.

**Graduate Certificate**

This program generally requires a bachelor degree to gain admission, and then one semester of study.

**Graduate Diploma**

This generally requires either a bachelor degree or a graduate certificate to gain admission, and then one year of study.

**External mode**

Some programs are offered in external mode (where course materials are provided online or via mail) so that you can study in your own country. If you choose an external program, you will not be eligible for an Australian student visa.

**Transferring to a Research Higher Degree (RHD)**

If you wish to complete a research doctorate following your postgraduate coursework program and have not completed undergraduate honours, you will need to ensure you meet the requirements for admission to an RHD in terms of “research preparedness”, where you can demonstrate that you have planned and executed project work and/or a body of research and scholarship with some independence.

See pages 30-33

**For information about UQ’s postgraduate programs please refer to:**

1. UQ Postgraduate program supplement for international students
2. future-students.uq.edu.au
HOW TO APPLY
for undergraduate and postgraduate coursework programs

**STEP 1**
Choose your program
- Go to the program you wish to study
- Check you meet all entry and English language proficiency requirements
- Check the application deadline has not passed.

**STEP 2**
Create an applicant account
- Go to UQ’s online application portal and create an applicant account:
  apply.uq.edu.au

**STEP 3**
Completing your application
- Complete all details requested in the online application, attaching all required documentation as per the program entry requirements and any additional information requests.
  **TIP:** You can save an incomplete form and return later.
- You must provide complete academic transcripts (detailing all courses you have taken and degrees you have been awarded from institutions other than UQ) and/or testamurs of your previous tertiary studies
- If you want to apply for an English language pathway package, you can indicate this during the application process.

**STEP 4**
Submit your application
- **Online:** A non-refundable AU$100 application fee will be charged when submitting your application online. After submission, check your application regularly through your applicant account.
- **By email, mail, or in person:** If you are unable to access the online application form, download a copy from future-students.uq.edu.au/publications-and-forms and submit it by email to applicationstatus@uq.edu.au
  - If you are unable to email your application, you can submit it in person or by mail to: UQ International, Level 2, JD Story Building, St Lucia, The University of Queensland Brisbane, Queensland 4072 Australia
  - A non-refundable AU$150 application fee will be charged when submitting your application via these alternative methods.
  - Your application will be assessed by UQ International Admissions who will inform you by email of the outcome. For enquiries about the status of your application, send an email to applicationstatus@uq.edu.au including your full name, date of birth and student ID (if known).
International student definition

You are an international student if you are:
- a Temporary Resident (visa status) of Australia
- a Permanent Resident (visa status) of New Zealand, or
- a resident or citizen of any other country.

You are not an international student if you are:
- an Australian citizen (living in Australia or as a resident overseas)
- an Australian Permanent Resident (visa status), or
- a New Zealand citizen.

Permanent residency

If you become a permanent resident before starting your first semester of study, and you have been offered a place as an international student, you will not be able to retain that place. Instead, if you are applying for an undergraduate program, you must apply for a Commonwealth Supported Place (CSP) through the Queensland Tertiary Admissions Centre (QTAC).

If you are applying for a postgraduate program, you should contact the relevant faculty. If you obtain permanent residency after you have enrolled at UQ, other procedures apply. Please contact the Student Centre at that time for more information.

Queensland Tertiary Admissions Centre (QTAC)
W: qtac.edu.au

International students studying Year 12 in Australia

If you are an international student studying Year 12 in Australia, check website for details on how to apply for an undergraduate program through QTAC.

UQ International

E: yr12international@uq.edu.au

Visas

All international students applying to study in Australia must have a student visa unless they have an alternative visa that enables them to study full-time.

To be eligible to apply for an Australian student visa, you must undertake a program on campus at UQ on a full-time basis.

The majority of visas are processed under Streamlined Visa Processing (SVP). Visas for programs ineligible for SVP can take longer. It is your responsibility to ensure that you receive your visa in enough time to commence studies at the University.

For all visa enquiries and applications, please contact your local Australian Embassy, High Commission, or Diplomatic Mission.

Australian Diplomatic Missions, Australian Embassies, Australian High Commissions, Department of Immigration and Border Protection

Applications

Closing dates

Visa application processing time varies according to whether your program is eligible for Streamlined Visa Processing (SVP). It is recommended that you submit your application no later than the dates in the table below for each Assessment Level to ensure that you have enough time to apply for a student visa. Please note that some UQ programs have specific early deadline dates.

The University of Queensland
W: future-students.uq.edu.au/international/svp

Documentation required

When you apply to UQ, please ensure that you submit copies of up-to-date transcripts and award certificates with your application.

Grading scales will also be needed for any tertiary studies you have undertaken. Certified official translations are required for all documents in languages other than English.

If you are waiting for transcripts or current results, you may still submit an application and, where possible, we will consider you for a conditional offer. Submit the evidence of English Language Proficiency (unless you intend to sit a test), and post-secondary results you have so far with the application form.

Please forward any outstanding documents as soon as you receive them to UQ’s International Admissions Section. Please ensure that these documents are clearly marked with your UQ Student ID (if available), family name, first name, date of birth, proposed program and a note that an application has already been submitted.

Application status

To enquire about how your application is progressing, please email your full name, date of birth, and UQ Student ID (if known). If you do not yet have an ID, let us know when you submitted your application.

International Admissions
E: applicationsstatus@uq.edu.au
T: +61 7 3365 7941

Credit for previous study

If you have completed post-secondary studies, you may be eligible for advanced standing (credit transfer) towards an undergraduate program at UQ. Some credit may also be possible if you have completed the International Baccalaureate (IB). Your application for credit should include full documentation of previous studies, including certified course descriptions.

Visa/visa application.

Credit for previous study
W: future-students.uq.edu.au/apply/credit-and-exemptions

Articulation programs

Articulation arrangements allow you to receive credit for previous studies, thereby gaining your UQ qualification sooner. UQ has articulation arrangements with a number of other institutions.

Mid-year entry

Many UQ programs are offered for mid-year entry which means you can commence in Semester 2 (July).

Programs and courses
W: uq.edu.au/study

Suspensions, deferrals and cancellations

If you wish to defer (i.e. delay commencing), please contact the International Admissions office as soon as possible. You may be able to apply for a deferral for up to two years, depending on the program and its availability.

Once you commence study, you may also suspend or cancel your enrolment on compassionate or other compelling grounds. The University may also suspend or cancel your enrolment for a number of reasons including misbehaviour, poor academic standing and unsatisfactory academic progress.

Please note that any suspensions, deferrals or cancellations may affect any current student visa/visa application.

Enrolment and Progression rules
W: uq.edu.au/study/?id=12450

Students under 18 years of age

If you are an international student wishing to study on a student visa and you will be under 18 years of age at the time you commence your studies, you will require a guardian to live with you in Australia. The University of Queensland cannot act as a guardian, and will not be able to organise care and welfare arrangements for you.

Department of Immigration and Border Protection
You will hear a lot of new terms at university – here is an explanation of some of them.

**Australian student (also known as Domestics)**
A student who is an Australian citizen or permanent resident, or a New Zealand citizen.

**Bachelor degree**
A qualification awarded for the first level of study undertaken at university, typically requiring three to five years of study (see also Undergraduate programs).

**Blue Card**
An identification card issued under the Commission for Children and Young People and Child Guardian Act 2000 that you need in order to work with children in Queensland, whether as paid employee or volunteer; you can apply for one through the UQ School administering your program. Blue card applicants undergo a complete national criminal history check.

**Census date**
The last date to cancel enrolment in a course without incurring financial liability. Census dates are 31 March for Semester 1, and 31 August for Semester 2. Summer Semester census dates change each year depending upon the start date of Summer Semester. Intensive teaching periods also have individual census dates that change each year according to the start date of the teaching period.

**Compulsory courses**
Courses that must be studied to complete the requirements of a program.

**Confirmation of Enrolment (CoE)**
A CoE is sent to you for when you wish to apply for a student visa, and is presented at your nearest Australian embassy, High Commission or Diplomatic Mission.

**Course**
A component of study within a program.

**Coursework program**
A undergraduate program where the assessable content by research represents less than two-thirds of the total assessable content (as distinct from a research higher degree).

**Credit**
1. Students receive credit towards a degree when they pass a course that is part of the program requirements.
2. Students changing programs (within UQ or from another university) may apply for credit, a value assigned for study completed in one program, towards the new program. See Credit transfer.

**Credit transfer (or transfer credit)**
Credit transfer may be granted when students change from one program to another, if the rules of the new program allow: check with the administering Faculty.

**CRICOS code**
The Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) code indicates a registered program offered to international students studying in Australia on a student visa.

**Doctor of Philosophy (PhD)**
A research higher degree program usually undertaken over three to four years which includes a research thesis comprising at least two-thirds of the work for the degree: honours class IIA bachelor degree minimum entry required.

**Dual program**
Two UQ degree programs undertaken at the same time (sometimes known as dual/parallel/combined/double degrees).

**Duration**
The amount of time normally taken to complete a program, expressed in terms of full-time (F/T) or part-time (P/T) study.

**Elective**
A course that you may choose from a set of options. Some UQ programs allow elective courses to be taken from outside the main focus of the program or from other UQ programs.

**Entry score**
All undergraduate students are assigned an university entry score based on high-school or post-secondary study results. Once you complete the equivalent of one full-time year of tertiary study (bachelor level or higher), your ranking is converted to a score based on Grade Point Average.

**External student**
External students study by distance education and do not have to attend any on-campus classes, although attendance at residential schools may be required in some cases. Material is dispatched by mail or via the Web. International students can only study external programs from offshore.

**Faculty**
The major organisational unit within UQ, with responsibility for academic programs. Faculties may have a number of sub-faculty academic units called schools.

**Full-time**
Full-time: 75 per cent or more (six units) of the standard full-time study load (eight units) per semester for most programs. As an international student in Australia, you must be enrolled in eight units per semester.

**Grade Point Average (GPA)**
A statistic based on grades received and the number of units completed, indicating how successful you are in your studies.

**Graduate entry**
Indicates options available for some programs, only open to students who have already completed an undergraduate degree, or who have a particular GPA.

**Honours**
At UQ Honours may be awarded as a one-year bachelor honours degree following completion of a bachelor degree; or as a four-year bachelorhonours degree. Some undergraduate programs allow eligible students to transfer to a bachelor honours degree at a defined point in the bachelor degree.

**IELTS**
International English Language Testing System.

**Internal student**
A student who attends classes (lectures, tutorials and practicals) on-campus during semester.

**International student**
A student who is not an Australian citizen or permanent resident, nor a New Zealand citizen, and is enrolled or proposes to enrol at an institution in Australia. Temporary residents of Australia are classified as international students.

**Major**
An area of specialised study within a program of at least 12 units, e.g. History in Arts program, which may be a formal requirement. Extended and dual majors are when the specialised area comprises a higher proportion of the degree.

**Master of Philosophy (MPhil)**
A research higher degree program undertaken over a period of one to two years. The program includes a research thesis comprising at least two-thirds of the work for the degree: bachelor degree minimum entry required.

**Masters by Coursework**
Postgraduate program typically requiring one to two years (or two to four semesters) full-time study. Programs consist of a series of specialist courses and sometimes a research component.

**Minor**
A field within a program approximately half the value of a major.

**Placement**
Also called work placement, internship, industry study, clinical practice, practicum, fieldwork, clinical placement, practical work, teaching practice or industry experience – this is a period of practical, work-related experience designed to enable you to practice professional skills in a real-life setting.

**Plan/Field**
A plan is an area of study within a program, for example, biology, physics, mathematics, or history.

**Prerequisites**
Courses that you have to pass before you can enrol in a particular course, providing you with the appropriate foundation knowledge.

**Professional Doctorate**
A coursework program designed for experienced professionals who wish to improve their professional practice by applying research to current problems and issues in their field.

**Program**
A sequence of study leading to the award of a qualification such as a bachelor degree, graduate diploma, or PhD.

**Program code**
A unique identifying number the University assigns to a program.

**P/T**
Part-time.

**Quota**
Some programs have limited places available.

**Research Higher Degree (RHD)**
A graduate degree program where the assessable content by research represents more than two-thirds of the total assessable content (as distinct from a coursework degree).

**School**
The core, sub-faculty academic unit, responsible for teaching, research and interaction with professional organisations. Course coordinators and lecturers generally work in Schools.

**Semester**
The University teaching year is divided into three semesters: Semester 1, Semester 2, and Summer Semester. Most programs only require you to be enrolled in Semesters 1 and 2 each year.

**Units**
Unit (s) represent the value of individual courses that contribute to the total unit requirement of an academic program. A standard study load is eight units per semester.

**Workloads**
International students must complete their studies within the minimum duration of the program (student visa duration).
TEACHING AND GRADING

Teaching spaces
You will learn in some of UQ’s 600 teaching spaces, which seat between five and 500 people.
Ranging from large, tiered lecture theatres to small, flat tutorial rooms, along with computer and specialised school laboratories, UQ offers a series of flexible spaces for group work, teaching and printing.
All UQ lecture theatres and most tutorial rooms have Echo 360 installed so that teaching sessions can be recorded and accessed online.
UQ also has an ongoing refurbishment and building program that has seen many teaching spaces upgraded to allow more active learning (flipped classroom) environments.
Our aim is for you to enjoy the best learning experience possible.

Assessment
Methods of assessment you will complete vary according to the courses you study.
You may have to write assignments, take mid-semester and/or end-of-semester examinations, present oral reports, join in debates, participate in individual and group projects, or prepare research summaries and laboratory practical reports.
Individual course assessment requirements are set out in course profiles (outlines), available online when classes start, and are usually explained to you in the first lecture.
Your academic results are determined by the relevant faculty at the end of semester.
UQ strongly emphasises written expression in most forms of assessment, but good speaking skills are also essential. You will develop both during your program.

Teaching and learning
At UQ we use a range of teaching methods, including lectures, tutorials, laboratory practicals, fieldwork, group discussions, and online modules and workshops.
Actively participate in class discussions and ask questions, and express your personal viewpoints – many lecturers will purposely provoke you to encourage debate!
Apart from face-to-face contact, you will also complete assignments and examinations. And you are expected to spend as much time – if not more – on library research and independent study as you attend lectures and tutorials.

STANDARD ACADEMIC GRADING SYSTEM

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>7</td>
<td>High distinction</td>
</tr>
<tr>
<td>6</td>
<td>Distinction</td>
</tr>

<td>4</td>
<td>Pass</td>
</tr>
<tr>
<td>P</td>
<td>Non-graded pass</td>
</tr>
<tr>
<td>N</td>
<td>Non-graded fail</td>
</tr>
</tbody>
</table>

Your study experience
No matter which program you enrol in, you will attend course lectures and tutorials:
- a lecture is a formal seminar, generally held in large theatres – all students enrolled in a course are expected to attend each course lecture
- a tutorial is usually a small discussion group that is offered to complement the material presented in lectures

Central Teaching Facilities

Student Services
W: uq.edu.au/student-services/learning

Students relax and collaborate at UQ’s Pharmacy Australia Centre of Excellence (PACE) Library at Woolloongabba
What are UQ's research higher degrees?

Doctor of Philosophy (PhD)
A PhD is one of the highest degrees that can be awarded. It is seen as a requirement for the majority of academic and research positions in a wide range of fields and industries. The aim of the PhD is to foster the development of independent research skills.

Master of Philosophy (MPhil)
The MPhil is an internationally recognised research degree that involves undertaking a significant research project. This program provides candidates with an opportunity to develop and enhance analytical and research skills through independent investigation in a specific field.

Doctor of Biotechnology (DBiotech)
The DBiotech program is designed to train scientists to develop an understanding of management issues for research enterprises and technology ventures and the integration of specialist training in the area of biotechnology and research. The doctorate includes one semester of advanced coursework in areas such as intellectual property management, regulatory and legal issues, innovation and entrepreneurship and biotechnology venture management. The program also includes a one semester professional placement in industry and a two-year research project and thesis generally focussed on the technology transfer, legal, regulatory, quality or production aspects of biotechnology.

The UQ Advantage

First-Class facilities
UQ campuses are among the most attractive in Australia, boasting outstanding sporting and recreational facilities, as well as a vibrant campus culture and:
- multi-million dollar laboratories and research centres
- one of the country’s largest academic libraries, with more than two million physical format resources and 116,800+ distinct journal titles.

Financial strength
- UQ receives approximately AU$360 million in research funding annually
- annual scholarship budget of almost AU$40 million
- additional AU$250,000 for international research travel

Research commercialisation
- UQ’s primary commercialisation company, UniQuest, delivers commercialisation outcomes that create impact for UQ and provide solutions for commercial, environmental and social benefit
- UQ offers free research commercialisation workshops to research candidates.

Three Minute Thesis (3MT)
The UQ Graduate School’s annual research competition, Three Minute Thesis (3MT®) celebrates the exciting research conducted by UQ PhD candidates. Founded by UQ, the exercise cultivates candidates’ academic, presentation, and research communication skills. 3MT® supports their capacity to effectively explain their research in three minutes in a language appropriate to a non-specialist audience.

Research commercialisation

As an RHD student at UQ you join a culture of research excellence.
Your RHD provides choice and opportunity from UQ’s many advantages.
uq.edu.au/grad-school/choosing-uq

WILSON CHAN (SINGAPORE)
PhD graduate and HIFiRE 8 postdoctoral research fellow

"Deciding on UQ as the institution for my postgraduate studies was easy. UQ’s Centre for Hypersonics is regarded as one of the world leaders in hypersonic research. Who would reject an opportunity to do a PhD with such a prestigious group? I think the PhD program was really helpful in preparing me for an academic career path. The technical skills and research approaches that I learned are critical for the research I am conducting in the HIFiRE program."
RHD tuition fees

Full-time, on-shore MPhil or PhD fees are as per table at right.

If you are enrolled as a remote candidate, tuition fees are:
- Part-time: 40 per cent of fees listed below
- Full-time: 60 per cent of fees listed below.

Note: if you have any periods of on-campus study as a remote student, you will be charged an additional amount.

Research quarters

International RHD candidates at UQ enjoy a significant advantage over students at most other tertiary institutions with annual tuition fees divided into quarters instead of semesters. This reduces the pressure to submit research prematurely due to financial pressures.

Research quarters are designed to match RHD student enrolment and work patterns, as well as scholarship rounds.

You will be required to commence your program within the first two weeks of a research quarter: 1-14 January, April, July or October.

Research tuition fees information
W: uq.edu.au/grad-school/fees
E: graduateschool@uq.edu.au
T: +61 7 3365 2328

At UQ, we have made applying for a research degree as easy as possible.

You can apply online or through a UQ representative by following these simple steps.*

uq.edu.au/grad-school/apply
uq.edu.au/international/edureps

Search for a supervisor
Visit uq.edu.au/uqresearchers or uq.edu.au/uqexperts
You should also familiarise yourself with UQ’s research degree entry requirements and scholarships.

Prepare your documentation
When applying you must upload a number of scanned documents to support your application, such as a research proposal, academic CV, academic transcript, award certificates, proof of English proficiency and two referee reports. If you do not upload all suggested documents you may find your application delayed or rejected.

Apply online
The information you provide in your application will help UQ assess your suitability for undertaking a research higher degree at the university. If you wish to be considered for a competitive, merit-based scholarship, simply indicate this on the application form. There is no need to fill out a separate application form.

UQ GRADUATE SCHOOL CAREER DEVELOPMENT FRAMEWORK

The Career Development Framework (CDF) provides directed, experiential learning to help you work towards your research and professional goals.

The CDF offers UQ research higher degree candidates more than 100 practical and theoretical training activities to complement the skills, knowledge and expertise developed throughout their program. It is designed to help candidates bridge the gap between their research degree and their career by providing them with opportunities to develop additional research, professional and transferable skills.

Developed in consultation with research candidates and industry, the CDF provides a skills and personal development based approach to research training.

While recognising the centrality of excellent disciplinary training provided within the UQ research degree, it provides candidates with additional developmental activities across four key themes:

- Commercialisation and Entrepreneurship
- Knowledge Transfer and Strategy
- Your Research Degree
- Academic Development.

Career Development Framework

WANIDA PHETSANG
(THAILAND)
PhD candidate and 3M Scholarship recipient

"The placement at 3M Thailand was a wonderful experience because I learned new things, met lovely colleagues and got experience working in industry. I have a better picture of what corporate culture is like, which will help me to make a decision about what career path I will pursue after I finish my PhD. Should I join the corporate sector or academia? This experience will be an influential factor for me to make that decision."
**LEARNING ENGLISH**

**English language studies**
Each year more than 2500 students from over 50 countries around the world choose to learn English at UQ’s Institute of Continuing & TESOL Education (ICTE-UQ).

ICTE-UQ offers courses to help you improve your English for work, travel or further study. ICTE-UQ students:
- learn from experienced and supportive teachers in small classes of 12-18 students
- study in an award-winning building at UQ St Lucia
- get support to learn, have fun, and stay happy and healthy.

ICTE-UQ student services include help with arriving in Brisbane; finding somewhere to live (including homestay accommodation); job search and study skills workshops; cultural, sporting and social activities; and on-campus health and welfare support.

You can choose to enrol at ICTE-UQ for between five and 45 weeks. Visit the website for course dates and fees, application information, or to download an application form.

<table>
<thead>
<tr>
<th>COURSE</th>
<th>DESCRIPTION</th>
<th>ENGLISH LANGUAGE ENTRY REQUIREMENTS*</th>
<th>DURATION</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>General English (GE)</strong></td>
<td>GE develops English language communication skills through a balance of speaking, listening, reading and writing tasks. GE is an ideal study option for students who want to improve their ability to communicate in English for social or work situations, or progress to a more advanced ICTE-UQ course.</td>
<td>GE is offered at seven levels (Pre-elementary to Advanced). Students from a Pre-elementary level are eligible to enrol.</td>
<td>5-45 weeks</td>
</tr>
</tbody>
</table>
| **English for Academic Purposes (EAP)** | EAP prepares students for success in academic study and in the IELTS test. Course materials and assessment reflect the type of activities and learning environment students experience in university or academic studies. | EAP I: IELTS 5 (no score less than 5)  
EAP II: IELTS 5.5 (no score less than 5.5) | 5-30 weeks |
| **Bridging English Program (BEP)** | BEP is an English language entry pathway to UQ programs. It develops the specialist English language skills needed for UQ program entry and studies. | See icte.uq.edu.au/bep and facing page for information about BEP entry requirements | 10 or 20 weeks |
| **English for International Business Communication (EIBC)** | EIBC develops confidence to use English to communicate in real world business situations. Class exercises are based on a weekly business theme and include role plays, case studies, group and individual projects. | EIBC I: IELTS 5 (5 in Speaking and Writing)  
EIBC II: IELTS 5.5 (5.5 in Speaking and Writing) | 5-30 weeks |
| **Advanced English Communication Skills (AECs)** | AECs focuses on developing advanced listening and speaking skills through a wide variety of authentic study materials and a class project such as writing and performing a live play. | IELTS 5.5 (6 in Speaking and Listening) | 5-10 weeks |
| **Go Global Program**         | Go Global is a program designed to fast track the global careers of young graduates. It includes a combination of English language skills training, workplace skills development and an eight-week professional internship placement. | Option A: IELTS 5 (no score less than 5)  
Option B: IELTS 5.5 (no score less than 5.5) | 20-25 weeks |

---

* Or equivalent as determined by ICTE-UQ. All students are tested on their first day to determine their course and class level.
English language pathways to UQ

If you meet all the academic entry requirements for your UQ program (see separate program supplements), but need further English language training, then you are eligible to undertake an English language pathway.

English language pathway students receive a Package Offer to UQ which includes an offer for a place in an ICTE-UQ English course plus an offer for a place in a UQ program (conditional on meeting the English language proficiency requirements for entry).

### The General English/English for Academic Purposes (GE/EAP) Pathway

**IELTS (or other UQ-accepted test) + UQ Application**

To apply for an English language pathway, submit a complete UQ program application to International Admissions.

You must include UQ-accepted English language test results with your application. These will be used to calculate how many weeks you will need to study English at ICTE-UQ and which of the following two English course options is right for you.

### The Bridging English Program (BEP) Pathway

**BEP (10 or 20 weeks)**

BEP is a 10- or 20-week course designed to develop the English language skills you need to enter and succeed at UQ.

BEP entry requirements are listed below.

**UQ Program Entry**

To gain entry to your UQ program, you must achieve the BEP exit (end of course) results below.

### BEP Entry and Exit Requirements

For UQ programs requiring Academic IELTS 6.5 (no sub-bandscore less than 6.0) OR IBTOEFL 87 (21 for Writing, 19 for Speaking, Listening and Reading)

- **20-week BEP**
  - IELTS 5.5 (no score less than 5.0) OR IB TOEFL 77 (Speaking: 15, Listening and Reading: 17, Writing: 19)

- **10-week BEP**
  - IELTS 6.0 (no score less than 5.5) OR IB TOEFL 78 (Speaking: 17, Listening and Reading: 17, Writing: 19)

**Exit Requirement for UQ**

BEP exit grade of 4 (minimum Satisfactory Achievement in all four skills)

For UQ programs requiring Academic IELTS other than/higher than 6.5 (no sub-bandscore less than 6.0)

- **20-week BEP**
  - Not available for these programs

- **10-week BEP**
  - Academic IELTS Overall Bandscore: Not more than 0.5 band below the specified UQ degree program Overall Band requirement
  - Academic IELTS Sub-bandscores: If specified for UQ degree program, not more than 0.5 band below the sub-band requirement; if not specified, no more than one band below the UQ degree program Overall Band requirement

**Exit Requirement for UQ**

BEP exit grade of 5 (for UQ IELTS OB7 or above programs) plus minimum High Achievement in all four skills

ENHANCE YOUR STUDIES

Take a free, interactive Massive Open Online Course (MOOC) with UQx

UQx MOOCs
UQx, UQ’s online course development team, has launched eight MOOCs in the areas of biomedical imaging, tropical coastal ecosystems, hypersonics, science of everyday thinking, English grammar and style, psychology of criminal justice, anthropology of current world issues, and understanding climate science denial.

MOOCs that UQx plans to release in the near future include philosophy and critical thinking, International English Language Testing System (IELTS) academic test preparation, working in teams, intellectual disability healthcare, employability, and science literacy for high school students.

All UQx courses are offered as either paced or self-paced courses, meaning you can be assessed and receive a certificate upon completion. Courses launching soon:

**EMPLOY101x: Unlocking your employability**
A suite of learning modules aimed at increasing the employability of UQ students – prospective and current, and UQ graduates.
Course Leads: Andrea Reid and Anna Richardson

**IELTSx: IELTS Academic Test Preparation**
Prepare for the IELTS Academic tests in this comprehensive, self-paced course covering listening, speaking, reading and writing.
Course Leads: Iain Mathieson and Martin Dutton

edX overview
edX is a not-for-profit online education venture founded by Harvard University and the Massachusetts Institute of Technology (MIT) that is committed to making high-quality educational experiences more widely available. Online courses are available free of charge in a diverse range of areas: see edx.org for the complete course catalogue.

Partner organisations:
Harvard University and Massachusetts Institute of Technology (MIT), plus many other universities across the globe. UQ encourages you to explore learning opportunities through other xConsortium partner courses.

Recognition:
Completion of UQx courses may be recognised on your transcript. Through edX, UQx offers honour code certificates, ID verified certificates, and XSeries certificates that you may use to record your personal accomplishments or showcase your abilities to universities or employers.

OTHER STUDY OPTIONS

Study Abroad and Incoming Exchange
If you are a student currently enrolled at an accredited overseas university, you may be eligible to study at UQ for one or two semesters under the Study Abroad and Incoming Exchange program.

If your university has an exchange agreement with UQ, you may be nominated for the Incoming Exchange program to UQ, where you submit your application and pay tuition fees to your home university (based on your home university’s fee requirements). Credit for UQ courses successfully completed is normally transferable towards your home university degree.

If your university does not have an exchange agreement with UQ, or there are limited exchange places, you can apply as a Study Abroad student. In 2017, Study Abroad tuition fees are AU$11,700 per semester. Please note this is a non-award program and credit gained at UQ is usually transferred towards your degree at your home university.

Summer and Winter Research Programs
Gain research experience working alongside some of UQ’s leading academics and researchers.

If you are an undergraduate (including honours) student with at least a year of completed study, or a coursework Masters student, you can apply for UQ’s Summer or Winter Research Program.

Research projects are available in many disciplines for between six and 10 weeks over the summer vacation period (mid-November–mid-February), or for four to six weeks over the winter vacation period (mid-June–mid-July). See application deadlines on the website.

By participating in this program, you will improve your employability, extend your knowledge of an area of interest, and develop your analytical, critical thinking and communication skills.

Selected research scholars will automatically be considered for a UQ Summer or Winter Research grant.

Concurrent Diploma
At UQ, you can undertake an undergraduate diploma concurrently with your bachelor degree. You generally spread the load as extra courses across the duration of your degree, but can sometimes study several of the required courses simultaneously in one or two semesters.

If you wish to enrol in the Diplomas in Music Performance or Languages, you can apply directly to UQ once you are offered a place at UQ. If you want to do the Diploma in Global Issues, you will need to complete a year (16 units) of undergraduate studies before applying.

Study overseas
UQ Abroad offers a wide range of overseas experiences, including semester-based student exchange, short-term study, internships and volunteering.

Choose from almost 200 exchange partners in 40 countries, combine study and travel, and have the adventure of a lifetime.

Learn a language
If your program does not allow you to enrol in languages as an elective, you have other options.

You can take an extra-curricular language course at UQ’s Institute of Modern Languages (IML), which offers:
- more than 30 languages
- beginner to advanced levels
- listening, speaking, reading and writing skills
- small, friendly classes
- no formal entry requirements.

Although courses will not count towards your program, IML assesses your progress as you go.

UQ PARTNERS

UQ has links worldwide and is also a proud member of the prestigious Group of Eight and Universitas 21 networks.

UQ’s partnership network

The University of Queensland has a strategic partnership network across more than 50 countries, which includes leading organisations and institutions across higher education, research, industry, government, sponsorship and philanthropy.

As a key component of UQ’s broader Global Strategy, UQ seeks to ensure a cohesive and coordinated approach to collaboration with international partners. UQ partners for global impact by building meaningful relationships worldwide and leveraging our strategic global presence.

UQ’s global connectedness has a multitude of beneficiaries, leading to research outcomes, products and services that have real impacts on people around the world.

Through our partnerships, UQ students can study in more than 40 countries to develop broaden their perspectives, build international networks and prepare for global careers. Almost a quarter of UQ’s undergraduate students engage in an international experience of some kind during their studies.

UQ is also a member of a number of global networks that enhance the opportunities for collaboration for our staff and students, including: Universitas 21, a select international network of comprehensive, research-intensive universities; edX, the world’s leading consortium of Massive Open Online Courses (MOOCs); and the McDonnell International Scholars Academy, a select group of research universities that aims to develop future leaders and promote global awareness and social responsibility.

UQ also has a number of arrangements with international institutions to facilitate the progression of students from those institutions to UQ through credit transfer.

Universitas 21

Universitas 21 is an international network of leading research-intensive universities that work cooperatively to create large-scale global opportunities.

LIFE AT UQ

While study is a high priority at UQ, we also have sporting, cultural, recreational and learning support activities for you to enjoy.
Orientation

New Student Welcome Expo
The New Student Welcome Expo is a compulsory orientation session that provides an overview of:
- services and support available at UQ
- UQ’s special resources and facilities
- information about living in Brisbane
- important contacts for new students.
Following this official welcome event, separate Orientation sessions are held for Study Abroad and Incoming Exchange students, and faculty and/or program sessions are held for full degree students. These offer more specific information and advice on issues such as enrolment, using the library, learning assistance, and living and travelling in Australia.

O-Week
W: orientation.uq.edu.au/oweek

Other sessions

Getting Started
Getting Started sessions are designed to help you make a smooth transition to campus life, and you should attend one within two or three days of your arrival. At this session you will:
- meet an International Student Advisor
- find out how to enrol and register for classes
- learn how to get your student ID card and your OSHC card
- receive information on banking, key university services and resources, and how to use public transport in Brisbane.

Getting Started
W: orientation.uq.edu.au/event-search/category/getting-started-sessions-16

JSAPP Academic Preparation Program
The Jump Start Academic Preparation Program (JSAPP) takes place during the week before Orientation Week. JSAPP offers a friendly and supportive environment in which to make the transition to a new educational institution and cultural setting. It also provides a great opportunity to meet other students and make contact with staff who will support you during your studies at UQ.
JSAPP covers topics that will help you develop your academic and study skills, and learn about the IT and online tools used at UQ.

JSAPP
W: uq.edu.au/student-services/new2uq/jsapp

Academic workshops
Throughout O-Week and during semester, Student Services offers free workshops covering a range of academic topics, such as time management, preparing for exams, and avoiding plagiarism.

Academic workshops
W: uq.edu.au/student-services/learning-workshops
Clubs and societies

If you adore anime, crave karaoke, yen for yoga, go mad for medievalism or quest for Quidditch, consider joining a UQ club.

Whatever your passion, with more than 200 affiliated clubs and societies on offer UQ is sure to have something just right for you.

Learn new skills, expand your network, or just hang out with like-minded people. Check out what’s available at Market Day during O-Week or contact UQ Union or UQ Sport.

**UQU clubs and societies**

**UQ Sport**
T: +61 7 3365 6612

**Worship**

UQ respects and welcomes students of all faiths and those who may be spiritual but not religious.

At UQ, our Multi-Faith Chaplaincy Service provides you with pastoral care, support, spiritual conversations, yoga, meditation, celebrations, opportunities to mingle with people from different cultures and faiths, learning and events.

Chaplains representing the Muslim, Jewish, Buddhist, Baha’i, Hindu and many Christian faiths are available to all, and you can take advantage of our well-appointed prayer, meditation and worship space.

CAMPUS SERVICES

Buy food
UQ offers a wide variety of on-campus food outlets.

UQU outlets on all campuses carry a range of certified and labelled organic, gluten-free, vegetarian and halal-friendly food products.

UQ St Lucia
You can buy coffee, light snacks, hot meals, dumplings, pies, bubble tea, Asian noodles, vegetarian dishes, pizza, pasta, kebabs, burgers, sausages, sushi, sandwiches and cakes on-campus, with many cafés and eateries within walking distance.

UQ Gatton
You can buy food and coffee from the Coffee Cart, Dining Hall and Walkway Café.

UQ Herston
You can buy food and coffee from Café Dosé and other campus eateries within walking distance.

You can buy coffee, light snacks, hot meals, dumplings, pies, bubble tea, Asian noodles, vegetarian dishes, pizza, pasta, kebabs, burgers, sausages, sushi, sandwiches and cakes on-campus, with many cafés and eateries within walking distance.

Buy books
Buy textbooks and other study materials on campus or nearby.

The Co-op bookshops at each campus stock new textbooks, stationery, gifts and other materials. Keep in mind that you can also borrow books from the UQ Library short-term. You can sell your secondhand books once you've used them at Secondhand Texts & Stationery, UQ's on-campus agent for resale.

You can buy stationery, secondhand books and other equipment such as laboratory coats at Secondhand Texts & Stationery at UQ St Lucia or at the UQ Gatton bookshop.

Feel safe
Feel safe on UQ campuses with 24-hour security patrols.

UQ campuses are well lit and have security call points in strategic locations. You can call an emergency phone number any hour of the day and a Security Officer will respond immediately.

Our UniSafe program offers:
- the UniSafe Escort service at St Lucia and Gatton campuses, where you can ask for someone to accompany you to public transport or your carpark when it is dark
- preferred pedestrian paths at night
- a Safety Bus service after 6pm at UQ St Lucia, which links main buildings, colleges, carparks, and public transport stops.

Arrange childcare
Study at ease, knowing your child is being well cared for close-by.

A number of independently operated childcare, family day care, kindergarten, and after-school care facilities operate on or near all UQ campuses. There are four on-campus childcare centres at St Lucia and one at Gatton that give priority to children of UQ students and staff.

Contact on-campus centres directly (see table below) to find out about vacancies, or search for other services using the web links below.

Go shopping
UQ campuses have many shops and markets waiting for you.

UQ St Lucia
- Specialty shops, including a pharmacy, hairdresser, and travel agent
- Multiple food courts
- Campus post office and newsagents
- Dentist and medical centre
- Wednesday markets with handicrafts, gifts and fashion
- Grocery stores only a short walk away.

UQ Gatton
- Post office, bookshop and food outlets
- Twice-yearly UQ Gatton Walkway Markets, where local growers and suppliers sell their products on campus.

UQ Herston
- Specialty shops, including a gift shop and pharmacy
- Hospital post office and newsagent
- Three-kilometre walk to Brisbane CBD.

YOUR HEALTH AND FITNESS

Sport and fitness

PLAY YOUR WAY at university! Combine your studies with playing a sport you enjoy, keeping fit and making the most of the excellent sporting and health facilities available on campus.

Healthcare

If you need to see a doctor while on campus, you can visit the UQ Health Service (UQHS), an accredited general practice providing comprehensive and confidential health services for students.

Services include general medicine and specialist referrals, contraception advice, counselling, minor surgery, travel advice and vaccinations.

UQHS “direct-bills”, meaning that you generally only pay for immunisation and medications prescribed provided your OSHC insurance is with UQ’s preferred provider Allianz Global Assistance.

Students with OSHC cover from other companies will need to pay UQ Health Service and then claim back most or all of their costs from their OSHC provider again excluding the cost of immunisations and prescribed medication.

There is also a dental clinic at UQ St Lucia that offers student discounts. Note that dental treatment is not covered under Allianz OSHC.

University Health Service
W: uq.edu.au/healthservice

UQ Sport’s Boat (Rowing) Club students start their day with a splash on Brisbane River
Fitness

UQ Sport offers hundreds of sports and activities to help you keep active.

Located across UQ’s St Lucia and Gatton campuses, UQ Sport venues are open to UQ students and alumni all year round and provide some of Brisbane’s best sport and fitness facilities, including cardio and weights gyms, a 50-metre pool, an Olympic-standard athletics track, 21 floodlit tennis courts, several ovals and much more.

UQ Sport at St Lucia:
- 30+ clubs for hockey, boxing, rugby league, rugby union, football (soccer), sailing and more
- 90+ weekly group classes for cardio, strength, yoga and more
- Learn-to-swim lessons, plus regular swim squads every week
- Group or one-on-one tennis coaching and super-fun Cardio Tennis classes
- Social sport competitions in a range of sports
- Ten-week courses in sport and recreation
- Athletics coaching
- Sporting scholarships and high-performance services for elite athletes.

UQ Sport at Gatton:
- Weekly group fitness classes including boot camp, yoga, Pilates, and high-intensity toning classes
- Social sport competitions in a range of sports, including netball, touch, football, basketball, badminton and futsal
- An on-campus cardio and weights gym, 25-metre pool, tennis courts, basketball court, ovals and squash courts.

YOUR RESOURCES

Library
You will receive excellent support for all your research and study needs at UQ.

You can access extensive print and electronic collections including books and electronic journals, databases, DVDs and video streams, textbooks and other items on your course reading lists, plus extensive manuscript, microform and pictorial collections.

We also offer:
- 1300 computers
- strong wireless network
- spaces for large groups to collaborate
- small study rooms and quiet retreat areas for individuals or one-to-one consultation
- 24-hour study spaces
- computer training rooms
- research assistance
- referencing software and information
- resources to help you start your research
- online and in-person training and support
- access to past exam papers
- generous borrowing privileges
- printing, copying and scanning facilities
- 3D printing service
- friendly and helpful staff
- an annual program of author talks and events.

We also offer:
- collections.

You can access extensive print and electronic collections including books and electronic journals, databases, DVDs and video streams, textbooks and other items on your course reading lists, plus extensive manuscript, microform and pictorial collections.

Learning assistance
Enrich your study skills and set yourself up for academic success.

We can help you get the most out of your studies, tackle assignments and prepare well for exams, with our range of online and in-person workshops.

Learn how to write assignments, prepare for exams, manage your time, make effective presentations, and stress less.

We also have Learning Advisors who can help you clarify ideas from workshops you’ve attended, develop your study skills, and give you feedback on assignments.

Peer Assisted Study Sessions (PASS)
Learn from students who have “been there, done that” through PASS, a mentoring scheme offered by some faculties.

Second- or third-year students who have successfully completed a specific course run collaborative study sessions of up to 25 students. They can provide advice on coursework and content, as well as suggest effective study habits that will help you make the most of your time.

PASS
W: Google “UQ Peer Assisted Study Sessions” and your faculty for available session information

English language support (EAC)
If you need extra English language support while you are studying at UQ, you can access free English for Academic Communication (EAC) support courses through UQ’s Institute of Continuing & TESOL Education (ICTE-UQ).

EAC courses are available exclusively to UQ international students and UQ students who are not from an English speaking background. Courses run for six to eight weeks and are offered on a part-time basis each UQ semester. You can choose to register for the skill stream that will help you most: writing, speaking, listening, or reading. Register online.

ICTE-UQ (CRICOS Provider Number 00091C)
W: icte.uq.edu.au/english-support

Get connected
With one of the fastest and most advanced wireless networks in the world, you can easily access the web on campus, around Australia or overseas.

Across UQ’s three campuses and other sites, you can access more than 5000 wireless access points.

You can also access the Internet off-campus at hundreds of participating universities via Eduroam.

Every UQ student receives a free internet account with a generous 40GB per month download quota, as well as access to:

- online learning technology such as virtual classrooms with video lectures, online tools, course materials, lecture notes and recordings (electronic assignment marking and return is conducted in some areas)
- dedicated enrolment and orientation websites for step-by-step guidance in starting your studies at UQ
- personalised myUQ portal for email, student records, study resources and calendars
- phone and online IT support six days a week
- various apps, including UQnav for finding your way around UQ campuses
- access to free and discounted software, including antivirus and Microsoft Office programs.

If you need help getting connected to UQ’s networks, instructions on how to use our systems and sites, or want to download any of UQ’s helpful apps, visit our websites:

Information Technology Services (ITS)

App Central
W: uq.edu.au/appcentral

Writing courses
UQ offers courses at undergraduate and postgraduate study levels to help students who use English as a second language with their academic English.

Writing for International students (WRIT1001) is a course for undergraduate students who use English as a second language.

This course teaches the basics of writing academic English, focusing on the argumentative essay, including developing and structuring an argument, critical thinking and analysis, and using and evaluating sources.

Academic English and thesis writing for international students (WRIT6001) is a course for postgraduate students who speak English as a second language.

The course seeks to develop writing competence in academic English at the postgraduate level, and is especially useful if you are planning to write extended research papers and theses.

Search WRIT1001 or WRIT6001

YOUR SUPPORT

New2UQ
Want advice about settling into life at UQ and beyond?
Specifically designed for first-year students, New2UQ offers academic and social orientation activities to help you make the most of your studies and life at UQ. Some topics and advice offered include:
- settling into university life
- who to go to and how to ask for help
- time management skills
- writing assignments in appropriate format
- career options you never considered
- how to create an amazing resume.

New2UQ
W: uq.edu.au/student-services/new2uq

Counselling
University can be exciting and rewarding, but can also be a time of change and stress.
A UQ counsellor can help: someone to listen without judgement, offer new perspectives, and help you to find solutions for problems you may be facing. UQ’s free service for all students is strictly confidential.

Student counsellor
W: uq.edu.au/student-services/counselling
T: +61 7 3365 1704

Equity support
At UQ, we foster an inclusive learning environment.
If you are concerned you have been discriminated against or harassed, it’s important you report it. Discrimination and Harassment Contact Officers can provide you with information, support, or advice.

UQ’s Ally Network is another source of support if you identify as lesbian, gay, transgender, bisexual, or intersex (LGBTI). They are a visible network of empathetic staff and students who you can freely talk to for advice.

Discrimination and Harassment Contact Officers

International Student Advisors
International Student Advisors (ISAs) provide a range of support services from pre-arrival through to departure.
These services relate to studying at UQ, transitioning to university life, and living in South-East Queensland. ISAs can also answer questions about health services, family matters, schooling or childcare, working on a student visa, contacting government departments, and understanding university processes and facilities.

International advisors
W: uq.edu.au/student-services/international-students

Disability support
Access support for your disability, illness, injury, mental illness or medical condition.
UQ offers ongoing support services including access to assistive technology, equipment, computer facilities, participation assistance, note-taking, alternative print formats, exam adjustments, and liaising with your faculty so that you can equitably study. Call or make an appointment with one of our Disability Advisors.

Disability Advisors

Questions?
Visit UQ Answers online or contact one of our three Student Centres for help with:
- forms and student letters
- payments and fees
- orientation
- academic records
- admissions and enrolments
- examinations
- grievances
- document certification
- student visas.
We solve problems: if we can’t help you, we’ll find someone who can.

UQU is an independent body that works closely with the University to provide free support for you during your studies at UQ.

The qualified and professional SHOC team can help you with a range of services relating to employment, education and equity, welfare, gender, sexuality, legal issues and migration, including:
- finding a part-time job while you study
- responding to University decisions
- extending your student visa
- getting LGBTIQ support and information
- seeking legal advice
- dealing with financial pressures.

EXPENSES AND ACCOMMODATION

When you study at university, you will pay tuition fees and living costs.
General expenses
Brisbane is an affordable city and has a lower cost of living when compared with other Australian capital cities. Nevertheless, you still need to plan and budget carefully.

How much it will cost you to live in Brisbane will depend partly on your lifestyle preferences. As a guide, if you are living in shared accommodation off-campus, you can pay approximately AU$17,400–$25,920 per calendar year while living in Australia. In addition to this amount, you will also need to consider establishment costs such as buying furniture, paying rental bond and setting up electricity, gas and mobile phone accounts, as well as other expenses such as visa and medical fees, tuition fees, return airfares, and Overseas Student Health Cover (OSHC).

Remember that exchange rate variations may also affect your budget.

See page 50

Statutory expenses
If you are eligible for Student Visa Processing (SVP), you must read and sign a financial declaration and return it to The University of Queensland along with your Acceptance.

If your program is not eligible for Streamlined Visa Processing (SVP), the Department of Immigration and Border Protection (DIBP) may ask you to prove that you have enough money to complete your studies.

Streamlined Visa Processing (SVP)
W: future-students.uq.edu.au/international/svp
See page 27

Concessions and student discounts
UQ students can get many discounts, which are typically accessed using a valid student card.

These include discounted products such as software and technology, as well as concession prices for many public services such as transport (using a student go card), cinemas, museums and more.
LIVING COSTS

Weekly expenses guide
The chart below gives you an idea of the cost of living while you study at UQ.

It does not include establishment costs. If you plan to live in off-campus rental accommodation you will also need to factor in government for approximately eight nights of temporary accommodation when you first arrive; buying furniture; setting up electricity, gas, a home phone or a mobile phone account; rental bond (usually the equivalent of a month’s rent; rental bond is refundable when you leave your rental property, provided the property is in a good condition); and two weeks’ rent in advance.

In 2017, estimated establishment costs for one student living off-campus are AU$3000, and for a family living off-campus (two adults and one child) they are AU$7900.

Please be advised that this is a guide only and prices may vary depending on personal lifestyle. Amounts are based on 2016 living costs. You should allow for a four to five per cent increase in living expenses each year.

The table does not include UQ tuition fees, textbooks, clothing, entertainment, printing, and health-care costs.

A more detailed monthly expenses guide, including costs of daily items, is included on our website.

Overseas student health cover (OSHC)
Overseas Student Health Cover (OSHC) is insurance that covers basic medical and hospital care that you may need when you are in Australia.

You must have OSHC if you have, or want to apply for, a student visa and you can obtain it from any government-approved OSHC provider.

OSHC only covers you from the time you arrive in Australia and so you may also need travel insurance while in transit.

Department of Health
W: health.gov.au

OSHC by Allianz Global Assistance
UQ’s preferred OSHC provider is Allianz Global Assistance and the University can accept payment on their behalf.

Your Letter of Offer will indicate the Allianz Global Assistance OSHC fee for visa-length cover of OSHC, and the program deposit amount that is part of your tuition fee. When you have paid the deposit and OSHC, and signed and returned the Acceptance form, your Confirmation of Enrolment (CoE) will be issued. This will show that the OSHC has been paid, which will satisfy the student visa application requirements.

OSHC Allianz Global Assistance
W: oshcallianzassistance.com.au

OSHC by Allianz Global Assistance

- 24-hour emergency assistance and medical advice
- partial coverage of medical services provided by doctors (general practitioner services)
- partial coverage of medical services such as pathology and radiology
- some prescription medicines
- emergency ambulance services.

Note that there is a waiting period for claims relating to most pre-existing medical conditions and not all medical claims are covered under OSHC: see oshcallianzassistance.com.au.

- Allianz Global Assistance is also the preferred OSHC provider for UQ’s Institute of Continuing & TESOL Education (ICTE-UQ) and IES Foundation Year, and students can buy Allianz Global Assistance OSHC insurance when paying their tuition fees.

*Single – Covers only the valid student visa holder.
**Dual Family – Covers one valid student visa holder plus either one adult spouse or recognised de-facts partner or one or more dependant children.
***Multi Family – Covers one student visa holder plus more than one dependant which can only include one adult spouse or recognised de-facts partner and one or more dependant children.

Please note that OSHC fees listed are for 2016: fees are reviewed each year and are subject to change.

Other government-approved OSHC providers

UQ has no relationship with any other government-approved OSHC providers and so cannot accept payment from students for any provider other than Allianz Global Assistance.

However, you can contact another OSHC provider and insure with them directly, e.g. British United Provident Association (BUPA) Ltd, Australian Health Management (AHM), NIB, or Medibank Private. You will need to provide evidence of this cover before your CoE can be issued.

Childcare costs

Childcare costs in Australia are very high (up to approximately AU$95 per child per day). There are also long wait periods for places, so we recommend you place your name on several waiting lists well in advance. You will need to contact childcare centres directly before you arrive.

See page 43

Resources for parents and carers
W: uq.edu.au/equity/resources-parents-and-carers

School tuition fees for children

The Department of Immigration and Border Protection requires that dependant children between the ages of five and 18 attend school full-time as a condition of the dependant visa. International fee-paying students may be required to pay school tuition fees for school-aged children.

2016 annual fees for Queensland government schools

<table>
<thead>
<tr>
<th>YEAR LEVEL</th>
<th>FEE (AUS)*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Primary School (Prep-Year 6)</td>
<td>$11,792</td>
</tr>
<tr>
<td>High School (Years 7-10)</td>
<td>$12,912</td>
</tr>
<tr>
<td>High School (Years 11-12)</td>
<td>$14,600</td>
</tr>
</tbody>
</table>

* These fees may increase in 2017; you may also have to pay school application fees.

If you have school-aged children, you should email Student Services for assistance with applying for schooling and obtaining a Confirmation of Enrolment (CoE) which provides proof of school enrolment for your child’s dependant visa application. Once you arrive in Queensland you can then register your children to attend a specific school near where you will be living. You should budget AU$1400 per child per year for additional school expenses.

If you have received a scholarship directly from the Australian government and/or you are a PhD student, you may be exempt from paying school tuition fees for your school-aged children who attend government schools in Queensland. Check Education Queensland’s policy on the waiver of school tuition fees.

Working while studying

If you are residing in Australia on a student visa and want to work, the number of hours per fortnight (two weeks) you can work will depend on the type of student visa you have.

Holders of a Subclass 573 (Higher Education sector) student visa can work up to 40 hours per fortnight while their university program is in session, and unlimited hours during scheduled university breaks.

If you hold a Subclass 574 (Postgraduate Research sector) student visa, you can work unlimited hours a fortnight once you have commenced your masters by research or doctorate course of study in Australia.

This information applies to visas issued after 26 April 2008.

If you are studying at UQ on a scholarship, you should contact your scholarship provider about how many hours you are permitted to work each week.

Amit Dhole (India)

PhD student, School of Information Technology and Electrical Engineering

I feel Australia is like home to me, as I have lots of friends. The Brisbane community is very nice, friendly and helpful. I like the weather of Australia. For my research in solar it is the best destination.
Top tips for house-hunting:

- Never sign up or pay any money for a private rental property without inspecting it first
- Attend an Accommodation information session
- Take some time to consider a few different suburbs – prices, size and quality may vary with location
- Try to meet all of the house-mates before moving into a share-house if possible
- Make sure you can easily access public transport from where you choose to live
- Ensure you understand all of the tenancy documentation before you sign anything
- Before you sign anything, speak to one of our Accommodation Team members so they can check the documentation for you.
WHERE TO LIVE

Colleges at UQ
Living on campus can help you transition smoothly into university.
UQ colleges are located within easy walking distance of all university facilities and provide academic support, social, cultural and sporting activities and the opportunity to build networks and friendships that will last a lifetime.

Your college roommates
- 10 residential colleges at St Lucia house 2600 Australian and international students.
- The Halls of Residence at Gatton houses 436 Australian and international students.

Your college fees
- College fees and on-campus cost of living varies between colleges. See page 54 for college contact details.
- Residential colleges provide full catering for undergraduate students.

Your college lifestyle benefits
- Convenience of university facilities and services being only a few minutes’ walk away
- Supportive staff and secure premises
- Academic tutorial programs and peer group support
- Meeting students other than those in your academic program
- Active sporting, cultural and social life
- College scholarships, prizes and bursaries.

College applications
Complete an application form which is available directly from the Colleges’ websites (see page 54).

Off-campus housing
UQ Rentals Online
On the UQ Rentals database, you can:
- access hundreds of shared and vacant property listings, ranging from low-cost sharehouses to high-rise penthouses
- filter for the price and location that best suits your needs.

Student accommodation providers
A number of independent student-accommodation providers offer a variety of purpose-built and managed housing options.

Arriving and finding accommodation
UQ Accommodation Services provides information and services to assist you to find a home that’s right for you, and make your arrival as smooth as possible.
UQ Accommodation Services include:
- Free information sessions all year
- Free tenancy advice
- Online resources
- One-on-one appointments with accommodation advisors
- Share housing and living skills advice and resources.

We advise all new students who haven’t arranged any accommodation to arrive as early as possible before classes start. Allow at least one month to get organised, arrange inspections, and lodge applications for rental properties.

CLAIRE PENG (CHINA)
Master of Business

“I lived in Emmanuel College in my second year of university. It was an absolutely delightful experience! I particularly enjoyed spending mealtimes with my college friends, chatting about things happening and sharing some fun parts of different cultures. It is full of amazing people and we are so close – just like a family. Step out of your comfort zone! UQ is such an amazing place with a diverse group of students. Get to know people in your course or residential hall and they might become your lifelong friends.”

Students relax on the courtyard at Grace College, UQ St Lucia
TUITION FEES

As an international student at UQ, you will pay international tuition fees. How much you pay depends on what program you’re studying.

Tuition fees for UQ degree programs

Program-based fees mean all courses within a program are charged at the same tuition fee rate for a given academic year. Published indicative annual fees assume you enrol in a full-time study load (usually eight units per semester). For students who are not enrolled in a standard full-time study load, the fee is pro-rated.

Each program’s fees are indexed annually. The indexation rate is fixed about 18 months in advance of a particular academic year, thereby allowing you to plan your finances ahead of time.

2017 indicative annual/semester fees for programs, based on a standard full-time study load, are included in the 2017 Undergraduate and Postgraduate Program Supplements.

To estimate the total cost of a program, multiply the semester or annual fee by the number of semesters or years. As a guide, you can add on the historical average indexation rate of four per cent per year (please note: this rate is subject to change).

Refunds

Refunds are made to international students in accordance with the University’s Fee Rules and international student refunds procedures.

Financial aid

UQ participates in and assists students to apply for student loan programs offered by their home countries to cover some educational expenses while enrolled as a full-time student in UQ programs. UQ participates in a number of programs, including the US Title IV Direct Loan Programs, US Veterans Affairs Benefits, US Private Loans, Canadian Provincial and Federal Loan programs, German BaFög, Norwegian Lånekassen, Danish “SU” Education Support Agency, and Swedish CSN Loans.

Want to find out the tuition fees for a particular program?

Australian Government scholarships

Australia Awards Scholarships
Australia Awards are prestigious international scholarships and fellowships funded by the Australian Government. They offer the next generation of global leaders an opportunity to undertake study, research and professional development in Australia and for high-achieving Australians to do the same overseas.

Australia Awards are a whole-of-Australian government initiative bringing together scholarships and fellowships administered by the Department of Foreign Affairs and Trade, the Department of Education, and the Australian Centre for International Agricultural Research.

The study and research opportunities provided by Australia Awards Scholarships help participants develop the skills and knowledge to drive change and contribute to the development outcomes of their country.

The Awards include payment of an establishment allowance, all tuition fees, return airfares, living allowance and overseas health care cover.

UQ is a participating institution and has hosted Australian Government-sponsored students for more than 50 years.

Endeavour Scholarships and Fellowships
The Endeavour Scholarships and Fellowships offer support to non-Australians from participating countries to undertake postgraduate masters by coursework or research in Australia.

The program typically offers three quarters of the scholarships and fellowships funded each year to overseas citizens (international students), with support ranging from short-term fellowships or research placements to full postgraduate degrees. Recipients receive travel and establishment funding as well as tuition-fee support.

The Endeavour Scholarships and Fellowships aim to:
- develop ongoing educational, research and professional links between individuals, organisations and countries
- increase the skills and global awareness of high-achieving individuals from Australia and overseas
- contribute to Australia’s reputation as a high-quality provider of education and training and a leader in research and innovation
- increase the productivity of Australians through international study, research or professional development experience.

Australian Centre for International Agricultural Research (ACIAR) Fellowships
ACIAR funds research projects that are developed within a framework reflecting the priorities of Australia’s aid program and national research strengths, together with the agricultural research and development priorities of partner countries.

In line with the Australian Government’s aid policy, ACIAR’s programs direct activities to developing countries in five regions: Papua New Guinea and Pacific island countries; East Asia; Mekong countries and China; South and West Asia; Sub-Saharan Africa; and Middle East and North Africa.

One of the primary aims of the ACIAR Fellowship Scheme is to commission research into improving sustainable agricultural production in developing countries.

ACIAR Fellowships
W: aciar.gov.au

UQ RHD scholarships

UQ provides almost AU$40 million in scholarship funding support each year for the living and tuition expenses of research higher degree (RHD) candidates.

UQ Graduate School scholarships are allocated in two competitively based rounds each year, and include:

International Postgraduate Research Scholarship (IPRS)
Fund by the Australian Government, IPRS scholarships are awarded to outstanding international RHD candidates to cover tuition fees and Overseas Student Health Cover costs for commencing candidates, and are based on academic merit, research experience and/or potential, and alignment with UQ’s research strengths.

UQ Centennial Scholarships (UQCent)
The UQ Centennial Scholarships are premier UQ scholarships awarded to outstanding candidates. The scholarship provides a living allowance for commencing candidates who have been awarded an IPRS, to the equivalent value of the Australian Postgraduate Award.

UQ International Scholarships (UQI)
UQI scholarships support RHD candidates who are strongly endorsed by their school or institute, but have not secured an IPRS and UQ Centennial scholarship. UQI scholarships provide tuition fees and a living allowance to international RHD candidates to the equivalent value of the Australian Postgraduate Award.

Top Up Assistance Program (TUAP)
The Top Up Assistance Program supports RHD candidates receiving a foreign Government scholarship or sponsorship with a living stipend below the Postgraduate Award. The scholarship will provide a top up to the value of the Australian Postgraduate Award.

UQ Graduate School
W: uq.edu.au/grad-school/scholarships-and-fees
T: +61 7 3346 0522

Other scholarship opportunities

Many international students at UQ are funded by scholarships from their home governments or other funding bodies.

For more information on these scholarships, you should contact the Ministry of Education or other appropriate government agency directly in your home country. Some multinational aid organisations and other large corporations also provide scholarship funding for international students.

If you wish to apply for assistance, please contact the nominated administrator within the organisation directly.

The Good Universities Guide Scholarship Search
The Good Universities Guide Scholarship Search allows you to search for financial assistance to help you pay for your university studies. You can use this search to find:
- scholarships in particular fields
- scholarships for undergraduate and postgraduate study
- different types of assistance, such as travel grants and accommodation assistance.

The Good Universities Guide Scholarship Search
WELCOME

The world around you is changing faster than ever. At UQ, your experience will position you ahead of the curve, empowering you to “create change” and transform your world for the better.

I am confident that you will thrive here, because:

- You will be taught by outstanding, inspiring teachers.
  UQ cultivates teaching excellence and has won more national teaching awards than any other Australian university.

- You will be guided by game-changing research leaders.
  UQ’s research community pioneers positive change locally and globally.

- You will graduate with a globally recognised edge over graduates from other institutions.
  UQ is internationally renowned, ranking in the top 50 global universities, so a UQ degree is a passport to an international career.

- You will be in good company.
  UQ has a diverse community of over 50,000 students, including over 12,600 international students from 140 different countries across the globe.

- You will study among talented students.
  UQ’s high entry standards mean you will learn with some of your generation’s best and brightest from all walks of life, sharing ideas and motivating each other toward greater achievements.

- You will be part of a global network.
  UQ’s connectivity means you can gain credit towards your UQ degree while studying with a partner university overseas, shaping you as a “must have” employee in a globalised workforce.

- You will have fun.
  Across UQ’s vibrant campuses, you can immerse yourself in a range of extra-curricular activities, including sports, live performances, markets, exhibitions, and special events like Oktoberfest and Market Day.

No matter what you choose to do at UQ, your time here will change you for life, shaping you into a well-rounded global citizen who inspires change in others and the world around you.

I look forward to welcoming you around you.

President and Vice-Chancellor

AGRICULTURE AND ENVIRONMENT

Whether you are interested in agribusiness, agricultural science, equine science, sustainable development, the environment, veterinary technology, or wildlife science, UQ will help you develop the specialist skills you need to undertake a key role in solving the challenges facing our world today.

FEATURED PROGRAM
Bachelor of Agricultural Science (Honours)

Go beyond the traditional growing of crops and animal production to take on a diverse and challenging career in agricultural science where you will use scientific, technological, management, economic, environmental and social principles to meet the world’s need for food and fibres.

UQ’s Bachelor of Agricultural Science (Honours) offers you a broad range of courses covering topics from economics, biochemistry, microbiology, genetics, animal nutrition, land use and the environment, and agricultural development in developing countries in Asia.

During this four-year program, you will gain an international experience through a three-week placement with Gadjah Mada University in Indonesia where you will focus on the biophysical, economic and social aspects of small scale tropical production systems.

In the final two years you will undertake an independent research project where you will extend your specialisation in either animal or plant science and build a successful career in the agricultural industries in research and development, production and management or rural finance.

UQ has:

- exciting field trips in selected courses that can take you from the Great Barrier Reef and Moreton Bay to Lamington National Park and Mount Isa
- extensive opportunities to gain advanced practical skills during courses, research projects and work placements
- Australia’s most extensive marine and environmental science teaching and research facilities including the Heron Island and the Moreton Bay research stations off Queensland’s east coast
- the most modern veterinary and animal science facilities in the southern hemisphere and the most comprehensive animal research and teaching centre in Australia
- access to 1054 hectares of working farms, nurseries, post-harvest facilities, laboratories and greenhouses
- opportunities for international study tours or exchange semesters.

Zhong Xiang Cheah, Malaysia
Bachelor of Agricultural Science

I chose UQ as it is one of the highest ranking agricultural schools in the world and the rural Gatton campus allows much more opportunity for excursions and hands-on practical work in comparison to other universities with city campuses.
**PROGRAM STRUCTURE:** Bachelor of Agricultural Science (Honours)

### MAJOR (18 units)

#### ANIMAL SCIENCE

10 units from:
- Pasture Science
- Agricultural & Resource Markets
- Agricultural and Resource Policy
- Animal Environmental Physiology
- Animal Anatomy & Physiology 1
- Animal Anatomy & Physiology 2
- Animal Health and Epidemiology
- Extensive Animal Production
- Intensive Animal Production
- Animal Reproduction
- Livestock Science & Production
- Animal Breeding & Genetics
- Emerging Issues in Animal Bioscience

8 units from:
- Research Project

#### PLANT SCIENCE

10 units from:
- Biology and Ecology of Plant Pests
- Crop Production Science
- Pasture Science
- Agricultural & Resource Markets
- Agricultural and Resource Policy
- Crop Physiology
- Plant Microbe & Insect Interactions
- Advanced Topics and Applications in Plant Science
- Fungi & Plant Diseases
- Plant Identification and Vegetation Classification
- Quantitative Genetics
- Horticultural Science
- Production Horticulture
- Soil Plant Relationships
- Soils, Landscapes & Environments
- Plant Physiology
- Plant and Environmental Health
- Plant Protection
- Weed Science

8 units from:
- Research Project

Bachelor of Agribusiness

From crop-growing through to the retail marketing of food, agribusiness professionals play an important role in feeding the world. In this program, you’ll learn the commercial side of agriculture, including growing, processing, trading and financing products. With courses founded on good business principles and practices in areas like accounting, human resources, marketing and logistics, you’ll also develop knowledge about farming and the land, and have a chance to study issues around agricultural sustainability, food security, crop production, livestock and horticulture. Throughout the program, you’ll become familiar with agribusiness organisations through visits, case studies and research projects, and a major group project with an agribusiness company in your final year.

**Admission requirements**
Queensland Year 12 (or equivalent), including Year 12 English and Mathematics A or B

**Dual degree programs**
Sustainable Agriculture, Equine Science, Veterinary Technology, Wildlife Science

**Further study options**
Bachelor of Agribusiness (Honours), Graduate Certificate in / Master of Agribusiness, MPhil, PhD

**Closing Date**
See page 36

**Placements:** 10 days approved industry practice in at least two positions in agribusiness must be completed before enrolling in AGRC5000.

---

Bachelor of Agricultural Science (Honours)

If you want to shape the future of food, fibre and farming, consider a career as an agricultural scientist, and tackle issues like climate change, food security, sustainability and agricultural productivity. This program will give you general and specialist knowledge in biochemistry, microbiology, genetics, animal nutrition, land use, economics, the environment, and agricultural development. You’ll establish a broad understanding of the industry before specialising in either animal or plant science, and during your third year you’ll also go on a three-week field trip to South-East Asia to experience their agricultural production systems and resources.

**Majors**
- Animal Science
- Plant Science

**Admission requirements**
Queensland Year 12 (or equivalent), including Year 12 English, and Chemistry or Mathematics B

**Further study options**
Graduate Certificate in / Graduate Diploma in / Master of Agricultural Science, PhD

**Closing Date**
See page 36

**Placements:** Six-month internship in an agricultural production enterprise, agribusiness or research institution.

**Practical opportunities:** Some courses within this program offer an international study tour. See science.uq.edu.au/practical-opportunities.

**Special note:** Some external courses may require residential school attendance.

---

Bachelor of Environmental Management (Honours)

Do you see yourself taking on complex issues like climate change, pollution and land clearing? This four-year interdisciplinary program bridges the gap between science and management. Courses focus on both the environmental sciences (including biology, ecology and geography) and the social sciences (including the study of economics, business and legal and policy issues). Graduate with an internationally respected honours qualification, with expertise that will set you apart in a competitive job market and provide a pathway to future research or learning.

**Majors**
- Natural Systems and Wildlife
- Sustainable Development

**Admission requirements**
Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative)

**Further study options**
PhD

**Closing Date**
See page 36

**Placements:** 12-week industrial placement within Australia or overseas.

**Practical opportunities:** Some courses within this program offer a practical placement, field trip or international study tour. See science.uq.edu.au/practical-opportunities.

---

Bachelor of Environmental Science (Honours)

Do you want to solve major global resource and environmental problems with scientific solutions? This science-focused program teaches you how to describe, monitor and predict environmental processes by examining the effect of human activity on physical and biological environments. You’ll also learn the legal, political and social aspects of environmental management. You’ll participate in field trips and complete a final-year research project, which includes an environmental impact assessment or an environmental audit.

**Majors**
- Earth Resources
- Ecology and Conservation
- Environmental Toxicology
- Natural Resource Science

**Admission requirements**
Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B and either Chemistry or Physics

**Further study options**
PhD

**Closing Date**
See page 36

**Special note:** Honours year commences three weeks before the start of Semester 1 in the standard academic calendar (i.e. end of January); in Semester 2, Honours year commences at the start of the standard academic calendar.

Contact details: International Student Advisor 1800 671 980 (free call within Australia) or +61 3 8676 7004 future-students.uq.edu.au/ask
## Bachelor of Equine Science

Humans and horses have shared a close relationship for thousands of years. In this new, three-year program, you'll study horses and their welfare, behaviour, nutrition, reproduction, health, rehabilitation, exercise, and psychology. You'll build a strong understanding of animal and plant biology, apply maths and statistics, and chemistry before specialising in areas including agricultural biochemistry, horse behaviour, physiology, biomechanics, breeding, nutritional physiology, and diet. Graduate with scientific knowledge and practical skills that can be used in all aspects of the equine industry to improve the management, performance, and welfare of all horses.

## Bachelor of Sustainable Agriculture

The world’s population is expected to reach 10 billion by 2050 and feeding our growing planet is becoming an increasing challenge. This program will teach you the scientific and managerial principles needed to help farmers sustainably increase their production of food and fibre. You'll study animal biology, plant biology, applied mathematics and agricultural biochemistry, and gain hands-on experience during an optional 120-hour placement in your third year with a host organisation in either Australia or overseas.

## Bachelor of Veterinary Technology

This program will introduce you to the theory and practice of para-veterinary healthcare, which prepares you for animal support, welfare or behavioural roles. You'll build a strong foundation in chemistry, applied maths, animal biology, communication, management, and animal behaviour and handling, before developing deeper and more specific expertise in areas including animal anatomy and physiology; animal pathogens (parasites, viruses, bacteria and similar) and immunity; agricultural biochemistry; and animal health technologies in medicine, surgery, anaesthesia and radiology. In your third year, you'll gain hands-on experience with a clinical and professional focus, and transition to practical courses and clinical rotations. Throughout your program you'll participate in industry placements in locations like vet hospitals, wildlife parks, and welfare organisations.

## Bachelor of Wildlife Science

As a wildlife scientist, you’ll study native and exotic amphibians, reptiles, birds and mammals in natural environments, wildlife parks and animal facilities, so you can contribute to their conservation and management. This program focuses on animal biology and managing wild animals. You’ll learn how to implement and evaluate management programs for both captive and freely roaming wildlife, and study wildlife anatomy and physiology, reproductive biology, breeding and genetics, nutrition, and health. With a strong practical focus, you’ll learn skills in wildlife trapping, identification and animal handling, and get hands-on experience during industry placements at locations including zoos, sanctuaries and wildlife parks.

*Indicative full-time fee*

The indicative annual fee is calculated based on a standard full-time study load in 2017 (usually this is 16 units, but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1, should be pro-rated. UQ also charges a capped annual Student Services and Amenities Fee (SSAF) – see page 37 for more details.

ARCHITECTURE AND PLANNING

Our internationally recognised and accredited programs will prepare you with the skills and qualifications you need to make the world a better place. Our courses reflect the dynamic nature of professional architecture and planning to help you realise your potential to make a positive contribution in shaping our built environment and culture.

UQ RANKINGS

QS World University Rankings by Subjects 2016

43  Architecture / Built environment

ACCREDITATIONS

- Planning Institute of Australia

FEATURED PROGRAM

Bachelor of Architectural Design

The Bachelor of Architectural Design is the first stage of obtaining a professional qualification in Architecture. Designing new buildings requires that you learn to think spatially and communicate convincingly through drawings and models. Through design, you will test your imagination and propose alternative environments for living, working and playing. Contribute to our built environment with a strong understanding of architectural design and communication, history, society and technology.

ANH HO, VIETNAM
Bachelor of Architectural Design / Master of Architecture

UQ allows you, as a student, to really gain the whole ‘student’ experience – meaning that it doesn’t begin and end with your traditional class room lessons.

I was able to work at architectural practices in a part-time position, which helped me to obtain a better understanding about the profession, while allowing me to apply my academic knowledge to industrial practice.

Bachelor of Architectural Design

As an architect, you will imagine and design spaces that are beautiful and functional, inside and out. The Bachelor of Architectural Design – the first step to becoming a professional, registered architect – provides you with the knowledge and technical skills to complement your creativity, preparing you to shape our built environment and design the cities and spaces of tomorrow. From your first year you’ll learn about the history of buildings and culture; architectural design principles, terminologies and technologies; the relationship between society and built environments; and the evolution of style. You’ll also learn how to design in response to climate and context, from lecturers who have strong, local industry links and international perspective, and teach in studio-based design courses, which provide you with opportunities to develop special areas of interest.

PROGRAM CODE: 2293
CRICOS CODE: 061825J
2017 ENTRY SCORE: See page 39
PROGRAM DURATION: Three years
HONOURS: Additional year of study
START SEMESTER: 1 (27 February 2017)
PROGRAM LOCATION: St Lucia
INDICATIVE ANNUAL FEE: $36,336
ENGLISH LANGUAGE PROFICIENCY: IELTS overall 6.5 / 6 in each sub-band: see page 40

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative)

Further study options Master of Architecture
Closing Date See page 36

Bachelor of Regional and Town Planning

If you want to be an informed professional who makes well-advised planning and development decisions, you’re in the right place. The Bachelor of Regional and Town Planning teaches you how to plan cities and communities in their entirety, from land-use, transport, infrastructure, and urban design, through to real estate markets, investment, sustainability, regulatory frameworks and community consultation. You’ll undertake a planning project each year, where you’ll work with industry, government and community partners on real-life developments in South-East Queensland.

PROGRAM CODE: 2063
CRICOS CODE: 001960K
2017 ENTRY SCORE: See page 39
PROGRAM DURATION: Four years
HONOURS: At the end of Year 3, eligible students will have the option to transfer to the Bachelor of Regional and Town Planning (Honours)
START SEMESTER: 1 (27 February 2017)
2 (24 July 2017)
PROGRAM LOCATION: St Lucia

NABILA HUSNA SHAMHANI, MALAYSIA
Bachelor of Arts (International Relations and Economics)

I found UQ to be a great place to study. With an abundance of help from my lecturers, I learnt how to negotiate new study patterns, manage my time wisely, and strengthen my communication skills through engagement in class and the student clubs I joined.

My studies were sometimes challenging, but I had a strong social support from the Malaysian community. Everyone helped with my transition to a new environment. I am confident that my degree from UQ, which is globally recognised, will help me achieve my career goal to become a Malaysian government economist.

ACCREDITATIONS

National Accreditation Authority for Translators and Interpreters (NAATI)
FEATURED PROGRAM

Bachelor of Arts

With more than 40 majors to choose from, a UQ Arts degree is the perfect choice if you have broad interests in the humanities, creative arts, social science, music or languages.

While other degree programs are structured to train you for one job, an Arts degree will give you the necessary flexibility to adapt your knowledge and keep ahead of changes both in the workplace and across industries. It also gives you skills for life – critical analysis, research, and written and oral communication – so that as an employee, you can help shape change, think laterally, and present new perspectives and solutions.

Bachelor of Advanced Humanities (Honours)

The Bachelor of Advanced Humanities (Honours) is a rigorous and challenging program for high-achieving students with a keen interest in the humanities. You will engage with the Faculty’s leading humanities researchers from your first year of study through a suite of core interdisciplinary courses taken in each year. These courses will expose you to contemporary thinking in the humanities, provide a forum for interdisciplinary discussion and emphasize connections across humanities disciplines. The program includes an industry internship, and you will complete Honours by the end of the fourth year. The program also provides tailored extracurricular activities including a camp at the beginning of your studies and a conference mid-way through the final year. A Study Abroad option is also available in the second year. This program will prepare you for a range of careers in leading academic or professional organisations. Your research training and critical thinking will give you an edge in rapidly changing work environments where logical reasoning, creative thinking and good communication skills are essential.

Majors
- Ancient History
- Art History
- Drama
- English Literature
- History
- Philosophy
- Mathematics
- Musicology
- Studies in Religion

Year 12 or equivalent English

Bachelor of Arts

The most flexible and popular of UQ’s undergraduate programs, the Bachelor of Arts allows you to tailor your program to your interests, with 42 possible study areas. Majors generally include compulsory gateway (introductory), cornerstone (intermediate), and capstone (advanced) courses, and you need to complete a specific number of each to meet program requirements. Whether you’re seeking a specific career path – such as journalism or languages – or just want general training for any field, the BA lets you structure your study to suit your interests best.

Bachelor of Communication

In our ever-globalised world, being able to communicate effectively, be heard, and be understood are vital for all aspects of your social and professional success. UQ’s Bachelor of Communication teaches you how to understand and use communication so that you’re ready for a career in a world characterised by a constant flow of written and visual ideas, mass media and the Internet. Learn about the continuous evolution of human communication, from the rhetorical strategies of Aristotle, to the development of mass media and the widespread uptake of digital technologies, which have facilitated worldwide spread of information.

- Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative)
- Dual degree programs
- Arts, Journalism, Business Management

Further study options
- Bachelor of Communication (Honours); Graduate Certificate in / Master of Communication or Master of Arts (Writing, Editing and Publishing)

Special note: This program has limited places available. Meeting the minimum requirement may not guarantee admission.

Bachelor of Criminology and Criminal Justice (Honours)

The Bachelor of Criminology and Criminal Justice (Honours) is strongly focused on professional practice and criminal law, providing you with high-level, industry-relevant skills. Your studies will focus on criminal justice, criminal law, criminological theory and research methods, and professional practice. You will learn how the justice system works, why people commit crimes, and develop the skills and knowledge to contribute towards preventing and controlling crime and social problems that face society. In a rapidly growing national and international employment market, you will be well-positioned for careers in state, national and international justice agencies, non-government organisations, and the private sector.

Majors
- Criminal Justice
- Criminology and Justice Studies

- International students can undertake this concurrent diploma but must complete the program within student visa timeframe.

**Contact Details**
- See page 36

---

*Indicative full-time fee*

The indicative annual fee is calculated based on a standard full-time study load in 2017 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1, should be pro-rated. UQ also charges a capped annual Student Services and Amenities Fee (SSAF) – see page 37 for more details.

**Extended Major (EM)**

These majors provide you with the option of studying 24 units in one field, gaining deeper knowledge in that discipline. Some fields require extended majors for progression to Honours.

**Minor**

You can study an approved combination of eight units within a field as part of your degree.
BUSINESS, ECONOMICS AND LAW

Whether you’re interested in marketing, finance, environmental economics, criminal law or anything in between, our diverse range of business, economics and law undergraduate programs will build your expertise and equip you for a rewarding career. Designed for aspiring leaders, our programs have a high degree of relevance to employers. Our dedicated faculty student employability team will further ensure your success in the competitive job market.

MBA Ranking
16 in the world (The Economist) 2015 – the leading MBA outside of Europe and North America.

TOP MBA provider in Australia (AFR BOSS Magazine) 2015.

★★★★★ UQ’s MBA has received a five-star rating by Australia’s most influential rating body, the GMAA, for eleven years in a row.

School of Economics Ranking

TOP 25% in the world (RePec top Economics Departments) 2016.

ACCREDITATIONS

• First business school in Australia to gain dual accreditation from AACSB International and EQUIS - the most prestigious standards a business school can achieve.
• Our programs (degrees) are accredited with professional associations such as the Royal Institute of Chartered Surveyors (RICS), CPA Australia, the Australian Institute of Chartered Accountants (ICAA), the Association of Chartered Certified Accountants (ACCA), Australian Human Resources Institute (AHRI), Australian Computer Society (ACS), Australian Property Institute (API) and the Australian Securities & Investment Commission (ASIC).
FEATURED PROGRAM
Bachelor of Commerce

The Bachelor of Commerce program will prepare you for a career in accounting, financial management, banking, business analysis, business information systems or management.

UQ Business School commerce graduates are in high demand. By choosing to study the Bachelor of Commerce, you will develop a combination of core skills, specialist knowledge and critical evaluation and problem-solving abilities. Your expertise will ensure you are sought after by employers and adapt well to the rapidly shifting business world.

After examining the fundamental principles of commerce, you will learn how to apply and adapt these in response to specific challenges and the changing business environment. You will also be able to build more specialised knowledge and skills in one or two majors as you progress through years two and three of your degree.

UQ Business School’s lecturers and tutors are industry leaders and our vast network of industry contacts means you can develop practical experience at some of the world’s leading companies.

Please check the following pages for basic information about UQ’s business, economics and law undergraduate programs, including academic and English language entry requirements, indicative annual program fees, program duration, start semesters and majors. To access more detailed information, visit future-students.uq.edu.au.
**Associate Degree in Business**

If you want to study Business at UQ and need a pathway to access tertiary study, then this 16-month program offered by UQ College is your first step. You will build your mathematics and writing skills and gain a foundation in management, accounting, marketing, law and finance. If you achieve a grade point average of 4 (out of 7) during the program, you can also apply for the Bachelor of Business Management with 24-units (three semesters) of credit.

**Admission Requirements**

Queensland Year 12 (or equivalent). Year 12 English, Communication and Mathematics are recommended.

**Further Study Options**

Bachelor of Business Management

Closing Date

15 October 2016

(Trimester 1), 1 June 2017 (Trimester 3)

---

**Bachelor of Advanced Finance and Economics (Honours)**

Do you have high-altitude ambitions for your future career in economics or finance? This new, four-year program will develop your analytical rigour and the strong technical foundation you need to pursue a leading career in finance, investment banking, capital markets, equity or venture capital, or as an economist in a range of sectors. You’ll study advanced-level courses in areas including microeconomics, financial management, financial accounting, mathematical economics, and the use and management of information and data within organisations. At the end of your third year, you can either choose a major or secure industry experience by completing a team project and an internship, either in Australia or internationally.

**Admission Requirements**

Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B or C.

**Further Study Options**

Graduate Certificate, Graduate Diploma, Masters, MPhil, PhD

Closing Date

See page 56

---

**Bachelor of Business Management**

Do you have big ambitions for your career in business? This program will teach you all the fundamentals you’ll need for your future, while offering flexible majors to focus your career path. With an emphasis on practical experience and industry engagement, you’ll learn from industry guest lecturers, examine real-life case studies, and have the opportunity to undertake applied projects, placements and internships with leading businesses. When you graduate, you’ll have the skills to confidently lead people and projects, ready to take on the world and face all the challenges found in competitive, dynamic and rapidly changing business environments.

**Admission Requirements**

Queensland Year 12 (or equivalent), including Year 12 English, Mathematics A or any combination of Mathematics A, B or C.

**Special Note:** Students who choose to study a major in year 4 may choose to undertake an exchange semester in year 3, semester 2. Students not electing to take a major in either economics or finance will complete a 4 unit team project and will have opportunity to combine this with an internship and/or a tailored overseas study experience.

**Further Study Options**

Bachelor of Business Management (Honours); Graduate Certificates, Graduate Diplomas, Masters and PhD programs

Closing Date

See page 56

---

**Bachelor of Commerce**

Are you fascinated by Federal Budgets, global trade and large-scale business activity? The Bachelor of Commerce is a flexible program for anyone interested in exploring opportunities in the financial services sector. It will equip you for a career in accounting, financial management, banking, business analysis, business information systems, or general management. You’ll learn about the fundamental principles of commerce, and build specialised knowledge and skills in accounting, business information systems or finance. With a balance of core skills, specialist knowledge, critical-thinking and problem-solving skills, you will be able to adapt effectively to ever-changing business environments and be in high demand with employers.

**Admission Requirements**

Queensland Year 12 (or equivalent), including Year 12 English and Mathematics B

**Special Note:** If you have completed prior tertiary education, you may be eligible for advanced standing/credit transfer

**Further Study Options**

Bachelor of Commerce (Honours); Graduate Certificates, Graduate Diplomas, Masters and PhD programs

Closing Date

**FEATURED PROGRAM**

**Bachelor of Education (Secondary)**

Teaching is a challenging and rewarding career, with secondary school teachers in demand worldwide.

The Bachelor of Education (Secondary) offers school-based learning and draws on the latest research into effective teaching, ensuring graduates are well-equipped to teach. The non-education degree undertaken provides the content knowledge for two teaching areas, while the education degree provides the skills and knowledge for the teaching of the content.

The Bachelor of Education (Secondary) can only be taken as a dual program. Students can choose from the following:

- Bachelors of Arts/Education (Secondary)
- Bachelors of Business Management/Education (Secondary)
- Bachelors of Mathematics/Education (Secondary)
- Bachelors of Music (Hons)/Education (Secondary)
- Bachelors of Science/Education (Secondary)
Bachelor of Education (Primary)

As a primary school teacher, you’ll encourage children’s curiosity and inspire their inquisitive minds. This four-year program will provide you with the high-level academic knowledge and professional skills necessary to foster children’s learning and development from prep (the first year of school) through to Year 6. You’ll cover all aspects of the Australian Curriculum, while developing vital knowledge about teaching and learning, child development, diversity and inclusion, and Indigenous education. You’ll also be ready to enter the classroom after 80 days of supervised professional experience across your program, along with a 40-day block internship in your final year, where you’ll demonstrate your competence to meet the Queensland College of Teachers’ professional standards.

PROGRAM CODE | CRICOS CODE | ENTRY SCORE | PROGRAM DURATION | HOURS | START SEMESTER | PROGRAM LOCATION | INDICATIVE ANNUAL FEE | ENGLISH LANGUAGE PROFICIENCY
--- | --- | --- | --- | --- | --- | --- | --- | ---
2306 | 063937G | See page 39 | Four years | At the end of Year 3, eligible students will have the option to transfer to the Bachelor of Education (Primary) (Honours) | 1 (27 February 2017) | St Lucia | $27,824 | IELTS overall 7.5; listening 8, reading 7, writing 7, speaking 8: see page 40

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative); Mathematics A, B or C; plus one of Biology, Chemistry, Physics, Agricultural Science, Marine Science, Earth Science or Science21.

Further study options
Graduate Certificate in / Graduate Diploma in / Master of Educational Studies

Closing Date
See page 36

Placements*: 80 days supervised practicum and 40 days internship: Blue Card required (apply three months before first placement – see uq.edu.au/education)

Bachelor of Education (Secondary)

High school teachers are instrumental in shaping young adults into who they will become. In this four-year dual program, you will learn to guide students’ inquisitive minds, developing high-level academic knowledge and professional skills across teaching and learning, leadership, development, diversity and communication, and gain a broad understanding of all aspects of the Australian Curriculum, while also specialising in a key area of interest in your second program. Immersive, hands-on workshops, school visits and supervised practicums throughout your program will give you a strong understanding of day-to-day life in a high school.

PROGRAM CODE | CRICOS CODE | ENTRY SCORE | PROGRAM DURATION | HOURS | START SEMESTER | PROGRAM LOCATION | INDICATIVE ANNUAL FEE | ENGLISH LANGUAGE PROFICIENCY
--- | --- | --- | --- | --- | --- | --- | --- | ---
2312 | N/A: can only be taken as dual degree | See score for non-education degree | Four years | Additional year of study | 1 (27 February 2017) | St Lucia | $27,824 | IELTS overall 7.5; listening 8, reading 7, writing 7, speaking 8: see page 40

Admission requirements
This program is only offered as a dual degree. Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative); Mathematics A, B or C; and entry to the other program.

Dual degree programs
Arts, Business Management, Mathematics, Music (Honours), Science

Further study options
Graduate Certificate in / Graduate Diploma in / Master of Educational Studies

Closing Date
See page 36

Placements*: 10 days school experience and 90 days supervised practicum: Blue Card required (apply 5 months before first placement – see uq.edu.au/education)

* Indicative full-time fee
The indicative annual fee is calculated based on a standard full-time study load in 2017 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1, should be pro-rated. UQ also charges a capped annual Student Services and Amenities Fee (SSAF) – see page 37 for more details.

* Placements
You will be expected to fund travel and living expenses associated with placements, some of which may be outside the Brisbane metropolitan area. Every effort is made to place students within a reasonable distance of the UQ campus but you can be expected to travel up to 60 minutes away. Students are generally placed at Ipswich, Brisbane and the south-east corner of Queensland, although some regional placements may be required (Queensland Health accommodation may be available).

Blue Card
Working with children check: see glossary in the International UQ Guide 2017. Schools within the faculty can help you obtain a Blue Card.
ENGINEERING AND INFORMATION TECHNOLOGY

Discover a career where you create imaginative and visionary solutions to global challenges including food, water, energy, health, infrastructure, technology and materials to improve the world we live in.

To access more detailed information, visit future-students.uq.edu.au.
Bachelor of Engineering (Honours)

As a UQ Bachelor of Engineering (Honours) student, you'll graduate at the forefront of your profession with one of the highest graduate employment rates of any bachelor degree in Australia. This program prepares you for a meaningful career addressing some of the key challenges of the 21st century, such as water resourcing, infrastructure and communication; food and health services supply; and sustainable energy development. You’ll choose from Australia’s largest range of engineering majors, graduating with a highly respected honours qualification and skills that will set you apart in a competitive job market.

If you’re passionate about innovation, thrive when solving problems, and want to shape the future of technology, then UQ’s Bachelor of Information Technology is the program for you. Developed through strong industry consultation via our Industry Advisory Board (made up of multinational companies including Boeing, Microsoft, Virgin, Accenture and SAP), this program will establish your strong professional understanding of software and hardware with fundamental technical, analytical and problem-solving skills; interpersonal and project-work skills; programming languages; and design principles. You can also take advantage of UQ’s state-of-the-art facilities, which include more than 740 Windows, Unix and Apple workstations; 16 specialist computer labs (including 10 with 24-hour access); and a university-wide 802.11ac Wi-Fi network.

Special note: Many industry-sponsored scholarships and prizes are available: see www.itee.uq.edu.au/future-scholarships

* Indicative full-time fee
The indicative annual fee is calculated based on a standard full-time study load in 2017 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1, should be proportioned. UQ also charges a capped annual Student Services and Amenities Fee (SSAF) – see page 37 for more details.

* Placements
You will be expected to fund travel and living expenses associated with placements, some of which may be outside the Brisbane metropolitan area.
HEALTH, BEHAVIOURAL SCIENCES & MEDICINE

UQ offers one of the widest ranges of health study areas in Australia, with programs ranging from biomedical sciences through to medicine, public health, nursing, physiotherapy, psychological sciences and many more. Kick-start your career in health at UQ and benefit from award-winning lecturers, a variety of clinical placement opportunities and internationally recognised research leaders.

SOK YEE LEONG, SINGAPORE
Bachelor of Psychological Science (Honours)

UQ’s School of Psychology has a strong reputation and many excellent lecturers and researchers who have contributed greatly to the research literature. The BPsySc(Hons) hones my analytical skills through experimental research to make sound conclusions, allowing me to have a rational mind to better understand human behaviour.

ACCREDITATIONS

Students training to be health professionals are accredited with relevant professional bodies via the Australian Health Practitioner Regulation Agency.

UQ works with health agencies and industry groups to develop the curriculum for pre-professional health programs to ensure our students graduate confident and job-ready.

GLOBAL PARTNERSHIPS

UQ works with healthcare centres, clinical schools, universities, health-industry organisations and health agencies around the world to create opportunities for students to gain international study experiences, tackle important global health issues, and establish worldwide networks to enhance global employment and research opportunities.

Some of our global partnerships:
- World Health Organisation
- The World Bank
- Médecins Sans Frontières
- University of Oxford
- Ochsner Health System (USA)
- tropEd
- Biomedical Education Skills and Training Network
FEATURED PROGRAM

Bachelor of Psychological Science (Honours)

The University of Queensland’s School of Psychology is one of the best in Australia, ranking 21st in the world by subject*. Our reputation is built on outstanding research, teaching, and service to the community.

Psychology is the scientific study of how people behave, think and feel. At UQ, we offer more than 50 undergraduate-level psychology courses, covering the core areas of psychology, while providing the opportunity to specialise in fields including applied/professional, biological, cognition, developmental and social psychology. Our courses are delivered by experts in their area and many have won teaching and learning awards at university and national level.

The Bachelor of Psychological Science (Honours) prepares you for a range of exciting careers that require superior problem solving, critical thinking and understanding of human behaviour.

Bachelor of Biomedical Science

It is an exciting time to study Biomedical Science at UQ. This new 3-year program focuses on the human body at the molecular, cellular and whole body levels and the disciplines of biochemistry and cell biology, physiology, developmental biology, microbiology, pharmacology and neuroscience. You will discover the latest in globally relevant biomedical research from leading scientists based at UQ. The Bachelor of Biomedical Science is a pathway to postgraduate medicine or allied health programs.

Program Details:

- **Program Code**: 2415
- **CRICOS Code**: 092440C
- **2017 Entry Score**: See page 39
- **Duration**: Three years
- **Honours**: N/A
- **Start Semester**: 1 (27 February 2017)
- **Program Location**: St Lucia
- **Indicative Annual Fee**: $37,040
- **IELTS Overall**: 6.5 / 6 in each sub-band

**Admission Requirements**

- Year 12 or equivalent - English, Mathematics B, plus one of Chemistry or Physics
- Dual degree programs
- Bachelor of Biomedical Science (Honours)

**Further Study Options**

- Further study options
- Bachelor of Biomedical Science (Honours)

**Closing Date**

- See page 40

Placements: 500 hours practicum experience related to exercise delivery for low-risk and clinical populations.

Bachelor of Clinical Exercise Physiology (Honours)

Studying Clinical Exercise Physiology at UQ will prepare you for a unique and exciting career as an Accredited Exercise Physiologist. Accredited Exercise Physiologists are recognised allied health professionals who design and deliver exercise interventions for the prevention and management of a range of musculoskeletal, cardiovascular, metabolic, neurologic, cancer and mental health conditions. Accredited Exercise Physiologists also help foster behaviour change through the delivery of health and physical activity education, advice and support. This program will qualify you as an Accredited Exercise Physiologist (including Accredited Exercise Scientist) with the Exercise and Sports Science Australia (ESSA).

Program Details:

- **Program Code**: 2413
- **CRICOS Code**: 092441B
- **2017 Entry Score**: See page 39
- **Duration**: Four years
- **Honours**: All students will graduate with a class of honours
- **Start Semester**: 1 (27 February 2017)
- **Program Location**: St Lucia
- **Indicative Annual Fee**: $33,104
- **IELTS Overall**: 6.5 / 6 in each sub-band

**Admission Requirements**

- Year 12 or equivalent English and one of Biological Science, Chemistry or Physics
- Further study options
- Master of Sport Coaching, Doctor of Medicine, Master of Physiotherapy Studies, Master of Occupational Therapy Studies and other clinical and non-clinical postgraduate programs

**Further Study Options**

- Further study options
- Master of Sport Coaching
- Doctor of Medicine

**Closing Date**

- See page 36

Placements*: 500 hours practicum experience related to exercise delivery for low-risk and clinical populations.

Bachelor of Dental Science (Honours)

The Bachelor of Dental Science (Honours) educates the next generation of dental professionals in the most advanced oral health facility in Australia. With small cohorts and dedicated, specialist teachers, you will master the science and technical skills required to care for patients and prevent, diagnose and treat oral diseases and abnormalities. Clinical work commences in second year and is broadened in the third and fourth year of study. Each student is assigned patients and is then responsible for the dental care of these patients. You will be workforce-ready when you graduate, with extensive clinical experience and in-depth knowledge of general practice in dentistry, orthodontics, paediatric dentistry, periodontics, prosthodontics, oral medicine, oral and maxillofacial surgery, and public health.

Program Details:

- **Program Code**: 2367
- **CRICOS Code**: 082620D
- **2017 Entry Score**: See page 39
- **Duration**: Five years
- **Honours**: All students will graduate with a class of honours
- **Start Semester**: 1 (27 February 2017)
- **Program Location**: Herston
- **Indicative Annual Fee**: $63,552
- **IELTS Overall**: 7 / 7 in each sub-band

**Admission Requirements**

- Queensland Year 12 (or equivalent), including Year 12 Chemistry and English (or acceptable alternative); Year 12 Biology recommended. You must also sit the International Student Admissions Test (ISAT) (see isat.acer.edu.au).
- Other requirements
- Evidence that you do not carry blood-borne transmissible viruses (Hepatitis B, Hepatitis C, HIV) or Tuberculosis (TB) and that you comply with School immunisation guidelines. You will also be required to complete a medical questionnaire and provide a first aid (including CPR) certificate and Blue Card
- Further study options
- Doctor of Clinical Dentistry

**Closing Date**

- 31 October 2016

Placements*: You will undertake over 2,700 hours of practical placements in a variety of clinical settings including state government and Aboriginal Medical Service health clinics throughout Queensland and interstate. 34 weeks (two semesters) of external clinical experience in Year 5.

**Additional Costs**

- First aid certificate (approx $155), annual CPR recertification (approx $55), dental instruments kit ($700), first aid recertification (approx $120), course materials ($150), Learn-a-Prep block ($60), prosthodontic instruments ($300), dental model ($350), deposit fees for pre-clinical instruments ($400), laptop computer or tablet (approx $1500–$2000), dental loupes 2.5x magnification with headlight (from $700), head-mounted LED light ($400–700), dental mannequin face mask ($220), lab coat (approx. $50).
Bachelor of Exercise and Nutrition Sciences

How is the human body and its health influenced by diet and exercise? What drives people to consume high levels of fats, salts and sugars and what are the impacts? The Bachelor of Exercise and Nutrition Sciences provides a framework and way of thinking to answer questions like these. You will learn about the science of human movement, nutrition and food, the culture and social role of sport in Australia and overseas, and the psychology of sport and exercise. Whether you’re interested in exercise and nutrition, or a broader career in health, this program will help you make a positive change in the wellbeing of others.

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English and one of Biology, Chemistry or Physics (or acceptable alternative). From 2018, Mathematics A, B or C will also be required.

Pathway programs
Master of Dietetics Studies

Further study options
Bachelor of Exercise and Nutrition Studies

Closing Date
See page 40

Additional costs:
First aid certificate (approx $155)

Bachelor of Exercise and Sport Sciences (Honours)

Exercise and sport sciences are some of the fastest-growing careers in the world. The program explores the complex nature of human movement including how the human body reacts to fitness and exercise regimens, performs at all levels of sport participation, engages in recreational activities, as well as other acute and chronic physical activity pursuits. You will study a diverse range of courses including anatomy, biomechanics, motor control, exercise physiology, exercise and sport psychology, physical activity and health, sports medicine and exercise prescription.

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative) and one of Year 12 Biology, Chemistry or Physics

Other requirements
First aid (including CPR) certificate and Blue Card are required. Evidence that you do not carry blood-borne transmissible viruses, a schedule of immunisations and tuberculosi (TB) screening may be required.

Pathway programs
Master of Clinical Exercise Physiology

Further study options
Master of Clinical Exercise Physiology, Doctor of Medicine

Closing Date
See page 36

Bachelor of Health Sciences

Majors
- Health Promotion
- Nutrition
- Public Health

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 Chemistry, Physics, Biology or Science

Other requirements
Bachelor of Health Sciences (Honours); Master of Dietetics Studies and other clinical (medicine, physiotherapy, occupational therapy) and non-clinical postgraduate programs like audiology, speech pathology and public health

Pathway programs
Bachelor of Health Sciences (Honours)

Closing Date
See page 36

Additional costs:
HLTH3001 Practicum in Health Sciences in Year 3; Blue Card and proof of immunisation** are required

Contact details:
International Student Advisor 1800 671 980 (free call within Australia) or +61 3 8676 7004 future-students.uq.edu.au/ask
Bachelor of Health, Sport and Physical Education (Honours)

Do you want to make a difference in young lives by inspiring healthy lifestyles through physical activity? This program prepares you to be a specialist health, sports or physical education teacher in secondary schools, with junior science as your secondary teaching area, or in related areas such as sports education, outdoor recreation or health promotion. You’ll help young people explore a range of sport and physical activities, develop self-esteem, and acquire social skills. As part of the program, you will complete placements where you’ll work with young people in primary, secondary and special needs schools.

**Program Details**

- **Program Code**: 2372
- **CRICOS Code**: 082625K
- **Entry Score**: See page 39
- **Duration**: Four years
- **Honours**: All students will graduate with a class of honours
- **Start Semester**: 1 (27 February 2017)
- **Location**: St Lucia
- **Annual Fee**: $32,768
- **Indicative Annual Fee**: IELTS overall 7.5 / reading 7, writing 7, listening 8; see page 40
- **English Language Proficiency**: IELTS overall 7.5 / reading 7, writing 7, listening 8; see page 40

**Admission Requirements**

- Queensland Year 12 (or equivalent) English, one of Mathematics A, B or C, and one of Biology, Chemistry or Physics
- **Other Requirements**
  - First aid (including CPR) certificate and Blue Card are required. Evidence that you do not carry blood-borne transmissible viruses, a schedule of immunisations and Tuberculosis (TB) screening may be required.

**Further Study Options**

- Master of Clinical Exercise Physiology, Master of Sport Coaching, Doctor of Medicine, Master of Physiotherapy Studies, Master of Occupational Therapy Studies and other clinical and non-clinical postgraduate programs like audiology, speech pathology and public health.

**Placements**

- Year 3: Minimum of seven weeks of practical experience in diverse environments including special education, primary and secondary school settings.
- Year 4: 12 weeks in a school, particularly in the Health and Physical Education (HPE) Department, teaching a full load in HPE and Junior Science
- Additional costs: First aid certificate (approx $155)

---

Bachelor of Midwifery

Midwives play a pivotal role in safely guiding expectant parents through pregnancy, birth and the weeks that follow. This program will prepare you for this challenging and rewarding career. You will undertake extensive supervised practical experience throughout the program, and during your final year you will extend your clinical knowledge to ensure you meet the Nursing and Midwifery Board of Australia National Competency Standards. This program is delivered through a clinical schools model; after four weeks’ intensive training, you will attend small group-based teaching sessions at a clinical school and lectures at UQ St Lucia.

**Program Details**

- **Program Code**: 2261
- **CRICOS Code**: 059541C
- **Entry Score**: See page 39
- **Duration**: Three years
- **Honours**: Additional year of study
- **Start Semester**: 1 (27 February 2017)
- **Location**: St Lucia, Clinical Schools
- **Annual Fee**: $29,872
- **Indicative Annual Fee**: IELTS overall 7/ 7 in each sub-band: see page 40
- **English Language Proficiency**: IELTS overall 7/ 7 in each sub-band: see page 40

**Admission Requirements**

- Queensland Year 12 (or equivalent) English (or acceptable alternative) and one of Biology, Chemistry or Physics.
- **Other Requirements**
  - Evidence that you do not carry blood-borne transmissible viruses (Hepatitis B, Hepatitis C and HIV) or Tuberculosis (TB) and that you comply with the School’s immunisation guidelines. You will be required to complete a medical questionnaire and provide a first aid certificate, police check and Blue Card.

**Further Study Options**

- Dual degree programs Midwifery
- Bachelor of Midwifery (Honours); Graduate Certificate in / Master of Midwifery

**Placements**

- Clinical placements commence in week 5 of first year and are facilitated by the School’s placement team. You will undertake over 1200 hours of supervised practical experience during your studies. You will also complete a number of ‘follow throughs’ of women through their pregnancy, birth and postpartum periods
- Additional costs: First aid certificate (approx $155); clinical uniform

---

Bachelor of Nursing

This program is specifically designed to develop nurses who will direct their own learning and apply clinical reasoning skills in their nursing practice, be able to work effectively in multidisciplinary teams to promote quality health outcomes for clients in their care, and provide high-quality care through safe and effective nursing practice according to the Nursing and Midwifery Board of Australia National Competency Standards for the Registered Nurse. This program is delivered through a clinical schools model; after four weeks’ intensive training, you will attend small group-based teaching sessions at a clinical school and lectures at UQ St Lucia.

**Program Details**

- **Program Code**: 2241
- **CRICOS Code**: 050456J
- **Entry Score**: See page 39
- **Duration**: Three years
- **Honours**: Additional year of study
- **Start Semester**: 1 (27 February 2017)
- **Location**: St Lucia
- **Annual Fee**: $29,872
- **Indicative Annual Fee**: IELTS overall 7/ 7 in each sub-band: see page 40
- **English Language Proficiency**: IELTS overall 7/ 7 in each sub-band: see page 40

**Admission Requirements**

- Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative) and one of Biology, Chemistry or Physics.
- **Other Requirements**
  - Evidence that you do not carry blood-borne transmissible viruses (Hepatitis B, Hepatitis C and HIV) or Tuberculosis (TB) and that you comply with the School’s immunisation guidelines. You will be required to complete a medical questionnaire and provide a first aid certificate, police check and Blue Card.

**Further Study Options**

- Dual degree programs Midwifery
- Bachelor of Nursing (Honours); Graduate Certificate in / Graduate Diploma in / Master of Nursing

**Placements**

- Clinical placements commence in week 5 of first year and are facilitated by the School’s placement team. You will undertake over 1100 hours of supervised practical experience during your studies.
- Additional costs: First aid certificate (approx $155); clinical uniform

---

Contact details: International Student Advisor 1800 671 980 (free call within Australia) or +61 3 8676 7004 future-students.uq.edu.au/ask
Bachelor of Occupational Health and Safety Science (Honours)

Maintaining the safety, health and well-being of people while they work is both challenging and rewarding. With this science-focused, multidisciplinary program, you can work in almost any industry or company around the world. Combining studies of health, psychology, law, ethics and management with practical skills through placements, worksite visits and industry experience, you’ll learn scientific approaches to identifying, assessing and controlling chemical, physical and biological hazards. You’ll also learn about psychosocial health factors, like stress, bullying, harassment, and fatigue. With these key skills you will be able to monitor and modify work environments; deliver education programs; analyse workplace data; devise, evaluate and implement OHS management systems; undertake OHS auditing and inspections; complete accident investigations; and ensure compliance with legislation.

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B and Chemistry

Further study options
Graduate Certificate, Graduate Diploma, Masters, PhD

Closing Date
See page 36

Placements*: 16-week industry placement in final semester of program

Bachelor of Occupational Therapy (Honours)

Occupational therapy is a rewarding career where you will help people of all ages overcome barriers that affect their ability to perform everyday tasks, improving their independence and quality of life. UQ’s Bachelor of Occupational Therapy (Honours) is a highly respected qualification, which will give you a thorough understanding of occupational therapy theory and practice. You’ll learn about the medical, social, behavioural, psychological and psychosocial sciences and acquire the skills, knowledge and professionalism to help patients develop or maintain the skills they need for daily life or work.

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative) and one of Biology, Chemistry or Physics

Other requirements
Evidence that you do not carry blood-borne transmissible viruses (Hepatitis B, Hepatitis C and HIV) or Tuberculosis (TB) and that you comply with the School’s immunisation guidelines. You will be required to complete a medical questionnaire and provide a first aid (including CPR) certificate and Blue Card.

Placements*: During the first 2.5 years you will undertake sessional fieldwork in a range of clinical settings and in the final 1.5 years you will undertake a variety of 10-week full time supervised practical placements. Over 1000 hours are spent on placement throughout the degree that are facilitated by the School’s placement team. International placements may be permitted in specified circumstances.

Additional costs: First aid certificate (approx $155); clinical uniform

Bachelor of Pharmacy (Honours)

Pharmacists are society’s medicines experts, actively engaged in patient care within a growing range of clinical healthcare environments. This program prepares you for a distinguished career in industry, community, hospital pharmacy or government with extensive practical experience in UQ’s six simulated pharmacies and an eight-week final-year placement in Australia or overseas. From your first class you’ll develop a strong understanding of chemistry, biology, physiology, anatomy and the pharmacy profession at the state-of-the-art Pharmacy Australia Centre of Excellence (PACE). You will participate in lectures, tutorial groups, practical laboratory classes and dispensing workshops, all led by a team of multi-award-winning teachers dedicated to producing a progressive curriculum.

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B and Chemistry (or acceptable alternative)

Other requirements
Evidence that you do not carry blood-borne transmissible viruses (Hepatitis B, Hepatitis C and HIV) or Tuberculosis (TB) and that you comply with the School’s immunisation guidelines. A Blue Card is also required.

Placements*: Practical experience starts in first year and continues throughout the degree. With over 380 hours spent on placement, you can gain experience in more than 500 community pharmacies or hospitals throughout rural and metropolitan Australia and overseas. As part of the eight weeks spent on placement in your final year, you will also spend at least four weeks undertaking a short research activity in either a community or hospital pharmacy or another area that promotes effective and efficient use of medicines.

Contact details: International Student Advisor 1800 671 980 (free call within Australia) or +61 3 8676 7004 future-students.uq.edu.au/ask
Bachelor of Physiotherapy (Honours)

Physiotherapists help to get people moving, from office workers with stiff necks and sore backs, to elite athletes with chronic health management issues. Become a skilled healthcare professional who helps people improve their mobility. From your first year you will build a strong foundation of applied study in medical science, physiotherapy science, anatomy, professional ethics, psychology and therapeutic exercise, to prepare you to care for people with musculoskeletal, neurological, respiratory and other conditions. During your supervised placement you will provide supervised treatment to real clients in health care facilities, including UQ’s student-run physiotherapy clinics, which feature state-of-the-art equipment and physiotherapy resources.

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English or Psychology.

Other requirements
Evidence that you do not carry blood-borne transmissible viruses (Hepatitis B, Hepatitis C and HIV) or Tuberculosis (TB) and that you comply with the School’s immunisation guidelines. You will be required to complete a medical questionnaire and provide a first aid (including CPR) certificate and Blue Card.

Further study options
Master of Physiotherapy, MPhil, PhD

Placements*: During the first three years you will undertake a variety of observational experiences in a range of clinical settings. In the final year you will undertake numerous five-week full time supervised practical placements. Over 1000 hours spent on placement throughout the degree that are facilitated by the School’s placement team. International placements may be permitted in specified circumstances.

Additional costs:
First aid certificate (including CPR) (approx $155), clinical uniform shirt

Bachelor of Psychological Science (Honours)

Examine the complexity, intricacy and wonder of the human mind in this program, which is designed for students looking to undertake comprehensive studies in psychology, including the study of developmental, social, cognitive, biological, physiological and abnormal psychology – as well as study in research methods and report writing. Courses examine areas including child development, neuropsychology, learning and cognition, social and organisational psychology, psychological assessment, psychological research methods and evaluation of research. With a range of psychology electives to choose from you will gain a thorough understanding of the fundamentals of psychology while gaining exposure to a variety of specialisations.

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English.

Further study options:
Master of Applied Psychology, Master of Clinical Psychology, Master of Organisational Psychology, Doctor of Psychology, Master of Counselling, MPhil, PhD

Special note: To become a registered psychologist in Queensland, you must complete a four-year psychology program, as well as a professional masters, doctorate or PhD program in psychology, or two years’ supervised experience as a psychologist. This program meets the undergraduate requirements for professional registration when combined with two years’ supervised experience as a psychologist. Psychology can also be studied through the Bachelor of Arts or the Bachelor of Science.

Bachelor of Social Work (Honours)

Do you believe in the fundamental human values of dignity and worth, and want to make a positive difference in people’s lives? As a UQ Social Work graduate you will create a fairer, more inclusive society and champion the rights of the disadvantaged. The Bachelor of Social Work combines core knowledge and skills in social work, social policy and research. During your program you’ll learn about social work and the law, human development, professional ethics, current welfare and social issues in Australian society, and a range of related social science disciplines. During both third and fourth years, you will spend several months working in an agency setting under professional supervision.

Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative)

Other requirements
A Blue Card* is required.

Further study options:

Closing Date
See page 36

Placements*: You will undertake 1000 hours of supervised practical placements during your studies and final-year students can also complete a rural, interstate or international placement that is facilitated by the School’s placement team.

Additional costs:
Travel and living costs for placements, some of which may be outside the Brisbane metropolitan area.
Bachelor of Speech Pathology (Honours)

The Bachelor of Speech Pathology (Honours) prepares you to help people of all ages with speech, language, fluency and voice disorders, people who have feeding or swallowing difficulties, and people who want to modify their accents or voices. In first year, an emphasis on normal communication forms the reference point for second-year studies in the description and analysis of communication disorders. You will explore the areas of voice, fluency, hearing, speech, language and oral function. Third and fourth years are case/problem-based and integrate understanding of communication disorders with the assessment and management of clients.

Evidence that you do not carry blood-borne transmissible viruses (Hepatitis B, Hepatitis C and HIV) or Tuberculosis (TB) and that you comply with the School’s immunisation guidelines** You will be required to complete a medical questionnaire and provide a first aid (including CPR) certificate and a Blue Card.

Further study options
Master of Audiology Studies, MPHIL, PhD

Placements*: Practical placement experience commences in the first year of the program. From the second year, you will undertake a variety of full and part-time supervised practical placements in a range of clinical settings in metropolitan, regional and rural areas of Queensland, that are facilitated by the School’s placement team.

Additional costs: First aid certificate (approx $155); clinical uniform shirt.

Doctor of Medicine

This program produces highly skilled doctors capable of meeting future challenges in a wide variety of careers. Years 1 and 2 constitute Phase 1 of the program, designed to provide you with a strong foundation of knowledge and skills in preparation for clinical practice. Years 3 and 4 make up Phase 2 of the program – the clinical practice phase, consisting of 10 core clinical rotations. You will work cooperatively on a carefully planned series of patient-centred problems, each designed to highlight principles and issues in health and disease. The program’s key features include simultaneously learning basic, clinical, biological and social sciences; specialised communication skills courses; ethics, lifelong learning and professional development incorporated as an integral part of the program; and the incorporation of information technology and computing skills to ensure that you can use technological advances to improve your learning skills and knowledge acquisition.

</table>

Admission requirements
Provisional Entry for School Leavers: Year 12 (or equivalent) in the year of application, including Year 12 English (or acceptable alternatives), OP 1 (or equivalent), and have taken either the Undergraduate Medicine and Health Sciences Admissions Test (UMAT) or the International Student Admissions Test (ISAT) in the year of application, achieving a minimum score of 50 in each section of the UMAT or the minimum of 60 percentile in each section of the ISAT. An offer is conditional on gaining admission to a bachelor degree program (first degree) at UQ in the year following completion of Year 12 and completing the first degree in the minimum time permitted with a grade point average of 5 on a 7-point scale. International applicants completing Year 12 in Australia may apply for provisional entry through QTAC.

Further study options
PhD

Placements*: Compulsory elective placement in Year 1. Clinical rotations in Years 3 and 4. Provide first aid (including CPR), Blue Card and proof of immunisation** required.

Special note: All students attend the St Lucia campus in Years 1 and 2 of the MD program, and clinical schools in Years 3 and 4. Graduates of this level 9 Masters (Extended) degree may use the title “Doctor of Medicine”.

This information was correct at the time of print, however exciting changes are planned for this program. For the latest information, visit future-students.uq.edu.au

* Indicative full-time fee
The indicative annual fee is calculated based on a standard full-time study load in 2017 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1, should be pro-rated. UQ also charges a capped annual Student Services and Amenities Fee (SSAF) – see page 37 for more details.

Blue Card
Working with children check; see glossary in the International UQ Guide 2017. Schools within the faculty can help you obtain a Blue Card.

* Placements
You will be expected to fund travel and living expenses associated with placements, some of which may be outside the Brisbane metropolitan area. Every effort is made to place students within a reasonable distance of the UQ campus but you can be expected to travel up to 60 minutes away. Students are generally placed at Ipswich, Brisbane and the south-east corner of Queensland, although some regional placements may be required (Queensland Health accommodation may be available). You are required to have a current Blue Card (working with children check) before starting your practice.

** Immunisation
You must provide proof of immunisation against certain diseases, including Hepatitis B. See health.uq.edu.au/post-admission-requirements for further details.
SCIENCE AND MATHEMATICS

Whether you are interested in biomedical science, biotechnology, food science and technology, marine biology, or mathematics, UQ will help you gain the core scientific skills you need to undertake a key role in solving the challenges facing our world today.

SHI LIY REENIE CHIN, SINGAPORE
Bachelor of Science (Chemistry)

UQ is internationally renowned for its highly awarded teaching staff and world-class research facilities. Undergraduate science students have many opportunities to take part in research and I completed two substantial projects during my studies. The lecturers and academic staff were very helpful and took very good care of me.

UQ has:
- more than 1800 laboratories, including specialist teaching and research labs, giving you more lab time and research opportunities than any other university in the state
- Australia’s most extensive marine science teaching and research facilities including the Heron Island and the Moreton Bay research stations off Queensland’s east coast
- exciting field trips in selected courses that can take you from the Great Barrier Reef and Moreton Bay to Lamington National Park and Mount Isa
- the most modern veterinary science facilities in the southern hemisphere and the most comprehensive animal research and teaching centre in Australia
- a Bachelor of Veterinary Science (Honours) program that is globally recognised through accreditation by the American Veterinary Medical Association (AVMA), Royal College of Veterinary Surgeons (RCVS), Australasian Veterinary Boards Council (AVBC), and the Malaysian Veterinary Council (MVC).
FEATURED PROGRAM

Bachelor of Science

The Bachelor of Science is a versatile degree that provides you with the optimal balance between a defined sequence of study and flexible course options. With majors ranging from Archaeological Science to Zoology, you will study an extensive range of courses underpinned by cutting-edge research, and develop high levels of initiative, independent thinking and communication skills.

This innovative program has been designed to develop graduates with the key practical skills in a chosen discipline plus interdisciplinary knowledge required to address today’s global challenges. Graduates will be qualified for employment opportunities in a wide array of science and non-science industries.

In the Bachelor of Science, you will complete a specialisation – a major, an extended major or a dual major – in your chosen science discipline, plus a number of elective options. Tailor your study plan according to your interests and explore the flexibility to incorporate up to one third of your courses from other UQ programs.

PROGRAM STRUCTURE

To access more detailed information, visit future-students.uq.edu.au.
### Bachelor of Advanced Science (Honours)

Do you see yourself researching and thinking about big, unanswered questions? If so, then you're starting in the right place with the Bachelor of Advanced Science (Honours) program. Specially tailored for science students with big ambitions and a desire to challenge and develop their deep interest in sciences, this four-year program provides the foundations for a high-achieving career in scientific research.

**Majors**
- Biology & Chemistry
- Geographical Sciences
- Mathematics
- Physics

**Admission requirements**
Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B, plus two of Agricultural Science, Biology, Chemistry, Earth Science, Mathematics C or Physics

Further study options
- MPhil, PhD

Closing Date
See page 36

### Bachelor of Biotechnology (Honours)

Biotechnology is a creative and entrepreneurial field, where scientists create new products and technologies, pioneering new frontiers for sectors including health, agriculture, science and engineering. In this program you'll study molecular genetics, microbiology, immunology, physics, chemistry, engineering and mathematics. You'll learn about essential subjects to understand the biotech sector, such as biochemistry, cells and genes, research design and data analysis, and the commercialisation of biotechnology products. You'll then develop expertise in a single area. You have the option to exit from this program at the end of Year 3 and receive a Bachelor of Science (Biotechnology).

**Majors**
- Bioinformatics
- Bioprocess Technology
- Chemical Biotechnology
- Drug Design and Development
- Microbial Biotechnology
- Molecular Biotechnology
- Nanotechnology
- Plant Biotechnology

(You can study Innovation Management as a dual major with any of the above-listed majors.)

- Master of Business, PhD

Closing Date
See page 36

### Bachelor of Food Technology (Honours)

Food science is one of the world’s biggest industries and one of the most important areas of discovery and research in human history. This program prepares you for a career as either a food scientist (someone who researches the physical, biological and chemical properties of food), or food technologist (someone who applies food science to manufacture commercial quantities of safe food). You’ll develop a strong understanding of relevant scientific principles and get hands-on experience to build up your contacts with a food company or food research organisation during a 14-week practical placement in your third year.

**Majors**
- Biotechnology
- Chemical Biotechnology
- Molecular Biotechnology
- Plant Biotechnology

You can study Innovation Management as a dual major with any of the above-listed majors.

**Admission requirements**
Queensland Year 12 (or equivalent), including Year 12 English, Chemistry and Mathematics B

Further study options
- Graduate Certificate in Food Studies, Master of Food Studies, PhD

Closing Date
See page 36

Placements*: 14-week placement within food industry in Year 3

### Bachelor of Mathematics

Mathematics helps us to understand everything around us. In this new program you’ll gain quantitative and analytical skills to pursue a high-achieving career in mathematics, or one of the many fields where it plays an essential role, such as physics, engineering, economics, computer science, or biology. After securing a foundation of calculus, linear algebra, discrete mathematics, mathematical analysis and modelling, you’ll specialise in an area of your choice.

**Majors**
- Applied Mathematics
- Data Analytics and Operations Research
- Mathematical Physics
- Statistics

**Practical opportunities:** Some courses within this program offer a practical placement, field trip or international study tour.

See science.uq.edu.au/practical-opportunities

---

Bachelor of Veterinary Science (Honours)

Become a fully qualified veterinarian through this program. As a UQ vet student, you’ll learn how to diagnose, treat and prevent diseases and injuries in companion, domestic, exotic, wildlife and production animals. This program develops your skills and knowledge in veterinary medicine, surgery, anaesthesia and radiology in commonly treated animal species as well as wildlife, avian and exotic pets. You’ll graduate with expert animal handling and clinical skills, with a final year spent entirely in hospitals and clinics. You’ll also receive comprehensive biomedical training that can lead to careers in research, industry and government.

Closing dates
It is recommended that you submit your application no later than the dates in the table to the left to ensure that you have enough time to apply for a student visa. Please note that some UQ programs have specific early deadline dates.

ADMISSION REQUIREMENTS

ACADEMIC ENTRY REQUIREMENTS
To meet UQ’s academic entry requirements for undergraduate programs, you must have:

1. completed recognised upper secondary or studies comparable to Australian Year 12 to the required standard (see the Minimum Australian Year 12 equivalent studies table on page 38), and

2. satisfied individual program requirements, i.e. specific prerequisites (see the Admission prerequisites and Minimum entry scores tables on pages 38-39 of this booklet, and program outlines in this booklet).

Applicants are assessed on a case-by-case basis. Depending on the program, meeting minimum entry requirements does not guarantee acceptance. Applicants who do not meet academic entry requirements may wish to consider taking the Foundation Year program offered by International Education Services (IES) (see page 37).

For dual programs
You must satisfy prerequisites and entry requirements for both programs, and apply via the normal application procedure (see the International UQ Guide 2017). Check the appropriate program code for the degree combination in the tuition fees table (see page 43).
UNDERGRADUATE PATHWAY PROGRAMS

If you do not meet the admission requirements for your UQ program, consider the following pathways to undergraduate study at UQ.

**IES Foundation Year**
The University of Queensland recognises IES Foundation Year, offered by International Education Services (IES), as the exclusive foundation program for international students for entry into the first year of all undergraduate programs.

IES Foundation Year provides a bridge between your secondary (high school) studies and undergraduate study at UQ. If you achieve the specified standards you are guaranteed an offer into UQ’s corresponding undergraduate programs*.

*Quotas apply in several programs.

---

**UQ College: Your pathway to success**
If you’re an international student looking for a way to transition into undergraduate business study, apply to UQ College. You’ll study on your terms, with exceptional support, in a tailored learning environment.

**Associate Degree in Business**
Designed for business leaders and managers of the future, this 16-month (four trimesters) UQ-accredited program, will give you a strong stand-alone qualification.

If you complete the Associate Degree in Business with a cumulative grade point average of 4 (on a 7-point scale), you may also be eligible to apply for UQ’s Bachelor of Business Management and receive 24 units of credit (three semesters full-time) towards the program.

---

**English language pathways to UQ**
If you meet all the academic entry requirements for your UQ program, but need further English language training, then you are eligible to undertake an English language pathway.

English language pathway students receive a Package Offer to UQ which includes an offer for a place in an ICTE-UQ English course plus an offer for a place in a UQ program (conditional on meeting the English language proficiency requirements for entry).

---

**TUITION FEES**

**Tuition fees for UQ degree programs**
Program-based fees mean all courses within a program are charged at the same tuition fee rate for a given academic year. Published indicative annual fees assume you enrol in a full-time study load (usually eight units per semester). For students who are not enrolled in a standard full-time study load, the fee is pro-rated.

Each program’s fees are indexed annually. The indexation rate is fixed about 18 months in advance of a particular academic year, thereby allowing you to plan your finances ahead of time.

2017 indicative annual/semester fees for programs, based on a standard full-time study load, are included in the 2017 Undergraduate and Postgraduate Program Supplements.

To estimate the total cost of a program, multiply the semester or annual fee by the number of semesters or years. As a guide, you can add on the historical average indexation rate of four per cent per year (please note: this rate is subject to change).

---

**Fee refund information**
Refunds are made to international students in accordance with the University’s Fee Rules and international student refunds procedures.

---

**Student Services and Amenities Fee (SSAF)**
In 2011 the Australian Parliament passed legislation allowing universities and other higher education providers to charge a fee for non-academic services such as sporting and recreation activities, employment and career advice, child care, financial advice, and food services. UQ levies the SSAF – which is capped at a maximum of $290 for 2016 – according to whether you are an internal or external student, or enrolled full-time or part-time. The fee is indexed annually.

- "IB" indicates programs that accept International Baccalaureate.
- "GAOKAO" indicates programs that accept Chinese students.
- "HKDSE" indicates programs that accept Hong Kong students.

---

**Additional Information:**
- The University reserves entry requirements annually. The scores listed above are correct at time of printing but subject to variation: these scores generally apply to applicants who are offshore with qualifications considered to be the equivalent of Queensland Year 12. For more information see future students: uq.edu.au/apply/undergraduate/international/entry-requirements#entryscore.
- 1. UK GCE “A” Levels for countries including: Bahamas, Bangladesh, Brunei, Cameroon, Falkland Island, Gambia, Ghana, Gibraltar, Hong Kong, Ireland, Kenya, Liberia, Macau, Malawi, Malta, Mauritius, Namibia, Nigeria, Seychelles, Sierra Leone, Tanzania, Uganda, United Kingdom, Zimbabwe, and Zimbabwe. Aggregates of best 3 or 2 A Level subjects or a combination of A and AS Level subjects equivalent to 3 or 2 A Level subjects. A*=4, A=3, B=2, C=1, AS Levels count for half of these scores.
- 5. Canada – BC Grade average of best 5 Provincially Examined subjects.
- 6. French Baccalauréat: average, with 10 as the pass mark.
ENGLISH LANGUAGE REQUIREMENTS

DEMONSTRATING ENGLISH LANGUAGE PROFICIENCY

To meet UQ’s English language proficiency requirements and gain entry to most undergraduate programs, you must demonstrate one of the following:

- a score equivalent to four semesters with a minimum grade of Sound Achievement in Queensland Authority English or English for ESL Learners (see the English language proficiency – Queensland Year 12 equivalents table overleaf); less than four semesters may be considered for some programs

or

- at least 6.5 overall and 6.0 in each sub-band of IELTS (or equivalent test) (see the English language proficiency – alternative tests and scores table overleaf). (Please note: some programs may require a higher IELTS score: see individual program requirements).

Other equivalent tests such as TOEFL and Pearson Test of English (PTE) Academic are also accepted (see the English language proficiency – alternative tests and scores table overleaf), and other qualifications and experience may also be considered.

For details, go to ppl.app.uq.edu.au/content/3.40.14-english-language-proficiency-admission-and-concurrent-support#Procedures.

Documentation required

To demonstrate your English language proficiency, you must attach copies of all relevant academic transcripts and award certificates to your application. Specific arrangements apply to IELTS, TOEFL and Pearson Test of English (PTE) Academic (see following).

International English Language Testing System (IELTS) test

If you are demonstrating your English proficiency with an IELTS test score, you must attach a copy of the IELTS test result to your application to enable us to check your results online. You can find more information about the IELTS test from IDP Education Australia offices, Australian Diplomatic Missions, and the University’s official representatives at uq.edu.au/international/edureps.

Test of English as a Foreign Language (TOEFL)

If you are demonstrating your English proficiency with a TOEFL test score and you have taken an Internet-based test, please provide a copy of the TOEFL results for verification purposes. For non-internet based tests, you must arrange for UQ to receive an original copy of your official TOEFL score report. Please ask the Educational Testing Service to send the Official Score Report directly to The University of Queensland, Institution Code 0987. Please note that The University of Queensland does not accept institutional TOEFL tests.

TOEFL

W: ets.org/toefl

Pearson Test of English (PTE) Academic

If you wish to satisfy the English language proficiency requirement with your PTE result, you will need to send a copy of your results through your online PTE Academic account so they can be verified.

To send your results, access your account at vue.com/pte. Click “Send Scores” and enter “UQ”, then click “Send”. Your scores will then be available for verification.

English language studies and IELTS at UQ

If you wish to improve your English language proficiency, you can undertake intensive English language studies at UQ’s Institute of Continuing & TESOL Education (ICTE-UQ). English language training courses offered by ICTE-UQ are outlined in the International UQ Guide 2017.

If you wish to receive a package offer of English language studies at ICTE-UQ and a conditional offer of admission to a UQ academic program, you must first meet all other program entry requirements and provide UQ with evidence of your current level of English language proficiency.

ICTE-UQ has been an IELTS test administration centre since 1989.

English language proficiency for visa purposes

If you satisfy the University’s English language proficiency requirements, you may still need to meet additional student visa requirements for English proficiency as required by the Department of Immigration and Border Protection (DIBP).

DIBP only accepts certain English tests for visa purposes where evidence of English language proficiency is required: please visit the website for details.

</tbody>
</table>

1 The indicative annual fee is calculated on a standard full-time study load in 2017 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1 or Trimester 1, should be pro-rated. Tuition fees are indexed each year. The indexation rate is fixed 18 months in advance of a particular academic year thereby allowing you to plan your finances ahead of time. The University’s intent is that fee rate increases will be kept to a minimum and that indexation rates will remain stable wherever possible. Since 2007 the indexation rate has remained at or less than 4 per cent.

2 This program is only offered as a dual degree.

* These programs have quota restrictions and entry is very competitive: the figures quoted are a guide only and applications will be assessed on a case-by-case basis.

* An optional honours year is available to qualified students.

** This program is four trimesters in duration and fee quoted is per trimester.
HOW TO APPLY
for undergraduate coursework programs

Choose your program
• Go to the program you wish to study
• Check you meet all entry and English language proficiency requirements
• Check the application deadline has not passed.

Create an applicant account
• Go to UQ’s online application portal and create an applicant account: apply.uq.edu.au

Completing your application
• Complete all details requested in the online application, attaching all required documentation as per the program entry requirements and any additional information requests.

TIP: You can save an incomplete form and return later.
• You must provide complete academic transcripts (detailing all courses you have taken and degrees you have been awarded from institutions other than UQ) and/or testamurs of your previous tertiary studies
• If you want to apply for an English language pathway package, you can indicate this during the application process.

Submit your application
• Online: A non-refundable AU$100 application fee will apply when submitting your application online. After submission, check your application regularly through your applicant account.

• By email, mail, or in person: If you are unable to access the online application form, download a copy from future-students.uq.edu.au/publications-and-forms and submit it by email to applicationstatus@uq.edu.au
• If you are unable to email your application, you can submit it in person or by mail to:
UQ International, Level 2, JD Story Building, St Lucia, The University of Queensland
Brisbane, Queensland 4072 Australia
• A non-refundable AU$150 application fee will apply when submitting your application via these alternative methods.

• Your application will be assessed by UQ International Admissions who will inform you by email of the outcome. For enquiries about the status of your application, send an email to applicationstatus@uq.edu.au including your full name, date of birth and student ID (if known).
International student definition
You are an international student if you are:
- a Temporary Resident (visa status) of Australia
- a Permanent Resident (visa status) of New Zealand, or
- a resident or citizen of any other country.

You are not an international student if you are:
- an Australian citizen (living in Australia or as a resident overseas)
- an Australian Permanent Resident (visa status), or
- a New Zealand citizen.

Permanent residency
If you become a permanent resident before starting your first semester of study, and you have been offered a place as an international student, you will not be able to retain that place.

Instead, if you are applying for an undergraduate program, you must apply for a Commonwealth Supported Place (CSP) through the Queensland Tertiary Admissions Centre (QTAC).

If you are applying for a postgraduate program, you should contact the relevant faculty.

If you obtain permanent residency after you have enrolled at UQ, other procedures apply. Please contact the Student Centre at that time for more information.

Queensland Tertiary Admissions Centre (QTAC)
W: qtac.edu.au

International students studying Year 12 in Australia
If you are an international student studying Year 12 in Australia, check website for details on how to apply for an undergraduate program through QTAC.

UQ International
W: future-students.uq.edu.au/apply/undergraduate/international/how-apply/current-year-12-international-applicants
E: yr12international@uq.edu.au

Visas
All international students applying to study in Australia must have a student visa unless they have an alternative visa that enables them to study full-time.

To be eligible to apply for an Australian student visa, you must undertake a program on campus at UQ on a full-time basis.

It is your responsibility to ensure that you receive your visa in enough time to commence studies at the University.

For all visa enquiries and applications, please contact your local Australian Embassy, High Commission, or Diplomatic Mission.

Australian Diplomatic Missions, Australian Embassies, Australian High Commissions, Department of Immigration and Border Protection

Documentation required
When you apply to UQ, please ensure that you submit copies of up-to-date transcripts and award certificates with your application.

Grading scales will also be needed for any tertiary studies you have undertaken. Certified official translations are required for all documents in languages other than English.

If you are waiting for transcripts or current results, you may still submit an application and, where possible, we will consider you for a conditional offer. Submit the evidence of English Language Proficiency (unless you intend to sit a test), and post-secondary results you have so far with the application form.

Please forward any outstanding documents as soon as you receive them to UQ's International Admissions Section.

Please ensure that these documents are clearly marked with your UQ Student ID (if available), family name, first name, date of birth, proposed program and a note that an application has already been submitted.

Application status
To enquire about how your application is progressing, please email your full name, date of birth, and UQ Student ID (if known). If you do not yet have an ID, let us know when you submitted your application.

International Admissions
E: applicationstatus@uq.edu.au
T: +61 7 3365 7941

Application options
Credit for previous study
If you have completed post-secondary studies, you may be eligible for advanced standing (credit transfer) towards an undergraduate program at UQ. Some credit may also be possible if you have completed the International Baccalaureate (IB). Your application for credit should include full documentation of previous studies, including certified course descriptions.

Credit for previous study
W: future-students.uq.edu.au/apply/credit-and-exemptions

Articulation programs
Articulation arrangements allow you to receive credit for previous studies, thereby gaining your UQ qualification sooner. UQ has articulation arrangements with a number of other institutions.

Mid-year entry
Many UQ programs are offered for mid-year entry which means you can commence in Semester 2 (July).

Programs and courses
W: uq.edu.au/study

Suspensions, deferrals and cancellations
If you wish to defer (i.e. delay commencing), please contact the International Admissions office as soon as possible. You may be able to apply for a deferral for up to two years, depending on the program and its availability.

Once you commence study, you may also suspend or cancel your enrolment on compassionate or other compelling grounds. The University may also suspend or cancel your enrolment for a number of reasons including misbehaviour, poor academic standing and unsatisfactory academic progress.

Please note that any suspensions, deferrals or cancellations may affect any current student visa/visa application.

Enrolment and Progression rules
W: uq.edu.au/study?id=12450

Students under 18 years of age
If you are an international student wishing to study on a student visa and you will be under 18 years of age at the time you commence your studies, you will require a guardian to live with you in Australia.
